Subject: Objection to application for off sales licence by Theo's Pizzeria

I wish to object to the granting of an off sales licence to Theos Pizzeria located in the conservation area at the beginning of Grove Lane. The objection is based on the fact that it will lead to breaching of other conditions of the license currently in place, contradicting the spirit of current licence aswell . Also permission is being requested to sell alcohol off premises as late as 11.30pm this is already half an hour after hot food may be served in the restaurant or sold as takeaway.

I argue that the immediate area in Camberwell Church Street is already saturated with opportunities to buy alcohol for off premises consumption and that anti social aspects related to street drinking in Camberwell and particularly at the juncture of Grove Lane and Camberwell Church Street late at night will increase putting further pressure on residents and police services.

Southwark licencing could contribute to improving that situation, one that they have already been made aware of particularly relating to drinkers gathering late at night at the juncture of Grove Lane and Camberwell Church Street by not granting this request instead of suggesting that residents call the police when there is a problem a route that rarely produces an improvement.

Yours faithfully,
