

Shared ICT Service

Member Briefing on the Shared ICT Service

October 2017

Mark Compton-James – Head of IT & Digital Services

Shared ICT Service

Purpose of briefing:

- ▶ Time is right to communicate – focusing on Nov 1
- ▶ Bring everyone to a common understanding of the Shared ICT Service – address concerns
- ▶ Opportunity to ask questions
- ▶ Confidence that the wider organisation is aware and prepared

Shared ICT Service

Reasons for Change

- ▶ Contract with Capita coming to an end
- ▶ Need for a new model – successive outsourced contracts has not delivered the Council needs
- ▶ Lack of flexibility and partnership in outsourcing model – driven by commercial focus
- ▶ Council made decision to take a different approach – bring service back in-house to a shared service

Shared ICT Service - Overview

- ▶ Brent & Lewisham Shared ICT Service established in April 2016. Service also provides ICT to the Local Government Association.
- ▶ Brent is the host Authority
- ▶ Lewisham transitioned from Capita to Brent.
- ▶ In-house support service overseen by a joint committee and managed by a joint management board.
- ▶ Individual councils maintain:- Information Governance, Change Management and Application Support teams.
- ▶ Southwark will join the Shared ICT Service on 1 November !

Shared ICT Service

The Shared ICT Service is the next step on our 'Fit for Future' digital journey

So far we have seen ...

- Blackberry replacement - new iPhones
- Improved remote access platform

Shared ICT Service

Key Changes to note:

- ▶ Logging requests will change from a telephone interface to an **Online service platform**
- ▶ On going Projects – there will be a **project freeze** during transition – projects to be completed or transferred to Shared ICT Service

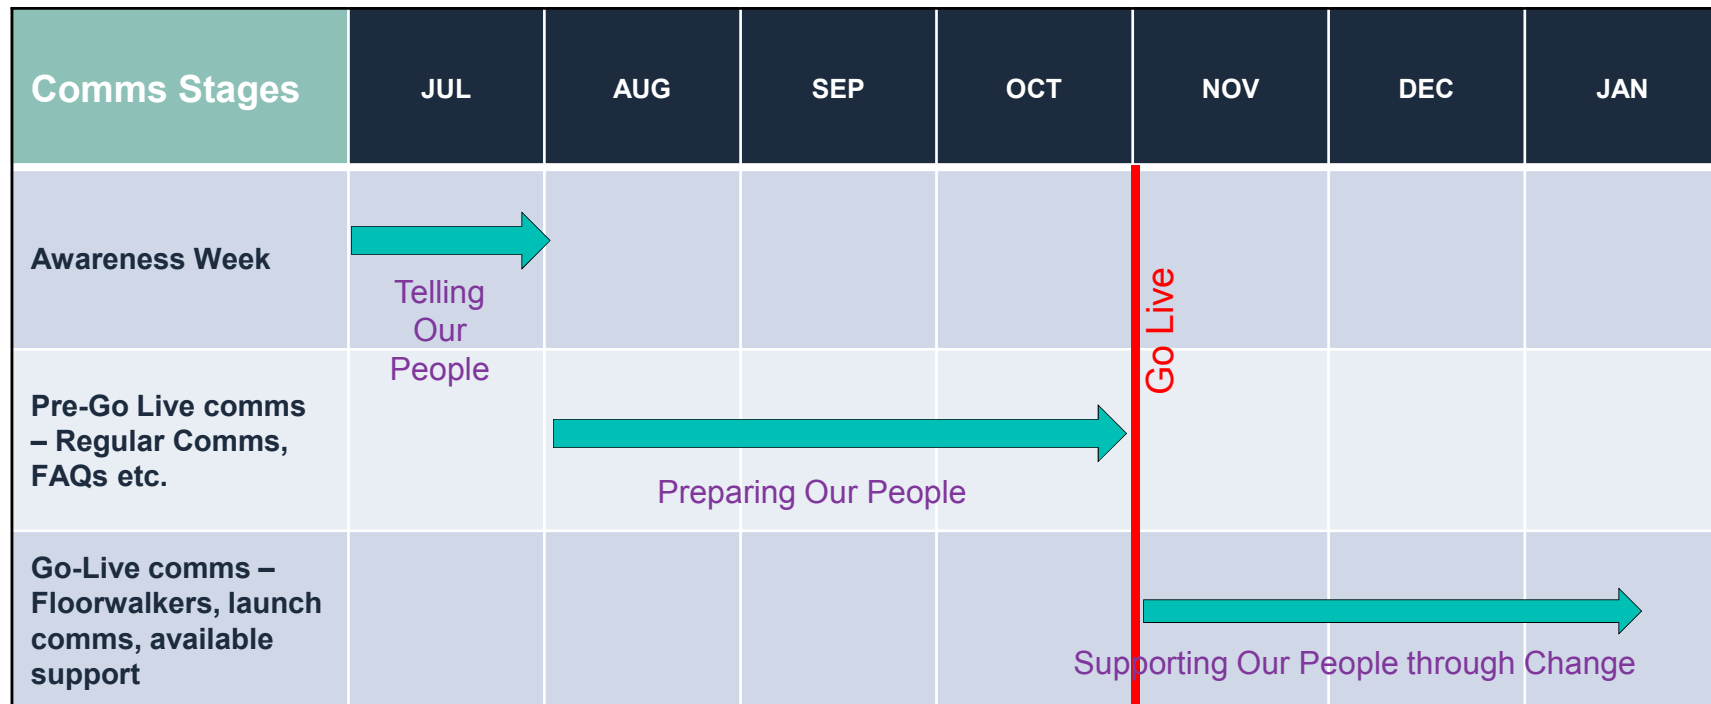

Transition between - 16 Oct and 13 Nov - will be a busy period.

Shared ICT Service - Benefits
