1 INTRODUCTION

1.1 PURPOSE OF THIS DOCUMENT

1.1.1 The purpose of this document is to summarise the consultation undertaken in developing the Revised Canada Water Area Action Plan (RCWAAP). This document is prepared under Regulation 22 (c) of the Town and Country Planning (Local Planning) (England) Regulations 2012.

1.1.2 This report shows who was consulted on the Revised Canada Water AAP (Regulation 22 (c) (i)), how people were consulted (Regulation 22 (c) (ii)), a summary of the main issues raised during the consultation (Regulation 22 (c) (iii)) and how the representations were taken into account (Regulation 22 (c) (iv)). The report will also demonstrate compliance with the Council's adopted Statement of Community Involvement (SCI).

1.1.3 This report is structured as follows:

- This first introductory section sets out the purpose of the report and outlines the background to the RCWAAP.
- The second section identifies who and how we consulted, in compliance with Regulation 22 (c) (i) and (ii).
- The third section sets out a summary of the representations received and explains how these were taken into account in the development of the revised AAP, in compliance with Regulation 22 (c) (iii) and (iv).
- Finally, the last section sets out how the consultation was monitored.

1.2 BACKGROUND

1.2.1 The Canada Water AAP was adopted in March 2012. The purpose of the AAP is to help shape the regeneration of Canada Water. Like the Core Strategy (2011) it is a spatial plan which provides a vision, objectives and policies designed to help manage development and growth at Canada Water over the next 10-15 years.

1.2.2 Work on the AAP commenced in 2007 and its adoption followed four rounds of public consultation, as well as an examination-in-public (EIP) in which members of the public, developers and other stakeholders were able to set out their views to an independent planning inspector. The consultation which took place in preparing the adopted AAP is set out below:

- Sustainability Appraisal Scoping Report (March 2008): This was subject to a 6 week consultation from 14 March 2008 to 25 April 2008.
- An Issues and Options Report: This was published in January 2009 and set out a number of options for future development in the AAP area. It was subject to a 12 week consultation period. An Interim Sustainability Appraisal and stage 1 Equalities Impact Assessment were also published in January 2009 and subject to the same consultation period.
- A Preferred Options report: This was published on July 21 2009 and set out the preferred option for future development in the AAP area. This was subject

to a 15 week consultation period. Formal consultation took place from 1 September 2009 to 6 November 2009. A Sustainability Appraisal and stage 2 Equalities Impact Assessment were also published in July 2009 and subject to the same consultation period.

- Publication/submission AAP: This was published in December 2009. Formal consultation commenced on 29 January 2010 for six weeks. The Equalities Impact Assessment and the Sustainability Appraisal were updated to reflect changes in the AAP.
- Further changes to the publication/submission AAP: On 22 April 2011 the council published further changes to the AAP proposing minimum dwelling sizes and additional sites of importance for nature conservation. In all the further changes were available for consultation for 6 weeks between 11 March and 2 June 2011.

1.2.3 In August 2011, the Daily Mail which occupied the Harmsworth Quays printworks confirmed that it would be relocating its printing operations to a site in Essex. Because the Daily Mail had previously indicated that it would be staying at Harmsworth Quays, the adopted AAP is predicated on the printworks remaining at Canada Water. However, Harmsworth Quays is a strategic site in the core of the action area and its availability opens a significant opportunity for redevelopment. At the EIP the council committed to undertaking a review of the AAP to put in place policy to guide a redevelopment of Harmsworth Quays and the adjacent sites.

1.3 SUMMARY OF CONSULTATION ON THE REVISED CANADA WATER AAP

1.3.1 The main stages in preparing the Revised Canada Water AAP were as follows:

- Informal consultation (Regulation 18 consultation): Two workshops were held with landowners and developers to provide an opportunity for landowners and developers to explain their aspirations and to comment on emerging ideas and options. On 17 November 2012 the council held a public consultation event at Alfred Salter school which aimed to provide a forum in which the public and other stakeholders could have their say on the future of Harmsworth Quays and the adjacent sites. Two workshops were held at the event: the first involved a facilitated discussion around four themes and the second involved playing a scenario game.
- Draft Revised Canada Water AAP (Regulation 18 consultation): Consultation on the draft revised AAP took place over a period of 12 weeks from 7 May until 30 July 2013, including a formal period of consultation of 6 weeks between 18 June 2013 and 30 July 2013. As well as statutory consultation, the council also publicised the document through exhibitions, drop-in sessions, the community council, a flyer and newsletter.
- Revised Canada Water AAP publication/submission draft (Regulation 19 consultation): The Revised Canada Water AAP publication/submission draft was published on 15 October 2013. Formal consultation place over a 6 week period between 14 January 2014 and 25 February 2014. Details of the consultation and how to make representations were publicised by notification letter, by an advertisement in the press and on the council's website. Copies

of the relevant documents were made available on the website, in libraries and council offices.

- 1.3.2 The following sections of the report explain in more detail the consultation undertaken in preparing the Revised Canada Water AAP.

2 WHO AND HOW WE CONSULTED

2.1 WHO WAS CONSULTED?

- 2.1.1 Regulation 18 (1) and (2) of the Town and Country Planning (Local Planning) (England) Regulations 2012 states that in preparing a local plan, a local planning authority must notify appropriate organisations (“specific and general consultation bodies”) whom the local planning authority consider may have an interest in the subject of the plan. In addition, the Regulations state that the local planning authority must also consider whether it is appropriate to invite representations from local residents or businesses in the area. Southwark’s SCI sets out a list of statutory and non-statutory consultees for local plans (Appendix E of the SCI).

Informal consultation on the Revised Canada Water AAP

- 2.1.2 The EIP inspector for the adopted AAP agreed with the council that any review of the AAP could take place within the scope of the vision and objectives set out in the adopted AAP. However, amendments to the plan should address the land uses and quantum of development, the infrastructure required to support additional development, pedestrian and cycle connectivity and urban design, including the building heights strategy.
- 2.1.3 Because a significant amount of consultation had already taken place in preparing the adopted plan and because the vision and objectives of the AAP are already established, the council did not consider it necessary to reconsult on an issues and options report in revising the AAP. Instead, the council carried out informal consultation which has informed the draft revised AAP.
- 2.1.4 The relevant landowners and developers were invited to attend two workshops to explain their aspirations and to comment on emerging ideas and options. Those invited were Sellar, Daily Mail & General Trust, Surrey Quays Ltd, King’s College, Frogmore and Aviva.
- 2.1.5 A public consultation event was held in November 2012. Notification letters and emails advertising the public consultation event were sent to around 400 local contacts on the Planning Policy team's mailing list. The event was publicised at the Bermondsey and Rotherhithe Community Council on 10 October 2012 and email alerts were sent to around 400 people whose details are held on the community council mailing list. Details of the event were put on the planning policy webpages on the council's website and on the council's What's On webpage.
- 2.1.6 After the event, the council sent notification letters to all the tenants and residents associations (TRAs) in the AAP area, publicising the revisions to the AAP and

indicating that officers would be happy to attend meetings to discuss the revisions, if required.

Draft Revised Canada Water AAP

- 2.1.7 Specific Consultation Bodies: All the statutory organisations set out in Appendix E of the SCI were notified.
- 2.1.8 General Consultation Bodies: Notification letters were sent to individuals and other stakeholders. These included all the local and other consultees set out in Appendix E of the SCI. A breakdown of these consultees is set out in Appendix 1.
- 2.1.9 Local residents and businesses: A flyer publicising the plan was delivered to every address in the AAP area. Notification letters were sent to residents and businesses on the Planning Policy team mailing list, which includes contactees who had previously submitted comments in preparing the AAP.
- 2.1.10 Consultation was also carried out with the Canada Water Consultative Forum, the Rotherhithe area housing forum and the Bermondsey and Rotherhithe Community council. The Canada Water Consultative Forum is an independent body established to promote, secure and implement a programme of sustainable development for the Rotherhithe Peninsula. Community councils are meetings between councillors and the public that give decision making back to the people it affects directly, e.g. the citizens of the area. The area housing forum brings together all the tenants and residents associations in Rotherhithe. These groups were involved throughout the consultations. Council officers attended meetings and made presentations on the draft AAP.
- 2.1.11 Local residents and businesses have also been invited to participate in consultation through other means such as exhibitions, website updates, newsletters and a notification in the local press. Details of these are set out in section 2.2.
- 2.1.12 By consulting the specific and general consultation bodies, as well as local residents, community groups and businesses, we have met the requirements of Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012.

Revised Canada Water AAP publication/submission draft

- 2.1.13 Specific Consultation Bodies: All the statutory organisations set out in Appendix E of the SCI were notified.
- 2.1.14 General Consultation Bodies: Notification letters were sent to individuals and other stakeholders. These included all the local and other consultees set out in Appendix E of the SCI. A breakdown of these consultees is set out in Appendix 1.
- 2.1.15 Local residents and businesses: Notification letters were sent to residents and businesses on the Planning Policy team mailing list, which includes contactees who had previously submitted comments in preparing the AAP.

- 2.1.16 Consultation was also carried out with the Canada Water Consultative Forum and the Bermondsey and Rotherhithe Community council. Council officers attended meetings and made presentations on the draft AAP.
- 2.1.17 Local residents and businesses have also been invited to participate in consultation through other means including website updates and a notification in the local press. Details of these are set out in section 2.2.

2.2 METHODS OF CONSULTATION

- 2.2.1 This section summarises the methods of consultation which we used at each stage of the process in order to comply with the Regulations and the SCI. Appendix 2 contains a table with a full summary of the consultation which took place.

Informal consultation on the revisions to the AAP

- 2.2.2 Two workshops were held with landowners and developers to provide an opportunity for landowners and developers to explain their aspirations and to comment on emerging ideas and options.
- 2.2.3 On 17 November 2012 the council held a public consultation event at Alfred Salter school which aimed to provide a forum in which the public and other stakeholders could have their say on the future of Harmsworth Quays and the adjacent sites. Two workshops were held at the event: the first involved a facilitated discussion around four themes and the second involved playing a scenario game.
- 2.2.4 A full report on these events is set out in Appendix 13.

Draft revised Canada Water AAP

- 2.2.5 The council consulted on the draft revised Canada Water area action plan over a period of 12 weeks from 7 May until 30 July 2013, including a formal period of consultation of 6 weeks between 18 June 2013 and 30 July 2013. A consultation plan (Appendix 14) was agreed by the council's cabinet, alongside the draft revised AAP. Notification was undertaken by means of a mail out to contacts on Southwark's Planning Policy mailing list (see Appendix 3 for a copy of the letter), Southwark's website, a newspaper advert (see Appendix 5), a flyer sent to every address in the AAP area (see Appendix 7), a newsletter (see Appendix 8) made available at all consultation events and by ensuring that information was available at Southwark's civic offices at 160 Tooley Street, Canada Water library and at the Abbeyfield Road housing services office (see Appendix 9).
- 2.2.6 Officers gave presentations on the AAP at the Canada Water Consultative Forum, Bermondsey and Rotherhithe Community Council, and the Rotherhithe Area Housing Forum.
- 2.2.7 Exhibitions were held at Canada Water library and Surrey Quays shopping centre and 6 drop-in sessions were arranged on different days and times at these venues. Attendees of these events were able to discuss proposals with officers

and were encouraged to fill in a questionnaire. In addition, officers had a stall with the exhibition and interactive activities at Bermondsey Carnival and Rotherhithe Festival. The dates and locations of these events are explained in Appendix 2.

Revised Canada Water AAP publication/submission draft

- 2.2.8 The Revised Canada Water AAP publication/submission draft was published on 15 October 2013. Formal consultation place over a 6 week period between 14 January 2014 and 25 February 2014. A consultation plan (Appendix 15) was agreed by the council's cabinet, alongside the RCWAAP. Notification was undertaken by means of a mail out to contacts on Southwark's Planning Policy mailing list (see Appendix 4 for a copy of the letter), Southwark's website (see Appendix 16), a newspaper advert (see Appendix 6) and by ensuring that information was available at Southwark's civic offices at 160 Tooley Street as well as all libraries, housing offices and one stop shops in the borough (see Appendix 9).
- 2.2.9 Officers gave presentations on the AAP at the Canada Water Consultative Forum and the Bermondsey and Rotherhithe Community Council.

3 SUMMARY OF REPRESENTATIONS MADE AND HOW THESE HAVE BEEN TAKEN INTO ACCOUNT

3.1 SUMMARY OF REPRESENTATIONS MADE

- 3.1.1 The following section presents a summary of the main issues arising from the consultation which has been carried out and a brief explanation about how these issues have been considered in preparing the Publications/submission version of the revised Canada Water AAP.

