

<b>Item No.</b> 7.3	<b>Classification:</b> OPEN	<b>Date:</b> 9 July 2013	<b>Meeting Name:</b> Planning Sub-Committee B
<b>Report title:</b>	<b>Development Management planning application:</b> Application 13/AP/0277 for: Full Planning Permission  <b>Address:</b> 65 SOUTHWARK PARK ROAD, LONDON, SE16 3TY  <b>Proposal:</b> Change of use of ground floor shop to hot food take-away (A5 class use) with installation of extraction flue system to rear and new proposed opening hours: Sunday to Wednesday 11:00 to 23:00, Thursday to Saturday 11:00 to 00:00.		
<b>Ward(s) or groups affected:</b>	Grange		
<b>From:</b>	Head of Development Management		
<b>Application Start Date</b> 12/02/2013		<b>Application Expiry Date</b> 09/04/2013	

## RECOMMENDATION

- 1 Grant permission subject to conditions

## BACKGROUND INFORMATION

- 2 The application is brought before the Sub-committee after being deferred from the Sub-committee meeting on 15th May 2013. It was deferred to allow the applicant to amend the drawings to re-position the proposed flue further away from the windows to the rear of No.67 Southwark Park Road, and also to relocate the refuse storage further from this neighbouring property. The flue is now located centrally on the rear of the building, and the refuse store is alongside no.63, which is commercial on the ground floor. The new location for the flue and the refuse store will have more limited impacts on 67 Southwark Park Road, and does not raise any additional harmful impacts to no. 63 in terms of loss of amenity or visual appearance.
- 3 The applicant submitted amended plans showing these amendments on 31st May 2013. A second round of consultation was carried out with letters sent out on 4th June 2013. Any responses will be reported in the addendum. The previous assessment is given below.

## Site location and description

- 4 The application site is an existing Class A1 retail unit situated on the north side of Southwark Park Road in Bermondsey. There is a yard/amenity space to the rear of the building. The unit stands within a row of adjoining commercial units situated in between Yalding Road and the Harris Academy. No. 67 immediately adjacent to the east is residential. There is a residential unit to the first floor of the application site and other flats on the first floors of adjoining buildings.
- 5 The site is within the Urban Density Zone situated adjacent to Southwark Park Road which is a classified A Road. The site also sits opposite to the Thorburn Square conservation area.

## Details of proposal

- 6 The application is for the change of use of the ground floor of the premises from the existing Class A1 retail use into an A5 use class hot-food take-away.
- 7 It is also proposed to install an extraction flue to the rear of the building. The position of the flue extraction has been changed. It was initially proposed to be positioned to the rear of the main building exiting the building at ground floor level and terminating above the main roof ridge height. The amended position of the flue would be to the rear of the outrigger section again exiting at ground floor level and terminating above the roof eaves.
- 8 The proposed opening hours are gain between 11:00 - 23:00 Sunday to Wednesday and 11:00 - 00:00 Thursday to Saturday.

## Planning history

- 9 **94/609**  
Change of use of part of ground floor to single residential unit and the construction of a single storey rear extension.  
**Refused:** Sept 1994  
Refused as not considered to provide the appropriate standard of residential accommodation due to lack of natural light and external amenity space.

## Planning history of adjoining sites

- 10 63 Southwark Park Road  
**99-AP-1195**  
Continued use as mini cab office  
**Approved:** December 1999
- 11 67 Southwark Park Road  
**08-AP-2325**  
Construction of a second floor (third storey) mansard roof to front and over rear part of building, to provide additional residential accommodation. Alteration to windows on front elevation and to rear and conversion of extended building to form three self contained flats (two existing).  
**Refused:** December 2008  
Refused as considered not to provide an acceptable standard of residential accommodation and would constitute a visually over bearing over development of the site particularly to the roof scape.  
**08-AP-1441**  
Construction of a third floor mansard roof and rear first floor extension; alterations to windows on front elevation; and conversion of extended building to form 3 self contained flats (2 existing).  
**Refused:** August 2008  
Refused as would not provide an acceptable standard of accommodation

## KEY ISSUES FOR CONSIDERATION

### Summary of main issues

- 12 The main issues to be considered in respect of this application are:

- a) the principle of the proposed development in terms of land use
- b) the impact on the amenities of neighbouring occupiers
- c) the impact on the local transport network
- d) visual impact of the duct
- e) the impact on the health of children at Harris Academy

