## **BACKGROUND INFORMATION**

### **Introduction**

1. On 24 March 2015 the council assembly business panel met to agree the themes for 2015/16 meetings of council assembly. The panel agreed that the theme for 20 January 2016 council assembly should be 'environment, public realm and regeneration'.

### **Community evidence on the theme**

2. The deadline for community evidence was midnight, Wednesday 20 January 2016.
3. The following requests have been received by the deadline for consideration by this meeting and they are list in the order received below:
4. Which community evidence shall be considered and the length of each submission will be established by way of a programme motion at the start of council assembly. Community evidence shall be conducted under the existing rules for public participation.

### **Submissions**

#### **1. THE NEW AYLESBURY TRUST LTD, KNOWN AS CREATION**

We would like to address the assembly to update members on the work we are conducting on the Aylesbury estate. We are currently helping over 80 local people a year into work through our SE17Working programme. Working in a regeneration area is challenging as we support residents through periods of change and uncertainty. We would like to demonstrate that the delivery of the project has only been possible in partnership with developers L&Q and would like to ask what the council are doing to ensure there are strong partnerships with themselves, developers and community organisations such as ours, to ensure that local people really benefit both socially and economically from the local opportunities that regeneration schemes provide.

#### **2. TEAM LONDON BRIDGE**

As the London Bridge Business Improvement district we would like to present our London Bridge Plan.

The London Bridge Plan is a collective vision and strategy that sets forth the steps and responsibilities in establishing London Bridge as a, 'globally significant, historic and vibrant place of modern commerce, enterprise and creativity'. The Plan has been produced by Team London Bridge in partnership with Southwark Council. This collaboration is a new way of working and establishing policy together.

In creating the London Bridge Plan we have engaged the diverse stakeholders represented by the London Bridge Business Improvement District (BID) and united them with the public sector. It provides practical steps to embolden London Bridge to achieve its potential, creating a guide by which policy and investment decisions will be made by both the public and private sector. In accordance with the borough-wide New Southwark Plan, it sets out a program of projects for the area and identifies strategic areas for investment.

The London Bridge Plan will reinforce and interpret the identity of the area, strengthen our economy, establish a defining sense of place and create vital partnerships.
