

<b>Item No.</b> 6.	<b>Classification:</b> Open	<b>Date:</b> 18 December 2017	<b>Meeting Name:</b> Planning Committee
<b>Report title:</b>		<u>School Expansion Programme</u> To release £11,966,549.59 from the S106 agreements associated with the developments listed in the report, for the purposes of increasing school capacity in the borough.	
<b>Ward(s) or groups affected:</b>		Project: All Wards Funds: All Wards	
<b>From:</b>		Director of Planning	

## RECOMMENDATION

1. That planning committee authorise the release of £11,966,549.59 from the Agreements listed in Appendices 1-15, in order to contribute to the overall Capital Programme requirement for these projects, the total life time cost of which is £135,789,495.

## BACKGROUND INFORMATION

2. Planning obligations under S106 of the Town and Country Planning Act 1990 are used to address the negative impacts caused by a development and contribute to providing infrastructure and facilities necessary to achieve sustainable communities. The council can enter into a legal agreement with a developer whereby the developer agrees to provide planning obligations. These obligations can take the form of financial contributions and can cover a range of facilities including contributions toward educational facilities.
3. The council has a statutory duty under the Education Act 1996 (amended by the Education and Inspections Act 2006) to “secure that sufficient schools for providing— (a) primary education, and (b) [secondary] education are available for their area” as well as to “secure diversity and increase opportunities for parental choice when planning the provision of school places” in the Borough.
4. Birth rates have increased 12% across the borough from 2002-2014 and in common with other London boroughs, Southwark has seen a sharp increase in demand for primary places and this year a record proportion of ‘on time’ applications were received.
5. As a result, there is currently a programme of investment of approximately £160 million in Southwark schools to increase numbers and address capacity issues. This is being funded mainly by EFA capital grant, council capital (with Section 106 support) and school contributions.

## KEY ISSUES FOR CONSIDERATION

6. Through the [School Place Strategy](#), the council has assessed the need for places throughout the borough and has invested in additional school places in order to meet the growth in population and parental choice.

7. The whole of the school estate, both council maintained and voluntary aided, has been subject to a condition and capacity survey. The survey was completed in the summer of 2012 and informed the above mentioned strategy.
8. Prior to the introduction of our local CIL, S106 funding was agreed to be used to contribute towards the costs of providing this extra educational capacity. As such, this report requests that the expansion programme, in respect of the schools mentioned in paragraph 1 are funded from the identified S106 contributions.
9. Cabinet reports on the [Primary Investment Strategy](#) were agreed 16 July 2013 (which detailed the outcome of the 2012 condition and capacity surveys), 18 March 2014 ([School Places Strategy Update](#)) and 22 July 2014 ([School Places Strategy Further Update](#)). These reports have informed the strategy for the provision of school places and this request for the release of S106 funding.
10. The proposed works will provide an additional 14 forms of entry for Southwark's primary schools and one additional secondary entry form. There will also be additional SEN places at Cherry Garden School and a new, fit for purpose, PRU unit at SILs 3.
11. The proposed scope of works at each school include:

Project	Scope of Works
Albion Primary School	New school building on current site to replace existing school
Bellenden Primary School	New school building to replace existing
The Belham School	Refurbishment of previously disused Victorian school building (listed) with new extension
Bessemer Grange Primary School	New school building on annexe site
Charles Dickens Primary School	Alterations to existing building and new extensions, including expanded nursery and two-year old provision
Cherry Garden School	New school building on new site increasing the number of places from 48 to 72
Crawford Primary School	New extension to existing school
Grange Primary School	Alterations to existing building and new extensions, including expanded nursery provision
Ivydale Primary School	New school building on annexe site
Keyworth Primary School	New extension to existing school
Lyndhurst Primary School	New extension to existing school
Phoenix Primary School	Refurbishment of previously disused Edwardian school building on annexe site
Robert Browning Primary School	New extension to existing school
Southwark Inclusive Learning Service (KS 3) (SILS3)	New school building on current site to replace existing school
Southwark Park School	Full remodelling of existing school building with new extensions

## Community impact statement

12. The school expansions will have a positive impact on the community. The provision of modern and practical facilities with more capacity will greatly enhance the quality of the education facilities for both the additional and existing pupils and teachers.
13. All projects have been designed to be fully accessible to all, without prejudice or discrimination.
14. The proposals have no negative impacts on any particular age, disability, faith or religion, race and ethnicity and sexual orientation.
15. With the exception of those benefits identified, the proposals are not considered to have a disproportionate effect on any other community or group.