Consultation workshop, November 2012

- 3.1.2 The key messages which emerged from the event were that:
- There is strong support for a university campus which could generate jobs, bring daytime activity to the town centre and raise the area's profile.
 - There was also support for other employment generating uses such as office and business uses, shops and community facilities which contribute to the town centre.
 - There should be a green link connecting the Canada Water basin with the planned connection to Russia Dock Woodland though the Quebec Industrial Estate.
 - There was support for straightening Surrey Quays Road to provide an attractive link to the cinema and leisure facilities and Greenland Dock.
 - Building heights should be lower on the periphery of the sites adjacent to Redriff Road and Quebec Way. There is scope for more intensive development away from existing residential areas.

- Views on tall buildings were mixed. Some felt they were appropriate and others not. It is important that the environment around tall buildings is comfortable and not overshadowed or windy.
- Development should provide affordable housing.
- Open space would be appropriate and should provide children's play facilities, space for food growing etc.

3.1.3 A full summary is set out in Appendix 13.

Draft revised Canada water area action plan

3.1.4 In response to consultation of the draft revised Canada water AAP the council received 70 responses (broken down into 340 individual comments) from a range of individuals, landowners, developers and other stakeholders. These included 46 questionnaire responses. The comments made and questionnaire responses are summarised below. All comments received and the officer responses are set out in Appendix 11.

Questionnaire responses (46 respondents)

Question	Agree (%)	Disagree (%)	Unsure/not filled in (%)
Do you agree that we should we should prioritise non-residential uses on Harmsworth Quays and the adjacent sites?	78	9	13
Do you agree that the design and layout of Harmsworth Quays should make it easy for pedestrians and cyclists to move around?	89	2	9
Do you agree with the changes to leisure facilities and schools in the AAP?	61	24	15
Do you agree that we should use some tall buildings to help create more public space and make developments easy to walk and cycle around?	50	46	4
Do you agree with our proposals to protect additional open spaces?	85	2	13
Totals			

Summary of comments made

Local residents/amenity groups

Vision

- The vision is not sufficiently strong.

Retail policies (1-5)

- The market at the plaza looks ad hoc and scruffy.
- Canada Water should not try to compete with centres such as Stratford, the West End or Blue Water.
- Policy 3 should restrict numbers of betting shops. LBS should offer empty units in its ownership as pop-up shops.

CWAAP 24

- The proposed site allocation for Harmsworth Quays and the adjacent sites which seeks to maximise the amount of non-residential space was supported. In particular there was support for more cafes and restaurants, a new university campus and more accommodation which provides space for local businesses and which generates jobs.

Transport (policies 6-10)

- There was support for promoting walking and cycling and extending the cycle hire scheme to Canada Water. Some respondents considered that improvements could be made to cycle facilities, including segregated routes and more clearly signposted routes. There was support for continuing the strategy to simplify the Lower Road gyratory, although some respondents considered it to be unnecessary. A number of respondents stated that improvements to the road network were needed urgently.
- Some stated that more pick-up/drop down areas are needed.

Open spaces (policy 18)

- There was support for the proposed protection of open spaces.
- An additional space adjacent to the St Olavs City Business Park should be protected.
- The Canada Water basin and Albion Channel need more protection.
- Amenity land on council estates should be protected.

Housing (policies 21-24)

- A number of respondents stated that more social housing is required.
- Some respondents stated that densities allowed are too high.

Community facilities (policies 26-29a)

- Some respondents stated that more community facilities are needed, including facilities for children and young people, health facilities and space for churches.

Design and building heights (policies 14- 17)

- Views on the changes to the tall buildings policy were mixed (as suggested by the questionnaire responses). Some respondents supported them and others considered them inappropriate. Many responses emphasised that the

tall buildings need to be of the highest quality and should not create overshadowing. Those respondents who objected to tall buildings did so on many grounds, including impacts on wildlife, local character, water bodies including the Canada Water basin and Albion channel, views and overshadowing; loss of light; density; lack of community; false choice between tall buildings and public space; and the policy should be more prescriptive. A number of maximum heights for tall buildings were suggested: no more than 4 storeys; no more than 8 storeys; and no more than 25 storeys. Some stated that a limit should be placed on the number of tall buildings which can be developed.

- Could the AAP encourage traditional design (not just contemporary looking buildings)?
- The AAP should conserve heritage assets.

Arts, tourism and leisure facilities (policies 11-13)

- There were mixed views on leisure facilities. Some considered that 7 Islands should be refurbished urgently and others considered it to be in the wrong place and not capable of providing modern leisure facilities and therefore a new site should be found.
- The strategic cultural area should be extended to the south to cover the Scandinavian churches on Albion Street.

Schools (policy 26)

- Irrespective of the proposal for a new school in Bermondsey, some respondents considered that the council should continue to press for a new school in Rotherhithe. There were a number of objections to the Bermondsey proposal on the grounds that people did not support the principle of free schools.

Albion Street (policy 30)

- It is not correct to say that the old library is being disposed of.
- The policy should include restriction on betting shops.

Developers/landowners

- The promotion of a business cluster in the core area on the sites identified is supported.
- It is unhelpful to refer to a specific quantum of development on Harmsworth Quays as proposals should be assessed on a case by case basis.
- Residential use should be a “required” use on Harmsworth Quays and not just an “acceptable” use. As a minimum residential uses should be seen as being equally important in both place making terms and in ensuring that the AAP vision is deliverable.
- King’s College’s masterplan includes sports facilities and King’s would intend to deliver these in association with a wider campus development. It is envisaged that these facilities would also be available for public use and

therefore this aspect should be considered as part of the Council's long term options and strategy for the area.

- The AAP should not make it a requirement that proposals for large student housing schemes should also provide other university campus facilities. It should be sufficient that such facilities are easily accessible by public transport. There should not be a threshold for what are considered large student housing schemes. A more appropriate approach is to require large student housing schemes to have an approved management scheme in place.
- The council should set out the limit of the number of student homes it would consider acceptable.
- The town centre boundary should be redrawn to include the entirety of Harmsworth Quays, Mulberry Business Park and the Surrey Quays Leisure Park.
- The proposed changes to policy 17, Building heights, are supported; tall buildings should be allowed both in the town centre and outside where there is justification; there is no justification for a change of approach on the shopping centre site; the plan should state that a tall building will be allowed on the Surrey Quays Leisure Park site.
- The wording of the affordable housing policy should place stronger emphasis on the need to ensure the viability and deliverability of development.
- The allocation for the old Surrey Docks stadium should be updated to reflect Fairview's proposal to refurbish the sports facilities at the nearby St Pauls Sports Ground and convert the MOL land on Salter Road into a park. The residential capacity estimate should be changed back to 100 homes.

Surrey Docks ward councillors

- On page 39 there is a reference to closing the southern end of Surrey Quays Road at its junction with Redriff Road. What is the reasoning behind this?
- Additional tall buildings beyond Ontario Point and a 10-15 storey building on the shopping centre were never envisaged. What is the rationale behind the change to the building heights policy?
- In para. 4.5.28 the reference to considering more detailed proposals for St Paul's Field has gone. Whilst there is no suggestion in the document that it would remain anything other than open land, a more detailed proposal could have been included to aid future implementation.
- The suggestion that the Compass school will solve all the present and future local secondary school provision shortfall appears very complacent and references to possibly expanding other secondary school places does not provide a solution.
- The timescale for the implementation of improvements to Lower Road (2016-2020) is unacceptable. The right turn into Surrey Quays can be separated from the project and implemented independently.
- Para 4.7.21 is very woolly on providing increased NHS facilities and when they would be provided. The proposal seems predicated on getting more housing into the area first, which does not make sense.
- Unless King's College are going to provide a new leisure centre, the idea of a refurbishment which extends the life of 7 Islands by up to 10 years should be

dropped and a proper job done. There is not going to be another site in the town centre.

GLA

- Policy 22 of the AAP should explicitly identify affordable rent as a type of affordable housing. As currently proposed, the AAP would not be in general conformity with the London Plan.
- The Mayor welcomes the Council's new tall building strategy and its approach to building heights in the core area; the amended Policy 26 on 'Schools' is supported as well as the identification of a new primary school site (para 4.7.7a); the proposed amendment to the town centre boundary to include Harmsworth Quays and Site E and to enable the town centre to expand to the east is welcomed.

Transport for London

- TfL considers that the document is in general conformity with the transport policies of the London Plan.
- The requirement for new car parking in the town centre to comprise "town centre parking" is strongly supported.
- TfL consider it too early to conclude that signalisation of the Lower Road/Jamaica Road junction is the most appropriate solution at this location.
- TfL notes the aspiration to simplify and improve the safety of the existing local road network, and this is broadly supported by TfL provided it at least maintains, if not improves, provision for bus operations, cyclists and pedestrians. The intention to secure s106 and CIL planning contributions towards the delivery of these schemes, and the intention to submit an Area Based Scheme (ABS) bid to TfL to deliver apportion of the works is noted.
- TfL requests that commitment set out within Policy 7 to secure s106 contributions towards public transport improvements to mitigate site specific impacts is reiterated within in policy 33.

English Heritage

- Further clarification should be given on what constitutes a special building (Policy 17: Building heights). There could be greater clarity in respect of the Canada Water basin and public spaces around it. It would be useful to see the underlying evidence that supports this suggested change in focus for tall buildings in this location.

Environment Agency

- The EA supports the revised Canada Water Area Action Plan incorporating the Harmsworth Quays site which will play a key part in the delivery of the plan and has no specific comments on the draft revised plan.

Sport England

- Sport England objects to the proposed loss of sports facilities and car parking ancillary to the Surrey Docks Stadium and recommends that this site is removed from the schedule of proposals sites.

Port of London Authority

- There is no target or indicator in the document for monitoring river transport usage and the document needs to be updated to reflect the target in the River Action Plan to increase passenger journeys on the River Thames to 12 million a year by 2020 and maximise its potential for river travel

Thames Water

- The existing text included in the AAP with regard to waste and sewerage infrastructure is supported.

Highways Agency

- The HA has no objection to the plan.

Revised Canada Water AAP publication/submission draft

3.1.5 In response to consultation of the Revised Canada water AAP publication/ submission draft the council received 20 representations (broken down into 157 individual comments) from a range of individuals, landowners, developers and other stakeholders. All representations received and the officer responses are set out in Appendix 12.

3.1.6 The representations are summarised below.

Local residents/amenity groups

Vision and objectives

- Remove the Hawkstone “Triangle” from the core area. I have amended by stretch figure 4 to show: Mitigation greening, barriers and other infrastructures to help reduce the affects of traffic.
- Would welcome the opportunity to bring some scrutiny to the “Council Plan” and “Fairer Future Principles”.
- “Strategic objectives” have not been adequately tested to ensure that they are working together to create a sustainable overall place

Retail policies (1-5)

- Object to: “The exact location of the town centre boundary will depend on the amount and distribution of town centre uses brought forward by the development proposals for site allocation CW AAP 24 and will be negotiated through the planning application process. The boundary needs to be set.
- Policy 2 (Cafes and restaurants) RCWAAP needs to provide more detailed policies of it’s own to make sure that cafes do not harm amenities.

- Policy 4 – Large needs to be defined.
- Harmsworth Quays / Leisure Site could provide a proper market place.

Transport (policies 6-10)

- A bridge connecting Canary Wharf to Rotherhithe is vital.
- There is a need for the provision of a formal taxi rank at Canada Water tube / bus station.
- There is a need for a dedicated bus lane and yellow boxes / traffic lights at the Rotherhithe Roundabout.
- There are insufficient improvements to the cycle and pedestrian network
- The Cycle Super Highway should not be introduced until the very serious congestion problems on Jamaica Road and Lower Road have been resolved.
- There is a need for short term car parking provision and more disabled bays to support the sustainability of Lower Road and Albion Street Shops.
- The evidence to support the reintroduction of two way traffic on Lower Road relieving the almost continuous grid lock in the area is questionable. There is a need for more robust policies to address the current Jamaica Road / Lower Road grid lock and have sufficient capacity to accommodate the numerous mega developments in the pipeline at Canada Water.
- There is a need to relocate the pedestrian crossing at Seven Islands and introduced a monitored yellow box to improve traffic flow.
- The promotion of “Car free developments” will enable new development to avoid substantial / significant (or any) contributions to road and traffic improvements.
- The network on Figure 7 is incomplete.
- Why does nobody propose a new bridge to carry traffic from Jamaica Road, over Salter Road and over the river to the A1026 Westferry Road?
- The Network Map does not show the TFL Cycle superhighway following the gyratory which it will have to do at first unless it is delayed.
- Paragraph 4.3.10 states “In preparing the AAP, we have created a multi-modal transport model In revising the AAP, we will re-run our testing to make sure that our strategy for improving transport in the area remains robust”. I object if this will create any further delay. Evidence on congestion is now damning.
- Levels of pollution and air quality are unacceptable and will be made worse.
- Object to Policy 9: Parking for retail and leisure because it is limited to “retail and leisure developments within the town Centre”

Arts, tourism and leisure facilities (policies 11-13)

- The refurbishment of Seven Islands does not provide ‘value for money’ . The centre is in the wrong place and is not fit for purpose and is constantly being ‘patched up’. A new, state of the art public facility must be built on the Harmsworth Quays site.
- Refurbishment of Seven Islands leisure centre should include squash courts.
- Works to the 7 Islands needed to be completed this year, and need to be completed in year 14/15 and by 15/16 at the latest.