### 13 **Planning policy**

#### Core Strategy 2011

Policy 3 'Shopping, Leisure and Entertainment'  
 Policy 12 'Design and Conservation'  
 Policy 13 'High Environmental Standards'

#### Southwark Plan 2007 (July) - saved policies

1.10 'Small scale shops and services outside the town and local centres and protected shopping frontages'  
 3.1 'Environmental Effects'  
 3.2 'Protection of amenity'  
 3.6 'Air quality'  
 3.7 'Waste reduction'  
 3.12 'Quality in design'  
 3.18 'Setting of Listed Buildings, Conservation Areas and World Heritage Sites'  
 5.2 'Transport impacts'  
 5.3 'Walking and cycling'

The Council's cabinet on 19th March 2013, as required by para 215 of the NPPF, considered the issue of compliance of Southwark Planning Policy with the National Planning Policy Framework. All policies and proposals were reviewed and the Council satisfied itself that the policies and proposals in use were in conformity with the NPPF. The resolution was that with the exception of Policy 1.8 (location of retail outside town centres) in the Southwark Plan all Southwark Plan policies are saved. Therefore due weight should be given to relevant policies in existing plans in accordance to their degree of consistency with the NPPF.

#### London Plan 2011

None directly relevant

#### National Planning Policy Framework (NPPF)

Section 1 Building a Strong and Competitive Economy  
 Section 7 Requiring Good Design

#### **Principle of development**

- 14 Saved policy 1.10 of the Southwark Plan states that outside town centres, local centres and protected shopping frontages, development will only be permitted for a proposal for a change in use between A use classes or from A use classes to other uses, when the applicant can demonstrate that:

*i) The proposed use would not materially harm the amenities of surrounding occupiers;*

Refer to the amenity section of this report.

*and*

*ii) The use that will be lost is not the only one of its kind within a 600m radius and its loss would not harm the vitality and viability of nearby shops or shopping parades;*

'The Blue Local Town Centre is within 400m of the site and provides a number of A1 retail uses within Protected Shopping Frontages.

*or*

*iii) The premises have been vacant for a period of at least 12 months with demonstrated sufficient effort to let, or have not made a profit over a two year period.*

- 15 The site is not currently vacant and therefore fails to satisfy point iii. The policy only requires conformity with points i along with either ii or iii. Subject to the satisfactory impact upon residential amenity, which shall be discussed later in this report, the proposed change of use is considered acceptable in principle.
- 16 A number of letters of objection raise that there are too many take-aways in this area, that is an over concentration and could lead to encouragement of childhood obesity issues. However, the proposal is compliant with the above policy, and there are no other policies to limit hot food takeaways in this area.

#### **Environmental impact assessment**

- 17 An Environmental Impact Assessment is not required. No significant environment effects would arise.

#### **Impact of proposed development on amenity of adjoining occupiers and surrounding area**

- 18 There are two main potential impacts upon neighbouring residents: the impact of the proposed extraction flue to the rear of the site along with the general noise and disturbance from the operation of the premises as a hot food take-away.
- 19 Amenity impacts - noise, too many takeaways, nuisance, littering, loiter, late night activity, plus specific impacts arising from the proposed flue, have been raised in letters of objection.
- 20 The applicant has submitted amended details of the proposed flue arrangements, which address the positioning of the equipment. The amended proposed flue would exit the building through the rear elevation of the two storey out rigger section and would run up this rear elevation terminating just above the rear eaves level. This arrangement with vertical discharge is considered acceptable. Details of noise mitigation and odour control have been provided. It is stated that the odour control shall be designed to protect amenity while the noise levels shall be kept to the statutory standard. The information does not include specific details relating to installation. It is therefore recommended that a condition be attached requiring a noise report to be carried out within one month of the installation of all plant equipment. Provided the condition is adhered to, it is considered that the extraction flue would not harm the amenity of residents. No objections have been raised by the

Environmental Protection Officer subject to this condition. A condition preventing motorised delivery service is also recommended in order to limit noise impacts to neighbours.

