(3) The Forum has at least 21 individual members each of whom - (i) lives in the neighbourhood area concerned, or (ii) works there (whether for a business carried on there or otherwise) - at time of writing there are 19 (nineteen) members who live in the area concerned and 2 (two) who work there (as detailed in Appendix 4, page 4)

(4) it has a written constitution – see Appendix 2

	Question	Neighbourhood Forum Response	Council officer comment
1	How have you considered different routes to achieving your ambitions for your neighbourhood?	The Forum produced a vision for the area 4 years ago but it did not adequately address the aims of the 2011 Localism Act. We have successfully applied for funding and worked with the local authority on issues such as s106 funding to secure local improvements but the NP route will be more helpful in guiding future development of the area	
2	What are the opportunities and benefits of producing a Neighbourhood Plan for your area?	It will enable us to identify small sites which might be suitable for development, promote green issues, local employment, traffic management and local design. It will help us strengthen local engagement in the planning process and improve community links across two boroughs.	
3	Is there already a Neighbourhood Plan for this area?	NO	
4	How does this plan relate to boundaries of other neighbourhood areas? How does your proposal relate and effect other existing Neighbourhood Forums in the surrounding area? Does it support or conflict with their policies? If so how?	The only designated Neighbourhood Forum/Area around the area currently of Herne Hill is 'Tulse Hill', which is solely within the Borough of Lambeth. We have reached out to those Forums that exist and are active even if they are not designated Forums. We have had discussions with groups and forums representing Norwood, Brixton, Tulse Hill, Dulwich, SE5 (Camberwell), Loughborough Junction, other discrete areas and with groups representing Brockwell Park, with Lambeth and Southwark officers and members and also with a wide range of	

		residents' groups in the area. The plan and our proposed boundaries therefore relate closely to	
		some adjacent NP areas, and have been proposed	
		as a direct result of extensive consultation over the	
		past year. Areas within and to the north and east of	
		our proposed area are not currently proposing	
		neighbourhood plans but have been involved in	
		discussions about boundaries, some inconclusive.	
		No Neighbouring Forums have yet to bring forward a	
		Plan and therefore policies for consideration.

		conservation area) . It includes Bessemer Grange	
		school, Charter school and goes along the back of	
		properties in Red Post Hill to N Dulwich station. The	
		boundary then goes s-w along the railway, and	
		includes the site of the velodrome. The boundary	
		then goes south west along Giant Arches Road, until	
		the back of houses with Croxted Road, south to the

	considered and why did you	web survey of where people felt they lived, as well	
	chose the boundary proposed?	as through successive meetings and negotiations	
		with a range of local groups and community	
		organisations, council officers, and ward members.	
		Our original boundary included Brockwell Park which is designated Metropolitan Open Land and	
		other areas now felt to be part of Dulwich, and	
		Camberwell. We have adjusted our draft boundary	
		significantly as we have gone along to incorporate	
		many rounds of feedback, and have reached	
		compromises with neighbouring groups that go	
		some way towards meeting both their and our	
		priorities. We recognize that the northern boundary	
		includes a large part of the LJAG master plan area and we felt this is justified for two reasons. Firstly,	
		and we release is justified for two reasons. This ly,	

		we carried out additional survey work in the autumn	
		of 2016 in those streets closest to Loughborough	
		Junction and the evidence supported residents	
		feeling a sense of 'belonging' in Herne Hill – this	
		survey was recognised by the Milkwood Road	
		Resident's Association which covers 4 streets within	
		the LJAG Master Plan. These results were shared	
		with LJAG but they have not been prepared to	
		reconsider their objection. Secondly, LJAG is not	
		proposing to prepare a neighbourhood plan: we	
		recognize the efforts that they, the Council and	
		appointed consultants have put into the master plan	
		process but a NP will have a statutory status	
		whereas the master plan is advisory. We have told	
		LJAG that the content of the masterplan where it	
		conforms with the objectives of the HH NP can be	
		included within the NP and we feel this will be to the	
		longer term benefit of the area.	
		With regard to the boundary with Brixton the boundary coincides with the ward boundary.	
		Contact from a representative of the Brixton Society	
		and Brixton Forum suggested that there is some	
		overlap between Brixton with our boundary in the	
		Barnwell/Railton/Mayall Roads area but we have	
		received no formal response requesting a proposal	
		from Brixton. We feel that because of the ward	
		boundary and engagement activity with these	
		streets by the Forum historically a preference for	
		inclusion in Herne Hill can be justified.

