# Technical Matters

## Delivering Good Governance

In April, CIPFA and SOLACE published 'Delivering Good Governance in Local Government: Framework (2016)' and this applies to annual governance statements prepared for the 2016/17 financial year. The key focus of the framework is on sustainability – economic, social and environmental – and the need to focus on the longer term and the impact actions may have on future generations.

Local authorities should be:

- reviewing existing governance arrangements against the principles set out in the Framework
- developing and maintaining an up-to-date local code of governance, including arrangements for ensuring on-going effectiveness
- reporting publicly on compliance with their own code on an annual basis and on how they have monitored the effectiveness of their governance arrangements in the year and on planned changes.

The framework applies to all parts of local government and its partnerships and should be applied using the spirit and ethos of the Framework rather than just rules and procedures

## Telling the story – Changes in 2016/17 CIPFA Code

CIPFA has been working on the 'Telling the Story' project, which aims to streamline the financial statements and improve accessibility to the user. This has resulted in changes to CIPFA's 2016/17 Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').

The main changes affect the presentation of the Comprehensive Income and Expenditure Statement ('CIES'), the Movement in Reserves Statement ('MIRS') and segmental reporting disclosures. A new Expenditure and Funding Analysis has been introduced.

The key changes are:

- the cost of services in the CIES is to be reported on basis of the local authority's organisational structure rather than the Service Reporting Code of Practice (SERCOP) headings
- an 'Expenditure & Funding Analysis' note to the financial statements provides a reconciliation between the way local authorities are funded and the accounting measures of financial performance in the CIES
- the changes will remove some of the complexities of the current segmental note
- other changes to streamline the current MIRS providing options to report Total Comprehensive Income and Expenditure (previously shown as Surplus and Deficit on the Provision of Services and Other Comprehensive Income and Expenditure lines) and removal of earmarked reserves columns.

Other amendments have been made to the Code:

- changes to reporting by pension funds in relation to the format and fair value disclosure requirements to reflect changes to the Pensions SORP
- other amendments and clarifications to reflect changes in the accounting standards.

## A councillor's workbook on neighbourhood and community engagement

**11 January 2017**

Neighbourhood and community engagement has a rightful place as one of the key processes involved in planning and decision making. As such, it should not be viewed as an additional task, but as a core part of the business.

## Building our homes, communities and future: The LGA housing commission final report

**22 December 2016**

The Local Government Association (LGA) Housing Commission was established to help councils deliver their ambition for places. It has been supported by a panel of advisers and has engaged with over 100 partners; hearing from councils, developers, charities, health partners, and many others. All partners agree that there is no silver bullet, and all emphasise the pivotal role of councils in helping provide strong leadership, collaborative working, and longer-term certainty for places and the people that live there.

## Business Plan December 2016/November 2017

### 30 December 2016

Britain's exit from the EU means that we are reshaping the way our country is run. Our vision is one of a rejuvenated local democracy, where power from Westminster and from the EU is significantly devolved to local level and citizens feel they have a meaningful vote and real reason to participate in civic life and their communities.

## Stronger together: shared management in local government

### 29 November 2016

Around 45 councils across England share a chief executive and senior management team in about 20 different partnerships. Most also share at least some services. These councils have already delivered savings of at least £60 million through greater efficiencies and the other benefits of collaboration, with more savings planned.

## Adult social care funding: 2016 state of the nation report

### 2 November 2016

Adult social care is an absolutely vital public service that supports some of our most vulnerable people and promotes the wellbeing and independence of many more.

# Apprentice Levy-Are you prepared?

## Grant Thornton update

### What is the levy?

The UK has been struggling on productivity, now estimated to be 20% behind the G7 average. Developing apprenticeships is set to play a key part in tackling this and bridging the skills gap.

Announced by government in July 2015, the levy is to encourage employers to offer apprenticeships in meeting their skill, workforce and training needs, developing talent internally. The levy is designed to give more control to employers, through direct access to training funds and creation of apprenticeships through the Trailblazer process.