- 21 The application proposes that the use would operate between 11:00 and 23:00 Sunday to Wednesday and 11:00 and 00:00 Thursday to Saturday. It is considered that these opening times are not excessive and to operate until midnight on Thursday, Friday and Saturday is acceptable. The Council's transport officers have recommended that the use be restricted from operating a delivery service, but otherwise do not object to a take away use in this location.
- 22 With regard to the impact of litter, it is again recommended that a condition be attached to any consent granted requiring an area to the rear of the site be reserved for storing refuse. The condition shall take into account the amended arrangements received since the last sub-committee meeting.
- 23 It is acknowledged however that litter has previously caused disturbances in the local area and the use of the premises as an A5 hot food take away use could potentially exacerbate this. In order to prevent this, it is therefore recommended that a service management plan be included with any permission granted. This would allow more detailed information on times and frequency of litter collection and other servicing arrangements at the site. This would in turn give the Council a basis from which to monitor the site from in order to minimise disturbance to adjacent residents.
- 24 It is acknowledged that there are already A5 uses along this small commercial row. It is considered that with adequate mitigation through conditions, the impact upon the amenity of adjoining residents is acceptable and would accord with saved plan policy 3.02 'Protection of amenity'.

#### **Impact of adjoining and nearby uses on occupiers and users of proposed development**

- 25 The mix of commercial and residential uses is typical of many areas and does not lead to any special impacts.

#### **Traffic issues**

- 26 A minimum of 2 cycle spaces associated with the use would normally be required. However, given the restrictions on site, there are no places to provide cycle storage in a convenient way.
- 27 There are no off street parking spaces available for the take away, and therefore visitors in cars would have to find on street parking locally. Take away uses can lead to cars parking short term nearby whilst food is picked up. Notwithstanding that such uses can attract more car trips than would a shop, no adverse impacts on the highway network have been identified by the Transport Officer, and therefore in this respect the use is considered acceptable.
- 28 An area at the rear of the site would be used for the storage of refuse. It shall be conditioned that this area remains for this specified use. Littering and refuse storage arrangements were raised in letters of objection. The refuse containers at the rear would not be available to customers, but there appear to be street bins at the front for discarded wrappers. Further information on refuse management at the site would be gained through the submission of a service management plan.

#### **Design issues**

- 29 There are no alterations proposed for the front of the unit. The development would not therefore affect the existing street scene in this location. The proposed flue would terminate above the roof eaves but would be obscured behind the existing front roof parapet and the positioning to the rear of the building. The development would not have an adverse impact upon visual amenity in this location.

#### **Impact on character and setting of a listed building and/or conservation area**

- 30 The site is situated opposite to the Thorburn Square conservation area. However given the minimal alterations proposed, it is not considered that the proposal would adversely affect its setting in accordance with saved policy 3.18 'Setting of Listed Buildings, Conservation Areas and World Heritage Sites'.

#### **Impact on trees**

- 31 No impact.

#### **Planning obligations (S.106 undertaking or agreement)**

- 32 No impact.

#### **Sustainable development implications**

- 33 Members are advised that the proximity of the proposed A5 hot food take away and its impact on the health of children at Harris Academy is a material planning consideration.

- 34 Although Policy 4: 'Hot food take-aways' of the Submission/Publication Peckham and Nunhead Action Area Plan defines a 400 metre exclusion zone for new A5 hot food take away uses around secondary schools this is not an adopted document and there are no policies in prohibiting such uses outside the town and local centres and protected shopping frontages within the Southwark Plan or Core Strategy. It is however likely that this matter will form part of the Southwark Plan, which is likely to be out for consultation towards the end of the year. Therefore the weight to attach to the impact of the proposal on the health of children at Harris Academy is a matter for members.

- 35 Objections regarding saturation of the local area with hot food takeaways and the gradual loss of retail uses within the borough are listed in appendix 2. As the site is designated as a protected shopping frontage saved policy 1.9 'Change of use within protected shopping frontages' of the Southwark Plan is not relevant in this case. This policy would only exclude a A5 hot food take away if the application was for a change of use from A1 to A5 which would reduce the proportion of A1 uses below 50% in a protected shopping frontage.

#### **Other matters**

- 36 The site has been used lawfully as a Class A1 retail unit for a number of years and is still as such at the time of writing this report. The application is therefore not liable for Mayoral CIL.

