

NOTIFICATION OF KEY DECISION TO BE TAKEN

GENERAL EXCEPTION NOTICE

DETAILS OF DECISION	
Title of Report	The outcome of the consultation exercise on changes to Day Centre provision at Queens Road and Riverside and the development of a Disability Hub
Description/Nature of matter requiring Key Decision	To consider the responses to the consultation exercise on the proposals to develop a disability hub for people in Southwark and to agree changes to day centre provision as deemed appropriate.
Decision taker	Cabinet
Date by which Key Decision must be taken	31 October 2017
Reason why it was impracticable for decision to be on the Forward Plan	In June 2017 the council carried out consultation on its proposal to develop a disability hub in Southwark and proposed changes to day centre provision. In light of feedback received to the consultation, the council has carried out a further consultation exercise, providing additional information and clarifying the proposals. The further consultation period runs from 19 September – 17 October 2017. The issue was identified as a key decision after the publication of the October forward plan.
Reason why the decision cannot wait for inclusion in the next Forward Plan	There is a report planned for the December Cabinet meeting on the council's Office Accommodation Strategy. Decisions relating to the development of the disability hub will inform decisions on the office accommodation strategy. This issue therefore needs to be considered in advance of the report on the Office Accommodation Strategy report.
