Why have I received this consultation pack?

The council have received feedback from residents indicating that parking demand has increased in uncontrolled streets around East Dulwich rail station.

Since we last consulted your area in 2002/03, Southwark has implemented six Controlled Parking Zones (CPZ) elsewhere in the borough, including areas of Camberwell and Herne Hill.

We are consulting you on the option of introducing a CPZ. We want to know if you support the proposal to introduce a CPZ and, if so, whether you agree with the preliminary parking layout.

This leaflet explains:

- How you can have your say and what happens next
- What is being proposed, including a map
- What is a CPZ? How can it help? and other frequently asked questions

This information is intended to help you understand the proposals being made to change parking in your area and so that you can make informed decisions when completing the accompanying questionnaire.

Your opinion is very important to us, so please make sure you complete the questionnaire online by visiting www.southwark.gov.uk/consultations or by post before the consultation closes on 11 November 2011.

What is proposed?

Parking proposals

We have looked at the results of the previous consultation and our parking surveys and have prepared a preliminary design for your area that we believe would improve parking, loading and accessibility.

There are two parts to our consultation questionnaire.

Primarily, we want to know:

- if you experience parking problems
- when your parking problems occur
- whether you support the introduction of a CPZ

Additionally, if a CPZ was to be introduced, we want to know:

- what days and times the CPZ should operate
- whether our proposed parking layout (type and position of parking bays) is suitable
- what changes should be made to the proposed parking layout

Options on the parking layout

Parking bays have been provisionally located where the road is safe and wide enough to do so. In all other areas we will install double yellow lines (no waiting at any time) to improve road safety by deterring unsafe parking and improving traffic flow. Double yellow lines have been proposed over all private driveways in the area so that you can access your drive 24/7.

However, a supplementary questionnaire has been sent to those residents with a private dropped kerb (leading to off-street parking) to see if they would prefer a parking bay or a yellow line in front of their drive.

Please find enclosed a map which summarises the proposed design of the parking bays in your street.

A more detailed design can be viewed on our website or by attending our public exhibitions.

We welcome your suggestions about how this proposal can be improved.

The frequently asked questions section gives you more information on the type of parking bays the council can install and what type of permits that would be available to you.

Options on operational hours

It is important to understand if, and when, you experience parking problems. We will look at your responses alongside our parking occupancy and duration surveys to assist in the final recommendations.

If the CPZ is supported and introduced we want to know which option you would prefer.

Option A: Mon – Fri from 10.00am – 12 noon (two-hour controls)

A two hour CPZ offers more flexibility to residents and their visitors than all day controls but is still effective in preventing long-stay commuter parking. This approach has been successfully implemented around Herne Hill station.

Option B: Mon – Fri 8.30am – 6.30pm (all-day controls)

These controls are used in the majority of our CPZs where parking demand is not only related to commuter (station) parking. They will provide greater protection to residents, throughout the day, but leave weekends free from controls.