#### **Conclusion on planning issues**

- 37 It is considered that the proposed change of use, subject to conditions, would not lead to significant harm to the amenity of residents of properties who adjoin the site and would not put adverse pressure upon the local transport network. The proposed amendments relating to the proposed flue position and the refuse storage area will

provide further mitigation against any potential impacts upon residential amenity. The development also satisfies the relevant policy of the Southwark Plan (saved Policy 1.10) in terms of land use. The application is therefore recommended for approval.

### **Community impact statement**

38 In line with the Council's Community Impact Statement the impact of this application has been assessed as part of the application process with regard to local people in respect of their age, disability, faith/religion, gender, race and ethnicity and sexual orientation. Consultation with the community has been undertaken as part of the application process.

a) The impact on local people is set out above.

b) The issues relevant to particular communities/groups likely to be affected by the proposal have been identified.

c) The likely adverse or less good implications for any particular communities/groups have been also been discussed above.

### **Consultations**

39 Details of consultation and any re-consultation undertaken in respect of this application are set out in Appendix 1.

### **Consultation replies**

40 Details of consultation responses received are set out in Appendix 2.

41 Summary of consultation responses

A number of objections were received in response to the original consultations carried out. The responses and addresses where known are summarised below.

Responses were also received from Thames Water along with comments from the Councils internal transport and environmental protection officers. Again these are summarised below.

No additional comments were received as a result of the second consultation phase.

### **Human rights implications**

42 This planning application engages certain human rights under the Human Rights Act 2008 (the HRA). The HRA prohibits unlawful interference by public bodies with conventions rights. The term 'engage' simply means that human rights may be affected or relevant.

43 This application has the legitimate aim of providing an A5 use class hot-food take-away. The rights potentially engaged by this application, including the right to a fair trial and the right to respect for private and family life are not considered to be unlawfully interfered with by this proposal.

### **SUPPLEMENTARY ADVICE FROM OTHER OFFICERS**

44 Comments received from transport and environmental protection officers.

## APPENDIX 2

### Consultation responses received

#### Internal services

Transport (Development Control):

Raised no objection to the application. Recommended that any delivery service from the premises should be restricted. Also recommended that refuse storage arrangements be conditioned to be maintained and used for no other purpose.

Environmental Protection:

Raised no objection to the application. Recommended a condition for the submission of a noise survey one month after the installation of the equipment.

#### Statutory and non-statutory organisations

Thames Water:

Recommended that the developer install a fat trap and dispose of fats, oils and grease by a contractor for the production of bio diesel. This would prevent blocked drains and sewage flooding from the site.

#### Neighbours and local groups

13 letters of objection were received. The objections were based on the following points:

- Saturation of the local area with hot food take-aways.
- Potential increase in litter.
- Impact upon parking in the locality.
- Disruption to neighbours through use of the premises by potential drunk customers late at night.
- Potential increase of vermin and foxes through waste food.
- Gradual loss of retail uses within the borough.
- Inappropriate within close proximity to a school.
- Creation of anti-social behaviour.
- Long opening hours leading to potentially excessive noise at unsociable hours.
- Impact in terms of noise and odour of the proposed flue in close proximity to neighbouring dwellings.

The letters of objection were received from residents at the following addresses together with some from unknown addresses.

- 8 Robert Jones House
- 19 Yalding Road
- 52, 54 (Flat B), 67 (and ground floor flat), 70, 76, 77, 78 Southwark Park Road

On 14 May 2013 an email was received from Mr Alex Crowley (67 Southwark Park Road) advising that he has been asked by the other objectors to represent them. He noticed that there are no photos of the existing site in the committee papers and considers that it is only possible to get a true appreciation of the negative impact on local amenity by seeing the site as it is now and how the proposed change of use would affect the neighbouring property.

Three photos have been submitted to enable the committee to know what he will be referring to in his representation.

