

APPENDIX G

Date	Time	Officer	Notes
09/11/2012	22:36	Kristie Ashenden	Call on police radio re: overcrowding. We arrived on scene and there were anywhere from 500 youths in Rye Lane trying to gain access to the premises. An 18th b' day party had been booked for 300 guests on closed invite on Facebook, however it was leaked publicly on Facebook and several hundred people turned up. Spoke to DPS Michael Smith. He said he had a Jazz night planned on 1st floor. Stu made several announcements over the police van loudspeaker, advising people to leave the area. Michael Smith admitted that his security did not handle the situation well. Spoke to the parents of the girls whose 18th party it was. Inspector Mark Lavin from the police was overseeing everything. We went inside to check that the premises were not overcrowded – the party was on 2nd floor, with maybe 100 people? Not crowded at all. Very hot. 2nd room at the back very quiet, not many people at all. 12 door staff on this evening. Photos taken
09/11/2012	23:54	Kristie Ashenden	On our way out PC Whythe searched a white male suspected of having cannabis
10/11/2012	00:00	Kristie Ashenden	Inspector Lavin said no one else was allowed into the premises. We waited for the youths to disperse
02/12/2012	02:30	Wesley McArthur	As FRC and I approached the premises from Blenheim Grove we noted 2 security / steward staff by the passage way that leads to the premises from Rye Lane. One of the security staff was an IC3 male the other was an IC3 female. A number of people were entering and exiting the passage. I approached the security staff and asked if the premises were still open, the IC3 male stated that it was. I ID'd myself and asked to speak to the manager. I was lead to the courtyard area to the front of the premises. The courtyard was very busy with approx.' 25 people smoking, drinking and socialising. The pay desk and security hub was located in the courtyard. I spoke to the licensee & DPS, Saija Kamarainen (SK). I asked SK what time the premises were going to shut, SK stated 'around 4am'. I asked if the 2nd floor was being used, SK confirmed that it was. I advised SK that under licence number 832624 (a copy of which I produced to her) that the premises should be shut by 02:00. SK stated that she had been granted a new licence allowing licensable activities until 06:00. I advised SK that the 6am licence should only be used once the works required by conditions on the licence had been complete. SK stated that the works required had taken place and invited me to inspect them. As the works required included soundproofing I explained that a member of the council's EPT would inspect the works at a later date. SK stated that the licence had been issued already. SK couldn't produce either of the licences issued in respect of the premises. A regular promotion ("Soul Train") was taking place on the first floor of the premises. The second floor had been hired for an external promotion. The third floor of the premises was not in use. Both the 1st and 2nd floors were very busy. I asked SK how she monitored capacities on each floor. SK stated that she used a wristband system whereby certain types of wristband admit entry to certain floors. Neither SK nor her security staff could provide current numbers of customers on either floor. I estimated that there were 250

			<p>people on the first floor and 200 on the second floor. I advised SK that counting devices should be used as follows: 1 for in, 1 for out on each floor, that the counters are colour coded for each floor so they cannot be mixed up, that only one person at a time is responsible for 1 set (pair) of counters on each floor. Breaches of the following conditions were noted: 156 – The staff log at the premises was not in use. 162 – Security inspections of the premises had been undertaken. 288 – The time code on the CCTV was 27 minutes fast. 290 – The hand held metal detector was not in use and had been left in the office. 298 – There was no signage displayed re' the search policy at the premises. The anti drug signage was obscured by a door that was secured open. 312 – There was no evidence that persons re-entering the premises were being searched. 313 'c' – Customers were being allowed to drink in the courtyard. 341 'a' & 342 'b' – Not all north facing windows were closed. At least 1 north facing window contained a broken pane of glass. In addition to the above the below was noted in regards to the following conditions: 341 'b' – Floor standing fans were being used to cool the venue. With the amount of customers on each floor at the time of the inspection the level of cooling was barely acceptable; however in summer the current cooling arrangements will not be sufficient. 342 'd' – On the 2nd Floor sound attenuation was in place via compressor. I spoke to a sound engineer who explained that the PA system on the 2nd floor had been hired in specifically for the event taking place and that he was in charge of the PA system and was working at the premises on that night only (he is not a regular employee at the premises). The sound engineer stated that the sound check in regards to the PA system had taken place at 22:00 that night, but that the compressor had not been set in conjunction with any type of external reference. I advised the engineer that should he work there again that an external reference should be used when deciding the control settings of the compressor (or similar) in regards to PA systems installed at the premises. I noted drapes covering the north facing windows on both floors. I asked if the drapes were or had been made flame retardant or whether they had a suitable kite mark. SK stated that they were supplied by theatre supplies company and had a relevant kite mark which she showed me. The kite mark / fabric information stated that the drapes were flame retardant in accordance with BS5438 pt. 2. SK asked me to email her my suggestions / findings ASAP and to let her know the status of the licences issued in respect of the premises. Warning letter to follow and advisory email. NB Another licence (no. 837671) has been issued in regards to the premises. This licence allows licensable activities to take place at the premises until 06:00 on Friday & Saturday. There is no provision in the licence that states that the work as required by the licence must be inspected by the local authority prior to the licence being used, or that the works must be completed to the satisfaction of the local authority. As I only had a copy of licence no. 832624 I suggest another inspection of the premises to verify adherence to the further conditions contained in licence no. 837671. BS5438 pt. 2 is the correct standard that the drapery at the premises should meet.</p>
07/12/2012	21:10	Tracy McCarthy	At 21:10 hours CLF Gallery – stumbled across the back entrance whilst doing a recci for the churches. Setting up for a gig. Advised that the rear doors will be closed, being used to get equipment into the premises.