- You need to make sure that “new sports facilities provided in schools are made available to the community for use outside school hours” at a range of prices that all residents and those working in AAP can afford.
- Policy 13, Arts, culture and tourism needs extending so that “We will protect and strengthen arts, cultural and tourism facilities in the AAP” area along with the environment and nature, etc.

Design and building heights (policies 14- 17)

- Policy 14 - New high street and public realm that integrated and meshes Lower Road Town Centre shops and Overground with Surrey Quays Centre and Harmsworth Quays development is required. There needs to be a substantial and extensive, and expensive, rethink about the roads, crossings, connections and layout.
- Policy 15 – Object to the text: “create the impression”
- Policy 16 – Replace “should” with “must”. The policy is misguided in making the basin the focal point of the town centre. Connections with Lower Road should be stronger.
- Policy 17 – The building height thresholds of 4-9 storeys does not provide enough flexibility in the light of the need for housing. The town centre is not sufficiently defined. Why should tall buildings significantly exceed space standards? The wording of the policy is not robust. Support the principle of higher densities and tall buildings in the larger Town Centre sites provided that environmental needs and aspirations etc. are met.
- Building heights should remain lower than 4 storeys around the Canada Water Basin so as not to prevent it being viewable from other buildings and to ensure lots of light in the area.
- Most of Rotherhithe should be restricted to 4 storeys. Between 4 and 10 storeys it is possible to taper floors to reduce the impact on light.

Open spaces and children’s play facilities (policies 18-19)

- Include protection for the ‘Park with no name’ (between Blick House and City Business Centre).
- Play provision within new residential developments provided by S106 / CIL should have very clearly defined ongoing maintenance and H & S responsibilities and publically stated criteria for usage and opening hours. There is a need for free of charge areas for spontaneous play for 9 – 14 year olds to address the impact the lack of provision in the area for the age group has on anti social behaviour.
- Two new local green spaces need to be protected (including Canada water basin).
- Object to limiting opportunities for food growing to “new” development only.
- This “borough wide” open space target has no relevance to our planning for our area.
- Children’s play space policy, is not up to date, not adequately “sound”, not justified, and not effective and consistent with national policy. It is founded on an evidence base that is not adequately robust and credible, and reasonable alternatives has not been adequately considered.

Energy (policy 20)

- Housing Associations and other affordable home providers should be ensure that they and their tenants are fully aware of the contractual arrangements and costings policies regarding district heating.
- The flaw in the Council's approach to the district heating network from SELCHP is that it is cheaper (for the end users) to install and run independent heating systems. As long as the charges from the Council exceed the yearly costs of independent heating, or other forms of collective heating, the project is a white elephant for anyone other than those forced to take and pay for it.

•

Housing (policies 21-24)

- New housing around the basin should maintain 35% affordable housing
- The AAP is wrong to say that there is no need for studio homes in the affordable sector. This policy needs to be reviewed because of changes including the bedroom tax.
- Object to the striking out of "social rented" homes, and we need to have at least a 70% "social rented housing" or "affordable rent" housing with rents at no more than 30% of market rent.
- Density of developments, is not up to date, not adequately "sound", not justified and effective and not consistent with national policy. It is founded on an evidence base that is not adequately on robust and credible, and reasonable alternatives have not been adequately considered.

Community facilities (policies 26-29a)

- Policy 29 must reflect the need for additional whole community health provision on the Harmsworth Quays site.
- There is a housing crisis and the notion that large developments might delay development and "phase" the delivery of business space to allow for future growth in demand is, on the face of it, a recipe for site left frozen, car parks kept in place, and property built and left unlet.
- The new school is not in the area. There is no local authority control over the school and therefore no assurance that it will be successful and be sustainable.
- Space provided for the community has not been occupied by the community.
- object to Policy 28 because early years child care and schooling is appropriate for all of the core area.
- Health facilities need to be a town centre use and located in a central town centre location.
- Would prefer to see "student accommodation" to be integrated into any so called "campus" provision. It needs to be planned properly and with some care. Recall that student accommodation also becomes kin to "hotel" accommodation when rented out in the holidays.

Albion Street and Lower Road (policies 30 and 31)

- There should be improved access from N Rotherhithe (station area) to Canada Water shops, library, tube and buses.

- The council should work with TfL, PLA and other stakeholders to create a publically accessible river bus pier in or very near St Marys Conservation area to increase the transport provision in the area and to help develop the tourist economy potential.
- On Albion School in policy 30 it should say: Working with the governors and staff to rebuild and expand the school using leading-edge Scandinavian/ Nordic design principals and incorporating facilities for community use.
- Lower Road - Please indicate more clearly where you will carry out public realm improvements

Section 106 planning obligations (policy 33)

- Object to the change of Policy 33 wording and in particular limiting mitigation to site specific impacts of development

Presumption in favour of sustainable development (policy 33a)

- Presumption in favour of sustainable development, is not justified and effective and not consistent with national policy.

Part 6 – delivering the AAP

- There was no mention of upgrading the broadband infrastructure in the area - this would be essential for a new regenerated Canada Water in a digital age. There must be fibre optic broadband throughout the Canada Water area.
- How come this area is getting MORE investment after all the new changes over recent years? Poor old Peckham Town Centre is still waiting for its first round....!?
- References to landowners and leaseholders are not clear.
- The infrastructure plan is out of date. There is insufficient funding for infrastructure and infrastructure is not being provided quickly enough.
- The section on risk is incomplete and needs updating.

Appendices

- Object to striking out of appendices 7.1, 7.2, 7.7 and the glossary.
- The monitoring framework is out of date.
- We also clearly need proposal sites for locations such as the Lower Road Town Centre section.

CWAAP 7

- Required uses are incomplete and need to include health, education etc. and everything that they have sought to carefully exclude.
- The road improvements needs to be triggered by CW AAP 7 or CWAAP 24 (whichever is sooner).

CWAAP 10

- The land referred to abuts a residential development and is immediately opposite Alfred Salter Primary School Sports area. It is therefore not

appropriate that the land could be used for a hotel. (Class C1) nor is it suitable for 50 homes. Uses should include D1 community and low rise business use (B1)

CWAAP 22

- CWAAP 22, the historic crane needs to be protected or relocated.

CWAAP 24

- Policy 29a must ensure that a significant part of Harmsworth Quays site is used for the campus for a reputable higher education institution with exemplary credentials which will enhance the reputation of the area and provide professional long term employment.
- Object to maximising the amount of employment. Employment needs to be optimised with Residential use (Class C3) to include affordable housing.
- Object to CWAAP 7 and CWAAP24. I attached a new proposal site. Indications are that Aviva/Frogmore have no intention to implement the current planning permission for the Leisure site and no intention to make a new planning application either.
- CWAAP 24 or CWAAP 7 need to provide new health facilities for the public and a new leisure centre.

CWAAP 25

- Uses should include D1 community – community allotments and / or playing fields for Alfred Salter and St Johns or a garden centre / nursery. Residential is not appropriate.

Developers/landowners

- Canada Water is being promoted as an Opportunity Area. The draft AAP should reflect this change and reflect the aspiration for high density development in the wider area.
- The draft AAP needs to recognise the potential for high density development. town centre densities of 800-1,110 hr/ha which should be seen as the starting point for development in an Opportunity Area.
- The rationale for the placing of test heights in the November 2013 study is unclear and does not take into account the consented 40-storey building on Site C. Clusters of tall buildings are seen as an appropriate response and it seems to us unsound for the Council to exclude tall building development in other parts of the AAP area without having tested it. The draft AAP places an overreliance on public realm delivery and tall buildings. Public open space is only one of a number of public benefits that a tall building may offer.
- It is unhelpful to refer to a specific quantum of development within the shopping centre site and car parks as proposals should be assessed on a case by case basis.
- The allocation for a mix of town centre uses is supported. However, the draft AAP fails to adequately recognise the role that residential uses will play in enabling development and delivering alternative uses.

- The reference to taking future need for business uses into account should be removed.
- The draft AAP should make it clear that outline applications for tall buildings may be acceptable subject to criteria.
- Residential use should not be required on the Roberts Way site.
- King's College welcomes the acknowledgment in the CWAAP that higher education uses will play a role in transforming Canada Water into a town centre.
- The lack of clarity over the town centre boundary is not helpful and a firm town centre boundary should be established in the CWAAP.
- The consideration of long term options for the provision of sports facilities is welcomed by King's. As a point of information, the masterplan includes sports facilities and King's would intend that these are delivered in association with a wider campus development. It is envisaged that these facilities would also be available for public use and therefore this aspect should be considered as part of the Council's long term options and strategy for the area.
- In terms of the general prevailing heights, we consider that these should be amended to read between 4 and 9 storeys as this seems more appropriate in the context of existing height benchmarks in the core area such as the Water Gardens and the print works.
- The promotion of a business cluster in the core area on the sites identified is supported.
- King's welcomes the inclusion of Policy 29a and its support for the provision of higher education uses at Canada Water. However, we do not see the need for major student developments necessarily to be part of a campus development. The reason that King's acquired the Mulberry site is that this location is very well linked by public transport (Jubilee Line and buses) to all of the College's other campus locations. Therefore, there will be easy access for students to all of King's teaching and other facilities.
- CWAAP 24 represents a new single allocation for Site E, Mulberry, Harmsworth Quays and Surrey Quays Leisure Park to ensure a joined up strategy for bringing forward development on these sites. King's welcomes this new policy but has some detailed comments on it. For the same reasons as set out in response to policy CWAAP 29a above, we consider that the final sentence of this paragraph should be deleted as large scale student accommodation may be acceptable where it is well linked to an existing campus by public transport and is well managed in terms of impacts on residential amenity.
- We believe that the policy should recognise that higher education or student residences use would also be an acceptable land use on the CWAAP 10 site.

Surrey Docks ward councillors

- On page 41 there is a reference to closing the southern end of Surrey Quays Road at its junction with Redriff Road. We would welcome clarification of the reason for this proposal.
- We continue to have significant reservations about the development of tall buildings in the area, and note the similarity of the new proposals within the AAP to proposals put forward by developers.

- We continue to be concerned that no detail has been provided about how the need for both more primary and secondary school places will be addressed in the area.
- We are concerned about the continued absence of detail with regard to expanding local health facilities.
- A new leisure centre was a major part of the 2005 SPD and, as with the absence of ear-marking of sites for additional school places, we are concerned that failure to identify a site for a new facility is running the risk of non-delivery of this community priority.
- We are pleased to see our view, and that of our constituents, on the right turn into Surrey Quays Road from Lower Road reflected in the AAP. However, we feel that a clear timeframe for the change should be set out within the revised document.
- We would also like to take this opportunity to reemphasise the need for much improved broadband infrastructure, both for residential and commercial use, given the increasing number of residents who work from home and the number of new businesses that we all hope will establish themselves locally.

GLA

- The RCWAAP is in general conformity with the London Plan.
- In light of the publication of the Further Alterations to the London Plan that identifies Canada Water as a potential new opportunity area, it can be questioned whether the quantum of jobs and minimum new homes identified in the core area of the Area Action Plan is ambitious enough to realise its full potential and at the same time make a significant contribution towards meeting London's housing needs.