## APPENDIX 3

### Previous Report for information

<b>Item No.</b>	<b>Classification:</b> OPEN	<b>Date:</b> 15 MAY 2013	<b>Meeting Name:</b> Planning Sub-Committee
<b>Report title:</b>	<b>Development Management planning application:</b> Application 13/AP/0277 for: Full Planning Permission  <b>Address:</b> 65 SOUTHWARK PARK ROAD, LONDON, SE16 3TY  <b>Proposal:</b> Change of use of ground floor shop to hot food take-away (A5 class use) with installation of extraction flue system to rear and new proposed opening hours: Sunday to Wednesday 11:00 to 23:00, Thursday to Saturday 11:00 to 00:00.		
<b>Ward(s) or groups affected:</b>	Grange		
<b>From:</b>	Head of Planning		
<b>Application Start Date</b> 12/02/2013		<b>Application Expiry Date</b> 09/04/2013	

#### RECOMMENDATION

- 1 Grant permission subject to conditions

#### BACKGROUND INFORMATION

- 2 The application is brought before the committee at the request of Councillors

#### Site location and description

- 3 The application site is an existing Class A1 retail unit situated on the north side of Southwark Park Road in Bermondsey. There is a yard/amenity space to the rear of the building. The unit stands within a row of adjoining commercial units situated in between Yalding Road and the Harris Academy, although no.67 immediately adjacent is in residential use. There is a residential unit to the first floor of the application site and other flats on the first floors of adjoining buildings.

- 4 Southwark Park Road is a classified A Road, the site is within the Urban Density Zone. The site also sits opposite to the Thorburn Square conservation area.

#### Details of proposal

- 5 The application is for the change of use of the ground floor of the premises from the existing Class A1 retail use into a Class A5 hot-food take-away.

- 6 It is also proposed to install an extraction flue to the rear which would terminate above the roof ridge.
- 7 The proposed opening hours are between 11:00 - 23:00 Sunday to Wednesday and 11:00 - 00:00 Thursday to Saturday.

### **Planning history**

- 8 **94/609**  
Change of use of part of ground floor to single residential unit and the construction of a single storey rear extension.  
**Refused:** Sept 1994  
Refused as not considered to provide the appropriate standard of residential accommodation due to lack of natural light and external amenity space.

### **Planning history of adjoining sites**

- 9 63 Southwark Park Road  
**99-AP-1195**  
Continued use as mini cab office  
**Approved:** December 1999
- 10 67 Southwark Park Road  
**08-AP-2325**  
Construction of a second floor (third storey) mansard roof to front and over rear part of building, to provide additional residential accommodation. Alteration to windows on front elevation and to rear and conversion of extended building to form three self contained flats (two existing).  
**Refused:** December 2008  
Refused as considered not to provide an acceptable standard of residential accommodation and would constitute a visually over bearing over development of the site particularly to the roof scape.
- 08-AP-1441**  
Construction of a third floor mansard roof and rear first floor extension; alterations to windows on front elevation; and conversion of extended building to form 3 self contained flats (2 existing).  
**Refused:** August 2008  
Refused as would not provide an acceptable standard of accommodation

## **KEY ISSUES FOR CONSIDERATION**

### **Summary of main issues**

- 11 The main issues to be considered in respect of this application are:
- a) the principle of the proposed development in terms of land use
  - b) the impact on the amenities of neighbouring occupiers
  - c) the impact on the local transport network
  - d) visual impact of the duct

## 12 **Planning policy**

### Core Strategy 2011

Policy 3 'Shopping, Leisure and Entertainment'

Policy 12 'Design and Conservation'

Policy 13 'High Environmental Standards'

### Southwark Plan 2007 (July) - saved policies

1.10 'Small scale shops and services outside the town and local centres and protected shopping frontages'

3.1 'Environmental Effects'

3.2 'Protection of amenity'

3.6 'Air quality'

3.7 'Waste reduction'

3.12 'Quality in design'

3.18 'Setting of Listed Buildings, Conservation Areas and World Heritage Sites'

5.2 'Transport impacts'

5.3 'Walking and cycling'

The Council's cabinet on 19th March 2013, as required by para 215 of the NPPF, considered the issue of compliance of Southwark Planning Policy with the National Planning Policy Framework. All policies and proposals were reviewed and the Council satisfied itself that the policies and proposals in use were in conformity with the NPPF. The resolution was that with the exception of Policy 1.8 (location of retail outside town centres) in the Southwark Plan all Southwark Plan policies are saved. Therefore due weight should be given to relevant policies in existing plans in accordance to their degree of consistency with the NPPF.

### London Plan 2011

None directly relevant

### National Planning Policy Framework (NPPF)

Section 1 Building a Strong and Competitive Economy

Section 7 Requiring Good Design

### **Principle of development**

- 13 Saved policy 1.10 of the Southwark Plan states that outside town centres, local centres and protected shopping frontages, development will only be permitted for a proposal for a change in use between A use classes or from A use classes to other uses, when the applicant can demonstrate that:

*i) The proposed use would not materially harm the amenities of surrounding occupiers;*

Refer to the amenity section of this report.