	any other reasons that you	represent the perception of where it was felt Herne	
	considered for choosing the	Hill was, we decided to carry out as extensive a	
	boundary?	consultation exercise with local residents and	
		businesses as resources allowed. Some boundaries	
		fall naturally along roads and railway lines which act	
		as a barrier to communities. Elsewhere the	
		boundary has developed following discussions with	
		neighbouring forums and other groups. We have	
		taken care to ensure boundaries do not separate	
		properties from their gardens and go down the	
		middle of roads where appropriate and that the	
		characteristics of the residential buildings are of a	
		consistent scale and style.	
		The area encompasses more than 16,000	
		residential addresses (census 2011) and over 200	
		businesses, mainly in the centre of Herne Hill and 2	
		industrial estates along Milkwood Rd.	
		The boundary surrounds the Town Centre of Herne	
		Hill as well as the Hill itself and therefore spans both	
		the London Borough of Southwark and Lambeth	
		whose boundary runs through the middle of both the	
		Town Centre and the Hill.

think the boundary should be? How did they relate to the proposed neighbourhood? How many did you consult? What were the demographics?	Roadmap Guide". This has provided us with a wealth of data which we have used in our discussion with local groups to further refine our proposals. We set up a neighbourhood plan mapping page on the Herne Hill Forum website and publicised this through the Herne Hill e-newsletter which is sent to 6,700 people. This had been supplemented by face to face survey work with wide ranging discussions with many local residents and tenants groups, and with individuals using street corner surveys, web surveys, and web discussion forums, successive newsletter posts, including 200 local businesses, and regular liaison and discussion with all of our local councillors. In total, we have received 620 responses to our question 'which neighbourhood do you feel you live in', via many different channels. Over 50% of respondents expressed an interest in being involved in future process when asked. By using a mix of different approaches, ranging from standing in the Sunday market, to surveying people coming out of schools, to walking the local shopping district with a clip board, we managed to capture responses from a wide demographic range, and to engage with people who were not previously known to the Forum. We uploaded each of these survey responses to our	
	interactive map as a 'pin' – which we set to show whether people did or did not feel that they lived in	

	 Herne Hill. We used this process to help develop our iterative map draft boundary, which we then took out and tested through successive meetings and more survey work. The resulting evidence is shown on map ref appendix 3. In addition to this work, we held a launch event for the Neighbourhood Plan consultation process on 27 January 2016, which was attended by 150 people. This enabled us to spend a full evening consulting on ideas, aspirations, and priorities for local planning, and to recruit a whole new task force of volunteers to take this work forward.
	All councillors from Thurlow Park Ward, Herne Hill Ward and Village Ward played an active role in Neighbourhood Planning meetings and the consultation on the formation of the plan process. In Herne Hill ward Councillor Dickson worked closely with groups of residents on the proposal as Councillor Deckers-Dowber did in Thurlow Park ward and Jane Lyons in Village Ward. Councillor Cowell worked with the Norwood and Tulse Hill Forums, coordinating issues between the different groups and all other Councillors helped in shaping the project.
	The demographics of the proposed area are assessed in Appendix 4.
9 How have you rea	ed conflict There were issues at first with the boundaries with

with other groups who have issues with your proposal?	Norwood and Tulse Hill forums and with groups representing Loughborough Junction and Brockwell	
	Park, and we have met with Loughborough Junction Action Group, Milkwood Road Residents	
	Association, SE5 Forum, and Brockwell Park	
	Community Partners, Rise and Gardens Residents	
	Association, residents of the Lower Peabody estate,	
	and representatives of the Herne Hill velodrome, and other groups representing Ruskin Park and	
	roads in SE5 between Ruskin Park and Denmark	
	Hill (FoRP and RoTHRA). As far as Southwark is	
	concerned, we have discussed boundary issues with	
	the Dulwich Society and other groups in the Dulwich	
	area and taken advice from officers about inclusion of the Champion Hill estate and believe the	
	proposed boundary is now robust on the basis of	
	gathered evidence. Burbage and Turney Rd. RA	
	carried out additional survey work (Apr. 17) which	
	we have accepted as justification for not including a	
	section of Burbage Rd. in the Plan. With the	
	agreement of LJAG, SE5 Forum, FoRP, Milkwood Rd. RA and Ruskin on the Hill RA (RoTHRA) we	
	conducted additional survey work north of Lowden	
	Rd. and NE of Herne Hill Rd. inclusive. This	
	evidence indicates an overlap between what is	
	thought of as Herne Hill and Loughborough	
	Junction. This additional survey work also indicated	
	strong support for green space and supports our proposal to include Ruskin Park within the Plan,	
	noting that the Camberwell Forum do not currently	