Transport for London

- The Mayor currently has no plans to extend the cycle hire scheme to Canada Water. However, however it is considered the prerogative of the borough if they wish to include such statements in their policy documents, provided it is made clear that delivery of such a scheme will require the support of the Mayor and funding to be identified. A delivery timescale of 2016-2020 would be more realistic, rather than by 2015.
- The Mayor currently has no plans to promote a new bridge from Rotherhithe to Canary Wharf.
- The commitment to re-run the modelling to make sure that the strategy for improving transport in the AAP area remains robust is strongly supported and TfL would welcome, and strongly recommend, involvement in this, particularly as the area could become an Opportunity Area.
- Page 30 Paragraph 4.3.11 - The commitment to work with TfL to assess and monitor the need for increased bus frequencies or new services and to secure additional s106 funding is strongly welcomed. Additional text is requested (underlined) in order not to be unduly restrictive: 'to pump prime new or enhanced bus services is welcomed'.
- Policy 8 states that 'TfL plan to signalise the roundabout at the entrance to the Rotherhithe Tunnel'. However, full signalisation of the roundabout is not currently part of cycle superhighway (CS) 4 proposals and there are currently no further proposals beyond that. Therefore it should read 'As a part of the

TfL plan to ~~signalise~~ improve the roundabout at the entrance to the Rotherhithe Tunnel associated with cycle superhighway 4 (CS4) proposals. Cycle Superhighway 4 delivery is scheduled for 2015, but not April.

- Siting of tall buildings around Canada Water station must consider loading on subsurface railway lines.

Environment Agency

- Overall the Revised Canada Water Area Action Plan appears to comply with the legal requirements and appears 'sound'.
- However, we would recommend inclusion of the following policy. The council will seek to minimise the impact of flooding in the Canada Water Area Action Plan area through taking account of the flood risk management measures identified by the Thames Estuary 2100 Plan, ensuring development does not increase flood risk and where possible reduces flood risk for all forms of flooding. For developments adjacent to the River Thames, maintenance, remediation and improvements to the flood defence walls will be required where necessary.

Sport England

- Sport England objects to the proposed loss of sports facilities and car parking ancillary to the use of the Surrey Docks stadium and recommends that this site is removed from the schedule of proposals sites.

Port of London Authority

- Paragraph 2.1.5 gives details of tube/railway/bus stations but no reference is made to river infrastructure such as the Hilton Docklands Nelson pier which provides a cross river service to Canary Wharf. 2.1.5 should be expanded to include details of existing piers and the River Action Plan's desire for better piers.

Thames Water

- Thames Water have previously raised some concerns over water and wastewater network capacity in the area during earlier consultations on the Canada Water Area Action Plan. It is noted that the revisions to the AAP set out on page 60 increase the estimated number of homes that could be provided within the AAP area. The existing text included in the Area Action Plan in sections 6.4.12 and 6.4.13 is supported and will be essential to ensure that any development is accompanied by any necessary upgrades to water and wastewater infrastructure.

3.2 HOW THESE ISSUES BEEN TAKEN INTO ACCOUNT

Vision

- 3.2.1 Early consultation on the revisions to the plan which took place through the November 2012 workshop demonstrated strong support for increasing the amount of business space at Canada Water and working with King's College to

bring a new university campus to the area. The benefits were seen to be more jobs, greater daytime activity, a boost to the local economy and “kudos” that a major university would bring. At draft Revised AAP stage there was also strong support from local residents and community grounds for maximising the amount of business use. Some people expressed concern about whether the amount of retail space that the plan envisaged could be delivered, given the completion of Westfield Stratford and growth of internet shopping.

- 3.2.2 In the publication/submission draft the council sought to reinforce the vision by referring specifically to support for higher education use and also recognising the potential to diversify the town centre, encouraging a range of town centre uses.

Further alterations to the London Plan

- 3.2.3 At publication/submission stage a few respondents questioned whether the AAP is consistent with proposals in the Further Alterations to the London Plan. It is important to note that there is no requirement for the AAP to be in conformity with the FALP. The GLA have confirmed that it is in general conformity with the adopted plan. Notwithstanding this, the council does not consider that the FALP would undermine the AAP and is proposing minor modifications which the publication of the FALP and make reference to proposed targets.

Shopping

- 3.2.4 An objection was received that the list of sites in policy 1 should be expanded to include CW AAP 24 and the council amended the plan. A further objection stated that the town centre boundary should be expanded to include the entirety of CW AAP 24. The council has not made this change. Its view is that the approach in the AAP is positive and represents an appropriate means for managing the growth of the town centre, in accordance with NPPF paragraph 23. While the AAP requires maximum provision of town centre uses on Harmsworth Quays and the adjacent sites, there is still some uncertainty over the quantum and distribution of such uses. In the light of that the council does not consider it appropriate at this stage to include the whole of Harmsworth Quays within the town centre. The boundary of the town centre will be defined in the future to cover that area which is predominantly occupied by town centre uses, in accordance with the NPPF.
- 3.2.5 The council recognises that the indicative boundary shown in the draft revised AAP was confusingly precise and in the publication/submission draft proposed making it more indicative.

Transport

- 3.2.6 At informal consultation and draft revised stages there was broad support for improvements to the pedestrian and cycling network. Some respondents stated that improvements to Lower Road need to be implemented urgently. Together with TfL Southwark has commissioned Mouchel to carry out a feasibility study and consultation on proposals is expected later in 2014. Mouchel are working to an assumption that the project should be delivered in 2015 in order to meet TfL's aim of implementing the cycle superhighway on Lower Road in 2015.

- 3.2.7 At publication/submission stage a number of people mentioned the need to reinforce links between Albion Street and the town centre. The council agrees that this is important. AAP policy 30 explicitly states that the council aims to promote the regeneration of Albion Street through improving links to the street.
- 3.2.8 Several respondents stated that the council should promote new river services from Rotherhithe. There is an existing pier at Cherry Gardens, which is close to Rotherhithe village. At issues and options stage in preparing the adopted AAP the council consulted on the option of promoting a new pier in Rotherhithe, but it was considered to be duplicating provision at Cherry Gardens. The Mayor's River Action Plan has no proposals for new services from Rotherhithe. Nevertheless, AAP policy 7 states that the council will work with TfL to improve public transport including river transport, which provides sufficient flexibility to address future provision from Rotherhithe, should the opportunity arise.
- 3.2.9 One respondent emphasised that better connections should be made between Lower Road and the shopping centre. Again, the council agrees. The need to improve connections to Lower Road is recognised in AAP policies 6, 16 and 31.

Leisure facilities

- 3.2.10 At consultation on each stage, some considered that the 7 islands Leisure Centre should be refurbished urgently and others thought that a new site should be found. The council has committed to refurbishing 7 Islands to extend its life by up to 10 years. The council is exploring whether a new leisure centre can be provided in the town centre in the longer term. King's College have proposed a new centre as part of a campus development and the council is keen to explore this option with King's College and British Land.

Arts, cultural and tourism

- 3.2.11 A suggestion was made at revised draft stage to extend the boundary of the strategic cultural area (SCA) to include the churches on Albion Street. The current boundary was designated during the preparation of the Southwark Plan and was included on the adopted policies map following a recommendation by the Southwark Plan (2007) Inspector. The SCA includes the concentration of cultural and tourism uses around St Mary's Church. The two churches on Albion Street are relatively isolated from the SCA and there are a lot of residential streets between the SCA and Albion Street. On balance it was not considered that there is justification to extend the boundary.
- 3.2.12 At publication/submission stage, several respondents stressed the desirability of encouraging Nordic design around Albion Street. Policy 13 states that the council will support opportunities to reinforce historic links with Scandanavia and the Baltic region. To go further at this stage and prescribe Nordic designs to buildings would be too inflexible.

Building heights

- 3.2.13 The summary of consultation responses above, suggests that views on the potential for tall buildings are mixed. Both in response to the November 2012 informal consultation and to the revised draft AAP consultation there was both support and opposition to tall buildings. At revised draft AAP stage, those representations which supported provision of tall buildings in principle emphasised the need for high quality of design and careful analysis to ensure that impacts on wind and overshadowing are avoided. Southwark considers that the criteria which are proposed in policy 17 are robust and should serve to secure well designed buildings and an attractive and comfortable public realm.
- 3.2.14 English Heritage suggested that the concept of “special buildings” should be more clearly defined and amendments were proposed to the publication/submission draft in this respect.
- 3.2.15 British Land stated that tall buildings should be allowed both in the town centre and outside in important locations. The council’s view is the tall buildings should be located in the town centre to help define the importance of the centre, contribute to its legibility, reflect generally better public transport accessibility in the centre and because they are capable of accommodating land uses which reinforce the vitality and viability of the town centre. The council explored a range of options with regard to building heights, using a methodology that was in accordance with best practice guidance. The council considers the approach to tall buildings to be consistent with the evidence base.

Open space

- 3.2.16 There was broad support for the protection of the proposed additional open spaces. A suggestion was made that the council designate the space adjacent to St Olav’s Court as “other open space”. However this suggestion has not previously been the subject of any previous consultation and the council considers it too late to include at publication stage. The merits of whether it could be protected could be reviewed through the preparation of the local plan.
- 3.2.17 Sport England have recommended that the site allocation for the former Surrey docks stadium be deleted. However, this allocation was included in the adopted AAP and has already been subject to an examination-in-public. The site has been acquired by Fairview New Homes who plan to compensate for the loss of the existing sports pitch by refurbishing the St Paul’s playing field, enabling future use by Fisher Athletic and other users.
- 3.2.18 A few respondents stated that the council should protect amenity spaces on housing estates. However, the council is not proposing to do this. The 2013 open space strategy emphasises the importance of amenity spaces in enabling informal recreation close to residential areas and their potential as a biodiversity and community gardening resource. The audit of amenity spaces we carried out found that generally their quality was below that of the borough’s parks. This was also reflected in the perceptions of residents contacted in the residents’ survey carried out to inform the strategy. In the light of this, the strategy states that we will work with registered providers and other partners to identify opportunities to improve the role and quality of amenity spaces. The council’s Cleaner, Greener, Safer scheme is a good example of a programme which has helped secure small

scale improvements which encourage a range of activities including food growing, nature conservation and recreation.

- 3.2.19 Our approach in the open space strategy is consistent with the approach taken in the Southwark Plan which is explicit in not protecting amenity spaces. The most effective way of providing good quality amenity space is through policies in the Southwark Plan, Core Strategy and Residential Design Standards SPD which require provision of private amenity space for family homes, communal amenity space and children's play facilities in all residential developments. These include requirements to provide at least: 50sqm of communal amenity space per residential block, 10sqm of private amenity space for homes with 3 or more bedrooms and 10sqm of playspace per child. This is reinforced by the Core Strategy which requires developers to improve the overall greenness of development sites.
- 3.2.20 Our urban design policies provide an effective means of assessing the contribution which amenity spaces make to the character of the built environment and the borough's heritage.

Housing

- 3.2.21 At draft revised AAP stage, a number of respondents stated that more affordable housing is needed. The council understands this but does not consider that there are circumstances which would enable a revision of the affordable housing thresholds or targets in the plan. The GLA stated that the affordable housing split does not refer to affordable rented housing and is therefore not in general conformity with the London Plan. The council has proposed to delete the reference to this split and instead rely on the core strategy policy, which the GLA has confirmed is acceptable.

Jobs and business

- 3.2.22 In both informal consultation and in response to consultation on the draft revised AAP, there was support for policies which seek to promote jobs and business. One objection stated that references to taking future demand into account should be deleted.
- 3.2.23 The council disagrees with the proposal to delete the reference to phasing. The nature of Canada Water will change over the life of the plan. Redevelopment and regeneration will change perceptions of the area, making it a more attractive area for businesses. Improvements in the physical environment and the provision of amenities which can complement business uses including shops and restaurants, hotels, higher education and leisure facilities will help change perceptions of the area. This has been the conclusion of a number of studies, including the council's Non-residential uses study 2012 (refer to sections 6.3 and 4.2) and the Southwark's Employment Land Review 2010.
- 3.2.24 Annex 2 of the London Plan indicates that Canada Water has high capacity for growth with moderate levels of demand for office floorspace. The draft FALP (2014) refer to scope for a substantial increase in employment capacity and the potential for a new science cluster.
- 3.2.25 Due to the scale and nature of the changes that are going to take place in the area and if the area is to achieve the potential set out in the AAP vision and the draft FALP designation, the council considers that the policy should be flexible and must allow the area to grow. It is essential that the site allocation recognises the dynamism of the area. Development on CWAAP 24 will be implemented over 10-15 years and during that time the demand for business floorspace in the area may increase significantly.
- 3.2.26 The council is proposing a minor modification to the risk section of the AAP, explaining how the council has sought to mitigate risks associated with delivery of commercial and university uses.

Schools

- 3.2.27 At draft revised AAP stage some respondents stated that the council should continue with the original plan to build a new secondary school in Rotherhithe. However, policy 26 in the AAP was updated to recognise that circumstances have changed. A new school which would provide 4FE has been approved to open in September 2013 in Bermondsey. While a closer secondary school would have advantages, there is no government funding available for it.
- 3.2.28 Concerns were expressed about provision of primary school places. The council recognises that in keeping with the experience of local authorities across the country, the borough is experiencing rising demand for primary places. The council has agreed a two stage programme for addressing needs. This includes a mix of permanent expansions and free schools. The need for primary school places will be kept under review throughout the AAP period.