*and*

*ii) The use that will be lost is not the only one of its kind within a 600m radius and its loss would not harm the vitality and viability of nearby shops or shopping parades;*

'The Blue Local Town Centre is within 400m of the site and provides a number of A1

retail uses within Protected Shopping Frontages.

or

*iii) The premises have been vacant for a period of at least 12 months with demonstrated sufficient effort to let, or have not made a profit over a two year period.*

The site is not currently vacant and there fails to satisfy point iii. The policy only requires conformity with points i along with either ii or iii. Subject to the satisfactory impact upon residential amenity, which shall be discussed later in this report, the proposed change of use is considered acceptable in principle.

A number of letters of objection raise that there are too many takeaways in this area, that is an over concentration and could lead to encouragement of childhood obesity issues. However, the proposal is compliant with the above policy, and there are no other policies to limit hot food takeaways in this area.

### **Environmental impact assessment**

An Environmental Impact Assessment is not required. No significant environment effects would arise.

### **Impact of proposed development on amenity of adjoining occupiers and surrounding area**

- 14 There are two main potential impacts upon neighbouring residents: the impact of the proposed extraction flue to the rear of the site along with the general noise and disturbance from the operation of the premises as a hot food take-away.

Amenity impacts - noise, too many takeaways, nuisance, littering, loiter, late night activity, plus specific impacts arising from the proposed flue, have been raised in letters of objection.

- 15 The applicant has submitted details of the flue, which address the positioning of the equipment. It will exit the building through the existing single storey lean to section to the rear, and would run up the rear elevation terminating just above the rear eaves level. This arrangement with vertical discharge is considered acceptable. Details of noise mitigation and odour control have been provided. It is stated that the odour control shall be designed to protect amenity while the noise levels shall be kept to the statutory standard. The information does not include specific details relating to installation. It is therefore recommended that a condition be attached requiring a noise report to be carried out within one month of the installation of all plant equipment. Provided the condition is adhered to, it is considered that the extraction flue would not harm the amenity of residents. No objections have been raised by the Environmental Protection Officer subject to this condition. A condition preventing motorised delivery service is also recommended, to limit noise impacts to neighbours.
- 16 The application proposes that the use would operate between 11:00 and 23:00 Sunday to Wednesday and 11:00 and 00:00 Thursday to Saturday. It is considered that these opening times are not excessive and to operate until midnight on Thursday, Friday and Saturday is acceptable. It is acknowledged that the nearby 'Pizza Gogo' restaurant operates until 2am on Fridays and Saturdays and until 1am on other days. The Council's transport officers have recommended that the use be restricted from operating a delivery service, but otherwise do not object to a take away use in this location.
- 17 It is acknowledged that there are already A5 uses along this small commercial row. It

is considered that with adequate mitigation through conditions, the impact upon the amenity of adjoining residents is acceptable and would accord with saved plan policy 3.02 'Protection of amenity'.

### **Impact of adjoining and nearby uses on occupiers and users of proposed development**

- 18 The mix of commercial and residential uses is typical of many areas and does not lead to any special impacts.

### **Traffic issues**

- 19 A minimum of 2 cycle spaces associated with the use would normally be required. However, given the restrictions on site, there are no places to provide cycle storage in a convenient way.
- 20 There are no off street parking spaces available for the take away, and therefore visitors in cars would have to find on street parking locally. Take away uses can lead to cars parking short term nearby whilst food is picked up. Notwithstanding that such uses can attract more car trips than would a shop, no adverse impacts on the highway network have been identified by the Transport Officer, and therefore in this respect the use is considered acceptable.
- 21 An area at the rear of the site would be used for the storage of refuse. It shall be conditioned that this area remains for this specified use. Littering and refuse storage arrangements were raised in letters of objection. The refuse containers at the rear
- 22 would not be available to customers, but there appear to be street bins at the front for discarded wrappers.

### **Design issues**

- 23 There are no alterations proposed for the front of the unit. The development would not therefore affect the existing street scene in this location. The proposed flue would terminate above the roof eaves but would be obscured behind the existing front roof parapet and the positioning to the rear of the building. The development would not have an adverse impact upon visual amenity in this location.