09/12/2012	02:25	Roy Fielding	Met Sajia who was using the first floor. The room was very hot and there was no ventilation in the room. Sajia told us that someone is booked in for next year to sort the issue out. Farhad will be serving an improvement notice for the works to be carried out. All other floors were not being used. Saija complained re last refuge who had a private party that was making a lot of noise. We investigated (see last refuge for report)
15/12/2012	01:20	Roy Fielding	Met Mickey Smith and carried out revisit. Fully compliant except not using metal detectors during checks. Mickey showed us the detectors and instructed his door staff to use them. Will check again on Saturday.
22/12/2012	23:10	Roy Fielding	Visited premises and met Mickey Smith. Mickey informed us it was staff party on level 1 & 2. I asked him if I could take a photo of each of the sound limiters for Sarah which he agreed to. He also informed me that the premises would be closed until the 5 th Jan. He also said that there was not a SLD on the 3rd floor as it is theatre.
18/01/2013	22:30	Roy Fielding	Met manager Kirsty and spoke re trade waste issue. Kirsty said that they have a contract with Biffa who collect at the rear of the premises on Thursdays. She said that they check at the front for glasses etc. and would make more of an effort following the complaint.
08/02/2013	21:50	Jayne Tear	<p>8/2/2013 21:50 JMT & NVD From: Tear, Jayne Sent: 11 February 2013 19:15 To: [REDACTED] Cc: IAN CLEMENTS [REDACTED]; Franklin, David Subject: RE: Thefts in Licensed Premises</p> <p>Dear Emma,</p> <p>I called both of the numbers below in Friday 8th February at 19:15/19:16hrs to see if the SNT may want to visit with me. I did not get a reply so left a message. I visited the CLF Art Cafe (bussey bar) on the same night at 21:50hrs and spoke to Saija Kamerainen the DPS, With regards to your concerns below. There were 2 SIA door supervisors at front of house one inside and three more inside the courtyard at the time of my visit. Saija said that they pick up a lot of mobiles and lost belongings (which they have on site), she said that people just drop them and they are found in the premises when they clear up later. She was wondering why the people that have lost their belongings don't contact the club. Saija will be happy to meet with your officers to discuss. Maybe some of the people that have reported lost property to you maybe able to get it back. If the property is not lost and it is theft I can arrange to visit together during the day with the licensee's if someone from your team would like to speak to them personally, if not maybe Ian Clements/Graham White and I can visit together. Please let me know and I will arrange. I then visited [REDACTED] ([REDACTED]) at 22:37hrs on the same night for the same reasons, however it was closed. I will forward this to the team working next weekend,</p>

			<p>With kindest regards</p> <p>Jayne Principal Licensing Officer 020 7525 0396</p> <p>-----</p> <p>From: [REDACTED] Sent: 08 February 2013 16:42 To: [REDACTED] Tear, Jayne Cc: Lakoja, Niniola; [REDACTED] Subject: Thefts in Licensed Premises</p> <p>Jayne, Ian and Keith,</p> <p>Are you able to assist in any way with this? We are getting a lot of theft generated from the [REDACTED] and the Bussey Bar. Are you able to speak with the managers re' this? If not please can you provide me with any details of the managers of the premises? We do not have this problem with any of the other licensed premises -there are clearly security issues at both venues. Let me know,</p> <p>Emma Dickinson PS 109 MD The Lane SNT Work:- 020 7161- 8324 Mobile:- [REDACTED] [REDACTED]</p>
26/04/2013	23:15	Tracy McCarthy	At 23:15 hours attended CLF – H&S re-visit to check on improvement notice. Whilst in attendance it was pointed out to Ms Saija Kamarainen that condition #352 was being breached 'No open containers of alcohol or any other drink shall be taken o/s of the premises' Saija said she will keep on top of it and advised her SIA supervisors. Verbal warning given.
11/05/2013	19:20	Roy Fielding	Carried out poster check for a new application for the Bussey Building. Spoke to door staff re CLF. They explained that they were expecting around 100 people tonight.
24/08/2013	19:40	Dave Swaby	Visit with Sarah Newman, the premises was in the process of closing. No actions taken.
24/05/2014	21:15	Farhad Chowdhury	Visited this premises by accident seen people taking in cases of alcohol. Met Sajja Kamarainen from CLF Arts cafe, says they have a TENS tonight Roy checked on his phone it came up as the REFUGE and not Basement A. Concerned about