Parking survey results

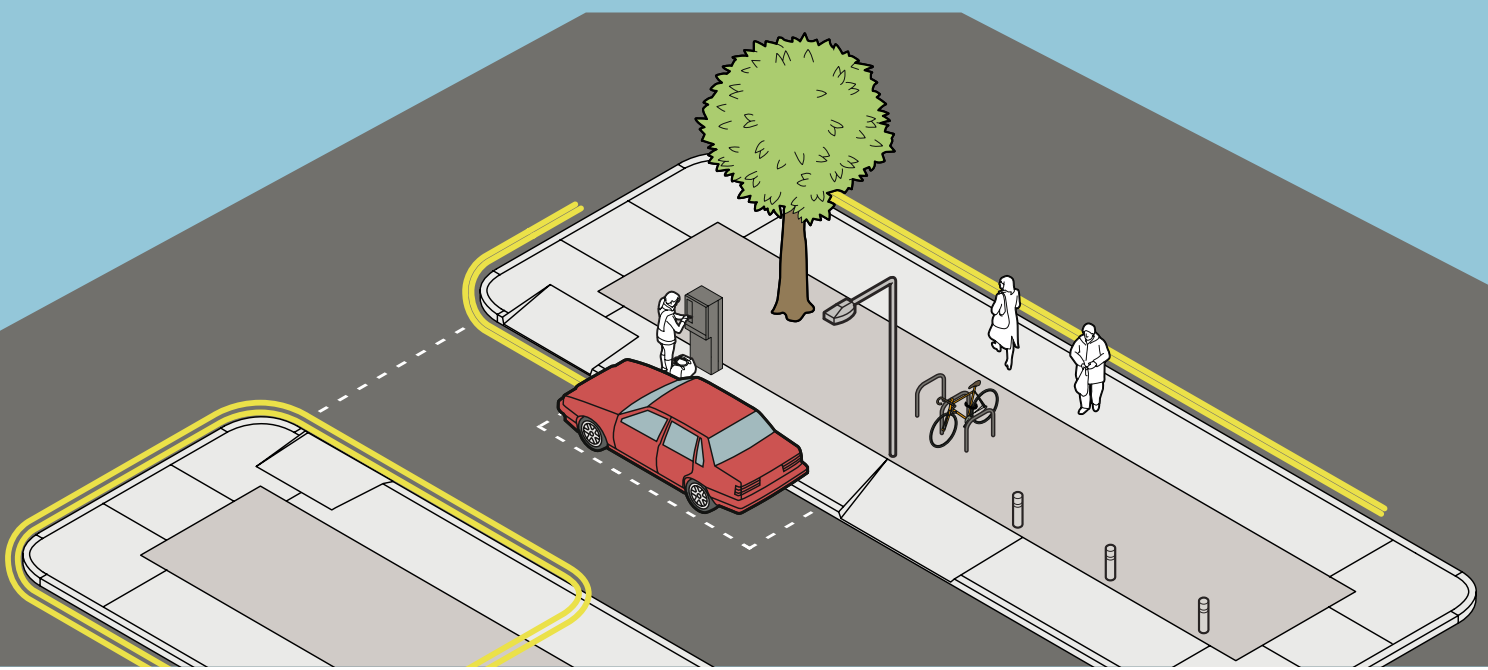

Our surveys have identified that parking occupancy is very high in all streets, with many exceeding capacity. Occupancy is also highest during the week and lower at the weekend.

We have studied the pattern of parking in the area and have found that on average 20% of vehicles parked in the area during the daytime week are commuters or non-residents.

What is a CPZ? How can it help?

A CPZ provides many benefits for the surrounding community, whether they are pedestrians, cyclists, motorists or those on buses.

- Greater ease in finding parking spaces close to home for residents and their visitors.
- Easier parking near shops, schools and other amenities within the area with nearby pay and display bays, loading and disabled bays.
- Reduced traffic congestion with less obstructive parking as bays will show where it is safe to park and yellow lines where it is not. CPZs already reduce the number of vehicles driving into or through Southwark.
- A safer road environment for all motorists, cyclists and pedestrians due to less dangerous parking.
- By reducing parking pressure, CPZs make other street improvements such as trees and on-street cycle parking more acceptable.
- Yellow lines at junctions will ensure better visibility for all road users, including pedestrians, by keeping them clear of parked cars.
- Greater access for emergency vehicles, as we will be able to maintain a safe width on narrow or busy roads. A CPZ will also assist residents who experience problems with blocked access to private property.
- Improving air quality by deterring non essential car journeys and encouraging motorists to think about using a sustainable alternative to the car when walking, cycling or public transport might be quicker and more convenient.
- Assisting control on future development. Occupiers of new developments can be excluded from purchasing a permit if a CPZ surrounds the site, therefore reducing the impact on existing communities.
- Improved public realm due to the reduction of parked cars.

How can I have my say?

Your views count

We are aware the parking difficulty may have increased in your area since your were last consulted in 2002/03

We have sent this consultation pack to all residents and businesses in the area as everybody's opinion counts. We want to hear from you even if you do not drive; parking will affect you as a pedestrian or cyclist and any visitors you receive.