Community facilities

- 3.2.29 In revising the AAP we have reassessed infrastructure requirements needed to support growth of the life of the plan. The plan highlights the need for a range of facilities including new school places, pre-school facilities, health facilities and transport infrastructure. The council will use s106 and in the future CIL to help secure infrastructure improvements. Our strategy is to locate local facilities together so that the services required by the community including, housing services, services for young people, health centres, community space and facilities for the police are provided in accessible locations in a way in which different facilities can complement and support each other.
- 3.2.30 An example of this approach is the new library at Canada Water which provides exhibition and performance space and focuses strongly on facilities for and participation by young people and families, providing a base for Southwark Young People's Forum. It is also hired out to faith groups.
- 3.2.31 Several respondents states that the plan should provide further detail about expanding health facilities. The council has consulted NHS Southwark in preparing the revisions to the AAP. Policy 29 states that the council will work with NHS Southwark to ensure that the need for health facilities is met and states that the preferred site for a new health facility is the core area. The need for health facilities will be kept under review as sites are developed. The policy would not exclude provision of a new or replacement facility on Albion Street, which is located in the core area.

Student housing and higher education facilities

- 3.2.32 There was broad support for provision of university facilities. King's College objected to the requirement for large developments for student accommodation to be accompanied by other campus facilities and stated that the threshold of 300 bed spaces is not a large development. Southwark has chosen to maintain the policy as large student housing developments need to contribute to the AAP vision of diversifying and reinforcing the town centre. The majority of student housing developments in Southwark have less than 300 bedspaces and all the larger developments are either in the CAZ and/or close to campuses, where they can benefit from a direct access to university facilities and a range of supporting infrastructure.

Infrastructure and delivery

- 3.2.33 At publication/submission stage several respondents stated that the plan should recognise the need to improve broadband infrastructure. The council is proposing minor modifications which identify this need.
- 3.2.34 At publication/submission stage, several comments were made about the section of the plan that addresses delivery and risk. The council is proposing some minor modifications to the AAP to update the plan in this regard and to provide some clarification on risk associated with delivery of business and non-residential space.

Site allocation for CW AAP 24

3.2.35 At both informal consultation stage and in consultation on the draft revised AAP there was broad support from members of the public for maximising the amount of non-residential use which could be provided on site CW AAP 24. British Land objected on the grounds that residential should be a required use. In the council's view the policy reflects the council's ambition to maximise the amount of non-residential use which can be provided. It sets out clear criteria to ensure that where land is not required for non-residential use, it could be used for residential. The criteria which are set out reflect the guidance in paragraph 22 of the NPPF which states that where there is no reasonable prospect of a site being used for employment use, alternatives can be considered on their merits and having regard to market signals.

3.2.36 BL also objected to the implication that higher education use should be a required use. The supporting text was clarified to make it explicit that the policy is flexible about the range of non-residential uses which can be provided and does not require higher education use. The reference to the capacity of the site has also been revised to address concerns by BL.

Site allocation for CW AAP 25

3.2.37 At publication/submission stage, several respondents considered that CW AAP25 (Land at Roberts Close) should be allocated for open space or community uses. The council considers that the plan contains sufficient flexibility to allow open space or community uses, both are which are recognised as acceptable uses. The site was also thought appropriate for residential uses given adjacent allocations, the distance from the town centre and potential to design a residential scheme such that it could be compatible with the adjacent MOL designation.

4 MONITORING THE CONSULTATION

4.1.1 Throughout the consultation programme, monitoring will take place to ensure that the requirements of the Equalities Act 2010 are met and that impacts on groups with protected characteristics are assessed. This includes the monitoring of the respondents age, gender and ethnicity. A monitoring form was included in the consultation questionnaires at draft revised state. Table 1 below sets out the diversity of the respondents that took part in the consultation on the draft revised AAP. The results were obtained by those that completed the monitoring (40 of the 70 draft revised AAP respondents at draft revised AAP stage completed the monitoring information). At publication stage, the number of monitoring forms submitted was too few to draw meaningful conclusions.

Table 1. Monitoring the consultation at draft revised AAP stage

Group	How consulted	Analysis
Gender i.e. • Women	In response to the draft revised AAP consultation 47% of respondents were male and 53% were female.	A roughly equal percentage of men and women responded to the questionnaires.

<ul style="list-style-type: none"> • Men • Transgender 	No information was gathered regarding transgender respondents.	
<p>Age</p> <p>i.e.</p> <ul style="list-style-type: none"> • Under 16 • 16-24 • 25-35 • 36-55 • 56 & over 	<p>Respondents to the draft revised AAP were of a range of age groups, as follows:</p> <p>0% under 16 year olds 3% 16-24 year olds 30% 25-35 year olds 37% 36-55 year olds 30% over 56 years old</p>	<p>Younger people were under-represented among respondents. Some activities for younger people and children were provided during consultation events, although few young people filled in a questionnaire.</p>
<p>Disabled People</p> <p>i.e.</p> <ul style="list-style-type: none"> • Disabled or not 	<p>In response to the draft revised AAP questionnaire 3 respondents (10%) were disabled.</p>	<p>Local disability groups were consulted in the draft revised AAP. The council ensure that all locations for the consultation exhibitions and surgeries were DDA compliant. The council's publicity indicated that consultation materials could be made available in other formats, including audio translations and large print.</p>
<p>Ethnicity</p> <p>i.e.</p> <ul style="list-style-type: none"> • White • Mixed • Asian or Asian British • Black or Black British • Chinese or other ethnic group 	<p>The ethnic diversity profile of respondents to the draft revised AAP consultation received was as follows:</p> <p>56% White British 18% White other 3% Irish 3% Bangladeshi 5% Chinese 10% African 3% Indian 2% Mixed background</p>	<p>Respondents had a range of ethnic backgrounds, although the proportion with white British backgrounds was higher than census figures show for the AAP area (Surrey Docks ward 47% white British and Rotherhithe ward 41% white British).</p>

APPENDIX 3: DRAFT REVISED AAP NOTIFICATION LETTER

Planning Policy	
Direct line:	020 7525 5471
Email:	planningpolicy@southwark.gov.uk

11 June 2013

Dear Sir Madam

- DRAFT REVISED CANADA WATER AREA ACTION PLAN (AAP) (CONSULTATION UNDER REGULATION 18 OF THE TOWN AND COUNTRY PLANNING (LOCAL PLANNING) (ENGLAND) REGULATIONS 2012)**
- CAMBERWELL SUPPLEMENTARY PLANNING DOCUMENT**

I am writing to notify you that we are either currently consulting or soon to begin consulting on the above documents.

1. DRAFT REVISED CANADA WATER AREA ACTION PLAN (AAP)

We are seeking your views on the draft revised Canada Water area action plan (AAP). The AAP was agreed in March 2012 and sets out the vision and policy that guides the development of the area. In 2011 the Daily Mail announced it would be moving its printworks away from Harmsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The proposed changes to the agreed AAP relate mainly to:

- The mix of land uses we would like to see on Harmsworth Quays and the adjacent sites, such as higher education, business, leisure etc.
- Transport, including pedestrian and cycle routes.
- The height of new buildings and potential for public realm improvements.
- Open spaces to be protected from development.
- Infrastructure, including schools and leisure facilities.

Where can I view the draft revised Canada Water AAP?

The draft revised Canada Water AAP and all of the documents that support it are available to view on the council's website at: <http://www.southwark.gov.uk/canadawateraap>

There are a number of documents which support draft revised Canada Water AAP including a Sustainability Appraisal Report, an Equality Analysis, a Consultation Plan and an Appropriate Assessment. These are also available on our website.

You can also view all of these documents in the following locations between **18 June and 30 July 2013**, at the specified times:

Canada Water library, 21 Surrey Quays Road, London, SE16 7AR (Opening hours vary)
Abbeyfield Road housing services office, 153-159 Abbeyfield Road, London, SE16 2BS
(Monday - Friday, 9am-5pm)
On request at the **Council's offices at 160 Tooley Street**, SE1 2QH (Monday – Friday, 9am-5pm)

How do I comment on the draft revised Canada Water AAP?

To comment on the draft revised Canada Water AAP you can:

- use the online questionnaire, available at www.southwark.gov.uk/canadawateraap
- email us at: planningpolicy@southwark.gov.uk
- write to us at: Planning policy, Chief Executive's Department, FREEPOST SE1919/14, London, SE1P 5LX

All comments on the draft revised Canada Water AAP must be received by **5pm Tuesday 30 July 2013.**

To give you the chance to find out more, have your say or just to ask questions, we will be holding a number of consultation events between now and 30 July 2013.

Exhibitions

17-23 June 2013 - Canada Water library

8-14 July 2013 - Surrey Quays Shopping Centre

Drop in sessions - come and speak to council officers

Tuesday 18 June 2013, 5.30pm-7.45pm - Canada Water library

Thursday 20 June 2013, 10.30am-1pm - Canada Water library

Saturday 22 June 2013, 10.30am-1pm - Canada Water library

Saturday 6 July 2013 12pm-4pm, Bermondsey Carnival, Southwark park

Tuesday 9 July 2013, 10.30am-1pm - Surrey Quays Shopping Centre

Thursday 11 July 2013, 5.30pm-7.45pm - Surrey Quays Shopping Centre

Saturday 13 July 2013, 10.30am-1pm - Surrey Quays Shopping Centre

Bermondsey and Rotherhithe Community Council

26 June 2013 (venue to be confirmed)

2. CAMBERWELL SUPPLEMENTARY PLANNING DOCUMENT

We are preparing a supplementary planning document (SPD) for Camberwell. It will set out detailed guidance for how development should happen in Camberwell, providing information and guidance on important topics such as design, heritage, public realm and transport.

We consulted on an initial "Vision and issues" document for 12 weeks, with consultation closing on 12 April. Thank you to all of you who attended our consultation events or provided comments on the document. We have looked at all the comments we have received and prepared an initial brief report, summarising this early stage of consultation and the comments.

We are now looking in more detail at all the comments received to help us prepare a draft SPD. We plan to consult on the draft SPD for 12 weeks from September to December 2013.

Further information is available on our website at: <http://www.southwark.gov.uk/camberwellspd>

Yours faithfully

Juliet Seymour,
Planning Policy Manager

**APPENDIX 4: REVISED CANADA WATER AAP PUBLICATION/
SUBMISSION DRAFT NOTIFICATION LETTER**

19 December 2013

Dear «First_name» «Last_name»

I am writing to notify you that we are currently consulting on the following planning documents.

1. REVISED DRAFT COMMUNITY INFRASTRUCTURE LEVY (CIL) CHARGING SCHEDULE

The Community Infrastructure Levy (CIL) is a new levy that local authorities can choose to charge on new developments in their area. The money can be used to support new development by funding strategic infrastructure that the council, local community and neighbourhoods want.

Southwark is intending to become a CIL charging authority under the Planning Act 2008 and Community Infrastructure Levy Regulations 2010 (as amended). In order to do so, Southwark must prepare and consult on a charging schedule which sets out the charging rate(s) (per square metre of new floorspace) to be levied on new development in the borough. These rates need to be supported by evidence including a study of the economic viability of new development and an Infrastructure Plan which sets out Southwark's infrastructure needs over the next 15 years.

We have consulted previously on the 'Preliminary' draft CIL Charging Schedule from July to October 2012 and a Draft CIL Charging Schedule from February to April 2013. We have now revised the Draft CIL Charging Schedule and have published it for a second round of consultation. Following this second round of consultation we will be submitting the Revised Draft CIL Charging Schedule and all of the representations received during the consultation to the Planning Inspectorate for an examination-in-public (EIP).

There are a number of documents which support the Revised Draft CIL Charging Schedule including a Draft Regulation 123 List, an Infrastructure Plan, an Equality Analysis, a Consultation Plan, a Consultation Report and economic viability studies.

In your representation to us please also let us know if you would like to be notified at a specified address of any of the following:

- (i) That the Revised Draft CIL Charging Schedule has been submitted to the CIL Examiner in accordance with section 212 of the Planning Act 2008;

- (ii) The publication of the recommendations of the CIL Examiner and the reasons for those recommendations; and
- (iii) The approval of the CIL charging schedule by the council.

At the EIP you have a right to be heard by the CIL Examiner. In your representation you must notify us if you wish to speak at the EIP hearings.

