| <p>“Could the community council please explain why the Council’s management of the Greenland Dock marina has not made a full planning permission application for the recent 25% increase in the numbers of berths in Greenland Dock, preventing environmental and amenity issues being considered and contrary to the promise that any further marina development in Greenland Dock would be subject to a full planning application?”</p> | <p>"The works were done in Apr/May 2012 by external contractors, and the council's planning department was consulted by the Director of Regeneration and advised that it was within the existing planning permission. Therefore, no further planning application was applied for. Subsequently, a lawful development certificate has been applied for to formalise the current limits of the marina, as there was uncertainty over where the boundaries are."</p> |