### **Impact on character and setting of a listed building and/or conservation area**

- 24 The site is situated opposite to the Thorburn Square conservation area. However given the minimal alterations proposed, it is not considered that the proposal would adversely affect its setting in accordance with saved policy 3.18 'Setting of Listed Buildings, Conservation Areas and World Heritage Sites'.

### **Impact on trees**

- 25 No impact.

### **Planning obligations (S.106 undertaking or agreement)**

- 26 No impact.

### **Sustainable development implications**

- 27 None identified.

### **Other matters**

- 28 The site has been used lawfully as a Class A1 retail unit for a number of years and is still as such at the time of writing this report. The application is therefore not liable for Mayoral CIL.

### **Conclusion on planning issues**

- 29 It is considered that the proposed change of use, subject to conditions, would not lead to significant harm to the amenity of residents of properties who adjoin the site and would not put adverse pressure upon the local transport network. The development also satisfies the relevant policy of the Southwark Plan (saved Policy 1.10) in terms of land use. The application is therefore recommended for approval.

### **Community impact statement**

- 30 In line with the Council's Community Impact Statement the impact of this application has been assessed as part of the application process with regard to local people in respect of their age, disability, faith/religion, gender, race and ethnicity and sexual orientation. Consultation with the community has been undertaken as part of the application process.

a) The impact on local people is set out above.

b) The issues relevant to particular communities/groups likely to be affected by the proposal have been identified.

c) The likely adverse or less good implications for any particular communities/groups have been also been discussed above.

### **Consultations**

- 31 Details of consultation and any re-consultation undertaken in respect of this application are set out in Appendix 1.

### **Consultation replies**

- 32 Details of consultation responses received are set out in Appendix 2.

- 33 Summary of consultation responses

A number of objections were received in response to the consultations carried out. The responses and addresses where known are summarised below.

Responses were also received from Thames Water along with comments from the Council's internal transport and environmental protection officers. Again these are summarised below.

### **Human rights implications**

- 34 This planning application engages certain human rights under the Human Rights Act 2008 (the HRA). The HRA prohibits unlawful interference by public bodies with conventions rights. The term 'engage' simply means that human rights may be affected or relevant.

- 35 This application has the legitimate aim of providing an A5 use class hot-food take-

away. The rights potentially engaged by this application, including the right to a fair trial and the right to respect for private and family life are not considered to be unlawfully interfered with by this proposal.

**SUPPLEMENTARY ADVICE FROM OTHER OFFICERS**

36 Comments received from transport and environmental protection officers.

**REASONS FOR LATENESS**

37 Due to call-in to planning committee.

**REASONS FOR URGENCY**

38 N/A

28/02/2013	78 SOUTHWARK PARK ROAD LONDON SE16 3RS

**Re-consultation:**

N/A

**Consultation responses received**

**Internal services**

Transport (Development Control):

Raised no objection to the application. Recommended that any delivery service from the premises should be restricted. Also recommended that refuse storage arrangements be conditioned to be maintained and used for no other purpose.

Environmental Protection:

Raised no objection to the application. Recommended a condition for the submission of a noise survey one month after the installation of the equipment.

**Statutory and non-statutory organisations**

Thames Water:

Recommended that the developer install a fat trap and dispose of fats, oils and grease by a contractor for the production of bio diesel. This would prevent blocked drains and sewage flooding from the site.

**Neighbours and local groups**

13 letters of objection were received. The objections were based on the following points:

- Saturation of the local area with hot food take-aways.
- Potential increase in litter.
- Impact upon parking in the locality.
- Disruption to neighbours through use of the premises by potential drunk customers late at night.
- Potential increase of vermin and foxes through waste food.
- Gradual loss of retail uses within the borough.
- Inappropriate within close proximity to a school.
- Creation of anti-social behaviour.
- Long opening hours leading to potentially excessive noise at unsociable hours.
- Impact in terms of noise and odour of the proposed flue in close proximity to neighbouring dwellings.

The letters of objection were received from residents at the following addresses together with some from unknown addresses.

- 8 Robert Jones House
- 19 Yalding Road
- 52, 54 (Flat B), 67 (and ground floor flat), 70, 76, 77, 78 Southwark Park Road