			the low ceiling in the premises and lack of water and washing facilities, and no WC's also there is a lack of ventilation in the premises. Have a Vinyl 45's night tonight. Says will apply for a licence soon, will be running as a record shop. Sajia home address is [REDACTED] Tens seen from 24/5/14 to 25/5/14 – 2200 - 0600hrs. Carried out a Health and Safety Inspection left report. Advised to apply for licence.
25/05/2014	01:52 Visit	Farhad Chowdhury	Long queues outside on rye lane.
30/05/2014	19:58 t	Kristie Ashenden	Basement A 133 Copeland Rd revisit for H&S. En route stopped @ [REDACTED] on Blenheim Grove. Fake hair extensions everywhere, FRC advised to clean up & we will pass to Env-enforcement. Basement bar closed, to revisit later
31/05/2014	01:01	Kristie Ashenden	Big crowds outside, appear to be students. Once through security another queue of 30-40 people waiting to get through. We had a look at the basement bar with Martin Drogosz, who said he was the manager. Asked to see the TEN. He was unable to produce it, however we found it online. Martin said the capacity of CLF was 900 and the basement bar is limited to 150. We asked security for the number of people in the premises. The females at the entrance did not have clickers or metal detectors. When asked for numbers they looked at the guestlist and 'estimated' it to be around 450 people, but there was no way of knowing for sure. They had no idea how many people were on the premises. Breach of condition 307 - no clickers at the premises. Asked for personal licences, 2 staff had them available. Breach of 162 - no security search records available, Breach of 303 - no 696 available, Breach of 307 - they don't know how many people on each floor, let alone how many in entire footprint of building. Breach of 313 - drinks consumed outside courtyard. Breach 344 - Asked to see refusals book, not available. Breach 350 - not aware of need for drugs box. Breach 354 - unable to provide dispersal policy. Breach 4AI - no register produced. Breach 356 - no incident log. No confidence in management - as we were leaving there were a lot of people in the courtyard drinking
14/06/2014	02:33	Farhad Chowdhury	No queues outside all quiet
28/06/2014	22:05	Farhad Chowdhury	Basement A is closed tonight. The footpath outside is badly broken and is a trip hazard needs to be repaired.
06/07/2014	02:14	Kristie Ashenden	En route to CLF Art Cafe for an H&S revisit when we encountered 3 cars going through a red light on Old Kent Rd. Followed them in the van to Peckham and all 3 cars were pulled up. Cars full of Nigerians going to an event, police spoke to them and let them go.
06/07/2014	02:35	Kristie Ashenden	Revisit with FRC and police. Courtyard is packed with people, must beat least 60-80 people outside - concerned about noise for residents as well as safe evacuation should there be an emergency. FRC took photos. Met with Micky Smith who said the basement was not open AToV however rest of premises is.
19/07/2014	22:25	Kristie	Visit with FRC to check on outstanding works re: his representation. Doorstaff said there were 34 people in AToV