2. DRAFT SECTION 106 PLANNING OBLIGATIONS/COMMUNITY INFRASTRUCTURE LEVY SUPPLEMENTARY PLANNING DOCUMENT

The council is consulting on a draft SPD concurrently with the Revised Draft CIL Charging Schedule. The draft SPD will supersede the existing Section 106 Planning Obligations SPD (2007) which will be out-of-date when the council adopts its Community Infrastructure Levy in 2014. The draft SPD provides detailed guidance on the use of planning obligations alongside Southwark's CIL. The draft SPD provides applicants with guidance on the most commonly sought site specific Section 106 planning obligations and also provides a clear methodology for calculating these obligations.

There are a number of documents which support Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD including an Equality Analysis, a Consultation Plan and a Strategic Environmental Assessment Screening Report.

3. REVISED CANADA WATER AREA ACTION PLAN (PUBLICATION/SUBMISSION VERSION)

The council is consulting on the Revised Canada Water area action plan (AAP) (publication/submission version). The AAP was agreed in March 2012 and sets out the vision and policy that guides the development of the area. In 2011 the Daily Mail announced it would be moving its printworks away from Harmsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The changes to the agreed AAP relate mainly to:

- The mix of land uses we would like to see on Harmsworth Quays and the adjacent sites, such as higher education, business, leisure etc.
- Transport, including pedestrian and cycle routes.
- The height of new buildings and potential for public realm improvements.
- Open spaces to be protected from development.
- Infrastructure, including schools and leisure facilities.

There are a number of documents which support the Revised Canada Water AAP including a Sustainability Appraisal Report, an Equality Analysis, a Consultation Plan, a Consultation Report, an Appropriate Assessment and feasibility and viability studies.

Following consultation, we will submit the Revised Canada Water AAP to the Secretary of State for Communities and Local Government for an examination-in-public (EIP).

In your representation to us please also let us know if you would like to be notified at a specified address of any of the following:

- (i) That the Revised Canada Water AAP has been submitted to the Secretary of State in accordance with section 20 of the Act;

- (ii) The publication of the recommendations of the person appointed to carry out an independent examination of the Revised Canada Water AAP under section 20 of the Act; and
- (iv) The adoption of the Revised Canada Water AAP by the council.

Where can I view the documents?

The Revised Draft CIL Charging Schedule, the Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD and the Revised Canada Water AAP and supporting documents are available to view on the council's website at:

Revised Draft CIL Charging Schedule:

http://www.southwark.gov.uk/info/856/planning_policy/2696/community_infrastructure_levy

Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD:

http://www.southwark.gov.uk/info/200151/supplementary_planning_documents_and_guidance/3243/section_106_planning_obligationscil_spd

Revised Canada Water AAP: <http://www.southwark.gov.uk/canadawateraap>

From 14 January 2014 you will be able to view the Revised Draft CIL Charging Schedule, the Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD and the Revised Canada Water AAP in the locations listed on the final page of this letter at the specified times. The supporting feasibility and economic viability studies are available to view at the council's offices and on the website.

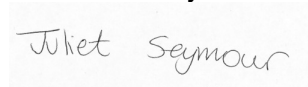

How do I comment on the documents?

To comment on the documents you can:

- use the online response forms available on our website
- email us at: planningpolicy@southwark.gov.uk
- write to us at: Planning policy, Chief Executive's Department, FREEPOST SE1919/14, London, SE1P 5LX

Formal public consultation on all the documents will commence on **Tuesday 14 January 2014**. Comments on all documents must be received by **5pm Tuesday 25 February 2014**.

Yours faithfully

Juliet Seymour
Planning Policy Manager

You can see a hard copy of all of the documents at the locations listed below.

**Planning and Compulsory Purchase Act 2004 (as amended by the Planning Act 2008)
Consultation under Regulation 18, The Town and Country Planning (Local Planning) (England)
Regulations 2012**

Notice of consultation on the draft revised Canada Water Area Action Plan

We are seeking your views on the draft revised Canada Water area action plan (AAP). The AAP was adopted in March 2012 and sets out the vision and policy that guides the development of the area. In 2011 the Daily Mail announced it would be moving its printworks away from Harmsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The proposed changes to the agreed AAP relate mainly to:

- The mix of land uses we would like to see on Harmsworth Quays and the adjacent sites, such as higher education, business, leisure etc.
- Transport, including pedestrian and cycle routes.
- The height of new buildings and potential for public realm improvements.
- Open spaces to be protected from development.
- Infrastructure, including schools and leisure facilities.

Documents which accompany the AAP

The draft revised Canada Water AAP is accompanied by a Sustainability Appraisal Report, an Equality Analysis, a Consultation Plan and an Appropriate Assessment.

How to comment

You can comment on the documents by filling in our online questionnaire, which can be found at the council's website www.southwark.gov.uk/canadawateraap or by emailing planningpolicy@southwark.gov.uk or by writing to us at: Planning Policy, Chief Executive's Department, FREEPOST SE1919/14, London, SE1P 5LX.

Please send us your comments by **5pm on Tuesday 30 July 2013**.

Your representations may be accompanied by a request to be notified at a specified address of any of the following:

- i. the submission of the AAP for independent examination under section 20 of the Act,
- ii. the publication of the recommendations of the person appointed to carry out an independent examination of the AAP under section 20 of the Act, and
- iii. the adoption of the AAP.

Availability of documents

All the documents are available to view on the council's website (available 24 hours, 7 days a week): www.southwark.gov.uk/canadawateraap

The Area Action Plan and supporting documents will also be available between 18 June 2013 and 30 July 2013 at the following locations:

Abbeyfield Road housing services office, 153-159 Abbeyfield Road, London, SE16 2BS (Monday - Friday, 9am - 5pm)

Documents are also available on request at the Council's offices at 160 Tooley Street, SE1 2QH (Monday - Friday, 9am-5pm)

APPENDIX 6: REVISED CANADA WATER AAP PUBLICATION/SUBMISSION DRAFT PRESS ADVERTISEMENT

Published Thursday January 9 2014

NOTICE OF FORMAL CONSULTATION ON DRAFT PLANNING DOCUMENTS

1. REVISED DRAFT COMMUNITY INFRASTRUCTURE LEVY (CIL) CHARGING SCHEDULE

The Community Infrastructure Levy (CIL) is a new levy that local authorities can choose to charge on new developments in their area. The money can be used to support new development by funding strategic infrastructure that the council, local community and neighbourhoods want.

Southwark is intending to become a CIL charging authority under the Planning Act 2008 and Community Infrastructure Levy Regulations 2010 (as amended). In order to do so, Southwark must prepare and consult on a charging schedule which sets out the charging rate(s) (per square metre of new floorspace) to be levied on new development in the borough. These rates need to be supported by evidence including a study of the economic viability of new development and an Infrastructure Plan which sets out Southwark's infrastructure needs over the next 15 years.

We have consulted previously on the 'Preliminary' draft CIL Charging Schedule from July to October 2012 and a Draft CIL Charging Schedule from February to April 2013. We have now revised the Draft CIL Charging Schedule and have published it for a second round of consultation. Following this second round of consultation we will be submitting the Revised Draft CIL Charging Schedule and all of the representations received during the consultation to the Planning Inspectorate for an examination-in-public (EIP).

There are a number of documents which support the Revised Draft CIL Charging Schedule including a Draft Regulation 123 List, an Infrastructure Plan, an Equality Analysis, a Consultation Plan, a Consultation Report and economic viability studies.

In your representation to us please also let us know if you would like to be notified at a specified address of any of the following:

- (i) That the Revised Draft CIL Charging Schedule has been submitted to the CIL Examiner in accordance with section 212 of the Planning Act 2008;
- (ii) The publication of the recommendations of the CIL Examiner and the reasons for those recommendations; and
- (iii) The approval of the CIL charging schedule by the council.

At the EIP you have a right to be heard by the CIL Examiner. In your representation you must notify us if you wish to speak at the EIP hearings.

2. DRAFT SECTION 106 PLANNING OBLIGATIONS/COMMUNITY INFRASTRUCTURE LEVY SUPPLEMENTARY PLANNING DOCUMENT

The council is consulting on a draft SPD concurrently with the Revised Draft CIL Charging Schedule. The draft SPD will supersede the existing Section 106 Planning Obligations SPD (2007) which will be out-of-date when the council adopts its Community Infrastructure Levy in 2014. The draft SPD provides detailed guidance on the use of planning obligations alongside Southwark's CIL. The draft SPD provides applicants with guidance on the most commonly sought site specific Section 106 planning obligations and also provides a clear methodology for calculating these obligations.

There are a number of documents which support Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD including an Equality Analysis, a Consultation Plan and a Strategic Environmental Assessment Screening Report.

3. REVISED CANADA WATER AREA ACTION PLAN (PUBLICATION/SUBMISSION VERSION)

The council is consulting on the Revised Canada Water area action plan (AAP) (publication/submission version). The AAP was agreed in March 2012 and sets out the vision and policy that guides the development of the area. In 2011 the Daily Mail announced it would be moving its printworks away from Harmsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The changes to the agreed AAP relate mainly to:

- The mix of land uses we would like to see on Harmsworth Quays and the adjacent sites, such as higher education, business, leisure etc.
- Transport, including pedestrian and cycle routes.
- The height of new buildings and potential for public realm improvements.
- Open spaces to be protected from development.
- Infrastructure, including schools and leisure facilities.

There are a number of documents which support the Revised Canada Water AAP including a Sustainability Appraisal Report, an Equality Analysis, a Consultation Plan, a Consultation Report, an Appropriate Assessment and feasibility and viability studies.

Following consultation, we will submit the Revised Canada Water AAP to the Secretary of State for Communities and Local Government for an examination-in-public (EIP).

In your representation to us please also let us know if you would like to be notified at a specified address of any of the following:

- (i) That the Revised Canada Water AAP has been submitted to the Secretary of State in accordance with section 20 of the Act;
- (ii) The publication of the recommendations of the person appointed to carry out an independent examination of the Revised Canada Water AAP under section 20 of the Act; and
- (iv) The adoption of the Revised Canada Water AAP by the council.

Where can I view the documents?

The Revised Draft CIL Charging Schedule, the Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD and the Revised Canada Water AAP and supporting documents are available to view on the council's website at:

Revised Draft CIL Charging Schedule: http://www.southwark.gov.uk/info/856/planning_policy/2698/community_infrastructure_levy

Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD:
http://www.southwark.gov.uk/info/200151/supplementary_planning_documents_and_guidance/3243/section_106_planning_obligationscil_spd

Revised Canada Water AAP: <http://www.southwark.gov.uk/canadawaterap>

From 14 January 2014 you will be able to view the Revised Draft CIL Charging Schedule, the Draft Section 106 Planning Obligations/Community Infrastructure Levy SPD and the Revised Canada Water AAP in the locations listed below at the specified times. The supporting feasibility and economic viability studies are available to view at the council's offices (160 Tooley Street) and on the website.

How do I comment on the documents?

To comment on the documents you can:

- use the online response forms available on our website (see the weblinks above)
- email us at: planningpolicy@southwark.gov.uk
- write to us at: Planning policy, Chief Executive's Department, FREEPOST SE1919/14, London, SE1P 5LX

Formal public consultation on all the documents will commence on **Tuesday 14 January 2014**. Comments on all documents must be received by **5pm Tuesday 25 February 2014**.

Canada Water area action plan have your say

Draft revised area action plan

June 2013

Have your say on the future of Harmsworth Quays and changes to the Canada Water area action plan

We are seeking your views on our Canada Water area action plan (AAP). The AAP was agreed in March 2012 and sets out the vision and policy that guides the development of the area.

In 2011 the Daily Mail announced it would be moving its printworks away from Harmsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The proposed changes to the agreed AAP relate mainly to:

- > The mix of land uses we would like to see on Harmsworth Quays and the adjacent sites, such as higher education, business, leisure etc.
- > Transport, including pedestrian and cycle routes.
- > The height of new buildings and potential for public realm improvements.
- > Open spaces to be protected from development.
- > Infrastructure, including schools and leisure facilities.

All comments on the draft revised AAP should be given to us by 5pm on Tuesday, July 30 2013.

www.southwark.gov.uk/canadawateraap

How to get involved

To give you the chance to find out more, have your say or just to ask questions, we will be holding a number of consultation events between now and 30 July 2013.