This is your opportunity to decide if you would now like your street to become a CPZ. The inclusion of your road will be based on several factors including support from local residents and businesses, parking survey results and the need to create a clear and logical CPZ boundary.

How can I let you know my views?

The best way to give feedback is by completing the questionnaire online or by returning it to us by freepost. Please note that you should only respond via one method, duplicate responses will not be included in the final analysis.

We will also be holding two parking exhibitions where you will have the opportunity to discuss the preliminary design and your requirements with the parking projects team.

- **Saturday 5 November 2011, 10am-2pm**
Grove Vale Library, Grove Vale, SE22 8EQ
- **Wednesday 9 November 2011, 4pm-8pm**
Grove Vale Library, Grove Vale, SE22 8EQ

If you have any questions about the consultation, the background, the proposals or CPZs please come and see us at the exhibitions or visit our website

www.southwark.gov.uk/parking

You can also phone: **020 7525 7764** or email **parkingreview@southwark.gov.uk**

What happens after the consultation closes?

We will analyse all the responses on a street by street basis and report the draft findings and recommendations to the community council, which you are welcome to attend.

The final report and any final design will be approved by the Cabinet Member for Environment, Transport and Recycling in early 2012.

Should a CPZ be approved, we will write to you and explain what happens next. The information will also be available at

www.southwark.gov.uk/parking

The consultation closes on 11 November 2011.

Frequently asked questions

Where new posts are required, we will aim to install these on small posts at the back of the footway.

What if I am disabled and have a blue badge?
Blue badge holders can park free and without time limit in all shared use bays, pay and display bays, yellow lines (for a maximum of three hours) and dedicated blue badge bays. The council offers an 'origin' disabled parking bay service to blue badge holders. This service will not be affected by any new CPZ. If you don't have a blue badge you would need to purchase a resident's parking permit.

What do yellow lines mean?
Single yellow lines – are 'no waiting' restrictions. They provide passing space for oncoming traffic in narrow roads and are only operational during the controlled hours when traffic is busiest. They can be used for parking in the evening.
Double yellow lines – are 'no waiting' restrictions that operate at any time (24/7). They are usually installed to provide vehicle and pedestrian safety at junctions and to ensure access for emergency services and refuse vehicles.

We can also install 'destination' disabled bays close to shops or local businesses; these are usually limited to a maximum stay of four hours.

Will a CPZ create street clutter?
Unfortunately legislation requires us to sign and line all parking restrictions. There may also be a need to install pay and display machines. However, the council has a design guide to keep this to an absolute minimum.

How much will the permit cost?*

Type of permit	Cost of permit				Discount
	1 month	3 months	6 months	12 months	
Resident †	£15.74	£36.58	£67.83	£125.00	75% discount for alternative fuel vehicles or motorcycles
Business	£160.00	£320.00	£520.00	£525.00	n/a
Residents' visitors	£16 for ten, one-day permits. (1st book) £36 for ten, one-day permits (2nd + book per year)				
Average pay and display charge	£2.70 per hour				

* Charges are reviewed annually

† With effect from 28 October 2011

Information above correct at time of going to print

Permit bay 	✓		✓	✗	✗
Shared use bay 	✓		✓	✓	FREE
Pay and display bay 	✗	✗	✗	✓	✓ FREE
Disabled bay 	✗	✗	✗	✗	✓

Why are you consulting upon a CPZ?
The council prepares an annual bid for funding from Transport for London. Pertinently, this included a parking consultation of residents and businesses in some uncontrolled (non CPZ) streets in East Dulwich and South Camberwell wards.

The consultation area concentrates on streets around Grove Vale, which are a short walking distance from East Dulwich rail station. The streets were last consulted in 2002/03 as part of a wider parking study.

The 2002/03 study did not result in the installation of a CPZ as no clear support was shown. However, since the last consultation parking patterns and stress may have changed, this evidence is based on continued correspondence received from residents, requesting a CPZ consultation, particularly from those roads close to East Dulwich rail station.

What is a controlled parking zone and how does it operate?