		Ashenden	however there appeared to be more than that. FRC checked on basement work. At 22.54 went past [REDACTED] in alley from Blenheim Grove on way to Peckham Rye station. Decks & speakers set up, crowds gathered to blaring music. Takeaway food shop, no licence. Report to DCM/JMT
28/09/2014	01:52	Kristie Ashenden	Hot dog man + jerk chicken set up opposite premises. TCT NTE police to assist. Adam ended up seizing jerk chicken BBQ.
14/02/2015	01:25	Kristie Ashenden	With Matt Bourne. Big queues outside CLF, however NTE police received a call from [REDACTED] there are 60 people outside and they are unruly.
19/04/2015	00:59	Farhad Chowdhury	Evelyn carried out a food hygiene inspection, looked at records. She asked what types of foods are sold. Sajia explained they have a pop up food stall selling vietnamese foods. It is opened from 12-8pm, noticed there were too many people in the outside smoking shelter brought it to the attention of Sajia to keep an eye if it gets overcrowded to move people around.
24/04/2015	02:44	Jayne Tear	Visited premises to carry out a noise assessment with regards to complaint from Sarah Newman. We walked all around peripheral of premises. Could not hear anything that would cause a nuisance from CLF, went to nearest flats and could hear noise but it was from people praying on the top floor of a flat. Entered premises and Id ourselves We Id ourselves to the SIA and then Mr Martin Drogosz the person in charge and the sound engineer [REDACTED] [REDACTED]. Mr Drogosz showed me his personal licence issued by [REDACTED] Council no. [REDACTED] EXPIRY DATE [REDACTED]. I explained that there had been a noise complaint and I asked him to show me the S.Ls on each floor. He showed me the .S.L s and they all seemed to be working. Took Photo's of each for Sarah. I asked if there were any outside promoters working tonight and he said yes. He told me the promoters for each floor are as follows: Basement – Caught up1st Floor – Lucid2nd Floor - Digital City (possible breach of 303 – will need to check if venue hire been submitted to police). On the way out I noted that a woman with a plastic glass of what looked like lager/beer. I spoke pointed this out to Mr Drogosz and he immediately asked the SIA to remove the beer from the woman. (breach of 381) I thanked them for their assistance and we left the premises at 03:34.
09/05/2015	22:45	Mark Orton	Visited premises, full inspection, premises becoming busy atov. Contact at time of inspection was Saija Kamarainen DPS. SIA stewarding patrons well. ID's being checked and searches of person and bags etc. being carried out. Courtyard area being used by patrons to smoke. Basement bar and record store no busy but music loud, some breakout but low level. Theatre being used as production unit as filming taking place (live broadcast) taking place in the building. All paperwork in order, refused sales log (I advised signing off each log if no refusals had taken place to show log was being used), SIA log up to date, incident log being utilised, CCTV in operation, re' Hire Agreement condition 303, premises does not "dry hire" and management is always present with in house security, condition does not state 696 agreement so not sure what benefit this holds. Several conditions relating to sound limiters throughout operating schedule are confusing, even though they are being utilised and there is a sound engineer on duty at times the licence is in use. I advised the sound engineer carries out an external sound check re condition 366 to monitor

			music/sound breakout during the evening due to current noise complaints despite sound insulation being installed in various parts of the building. This activity to be logged for inspection. In my opinion, a small reduction in music volume would not detract from the enjoyment of patrons but could have a big impact on local residents suffering disturbance as the music being played inside the premises was very loud for the size of the room the music was being played in. Ear plugs were available for staff and whilst carrying out inspection staff were entering the office to request ear plugs. Whilst leaving premises, it was noted that some of the windows could be heard vibrating suggesting that bass levels could be too high and depending on wind direction other music noise was also witnessed, unsure of whether it could be a nuisance level or not. Noted during inspection some of the conditions appeared to be contradictory and possibly redundant, will discuss with officer responsible. This has been brought up before with DM.
23/05/2015	02:26	Richard Kalu	Visit to CLF Art Café with Sarah Newman. Premises were very busy and were observing the licensing conditions as per their licence. We completed a walk around of the premises on all the various floors and no issues were noted. I did however observe X4 patrons in the external courtyard drinking can of beer which I believe is prohibited. Advised by management that these patrons had taken the alcohol out into this area earlier in the night and this was not detected by SIA staff. Advised management that they needed to take more robust action to stop patrons drinking in this area.
13/06/2015	02:15	Mark Orton	Spoke with DPS re patrons drinking in courtyard beyond 02:00hrs. Noted 3 persons drinking from cans of beer, was informed that they had taken them into the courtyard before 02:00hrs and were just finishing them off. Witnessed SIA using wands and searching bags etc.
19/06/2015	23:50	Richard Kalu	Visit to CLF Art Café with Adam Burchett. SIA compliant at premises. Checked various floors no issues noted. Patrons being stopped by SIA staff from bring drinks into the courtyard area. CCTV in full operation and no compliance issues noted. Premises were extremely busy.
04/09/2015	23:50	Wesley McArthur	After visiting McDonald's with Tracy McCarthy (TMM) we noted a large queue on Rye Lane leading to the entrance of the Bussey Building. There were approximately 110 people in the queue. I noted a D/S monitoring the queue towards the rear of the queue and 5 D/S's by the entrance on Rye Lane to the Bussey Building. The area was very busy in general with groups of youths and young people walking about and congregating in various areas down the length of Rye Lane and around Bellenden Road and Blenheim Grove. I noted that many of the people were drinking alcoholic drinks. Most of the groups of people were conversing loudly and all appeared to be in high spirits although I didn't note any ASB. We approached the entrance to the premises and I ID'd myself & TMM to an IC3 D/S. I asked him what event was taking place and he stated that the band 'Odyssey' was playing at the premises that night. He stated that the queue TMM and I had observed was a ticket holder / guest-list queue, that the majority of people attending were ticket holders and that the premises were only accepting a limited number of customers who were paying on the door. The D/S led us through the courtyard area to an office. Whilst walking through the courtyard area I observed that it was very packed with customers socialising and also customers getting searched /waiting to get searched. The sound level of people voices was quite loud in the courtyard. The D/S took us to the office where we met the premises

