**Subject:** RE: Education & Children's Services scrutiny committee survey

Hi Julie

We sent out the request to SYC members and also had a discussion with them last night about what topics they would like scrutiny committee to consider.

The 3 topics that they came up with are;

- Bullying
- Young people and mental health
- Sexual health and relationship awareness

We had some really interesting discussions on why these topics are so important to young people and the reasons that they put these topics at the top of list.

I hope that this is helpful to you and would appreciate some feedback on what the scrutiny committee takes as young people's top concern.

Unfortunately we were unable to get them to take part in the online survey as there is no longer any wifi at the venue where we meet with them. A meeting could be organised if you would like to have a face to face session with them.

Kind regards

Lynne