Exhibitions

17-23 June 2013, Canada Water library
8-14 July 2013, Surrey Quays Shopping Centre

Drop-in sessions - come and speak to council officers

Tuesday 18 June 2013, 5.30pm to 7.45pm, Canada Water library
Thursday 20 June 2013, 10.30am to 1pm, Canada Water library
Saturday 22 June 2013, 10.30am to 1pm, Canada Water library
Saturday 6 July 2013 12pm to 4pm, Bermondsey Carnival, Southwark park
Tuesday 9 July 2013, 10.30am to 1pm, Surrey Quays Shopping Centre
Thursday 11 July 2013, 5.30pm to 7.45pm, Surrey Quays Shopping Centre
Saturday 13 July 2013, 10.30am to 1pm, Surrey Quays Shopping Centre

Bermondsey and Rotherhithe Community Council

26 June 2013 (venue to be confirmed)

Your feedback is really important. Visit www.southwark.gov.uk/canadawateraap to view the draft revised AAP or find out more.

View a copy of the draft revised AAP and pick up a questionnaire at Canada Water Library, at the Abbeyfield Road housing services office, or at the council's offices at 160 Tooley Street, London SE1 2QH.

Alternatively contact us at planningpolicy@southwark.gov.uk or on 020 7525 5471 if you would like further information.

Remember to send your comments by 30 July 2013.

REVITALISE¹⁶

Canada Water area action plan have your say

Draft revised area action plan

June 2013

Southwark Council is seeking local people's views on changes to its Canada Water area action plan which will help to shape the development of the area in the future.

A plan for the area was agreed by the council in 2012, but since that time, opportunities to reshape Canada Water have grown following changes at Harmsworth Quays. The Daily Mail's decision to move their printworks away from the area, and to assign their lease to British Land for development, mean that the plan can now influence and shape a much wider area than previously expected.

There have been some big changes in Canada Water recently, and those changes bring big opportunities to bring new life and growth to the area. For such a central and accessible area, it's hard to believe that Canada Water has no real high street. We want to use the opportunity at Harmsworth Quays to bring shops, cafés, jobs and parks as well as homes to the area, and we'd really like to see King's College build a new campus here, with education and leisure facilities to benefit local people.

Everyone can comment on the area action plan and I'd really like to hear people's views on the new document, which we hope will help to shape Canada Water into a thriving area with a vibrant centre and more local opportunities.

Councillor Fiona Colley
Cabinet member for regeneration and corporate strategy

What we are consulting on

The Canada Water area action plan (AAP) sets out the vision and policy that guides the development of the area. We are revising the AAP to put in place a policy framework to guide a redevelopment of Harmsworth Quays and take account of the implications of this for the wider area. The main changes we are proposing to the AAP are set out here.

We will be consulting on the proposals until 30 July 2013.

Visit www.southwark.gov.uk/canadawateraap to view the draft revised AAP or find out more.

View a copy of the draft revised AAP and pick up a questionnaire at Canada Water Library, at the Abbeyfield Road housing services office, or at the council's offices at 160 Tooley Street, London SE1 2QH.

www.southwark.gov.uk/canadawateraap

What we are consulting on

Town centres

Our aim is to maximise the amount of non-residential space which can be provided on Harmsworth Quays and the adjacent sites (Surrey Quays Leisure Park, Mulberry Business Park and What! retail store). Non-residential uses, such as higher education facilities, offices, shops and leisure facilities have the potential to boost the day-time economy, create much needed jobs and deliver the AAP vision to create a thriving centre at Canada Water.

King's College, London, is exploring options to provide a new campus at Canada Water. This would provide a range of facilities including teaching and research space, offices and student accommodation. Our proposals are supportive of this.

Leisure facilities, including the cinema, should stay at Canada Water, there should be more cafés and restaurants and there may be demand for other uses, such as hotels.

Transport

The network of pedestrian and cycle routes should be extended through Harmsworth Quays and the adjacent sites to make these easy to move around.

We are committed to the agreed AAP strategy of reintroducing two way traffic on Lower Road and simplifying the gyratory to ensure that the road network is able to cope with growth in homes and jobs.

Development on Harmsworth Quays should contain non-residential uses and should be easy to walk and cycle around

Leisure and schools

We are committed to refurbishing the Seven Islands Leisure Centre to extend its life by up to ten years, while recognising the potential to provide a new leisure centre in the town centre in the longer term.

We have also updated the plan to reflect the up to date position on secondary school places. A new free school secondary will be opening in Bermondsey rather than on the previous proposal at Rotherhithe Primary.

▲ We are committed to improving sports and leisure facilities at Canada Water

Open spaces and green links

Most open spaces in Rotherhithe are already protected from development. We are proposing to extend this protection to cover four additional open spaces which are not currently protected: Cumberland Wharf, Neptune Street Park, Surrey Docks Adventure Playground and the Former Nursery. The Former Nursery would be given metropolitan open land status which is the strongest level of protection in London.

A new green link is proposed through Harmsworth Quays and outdoor public space would be provided for children's play facilities, informal recreation, food growing and other open space activities.

▲ An artist's impression of development on the Quebec Industrial Estate

Building heights

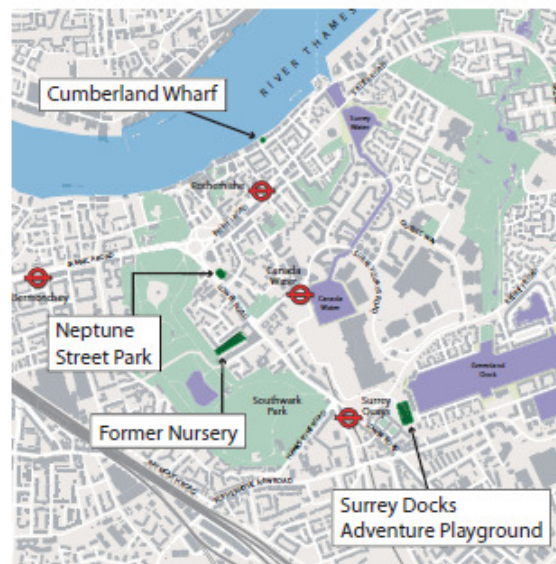

We are reiterating the agreed AAP strategy that most buildings at Canada Water should be between four and eight storeys.

However, in view of the opportunity to expand the town centre eastwards, we think there is also the potential for some taller buildings. Designed well and in the right locations tall buildings can create more public realm, an environment which is easier to walk and cycle around, as well as provide facilities which help create an animated and vibrant town centre.

Tall buildings should have the highest quality of design and care should be taken to ensure that public spaces around tall buildings are not overshadowed or windy. Where buildings are significantly taller than the tallest buildings currently at Canada Water (Ontario Point has 26 storeys), they should provide a publicly accessible area on upper floors where feasible.

▲ Ontario Point

How to get involved

To give you the chance to find out more, have your say or just to ask questions, we will be holding a number of consultation events between now and 30 July 2013.

1. Introduction

- 1.1. The Canada Water Area Action Plan (AAP) is a planning document that aims to bring long-lasting improvements to Canada Water. It does this by making sure that over the next ten to fifteen years we get the right development needed to support a healthy, safe and prosperous community and a fairer future for all in Canada Water.
- 1.2. The AAP was adopted in March 2012 however, it is now being reviewed following the news that the Harmsworth Quays site will become vacant in 2014 when the current printworks relocates to Essex. The site allocation for the site and the parts of the AAP that are affected by the site becoming vacant need to be reviewed and updated.
- 1.3. The process of reviewing and updating the AAP needs to involve local community groups, residents, landowners, developers and businesses at each stage to ensure that the plan meets the needs of those living in, working in and visiting Canada Water.
- 1.4. We are now at the first stage of formal consultation, where we set out our preferred option for the draft revised AAP. We set out more information on this in section 4 of this consultation plan.

The purpose and objectives of this plan

- 1.5. The purpose of this plan is to make sure that we involve people in preparing the Canada Water Area Action Plan in a way that considers the needs of local people. There are minimum legal requirements for consultation we need to follow and you can read about these in Appendix A.

How we are consulting

- 1.6. We carry out consultation in accordance with our adopted statement of community involvement (2008), which explains how we will consult the community in the preparation of planning policy documents. The following section sets out how we plan to meet the minimum statutory consultation requirements and how we will exceed these requirements where appropriate.
- 1.7. The council consulted extensively in preparing the adopted Canada Water AAP. Formal consultation was undertaken on an issues and options report, a preferred options report, the publication AAP and further alterations to the publication AAP. Because a significant amount of consultation has already taken place and because the vision and objectives of the AAP are already established, the council did not consider it necessary to reconsult on an issues and options report in revising the AAP. Instead, the council has carried out informal consultation which has informed the draft revised AAP.
- 1.8. This consultation plan should be read alongside the following documents:
 - **The draft revised Canada Water Area Action Plan**
This is the main document we are consulting on. It sets out our preferred option for the draft revised AAP and reflects the changes that need to be made following the availability of Harmsworth Quays for redevelopment
 - **The sustainability appraisal**
The sustainability appraisal looks at the economic, environmental and social impacts of the AAP.
 - **The appropriate assessment**
The appropriate assessment has been carried out under the EU Habitats Directive and assesses the impact of the AAP publication/submission version on EU protected wildlife habitats
 - **The equality analysis**
This assesses the likely impact of the AAP on the nine protected characteristics groups, as identified in the Equality Act 2010 (age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation). Broadly, it looks at the impact of the AAP in relation to equality, diversity and social cohesion.
- 1.9. All of these documents can be found on our website at:
<http://www.southwark.gov.uk/canadawateraap>

The timetable and methods of consultation

Consultation timeframe

1.10. We have found that the statutory six weeks consultation period is too short for effective consultation on planning policy documents. We will therefore carry out a period of minimum of six weeks informal consultation in addition to the statutory six week formal consultation period. This is set out in our statement of community involvement. We do this in order to make sure there is enough time for you to read the AAP and submit comments.

- As always, we make the AAP available for public inspection at least five working days before we take the AAP to Cabinet. The AAP will be considered by the Cabinet on 14 May 2013. The documents will available to view from 7 May 2013

1.11. You can view the Cabinet documents at:

<http://moderngov.southwark.gov.uk/ieListMeetings.aspx?XXR=0&Year=2013&CId=302&>

1.12. You can put in representations during both the informal and formal consultation periods. However, there is still scope for the AAP to be altered by members until it is officially agreed for formal consultation.

Informal consultation begins on the 7 May and the formal consultation period will run between 18 June 2013 and 30 July 2013.

All responses must be received by 5pm on Tuesday 30 July 2013.

Consultation methods

1.13. The table below sets out the statutory minimum required to meet Government regulations and the further additional methods of consultation that we intend to carry out. We include dates where we have meetings confirmed. We also set out the key consultee groups that the consultation method is aimed at.

1.14. The list of events and consultation activities in this plan is not exhaustive and we will attend further meetings with local interest groups and organisations where this is requested. We will update the list of consultation events on our website throughout the consultation, at:

www.southwark.gov.uk/canadawateraap

**Table 1
Statutory consultation**

METHOD OF CONSULTATION	CONSULTEE	DATE	COMMENTS
Place AAP and supporting documents on the council's website.	All	7 May 2013	Our website will continually be updated.

Put the AAP and supporting documents in libraries, one stop shops, area housing offices.	All	By 18 June 2013	List of places to view the documents is set out in appendix A.
Press notice in local newspaper advertising the beginning of the formal consultation on the AAP.	All	By 18 June 2013	This will be in the Southwark News.
Mail-out to all statutory consultees on planning policy database	All on planning policy consultee database (see list in appendix B)	By 18 June 2013	

Table 2
Additional consultation

METHOD OF CONSULTATION	CONSULTEE	DATE	COMMENTS
Mail-out to all non-statutory consultees on planning policy database. This will set out the timescale for consultation and how people can comment on the AAP. The letter will also invite local groups to contact us if they would like us to attend their community meeting to discuss the AAP.	All on planning policy consultee database (see list in appendix B.)	By 18 June 2013	
Attend the community council that the AAP affects.	All who attend community councils	Rotherhithe and Bermondsey June 2013	Officers will be available to make a presentation or hold a workshop if requested. The most up-to-date agendas, venues and dates for these community councils can be found at: http://moderngov.southwarksites.com/ieDocHome.aspx?bcr=1

Public exhibition	All local residents	Dates to be confirmed	We will put stands in the Canada Water library and the shopping centre which will include information about the revisions to the AAP and a summary leaflet. We will advertise time when officers will be available at these locations for a drop-in surgery.
Where requested, we will attend existing meetings with local community groups and organisations including specific interest groups, friends of groups, faith groups and/or local traders, where our attendance is requested	Members of individual groups and organisations	Dates to be confirmed	

2. How to comment on the AAP

- 2.1. We welcome your comments on the draft revised AAP and on the supporting documents. Please contact us if you would like to know more about the AAP or to find out more about our consultation.
- 2.2. Your comments should focus on the areas of the AAP that have changed as a result of Harmsworth Quays coming forward for redevelopment. We have provided a tracked change version of the adopted AAP to make it clear what is being proposed to be changed. We will also prepare a leaflet which explains the key changes we are proposing.
- 2.3. All comments must be received by **5pm on Tuesday 30 July 2013. Comments received after this date will not be taken into consideration.**
- 2.4. Representations can be made by:
 - Sending an email to planningpolicy@southwark.gov.uk
 - Alternatively you can send your response to:

Planning Policy
Chief Executive's Department
FREEPOST SE1919/14
London SE1P 5LX

Tel: 0207 525 5741
Fax: 0207 084 0347

3. What happens next?

- 3.1. This is the first stage of formal consultation on the draft revised AAP.
- 3.2. After the current stage we will hold one further round of consultation around autumn 2013 before submitting the AAP to the Secretary of State, in preparation for an Examination in Public. The table below sets out the proposed timetable for consultation and adoption, with the current stage highlighted in bold.