			<p>manager, Mickey Smith (MS). MS confirmed that the event taking place that night was the band 'Odyssey' playing, and that he was expecting a capacity crowd at the premises. MS stated that there hadn't been any problems at the premises so far that night. I asked how many D/S's were working at the premises that night and MS answered 18. I told MS that I'd seen people drinking in the queue and in the locale. MS stated that people were not allowed to bring any drinks into the premises and that any persons who appeared to be intoxicated would be turned away even if they were ticket holders. MS stated that so far, to his knowledge, they hadn't had to turn anyone away for being intoxicated. The window in the office overlooks the courtyard. The window was partially open. Customer's voices from the courtyard could clearly be heard in the office and I reminded MS of recent noise complaints. MS stated that noise dampening measures would be installed in the courtyard ASAP and that he was still waiting to find a suitable smoking shelter solution. I asked MS if the number of customers on each floor was being controlled (as required by the licence issued in respect of the premises). MS answered that D/S's were at the entrance to each floor at the premises and that they were using counting devices to ensure that the permitted number of persons per each floor wasn't exceeded. I asked MS if the premises were experiencing any problems since it (and the locale) had become very popular over the past year or so. MS stated that NOx sellers are a big problem that he is finding hard to combat. MS stated that he has rung the NTET number a few times when he has noticed NOx sellers in the area but the NTET line was not answered. MS stated that the NOx sellers are operating in large gangs and have recently been intimidating to himself and D/S's at the premises when they have tried to disperse the NOx sellers from the immediate vicinity of the premises / customer queues to the premises. MS stated that they sell NOx quite openly. I told MS that I will report this back to NTET / Licensing. MS stated that the NOx sellers are particularly active between 4am and 6am and that he would like to see a stronger police presence in the area between these hours to deter NOx / drug sellers. I conducted a walk through of the premises. There were D/S's monitoring the numbers of customers on each level of the premises with counting devices. According to the counting devices no level was exceeding its permitted capacity. The premises were very busy on each level. Fans were in operation. The music was very loud on each level but SLDs appeared to be functioning. Toilets all in working order. Security were being through with their searches. No problems at the premises were noted.</p>
?	02:55	Richard Kalu	<p>Visited premises with Sue Hunter. No ASB issues identified outside the premises. There was a lot of discarded litter and evidence of nitric oxide use at the front of the premises. Entered the front courtyard of the premises and noted that no patrons were drinking alcohol in the front courtyard. Discussed Acoustic measures which are due to be put in place in the front open courtyard. I have been advised that consideration is being given to increasing the height of a wall in the front courtyard. Whilst I am not an acoustic specialist I have had experience of noise related complaints and I could not see how this measure would reduce noise nuisance currently experienced by resident's living in the immediate vicinity of the premises. This will however need to be assessed by EPT / noise officers to establish whether from the resident's property the associated noise breakout can be regarded as a statutory noise nuisance. Checked</p>

			the various floors and SIA staff were not allowing patrons to vacate rooms with drinks. I also noted that the 3rd floor was not operational as a clubroom or a theatre. I did complete a very simple exercise on the 2nd floor with security and closed the doors of the clubroom that effectively cut out all noise escape from the clubroom. I note that outside each clubroom on landing where there is waist height to ceiling height single panes of glass. I enquired whether they had ever thought about double-glazing as almost all of the noise was coming out the clubrooms and going straight out the window into the wider community. I do not think this has been looked into as of yet which I would imagine drastically reduce the noise escape as a whole for the whole building.
05/09/2015	00:04	Farhad Chowdhury	Long queues outside CLF arts cafe, lots of activity looking for BBQ's none set up yet, found a man with Nitrous Oxide maybe selling to people going to CLF. Adam Called NTE police and gave description of the man and to visit and observe rye lane and seize the Nitrous Oxide.
05/09/2015	02:00	Farhad Chowdhury	Still a queue outside no BBQ some people sitting on the pavement.
13/09/2015	01:40	Jayne Tear	Blenheim Grove SE15 - Parked appx 50yds from junction with rye lane near the church. All quiet in Blenheim grove, however could hear shouting, laughing and screaming of patrons coming and going in and out of the CLF ART CAFÉ. The patrons were walking backwards and forwards across the road and congregating at the entrance observed for appx 15 minutes. Got out of the car to visit RYE EXPRESS and noticed empty beer cans and beer bottles strewn in various places on the pavement.
13/09/2015	02:10	Jayne Tear	Notes to follow
19/09/2015	01:15	Richard Kalu	Request made by David Franklin to Visit. Premises visited with Farhad Chowdhury. Parked up at Bar Story. Lots of people milling about and drinking. On approach to CLF art cafe spotted a nitric oxide seller and called it into police. Quite a few people along the road singing and shouting. No noise breakout from the premises in the courtyard. They appeared to manage to contain the music levels to within the premises and there was minimal sound escape. The third floor was busy with people generally going in and out and a heavy presence of SIA staff who appeared to have received specific instructions to stop people taking drinks into the courtyard. Room was being used more as a clubroom than a theatre type room. Witnessed a number of drinks being confiscated from patrons before being allowed into the courtyard. When leaving the premises noted a number of discarded balloons (nitric oxide) discarded along the street.
19/09/2015	23:30	Richard Kalu	Visit to premises with Farhad Chowdhury. Nitric Oxide seller was present and mixing in with patrons waiting to gain entry. Informed NTE police of a IC3 male with dreadlocks wearing a beanie hat with stonewash jeans and a furry type olive green jumper. Nitric oxide was approaching people and some people were being quite vocal that they did not want the balloons. Full complement of SIA staff on door who were carrying out searches and using wands.

