
		Local parking amendment	APPENDIX 2
Reference	15202-136.6	Location overview	
Location	Rodney Road near Wadding Street		
Proposal	To reduce the length of the existing parking bays by 9.0m		
Community council meeting	Borough, Bankside and Walworth		
Community council date	5 October 2016		
Ward(s) affected	East Walworth		

Local parking amendment
<p>A local parking amendment (LPA) is small project to change an existing parking restriction or to introduce a new one.</p> <p>These tend to be carried out in locations where we have had a request to look at dangerous or obstructive parking and where small lengths of restrictions could provide a solution.</p>
Request
<p>As part of their Road Modernisation Programme, Transport for London (TfL) has identified several locations where improvements to the highway would reduce bus journey times.</p> <p>TfL have requested that a bay in the M1 CPZ is shortened to assist buses in exiting the stop.</p>
Location
<p>The proposed measure is at bus stop 'RU' on Rodney Road, approximately 50m west of Wadding Street.</p>
Investigation and conclusions
<p>TfL have reported that their data shows that the 136 bus route is experiencing delays in the northbound direction due to the bus stop's proximity to parked vehicles.</p> <p>The bays would be replaced by a lengthened bus cage to assist buses exiting the stop. An additional benefit of this intervention would be to reduce the likelihood of a bus entering the opposing traffic lane.</p>
Recommendation
<p>Officers recommend that the Community Council approves the implementation of the proposals as shown in the attached drawing.</p>
Next steps
<p>Should the community council approve this local parking amendment, it is expected that statutory consultation will commence in October 2016.</p> <p>Following the statutory consultation period, the council will make arrangements to implement on site.</p> <p>Should objections be received during the statutory consultation period, these will be presented at the next community council meeting for determination.</p>