A CPZ is an area in which all on-street parking is controlled. Parking bays are painted on the road to show where it is safe to park and all other kerb lengths are marked with yellow lines. This helps keep the street safe for all road users and pedestrians and prioritises parking to disabled people, residents and their visitors and local businesses by preventing commuter parking.

During the CPZ operational hours, vehicles need to display a valid permit, visitor voucher or pay and display ticket according to the type of bay they are parked in. The council has the power to issue a penalty charge notice to people who park in CPZ bays without the appropriate permit or ticket.

What if we don't have a parking problem in our street?

If the majority of respondents in your street don't support the introduction of a CPZ then the council will not recommend it for your street.

However, in our experience, the introduction of parking controls in one street often results in displacement parking problems in adjacent streets, as commuters and other motorists may move their cars to the nearest road where parking is unrestricted. Consequently, we are not only asking if you are in favour of the proposals now, but also, if you are not in favour at the moment, whether you would change your mind if the road next to yours became controlled.

How do you balance different parking needs?

With not enough places for everyone to park, something has to be done to manage this. Over 50% of residents in the borough have chosen to introduce controlled parking zones (CPZs) where they live.

Southwark Council has established a parking priority that is contained in our 2006 parking and enforcement plan. It is our policy to give priority to disabled blue badge, local residents and then business visitors. CPZs are designed to deter commuters and encourage public transport use.

We are also committed to supporting the economic viability of our local businesses and to encourage growth in jobs and the regeneration of town centres. As there is a limited amount of kerb space available for parking, we aim to balance the needs of residents with those of local businesses and their customers.

What permits would I be entitled to?

Resident permit
If you live within the CPZ boundary and your vehicle is registered to that address, you will be entitled to a resident parking permit. The only exception may be if your property is a recent development and has a planning condition attached that prevents permits being purchased.

Permits are issued for a particular vehicle and have the registration number and a zone identification letter printed on it. The permit cannot be transferred to a different vehicle and it cannot be used to park in a permit bay in a different CPZ.

Permits are limited to one per person and to a maximum of three per household.

Visitor permits

Each household will be able to buy visitor permits for use by their friends, family or tradesmen. Residents are able to purchase visitors' permits regardless of whether or not they have a resident permit or a car. 100 one-day permits can be purchased in any calendar year.

Business permits

Businesses operating from an address within the CPZ will be able to buy permits for vehicles that are essential to their business for the delivery of services or goods. They will not be issued for the purpose of commuting to work.

Will I have to buy a parking permit if my street becomes a CPZ?

Yes, as a resident or business in the area you will need to purchase either a resident or business permit to park in the CPZ. Permits will have to be displayed at all times during the CPZ operational hours.

Aren't CPZs just a money making scheme for the council?

No, by law, revenue generated from CPZs must be invested back into transport related improvements such as highways, parking enforcement, school crossing patrols, public realm improvements and safer car parks.

Where will my visitors park?

All residents are eligible to purchase visitor vouchers which allow their visitors to park in any permit or shared-use bay in the CPZ. You only need to use a visitor permit during the operational hours of the zone. Each voucher allows a whole day's parking. Alternatively they could park in a shared-use or pay and display (or pay by phone) bay.

What if I am disabled and have a blue badge?

Blue badge holders can park free and without time limit in all shared use bays, pay and display bays, yellow lines (for a maximum of three hours) and dedicated blue badge bays. The council offers an 'origin' disabled parking bay service to blue badge holders. This service will not be affected by any new CPZ. If you don't have a blue badge you would need to purchase a resident's parking permit.

We can also install 'destination' disabled bays close to shops or local businesses; these are usually limited to a maximum stay of four hours.

Will a CPZ create street clutter?

Unfortunately legislation requires us to sign and line all parking restrictions. There may also be a need to install pay and display machines. However, the council has a design guide to keep this to an absolute minimum.