04/10/2015	03:20	Richard Kalu	<p>Full inspection carried out. Initially observed the front of premises from the vantage point of Blenheim Grove. X4 patrons on Blenheim Grove however no ASB issues were identified. X15 patrons at the front of the premises who were being controlled by SIA staff. No Nitric Oxide sellers or barbecue sellers observed in the immediate vicinity of the premises. There was evidence of nitric Oxide use at the front of the premises with discarded silver nitric oxide bottles on the floor. Full inspection carried out with the operator / DPS Saija Kamarainen and head of security Yazz (██████████). 3rd Floor (theatre) was not operational and we discussed the use of the third floor that it should only be operated as a theatre. I have been advised by Saija that she intended to go down the road of a variation of the licence. Saija advised that they wanted to support the theatre but when it was not busy it still needed to be operational and draw revenue and the only way to fully utilize this space was to use it as a venue room for the CLF Art Cafe main business. The licence is very complicated with repetition of wording of conditions which in some respects is not enforceable. Saija advised me that she has trouble understanding the licence in respect of what she should and should not be doing. I advised her that legally it was her responsibility and as a responsible operator to gain an understanding of the licence and to ensure that she was compliant. Security also confirmed that the licence is causing problems as it is very complicated to understand. I reiterated again that they needed to gain an understanding and if there were any issues with the understanding of the wording of the conditions to use this opportunity to discuss with me now. On my initial entry into the premises I noted that no patrons were drinking in the front courtyard of the premises. There was a very visible presence of SIA security at the entrance and in the front courtyard. I made comment and Saija volunteered that there had been issues about the wording on the licence conditions about the operation of the front courtyard. Saija advised me that to avoid confusion security had now been advised not to allow any patrons to enter the front courtyard with drinks past 01:30hrs which could clearly now be seen to be a measure which had been implemented. Sound Limiters checked and all fully operational. I went through the licence with Saija and the head of security and the breaches found relate to dispersal policy condition 354. No breach was witnessed in relation to 313 drinking in the front courtyard. SIA were using the metal wand detector. I witnessed SIA staff actively stopping patrons vacating any rooms with drinks which was encouraging and it was a zero tolerance approach to this i.e. one warning then the alcohol was being confiscated. The inspection took a long time however it's clear that some work needs to be done on the licence with a full variation to tidy up the licence. Signage was up and could clearly be seen. I have advised them that they could do with some more updated signage. CCTV was operational and no issues identified. I gave words of advice in relation to dispersal policy and have asked that this is done as a matter of priority. Also Saija has confirmed that staff will now be deployed to come out the premises at the end of the night and sweep up and pick up discarded litter in the immediate proximity to the premises which should hopefully address some of the complaints received by residents about litter. I asked about outside promoters and it appears that they do on occasion have external promoters. Saija confirmed that they do have a venue hire agreement arrangement in place and it may be worthwhile discussing with the police to see if they have received any 696 forms.</p>
------------	-------	--------------	---