plan to develop a Neighbourhood Plan. We recognise that LJAG do not agree with our proposed boundary but as explained above we feel it can be justified. Wherever a conflict has arisen, we have endeavoured to meet in person to agree the best way forward together and arrived at a compromise that represents the best solution for both parties. This has been supported and guided by planning officers from both Councils, as well as by local councillors. With regard to specific sites or areas which might still be an issue with our neighbours, we feel the Velodrome should be included in Herne Hill, not just because of its name and its iconic status as a Herne Hill asset but also because its inclusion will fit in well with what we expect to be one of the key aims of our plan, namely to encourage cycling and community engagement. The velodrome trust has indicated that they wish to be in the Herne Hill NP area	
We are aware of the current proposals for a masterplan for the LJAG area but as it is not certain if there will be a Neighbourhood Plan in the future for those areas we have included in our proposed boundary those streets which from our survey work seem to feel they are in Herne Hill. We can commit to accepting the final results of the masterplan for Loughborough Junction as far as they affect areas within whatever the final boundary there is agreed, subject to such proposals according with the overall	

		aims of the Herne Hill neighbourhood plan.	
10	What did your review of existing local policy to identify how well it covers community concerns and aspirations find?	There seemed to be insufficient local detail about issues such as traffic, local design and green issues, and no identification of small opportunity sites. A few small sites have since been included in the consultation version of the New Southwark Plan but the detail is limited.	
11	What are the resource implications (time and money) of producing a Neighbourhood Plan? How will you provide them?	 Following an EGM held on January 27th 2016 to agree changes to the constitution, we received many offers of assistance and have since set up 3 working groups to look at particular aspects of the process as well as a regular group to look at submission progress and wide matters. All of this resource is being offered on a volunteer basis and so is resource neutral. We are confident that the majority of the work going forwards will be undertaken with volunteer resource as our main asset, and this is based on the high levels of community engagement and volunteering that define the Herne Hill community. There is a wide range of technical and professional expertise from those now involved as volunteers. To oversee this work and ensure continuity of delivery to date, we have contracted in project management support. Thus far, we have received a grant of £5,850 from Locality. This has been 	

		invested in project management over the past 12 months In addition to this, we have received support in kind from Aecom, via the DCLG programme. We are now at the end of these resources, and will be applying for the next phase of available funding and support to sustain this over-arching resource platform.	
12	Who are the 21 members of your neighbourhood forum? Do you have a resident, business and ward member on the forum? How is this group representative of the demographics of the proposed area?	 The list of our 21 members is attached as Appendix 4. The Committee is drawn from different places in the Herne Hill neighbourhood area (the "Area") and from different sections of the community in the Area. The Committee members: Geographically live throughout the Area across both the Lambeth and Southwark side Range from long standing residents of 40 years and more, some with families who have been here much longer, to those who have arrived very recently. Include long standing community activists with over 20 years track record and well connected as a result through to those who are new to community engagement locally and bring fresh and different perspectives as well as new connections and networks 	

 Bring experience and ideas to the Herne Hill Forum and neighbourhood from all over the UK and abroad. Are actively involved in a very large number of community, neighbourhood and resident groups through their work specialties, interests, experience, families, children, friends and their beliefs. For instance, we have been working closely with residents of local estates on a variety of community initiatives, and these existing relationships have enabled residents to feed their views into our initial consultation process for the plan Include local business owners and have active engagement with local businesses both large and small through several working groups and communication tools facilitated by the Forum Actively engage with younger people as parents but also through HH Forum activities working with primary level (for example our market square greening project) and secondary level students (for example our market square greening project) and secondary level students (for example our market square greening project) and secondary level students (for example sixth formers undertook some of the survey and initial consultation work for the proposed plan). 	
---	--

we have a core group of associates and regular	
volunteers who strengthen our local links.	
We amended the Constitution to make it possible for	
Councillors to become members of the Forum in	
Jan. 2016. There have been 2 Committee elections	
to which all Councillors were invited since then.	
Although no Councillors have joined the Forum at	
least one Councillor from each of the three ward	
areas within the proposed plan area regularly attend	
our plan meetings (as membership of the	
Neighbourhood Planning Working Group) and are	
integral to our neighbourhood planning work. See	
further statement about Councillors in section 8	
above.	
We believe we have made reasonable attempts to	
secure membership of the Forum this way, and	
when asked, all Councillors across the 3 wards (with	
the exception of Cllr Kirby, Southwark and Cllr	
Holborn, Lambeth who did not respond) responded	
in agreement to the following statement:	
"Herne Hill Forum established a sub-committee	
entitled the Neighbourhood Planning Working Group	
on the basis that its sole function was to develop the	
Neighbourhood Plan for Herne Hill. Councillors from	
each of the three wards which make up the Herne	
Hill area were invited to join and individuals from	
within these three wards regularly participated and	
contributed to this Group. (Full records of	
 attendance of councillors at these meetings can be	