Stage of consultation	Consultation timescale
Sustainability scoping report	31 October 2012 to 4 December 2012
Informal consultation	September 2012 to February 2013
Preferred option	7 May 2013 to 30 July 2013
Publication/submission	Winter 2013
Submit to the Secretary of State	January 2014
Examination in Public	June 2014
Adoption	October 2014

4. Introduction

-
- 4.1. The Canada Water Area Action Plan (AAP) is a planning document that aims to bring long-lasting improvements to Canada Water. It does this by making sure that over the next ten to fifteen years we get the right development needed to support a healthy, safe and prosperous community and a fairer future for all in Canada Water.
- 4.2. The AAP was adopted in March 2012. However, it is now being reviewed following the news that the Harmsworth Quays site will become vacant in 2013 when the current printworks relocates to Essex. The site allocation for the site and the parts of the AAP that are affected by the site becoming vacant need to be reviewed and updated.
- 4.3. The process of reviewing and updating the AAP needs to involve local community groups, residents, landowners, developers and businesses at each stage to ensure that the plan meets the needs of those living in, working in and visiting Canada Water.
- 4.4. We are now at the final stage of formal consultation, where we set out our final policies in the publication/submission draft revised AAP. We set out more information on this in section 4 of this consultation plan.

The purpose and objectives of this plan

-
- 4.5. The purpose of this plan is to make sure that we involve people in preparing the Canada Water Area Action Plan in a way that considers the needs of local people. There are minimum legal requirements for consultation we need to follow and you can read about these in sections 2 and 3.

5. How we are consulting

- 5.1. We carry out consultation in accordance with our adopted statement of community involvement (2008), which explains how we will consult the community in the preparation of planning policy documents. The following section sets out how we plan to meet the minimum statutory consultation requirements and how we will exceed these requirements where appropriate.
- 5.2. The council consulted extensively in preparing the adopted Canada Water AAP. Formal consultation was undertaken on an issues and options report, a preferred options report, the publication AAP and further alterations to the publication AAP. Because a significant amount of consultation has already taken place and because the vision and objectives of the AAP are already established, the council did not consider it necessary to reconsult on an issues and options report in revising the AAP. Instead, the council carried out informal consultation which informed the draft revised AAP.
- 5.3. The main stages in revising the AAP were as follows:

- Informal consultation: Two workshops were held with landowners and developers to provide an opportunity for landowners and developers to explain their aspirations and to comment on emerging ideas and options. On 17 November 2012 the council held a public consultation event at Alfred Salter school which aimed to provide a forum in which the public and other stakeholders could have their say on the future of Harmsworth Quays and the adjacent sites. Two workshops were held at the event: the first involved a facilitated discussion around four themes and the second involved playing a scenario game.
- Draft revised AAP: Consultation on the draft revised AAP took place over a period of 12 weeks from 7 May until 30 July 2013, including a formal period of consultation of 6 weeks between 18 June 2013 and 30 July 2013. As well as statutory consultation, the council also publicised the document through exhibitions, drop-in sessions, the community council, a flyer and newsletter.

5.4. In the current stage of consultation we will invite members of the public and other stakeholders to make representations on the publication/submission AAP. We will take account of all comments received in considering any final changes to the plan. The AAP will then be submitted to the Planning Inspectorate for an Examination-in-public.

5.5. This consultation plan should be read alongside the following documents:

- **The publication/submission draft revised Canada Water Area Action Plan**
This is the main document we are consulting on. It sets out our final proposals for revised AAP and reflects the changes that need to be made following the availability of Harmsworth Quays for redevelopment
- **The sustainability appraisal**
The sustainability appraisal looks at the economic, environmental and social impacts of the AAP.
- **The consultation report**
The consultation report summarises all consultation carried out and explains how it has been taken into account in revising the AAP.
- **The appropriate assessment**
The appropriate assessment has been carried out under the EU Habitats Directive and assesses the impact of the AAP publication/submission version on EU protected wildlife habitats
- **The equality analysis**
This assesses the likely impact of the AAP on the nine protected characteristics groups, as identified in the Equality Act 2010 (age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation). Broadly, it looks at the impact of the AAP in relation to equality, diversity and social cohesion.

- 5.6. All of these documents can be found on our website at:
<http://www.southwark.gov.uk/canadawateraap>

6. The timetable and methods of consultation

Consultation timeframe

- 6.1. We have found that the statutory six weeks consultation period is too short for effective consultation on planning policy documents. We will therefore carry out a period of minimum of six weeks informal consultation in addition to the statutory six week formal consultation period. This is set out in our statement of community involvement. We do this in order to make sure there is enough time for you to read the AAP and submit comments.
- As always, we make the AAP available for public inspection at least five working days before we take the AAP to Cabinet. The AAP will be considered by the Cabinet on 22 October 2013. The documents will be available to view from 14 October 2013.
- 6.2. You can view the Cabinet documents at:
<http://moderngov.southwark.gov.uk/ieListMeetings.aspx?XXR=0&Year=2013&CId=302&>
- 6.3. You can put in representations during both the informal and formal consultation periods. However, there is still scope for the AAP to be altered by members until it is officially agreed for formal consultation.
- 6.4. Informal consultation begins on the 14 October and the formal consultation period will run between 3 December 2013 and 14 January 2014.
- 6.5. All responses must be received by 5pm on 14 January 2013.

Consultation methods

- 6.6. The table below sets out the statutory minimum required to meet Government regulations and the further additional methods of consultation that we intend to carry out. We include dates where we have meetings confirmed. We also set out the key consultee groups that the consultation method is aimed at.
- 6.7. The list of events and consultation activities in this plan is not exhaustive and we will attend further meetings with local interest groups and organisations where this is requested. We will update the list of consultation events on our website throughout the consultation, at:
www.southwark.gov.uk/canadawateraap

Table 1 Statutory consultation

METHOD OF CONSULTATION	CONSULTEE	DATE	COMMENTS
Place AAP and supporting documents on the council's website.	All	14 October 2013	Our website will continually be updated.
Put the AAP and supporting documents in libraries, one stop shops, area housing offices.	All	By 3 December 2013	List of places to view the documents is set out in appendix A.
Press notice in local newspaper advertising the beginning of the formal consultation on the AAP.	All	By 3 December 2013	This will be in the Southwark News.
Mail-out to all statutory consultees on planning policy database	All on planning policy consultee database (see list in appendix B)	By 3 December 2013	

Table 2
Additional consultation

METHOD OF CONSULTATION	CONSULTEE	DATE	COMMENTS
Mail-out to all non-statutory consultees on planning policy database. This will set out the timescale for consultation and how people can comment on the AAP. The letter will also invite local groups to contact us if they would like us to attend their community meeting to discuss the AAP.	All on planning policy consultee database (see list in appendix B.)	By 3 December 2013	
Attend the community council that the AAP affects.	All who attend community councils	Rotherhithe and Bermondsey December 2013	Officers will be available to make a presentation or hold a workshop if requested. The most up-to-date agendas, venues and dates for these community councils can be found at: http://moderngov.southwarksites.com/ie/DocHome.aspx?bcr=1
Attend the Canada Water consultative forum	All who attend the forum	Dates and attendance to be confirmed	
Attend the	All who attend	Dates and	

Rotherhithe area housing forum	the forum	attendance to be confirmed	
Where requested, we will attend existing meetings with local community groups and organisations, where our attendance is requested	Members of individual groups and organisations	Dates to be confirmed	

7. How to comment on the AAP

- 7.1. We welcome your comments on the draft revised AAP and on the supporting documents. Please contact us if you would like to know more about the AAP or to find out more about our consultation.
- 7.2. Your comments should focus on the areas of the AAP that have changed as a result of Harmsworth Quays coming forward for redevelopment. We have provided a tracked change version of the adopted AAP to make it clear what is being proposed to be changed. We will also prepare a leaflet which explains the key changes we are proposing.
- 7.3. All comments must be received by 5pm on 14 January 2013. Comments received after this date will not be taken into consideration.
- 7.4. Representations can be made by:
- Sending an email to planningpolicy@southwark.gov.uk
 - Alternatively you can send your response to:

Planning Policy
 Chief Executive's Department
 FREEPOST SE1919/14
 London SE1P 5LX

Tel: 0207 525 5741
 Fax: 0207 084 0347

8. What happens next?

- 8.1. This is the final stage of formal consultation on the draft revised AAP.
- 8.2. After the current stage we will submit the AAP to the Secretary of State, in preparation for an Examination in Public. The table below sets out the proposed timetable for consultation and adoption, with the current stage highlighted in bold.

Stage of consultation	Consultation timescale
Sustainability scoping report	31 October 2012 to 4 December 2012

Informal consultation	September 2012 to February 2013
Preferred option	7 May 2013 to 30 July 2013
Publication/submission	14 October 2013-14 January 2014
Submit to the Secretary of State	February 2014
Examination in Public	June 2014
Adoption	October 2014

APPENDIX A

CWAAP Review 2012/13

Canada Water AAP Review 2012/13

We are revising the Canada Water area action plan. We are consulting on the Revised Canada Water area action plan (AAP) (publication/submission version). The AAP was agreed in March 2012 and sets out the vision and policy that guides the development of the area. In 2011 the Daily Mail announced it would be moving its printworks away from Hamsworth Quays. We are revising the AAP to put in place a policy framework to guide a redevelopment of Hamsworth Quays and take account of the implications of this for the wider area. The changes to the agreed AAP relate mainly to:

- The height of new buildings and potential for public realm improvements.
- Open spaces to be protected from development.
- Infrastructure, including schools and leisure facilities.
- Transport, including pedestrian and cycle routes.
- The mix of land uses we would like to see on Hamsworth Quays and the adjacent sites, such as higher education, business, leisure etc.

Following consultation, we will submit the Revised Canada Water AAP to the Secretary of State for Communities and Local Government for an examination-in-public (EIP). Transport, including pedestrian and cycle routes.

Where can I view the documents?

[Publication/submission version Canada Water AAP and supporting documents](#)

You can also view a copy of the Revised Canada Water AAP and the supporting documents at [Canada Water Library](#), at the [Abbeyfield Road housing services office](#), or at the council's offices at 160 Tooley Street, London SE1 2QH.

Canada Water AAP Review 2012/13 - CWAAP Review...

Your current security settings put your computer at risk. Click here to change your security settings...

You can also view a copy of the Revised Canada Water AAP and the supporting documents at [Canada Water Library](#), at the [Abbeyfield Road housing services office](#), or at the council's offices at 160 Tooley Street, London SE1 2QH.

How do I comment on the documents?

To comment on the documents you can:

- use the online [representation form](#)
- email us at: planningpolicy@southwark.gov.uk
- write to us at: Planning policy, Chief Executive's Department, FREEPOST SE1919/14, London, SE1P 5LX

Formal public consultation on all the Revised Canada Water AAP will commence on **Tuesday 14 January 2014**. Comments must be received by **5pm Tuesday 25 February 2014**.

In your representation to us please also let us know if you would like to be notified at a specified address of any of the following

1. That the Revised Canada Water AAP has been submitted to the Secretary of State in accordance with section 20 of the Act,
2. The publication of the recommendations of the person appointed to carry out an independent examination of the Revised Canada Water AAP under section 20 of the Act; and
3. The adoption of the Revised Canada Water AAP by the council.

There are a number of documents which support the Revised Canada Water AAP including a Sustainability Appraisal Report, an Equality Analysis, a Consultation Plan, a Consultation Report and an Appropriate Assessment.

The mix of land uses we would like to see on Harnsworth Guays and the adjacent sites, such as higher education, business, leisure etc.