10/10/2015	22:02	Wesley McArthur	Visit with Ken Dale (KD). Waist height barriers were in place heading south on Rye Lane from the entrance of the premises but there was nobody queuing to get in the premises. I saw 4 IC3 D/S's at the entrance (on Rye Lane) to the premises. We didn't observe any ASB in respect of the premises or groups of people congregating near the premises.
17/10/2015	00:35	Farhad Chowdhury	Hundreds of people in queues on rye lane waiting to go in. We looked for nitrous oxide sellers and BBQs nobody around today.
23/10/2015	22:34	Farhad Chowdhury	All quiet some people are queuing up.
31/10/2015	22:55	Wesley McArthur	Visit to the premises with Adam Burchett (AB). I saw 4 D/S's by the entrance to premises on Rye Lane. Waist height police barriers were in use heading south down Rye Lane from the entrance to the premises. There were approx.' 15 people queuing to enter the premises behind the barriers. I didn't observe any ASB in the vicinity of CLF.
08/11/2015	02:23	Farhad Chowdhury	Hundreds of people outside in the smoking area and the space outside rye wax, some with drinks in their hands. Very crowded in the alleyway some staff were at the far end near staircase B. People had glasses and Beer cans in their hands, people noise and music audible outside. The have not carried out any noise control works yet. Met head door man Ade, security could not manage the crowd they have no control. Ade told us when the DJ changes and set changes people come out and change rooms as they get bored and this causes the big crowds outside. After we advised him of the no drinks after 2am he took drinks off peoples hands, still busy we left at 2:38hrs.
22/11/2015	01:50	Farhad Chowdhury	Open no queues, looking for nitrous oxide sellers, none found.
22/11/2015	22:12	Farhad Chowdhury	Queues opening not busy yet
05/12/2015	01:00	Richard Kalu	Visit to premises with Sarah Newman. Entered the premises and discussed people noise and courtyard area with head door supervisor as management were dealing with an issue. 3rd floor not in operation drinks were not being taken out into the courtyard area. Sarah inspected the new Acoustic measures put in place in the front courtyard. We carried out some monitoring from the other side of the new acoustic built up area overlooking the courtyard and no music could be heard escaping from the premises. Discussed nitric oxide sellers and were advised that SIA staff are actively discouraging nitric oxide sellers from operating near their premises. Head of security has asked if there could be some police presence to deter the nitric oxide sellers.
02/01/2016	23:31	Farhad Chowdhury	Premises open, nobody in the queue very quiet.
27/02/2016	03:30	Richard Kalu	Observations of premises in relation to front courtyard and no alcohol being consumed by patrons. Condition being adhered to and enforced by SIA staff at the premises. No nitric oxide sellers located outside the front of the premises.
28/02/2016	1:37	Farhad Chowdhury	All quiet nobody outside

05/03/2016	01:30	Richard Kalu	Compliance check with Farhad Chowdhury. No nitric oxide sellers were located at the front of the premises. SIA staff were visibly patrolling the line of patrons waiting to gain entry and advising patrons that they should refrain from buying nitric oxide.
06/03/2016	1:32	Farhad Chowdhury	CLF arts cafe all quiet, no issues.
12/03/2016	22:45	Farhad Chowdhury	All quiet, not many people in the queue, checked for BBQ none at the moment.
23/04/2016	03:20	Richard Kalu	Visit to CLF art cafe with John Uzodinma. X3 nitric oxide sellers located at the front of the premises. I identified myself to one of the sellers and advised him that I worked for licensing and that he needed to move on. I also advised him that the police were doing a sweep and that they faced confiscation of their nitric oxide and possible arrest. They all moved on and I confirmed that officers routine patrol RyeLane. Also noted a barbecue seller across the road from CLF art cafe. Will update Adam Burchett in regards to this so that we can attempt to cease next week.
01/05/2016	01:15	Richard Kalu	Visit to CLF Art Cafe. X5 SIA members of staff at entrance of the premises. We identified a barbecue seller who we have previously seen trading and who Adam has confiscated his barbecue across the road. Advised by Adam that he wanted to witness the barbecue seller. We parked up just on Blenheim Grove and observed the barbecue seller cooking and selling to members of the public. 01:26 Call to NTE Police advising them that we would need assistance later to confiscate the barbecue. Advised that they would be happy to assist later. We left having arranged to return back later in the night with NTE police assistance.
01/05/2016	03:10	Richard Kalu	Visit with Adam Burchett and NTE Police. Barbecue confiscated. Adam to lead on potential prosecution Witness statement to be provided to Adam Burchett upon request.
07/05/2016	03:15	Richard Kalu	Visit to CLF art cafe with Sue Hunter. When we arrived I noted that on the corner of Blenheim Grove across the road from CLF ART Cafe there was barbecue seller on the corner of Blenheim Grove. Upon closer inspection I noted that it was the same barbecue seller that had his barbecue drum lifted and confiscated by myself and Adam Burchett on the 1/05/2016 (previous weekend).Myself and Sue Hunter approached the barbecue seller and advised him that a van was coming in 10 min to pick up his van and that he needed to pack up and move on. We returned back to our car to observe the barbecue seller to ensure that he was packing up and moving on which he did. Whilst positioned at this location we observed a number of issues on Blenheim Grove that was cause for concern. There were at least 3 nitric oxide sellers as well as street drug dealers on the corner of Blenheim Grove. Call made to NTE Police requesting that they come down to Blenheim Grove to disrupt the criminal activity that was taking place. We were advised by NTE Police that they would visit the area shortly and concentrate their attention to Blenheim Grove / CLF Art Café.
07/05/2016	23:53	Farhad Chowdhury	Looking for BBQ's, No BBQ's no Nitrous Oxide sellers tonight.
21/05/2016	1:40	Farhad	No BBQ's no Nitrous Oxide sellers outside.