made available through minutes of the Group). Our understanding as councillors was that this was a suitable and satisfactory level of engagement for the Neighbourhood Plan and therefore becoming a member of the Herne Hill Forum for the purpose of Neighbourhood Planning was not necessary at this time."	
 From a census profile perspective the table in Appendix 4 shows the diversity of our committee and how in many respects the committee group mirrors the profile of the neighbourhood, be this in terms of: Gender - a female 43% and male 57% split Ethnicity - a mix of White (85%) and Black African/Caribbean/Black British (15%) Age - ranging from 30 through to 76 Country of birth - with most (62%) but not all born in the UK Household types - most (76%) live in households with children; live in their own home (60%) and have English as their main household language (90%) Health – 50% say their health is good with 35% saying health issues impact on their day to day activities. Economically – most Committee members are either employed, self-employed or retired.

Appendix 3

Herne Hill Neighbourhood Plan Technical Evidence supporting boundary

As part of evidence gathering for Neighbourhood Planning, surveys were conducted asking where people identify with (see Page 2). Postcode and neighbourhood(s) were recorded. A 'natural neighbourhood' boundary can be perceived from this plotted data on Page 3. The 'neighbourhood' encompasses a majority of survey responses by street that are associated with Herne Hill coupled with use of proximal boundaries which recognise the geography and character of the neighbourhood, such as railway lines, housing estates, roads and parks. [Communicated 23/1/2017 as part of preconsultation work].

In the northern area of the region additional surveying was conducted by door knocking, from Lowden Rd. NE towards Loughborough Junction and from Herne Hill Road both NW and SE of Ruskin Park. In this region an additional optional question (2) was posed during this specific process "What asset in your area is most important to you?" – 100 responses were received of which 49 were associated with green space, namely "park". N.B. the question was open and not leading as to views on any particular asset.

The following question process was followed during door knocking exercises:

1. Question

A laminated questionnaire was used to conduct the door-step survey.

This is an example used along the northern area of the boundary in Lambeth. Suggested names were tailored around the boundary, e.g. in the Southwark area Dulwich would feature alongside Herne Hill and 'other'.

2. Supplementary Question (if possible)

What asset in your area is most important to you? (do not prompt).

Evidence mapped by postcode inc. proposed boundary

Green pins denote postcodes where a majority of survey responses identified with Herne Hill, vs somewhere else; Orange pins denote postcodes where a majority of responses identified with somewhere other than Herne Hill.

Appendix 4

Herne Hill Neighbourhood census profile and the HHF Committee profile

The Herne Hill area under the proposed neighbourhood plan straddles the two boroughs of Lambeth and Southwark. Since census data is limited to super-output levels it has been necessary to approximate a population assessment to a set of output areas which best cover the area (area: Lambeth 014A, Lambeth 014B, Lambeth 014E, Lambeth 018D, Lambeth 018E, Southwark 031B, Southwark 031C, Southwark 031D)

Using these approximate figures we can see that our Committee members represent a good reflection of our neighbourhood as regards a number of key census indicators. All figures are shown as a percentage of each section, e.g.

Dear Cllrs (Herne Hill, Thurlow Park, Village)

Although it is not a mandatory requirement, both Lambeth and Southwark have queried our application regarding absence of Councillor membership of the Herne Hill Forum for purposes of the Neighbourhood Plan. The below statement has been put together to clarify the current status of membership, with the help of Cllr Lyons and Cllr Cowell.

"Herne Hill Forum established a sub-committee entitled the Neighbourhood Planning Working Group on the basis that its sole function was to develop the Neighbourhood Plan for Herne Hill. Councillors from each of the three wards which make up the Herne Hill area were invited to join and individuals from within these three wards regularly participated and contributed to this Group. (Full records of attendance of councillors at these meetings can be made available through minutes of the Group).

Our understanding as councillors was that this was a suitable and satisfactory level of engagement for the Neighbourhood Plan and therefore becoming a member of the Herne Hill Forum for the purpose of Neighbourhood Planning was not necessary at this time."

I'd be grateful if you would respond indicating whether you agree to the above statement by Wed. this week - this is a deadline imposed by Southwark and Lambeth for us to amend the application with this information.

If you have any questions before answering please do not hesitate to contact me.

Regards

Yan Hawkins - Acting chair - Herne Hill Forum