Parking consultation

HAVE YOUR SAY

Your views will help us develop our parking plans for the future

October 2011

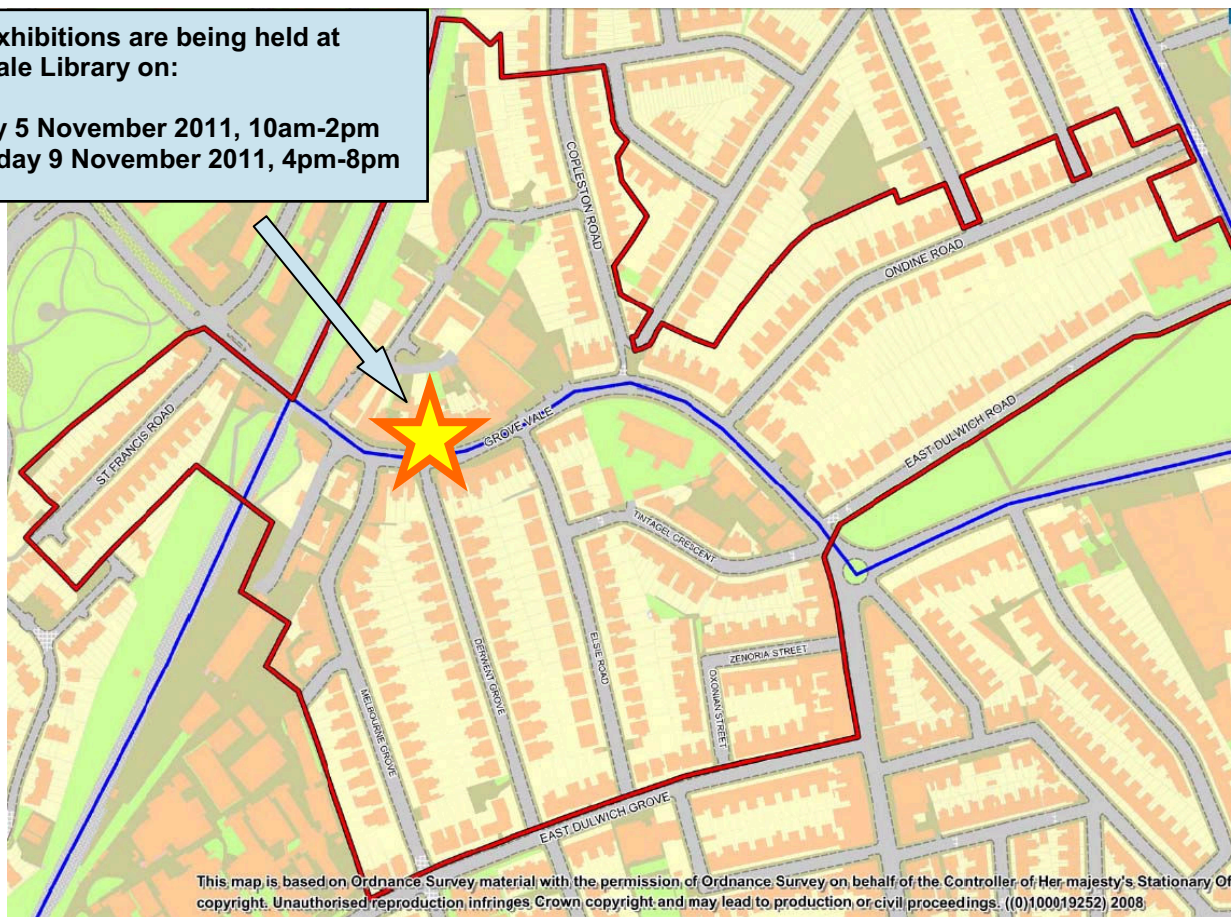

www.southwark.gov.uk

Southwark Council has recently sent out a consultation document to all addresses in this area to find out what you think about parking.

We need the views of all residents and businesses in the area – whether you own a car or not.

Public exhibitions are being held at
Grove Vale Library on:

Saturday 5 November 2011, 10am-2pm
Wednesday 9 November 2011, 4pm-8pm

Your views are very important to us.

Please return your questionnaire no later than
Friday 11 November 2011

You can complete the consultation online at:
www.southwark.gov.uk/consultations

If you haven't received your consultation pack
please contact us:

Email: parkingreview@southwark.gov.uk

Telephone: 020 7525 7764