		Chowdhury	
22/05/2016	2:30	Farhad Chowdhury	Checked for nitrous oxide sellers none and no bbq's
04/06/2016	02:40	Richard Kalu	No barbecue seller located across the road from premise. Noted that there now appears to be increasing numbers of nitric oxide sellers located on across the road from CLF Art Café. Witnessed what appeared to be an exchange of money possibly for drugs on at least two occasions. Noted at least X7 members of the public with nitric oxide balloons around the general area of CLF Art café. Action: Update police in regards to the increase in nitric oxide sellers along rye lane with an emphasis that the nitric oxide sellers do seem to be concentrating their efforts around the CLF Art Café.
18/06/2016	01:50	Richard Kalu	Myself and Ken Andrews while walking past the premises were stopped by the head of security who enquired about the barbecue seller who was usually pitched up on Blenheim Grove. Advised that there was an outbreak of food poisoning amongst some the security staff that had purchased some food from the barbecue seller. Myself and Ken advised him that he and his staff should refrain from purchasing food from the barbecue sellers and discourage patrons as much as possible from doing so as well. Advice provided in relation to food hygiene by Ken Andrews. Discussed some of the activity which was occurring on Blenheim Grove and in close proximity to the CLF Art Café. Was advise that the police appear to be much more on top of things are making more frequent sweeps of the area which is pushing away some of the desirable elements that seemed to use the area as a destination area to engage in criminal activity.
02/07/2016	03:20	Richard Kalu	Visit to premises with Adam Burchett. As we were coming down Rye Lane we spotted one of the persistent barbecue sellers and we approached him and advised him that he should not be setting up on Blenheim Groves we would confiscate his barbecue drum. X2 Nitric Oxide sellers were milling around who appeared to be working in partnership. X2 black males one with dreadlocks (6ft1 dark denim jeans white t-shirt and stone island jacket) and one with a bald head (5f 9 dark denim jeans white t shirt and dark blue jean jacket). Overheard part of a conversation with a customer and they were saying that they were about to sell out and they only had X2 cans left. CLF had full compliment of SIA staff at the entrance of the premises carrying out ID checks and scans of the patrons wishing to gain entry.
11/09/2016	01:30	Farhad Chowdhury	No NOx sellers outside no queues outside CLF.
11/09/2016	02:35	Farhad Chowdhury	No queues outside no NOx sellers seen all quiet outside.
25/09/2016	03:33	Farhad Chowdhury	Call quiet, seen two NOx sellers they appear to be like NOx sellers had ruck sack behind them wondering up and down the road. Outside CLF Arts café. Called Police to inform them

02/10/2016	02:07	Farhad Chowdhury	Police outside some incident at the club, met the SIA door staff says member of staff was attacked inside. I asked to speak to the manager Saija we went upstairs where we met Saija and the barmaid named Beverly who was attacked. Police have arrested 2 guys and 2 girls who are all suspects, apparently the barmaid was manning the doors inside and some argument broke out and a customer kicked Beverly in the stomach repeatedly it was unprovoked attack. She looked badly shaken and was resting in the managers office. I asked her is she was okay as she did look very shaken. I called our NTE team to report the incident there was no answer on their phones.
08/10/2016	02:20	Farhad Chowdhury	No queues outside, nobody outside just door staff.
22/10/2016	00:40	Richard Kalu	Visit to premises with Natasha Donoghue. Full walk around the site and no issues were identified. The 2nd floor theatre room was not operational ATOV. No drinks were being allowed out into the main courtyard area of the premises. All patrons were being searched upon entry into the premises. X5 Female SIA staff were counted on site. Advised by one of the SIA staff that they have DJ Tim Westwood performing next week at the premises and they will be drafting in an extra attachment of SIA staff to ensure that no issues arise at the event.
05/11/2016	00:03	Farhad Chowdhury	Very long queues outside no NOx sellers.
23/12/2016	00:25	Farhad Chowdhury	Closed tonight
12/02/2017	02:30	Farhad Chowdhury	Quiet, four people outside
