

Item No: 7	Classification: Open	Date: 7 March 2018	Meeting Name: Planning Sub-Committee B
Report title:		Addendum Late observations, consultation responses, and further information.	
Ward(s) or groups affected:		South Camberwell and Village	
From:		Director of Planning	

PURPOSE

1. To advise members of observations, consultation responses and further information received in respect of the following planning applications on the main agenda. These were received after the preparation of the report and the matters raised may not therefore have been taken in to account in reaching the recommendation stated.

RECOMMENDATION

2. That members note and consider the late observations, consultation responses and information received in respect of each item in reaching their decision.

FACTORS FOR CONSIDERATION

3. Late observations, consultation responses, information and revisions have been received in respect of the following planning applications on the main agenda:

Item 7.1 – Application 17/AP/4421 for: Full Planning Application – 31-33 Grove Vale, London SE22 8EG

4. Since completion of the officer report and recommendation, further correspondence has been received from Councillor James Barber and from three local residents.
5. All cite concerns that objectors have received limited notice of the fact that the application is set to be heard by this evening's planning sub-committee. Notification letters were forwarded to all 20 respondents on 27 February 2018, 12 by email and 8 by post, depending on the contact details provided by each of the respondents. The council's Statement of Community Involvement says that for applications to be decided by a planning committee, notification will be sent to objectors to inform them of the date and location of the committee meeting 5 working days before the meeting. There is no requirement for the letters to arrive 5 working days before the meeting. Although there may have been a delay in Royal Mail delivering the letters due to the adverse weather conditions, they were sent out in the required timeframe.
6. Councillor Barber cites specific concerns with fire safety and the fact that the London Fire Brigade has not been consulted on this proposal. This issue is addressed in Approved Document B of the Building Regulations and would be considered via the Building Control process. There is no planning requirement to consult the Fire Brigade on a development proposal of this nature. The lack of a condition relating to the Metropolitan Police's Secured by Design accreditation is also questioned. As noted in the officer report, the Metropolitan Police responded to the consultation on 24 January and made no comments. Further comments are made in relation to nuisance, the

availability of documents and the wording of conditions. These points are addressed below.

7. Two comments have been received from local residents, both of whom have already raised objections that have been considered in reaching the recommendation to grant planning permission. This additional correspondence emphasises the noise and nuisance caused by the existing operation of the public house and echo the points raised by Councillor Barber. As acknowledged by the respondent, the manner of operation of the existing public house is principally a licensing matter rather than a planning one.
8. A third further objection has been received questioning the need for this type of accommodation in East Dulwich. The saved Southwark Plan supports the provision of hotels and visitor accommodation in areas of high public transport accessibility and this approach is reflected in the emerging New Southwark Plan, as long as there are no harmful impacts on neighbouring amenity. These issues are discussed in the officer report.

Management principles and transport impacts

9. During the determination process, the case officer sought further information in relation to proposed management practises and potential transport impacts. An email was provided by the planning agent to address these points, as referenced in paragraph 24 of the officer report, and this was uploaded to the Public Register. However, the format in which the document was uploaded has led to it being unavailable to some via the online portal. This correspondence (appended to this addendum) confirms that:
 - The site benefits from good public transport options (PTAL 4) and is within 100m of areas of the highest public transport accessibility levels, 6a and 6b.
 - That the relevant website and avenues for bookings will make clear that on-site parking is not available.
 - That of the 14 public houses owned and operated in the South East by the applicant, 7 already provide visitor accommodation.
 - That check-in will be limited to the opening hours of the Public House and that this will be attended to by the General Manager.
10. These points are acknowledged as part of the planning assessment in the officer report and a planning condition is recommended that would require the submission of a more detailed operational and servicing management plan (see Condition 2).

Corrections to proposed conditions

Condition 3 – Cycle parking

11. Minor change to the wording of the cycle parking condition, as below. The reason for the suggested condition remains unchanged.
12. Proposed wording:

“Prior to the commencement of the use hereby consented, 6 secure cycle parking spaces will be installed in a covered shelter at the location identified on approved plan 210/rev A. This space shall be used for no other purpose and the spaces shall be retained and maintained for the duration of the use.”

13. Replaces:

"The cycle storage facilities identified on approved plan 210/rev A shall be provided prior to the commencement of the use hereby consented and thereafter shall be retained and the space used for no other purpose and the development shall not be carried out otherwise than in accordance with any such approval given".

Condition 4 – Access to rear gardens

14. Correction to clarify that access to the rear gardens is restricted overnight, as follows:
*The two rear garden spaces identified as "main garden" and "secret garden" on approved plan 210/Rev A shall be closed to guests of the hostel between the hours of 10:00 **10pm** and **11am** 23:00 **such that** during guests shall not be permitted to use these areas for any purposes, except in the case of emergencies.*

Reason

To ensure no loss of amenity to neighbouring residential occupiers, in accordance with the National Planning Policy Framework 2012, saved policy 3.2 Protection of amenity of the Southwark Plan 2007 and strategic policy 13 High environmental standards of the Core Strategy 2011.

Item 7.2 – Application 17/AP/4258 for: Full Planning Application – Old College Lawn, Tennis Club, 10 Gallery Road, London SE21 7AB

15. Paragraph 12 - Minor change to this paragraph as follows: A total of 14 responses have been received to the application, ~~one~~ two objections and ~~13~~ 12 comments in support.

Sport England

16. Have no objections to the application.

Item 7.3 – Application 17/AP/3782 for: Full Planning Application – Dulwich Sports Club, Giant Arches Road, London SE24 9HP

Sport England

17. Have no objections to the application.

REASON FOR URGENCY

18. Applications are required by statute to be considered as speedily as possible. The application has been publicised as being on the agenda for consideration at this meeting of the planning sub-committee and applicants and objectors have been invited to attend the meeting to make their views known. Deferral would delay the processing of the applications and would inconvenience all those who attend the meeting

REASON FOR LATENESS

19. The new information, comments reported and corrections to the main report and recommendation have been noted and/or received since the committee agenda was printed. They all relate to an item on the agenda and members should be aware of the objections and comments made.
