

Item No. 12.	Classification: Open	Date: 21 October 2015	Meeting Name: Health and Wellbeing Board
Report title:		Our Healthier South East London	
Wards or groups affected:		Southwark wide	
From:		Andrew Bland, Chief Officer, NHS Southwark Clinical Commissioning Group	

RECOMMENDATIONS

1. The board is requested to:
 - Note the development of the five-year strategy to date and the progress made since the last report.
 - Discuss and comment on the development and content of the strategy, the process to date and the next steps set out in the paper.

EXECUTIVE SUMMARY

2. The six Clinical Commissioning Groups (CCGs) across south east London, in partnership with NHS England are developing a joint commissioning strategy.
3. The Health and Wellbeing Board has received regular updates on progress and had the opportunity to review and comment on the draft case for change in March 2014.
4. Since the last report significant progress has been made including:
 - The development of clinical models in priority areas;
 - The development and sign off the consolidated strategy;
 - Modeling of the financial and activity impact of the strategy;
 - A revised timeline;
 - The establishment of four groups to respond to London Quality Standards and opportunities presented by the clinical models.

BACKGROUND INFORMATION

5. This report summarises the progress made on the strategy and the next steps.
6. The strategy is being developed in partnership with local authorities, NHS providers, patients, local people and other key stakeholders. Its development is overseen by a programme board, the Clinical Commissioning Board, comprising the chairs and chief officers of the six Clinical Commissioning Groups with colleagues from NHS England and representation from local authority chief executives, plus Healthwatch and patient and public voices. The Clinical Commissioning Board is in turn supported by a Partnership Group, bringing together local authority chief executives, NHS providers and other partners. Clinical leadership from CCGs, NHS providers and social care/children's

services is provided by the Clinical Executive Group and six Clinical Leadership Groups.

7. The strategy complements and builds on local work and has a particular focus on those areas where improvement can only be delivered by collective action or where there is added value from working collectively. It seeks to respond to local needs and aspirations, to improve the health of people in south east London, to reduce health inequalities and to deliver a health care system which is clinically and financially sustainable. It also meets the NHS England requirement that all CCGs develop a commissioning strategy.
8. The strategy is being developed through an iterative process, so this report reflects the progress to date. It sets out the progress in developing a whole system model for south east London and the six priority areas for intervention: community-based care, children, maternity services, cancer, urgent and emergency care and planned care. Each of these priority areas has a Clinical Leadership Group drawn from local NHS organisations, local authorities, Healthwatch and members of the public. This paper describes the current position in relation to the development of whole system outcomes and modelling the impact of the strategy across health and social care.
9. The paper describes in some detail the development of local care networks, which are the cornerstone of the shift to more care being delivered in primary and community care settings and gives an early example of progress being made in improving access to primary care in Southwark.

KEY ISSUES FOR CONSIDERATION

10. The board is asked to note the update and to discuss and comment on the development and content of the strategy and process.

Policy implications

11. The strategy addresses issues that require collaboration at a south east London level and will sit alongside the CCG's local borough-based strategy.

Community and equalities impact statement

12. A first equality analysis was carried out in 2014 and a further analysis was received in September 2015. The recommended actions are being considered by the CCGs' equality group.

Legal implications

13. Should the proposals that are currently being worked through indicate major service change, a public consultation under section 14Z2 of the Health and Social Care Act 2012 will be carried out in the future.

Financial implications

14. The report includes an update on the financial modelling and the financial implications at a south east London level. The strategy programme is funded jointly by the six south east London CCGs and NHS England.