## Consultation

16. The expansion programme has been widely consulted upon, including the statutory consultation associated with each planning permission.
17. The chair and vice chair of the community councils, local ward members and the schools themselves have all been consulted over the life time of the School Places Strategy.

## Resource implications

18. As detailed in the above mentioned reports in paragraph 9, the council has previously committed to forward fund these expansion projects from the existing approved project budgets.
19. All £11,966,549.59 listed below are currently unallocated and available. The proposed allocation accords with the above mentioned agreements and would provide appropriate mitigation for the impacts of the specific and future developments.

Project	Number of Agreements	Appendix	Total S106 Funding
Albion Primary School	10	1	£2,529,626.20
Bellenden Primary School	4	2	£321,434.51
The Belham School	4	3	£462,413.35
Bessemer Grange Primary School	1	4	£20,173.00
Charles Dickens Primary School	25	5	£2,106,759.75
Cherry Garden School	8	6	£1,056,441.85
Crawford Primary School	9	7	£655,384.32
Grange Primary School	19	8	£1,733,901.51
Ivydale Primary School	3	9	£195,585.00
Keyworth Primary School	8	10	£299,486.12
Lyndhurst Primary School	1	11	£27,978.00
Phoenix Primary School	11	12	£1,312,091.65
Robert Browning Primary	9	13	£696,909.13

Project	Number of Agreements	Appendix	Total S106 Funding
School			
Southwark Inclusive Learning Service (KS 3) (SILS3)	4	14	£141,481.77
Southwark Park School	5	15	£406,882.43
<b>TOTAL</b>	<b>121</b>		<b>£11,966,549.59</b>

### Policy implications

20. These projects will help deliver our Fairer Future Promises by making Southwark a more connected and sustainable borough to live in.
21. The projects meet the following Fairer Future Promises:
  - Promise 4: More and better schools.
  - Promise 1: Value for money.
  - Promise 8: Education, employment and training.
  - Promise 9: Revitalised neighbourhoods.

### SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

#### Director of Law and Democracy

22. This report requests authority for the release of an amount of £11,966,549.59 for the 15 schools as listed in paragraph 13 of the report from a variety of different section 106 Agreements which are set out in the various Appendices to this report.
23. The report highlights the ever growing pressures in recent years for primary school places and this has led to a considerable investment in the schools programme and this has led to an increase in pupil capacity as outlined in paragraphs 4 and 5. To achieve this, there has been a considerable amount of consultation along the way including the consultation on each planning application. In order to progress with these developments within the necessary timescales to make additional spaces available, the internal accounting has fallen behind and the Council, as explained at paragraph 14 of the report, has needed to forward fund the projects.
24. Many of the major developments within the borough over the past 10 years or so have required a financial obligation to mitigate the additional impact arising from the development and its future occupiers. The agreements listed in the appendices refer to the payment being made to contribute towards the provision of school places for primary or secondary education within the borough. In the case of some of the Agreements, the payment has been made for primary and secondary education provision “within the vicinity of the Site” and it is for this reason that the agreements have been batched in relation to the appropriate nearby school.
25. The procedure for drawing on funds for education projects should prove less cumbersome in the future following the introduction of the Community Infrastructure Levy Regulations and the adoption by the council in April 2015 of the Section 106 Planning Obligations and Community Infrastructure Levy Supplementary Planning Document.

26. The decision to approve the expenditure of section 106 monies exceeding £100,000 is reserved to planning committee in accordance with Part 3F of the Constitution.

#### **Strategic Director of Finance and Governance CAP17/059**

27. This report seeks approval from the planning committee to release the sum of £11,966,549.59 from the various agreements listed in appendices 1 to 15 for primary school expansion programme in Southwark.
28. The director of planning confirms the section 106 receipts associated with the agreements listed in this report have not been allocated to other projects, and the proposed allocation accords with the terms of the agreements.
29. The strategic director of finance and governance notes the council has received the related section 106 funds and they are available for the purposes outlined in this report.
30. Staffing and any other costs associated with this recommendation are to be contained within existing departmental budgets.