### What is the levy?

From April 2017, the way the government funds apprenticeships in England is changing. Some employers will be required to pay a new apprenticeship levy, and there will be changes to the funding for apprenticeship training for all employers.

All employers will receive an allowance of £15,000 to offset against payment of the levy. This effectively means that the levy will only be payable on paybill in excess of £3 million per year.

The levy will be payable through Pay As You Earn (PAYE) and will be payable alongside income tax and National Insurance.

Each employer will receive one allowance to offset against their levy payment. There will be a connected persons rule, similar the Employment Allowance connected persons rule, so employers who operate multiple payrolls will only be able to claim one allowance.

Employers in England are also able to get 'more out than they put in', through an additional government top-up of 10% to their levy contribution.

When employers want to spend above their total levy amount, government will fund 90% of the cost for training and assessment within the funding bands.

The existing funding model will continue until the levy comes into effect May 2017. The levy will apply to employers across all sectors. Paybill will be calculated based on total employee earnings subject to Class1 National Insurance Contributions. It will not include other payments such as benefits in kind. It will apply to total employee earnings in respect of all employees.

### What will the levy mean in practice

Employer of 250 employees, each with a gross salary of £20,000:

Paybill:  $250 \times £20,000 = £5,000,000$

Levy sum:  $0.5\% \times = £25,000$

Allowance:  $£25,000 - £15,000 = £10,000$  annual levy

### How can I spend my levy funds?

The funding can only be used to fund training and assessment under approved apprenticeship schemes. It cannot be used on other costs associated with apprentices, including wages and remuneration, or training spend for the wider-team.

Through the Digital Apprenticeship Service (DAS), set up by government, employers will have access to their funding in the form of digital vouchers to spend on training.

Training can be designed to suit the needs of your organisation and the requirements of the individual in that role, in addition to specified training for that apprenticeship. Training providers must all be registered with the Skills Funding Agency (SFA).

### What do I need to start thinking about now?

- How much is the levy going to cost and have we budgeted for it?
- How do we ensure compliance with the new system?
- Which parts of my current spend on training are applicable to apprenticeships?
- Are there opportunities to mitigate additional cost presented by the levy?
- How is training in my organisation structured?
- How do we develop and align to our workforce development strategy

# Off-payroll working and salary sacrifice in the public sector

## Off-payroll working

The Chancellor's Autumn Statement 2016 speech delivered a number of changes that will impact the UK business environment and raise considerations for you as an employer.

In particular, the Chancellor announced that the measures that were proposed in Budget 2016 that could affect services supplied through personal service companies (PSCs) to the public sector will be implemented.

At present, the so-called IR35 rules require the worker to decide whether PAYE and NIC are due on the payments made by a PSC following an engagement with a public sector body. The onus will be moved to the payer from April 2017. This might be the public sector body itself, but is more likely to be an intermediary, or, if there is a supply chain, to the party closest to the PSC.

The public sector body (or the party closest to the PSC) will need to account for the tax and NIC and include details in their RTI submission.

The existing IR35 rules will continue outside of public sector engagements.

**HMRC Digital Tool** – will aid with determining whether or not the intermediary rules apply to ensure of “consistency, certainty and simplicity”.

When the proposals were originally made, the public sector was defined as “those bodies that are subject to the Freedom of Information rules”. It is not known at present whether this will be the final definition. Establishing what bodies are caught is likely to be difficult however the public sector is defined.

A further change will be that the 5% tax free allowance that is given to PSCs will be removed for those providing services to the public sector.

This will increase costs, move responsibility to the engager and increase risks for the engager

## Salary sacrifice

The Chancellor's Autumn Statement 2016 speech also introduced changes to salary sacrifice arrangements. In particular, the proposals from earlier this year to limit the tax and NIC advantages from salary sacrifice arrangements in conjunction with benefits will be implemented from April 2017.

Although we await the details, it appears that there is a partial concession to calls made by Grant Thornton UK and others to exempt the provision of cars from the new rules (to protect the car industry). Therefore, the changes will apply to all benefits other than pensions (including advice), childcare, Cycle to Work schemes and ultra-low emission cars.

Arrangements in place before April 2017 for cars, accommodation and school fees will be protected until April 2021, with others being protected until April 2018.

These changes will be implemented from April 2017.

As you can see, there is a limited opportunity to continue with salary sacrifice arrangements and a need also to consider the choice between keeping such arrangements in place – which may still be beneficial – or withdrawing from them.

## Grant Thornton update

### Issues to consider

- Interim and temporary staff engaged through an intermediary or PSC
- Where using agencies ensure they're UK based and operating PAYE
- Update on-boarding / procurement systems, processes and controls
- Additional take on checks and staff training / communications
- Review of existing PSC contractor population before April 2017
- Consider moving long term engagements onto payroll
- Review the benefits you offer - particularly if you have a flex renewal coming up
- Consider your overall Reward and Benefit strategy
- Consider your Employee communications

# Brexit

## Planning can help organisations reduce the impact of Brexit

The High Court ruling that Parliament should have a say before the UK invokes Article 50 of the Lisbon Treaty – which triggers up to two years of formal EU withdrawal talks – will not, in our view, impact on the final outcome. There appears to be a general political consensus that Brexit does mean Brexit, but we feel there could be slippage beyond the original timetable which expected to see the UK leave the EU by March 2019.

2017 elections in The Netherlands (March), France (April/May), and Germany (October/November) will complicate the Brexit negotiation process and timeline at a time when Brexit is more important for the UK than it is for the remaining 27 Member States.

The question still remains, what does Brexit look like?

While there may be acceptance among politicians that the UK is leaving the EU, there is far from any agreement on what our future relationship with the continent should be.

So, what do we expect based on what has happened so far?

### Existing EU legislation will remain in force

We expect that the Government will introduce a “Repeal Act” (repealing the European Communities Act of 1972 that brought us into the EU) in early 2017.

As well as undoing our EU membership, this will transpose existing EU regulations and legislation into UK law. We welcome this recognition of the fact that so much of UK law is based on EU rules and that trying to unpick these would not only take many years but also create additional uncertainty.

### Taking back control is a priority

It appears that the top priority for government is 'taking back control', specifically of the UK's borders. Ministers have set out proposals ranging from reducing our dependence on foreign doctors or cutting overseas student numbers. The theme is clear: net migration must fall.

### Leaving the Single Market appears likely

The tone and substance of Government speeches on Brexit, coupled with the wish for tighter controls on immigration and regulation, suggest a future where the UK enjoys a much more detached relationship with the EU.

The UK wants a 'bespoke deal'. Given the rhetoric coming from Europe, our view is that this would signal an end to the UK's membership of the Single Market. With seemingly no appetite to amend the four key freedoms required for membership, the UK appears headed for a so-called 'Hard Brexit'. It is possible that the UK will seek a transitional arrangement, to give time to negotiate the details of our future trading relationship.

This is of course, all subject to change, and, politics, especially at the moment, moves quickly.

Where does this leave the public sector?

The Chancellor has acknowledged the effect this may have on investment and signalled his intention to support the economy, delaying plans to get the public finances into surplus by 2019/20.

We expect that there will be some additional government investment in 2017, with housing and infrastructure being the most likely candidates.

Clarity is a long way off. However, public sector organisations should be planning now for making a success of a hard Brexit, with a focus on:

## Grant Thornton update

For regular updates on Brexit, please see our website:

<http://www.grantthornton.co.uk/en/insights/brexit-planning-the-future-shaping-the-debate>

**Staffing** – organisations should begin preparing for possible restrictions on their ability to recruit migrant workers and also recognise that the UK may be a less attractive place for them to live and work. Non-UK employees might benefit from a degree of reassurance as our expectation is that those already here will be allowed to stay. Employees on short term or rolling contracts might find it more difficult to stay over time.

**Financial viability** – public sector bodies should plan how they will overcome any potential shortfalls in funding (e.g. grants, research funding or reduced student numbers).

**Market volatility** – for example pension fund and charitable funds investments and future treasury management considerations.

**International collaboration** – perhaps a joint venture or PPP scheme with an overseas organisation or linked research projects.
