**Subject:** Premises Licence Application - Rinneroon, 130 Druid Street, London SE1

Dear Dorcas,

Many thanks for your email. I've now contacted all of the officers concerned and cc'd you into my responses. We hope this addresses all the points raised. Below in red is our response to any residents who may feel opposed to our license.

I do hope this resolves matters for the respective authorities and residents. We very much want to work with all parties concerned to promote health and well being in our local community and will more than happy to address any further topics.

Kind regards

Tim

We believe the venue will help reduce noise and public nuisance in the area. It will serve as the base for London City Runners, a running club which meets four times a week in the area's existing bars -- the Bottle Shop, and the Marquis of Wellington.

The club is incredibly popular and regularly attracts large number of runners who will now be able to be contained safely within the premises. This will decrease noise pollution and allow us to further help the local community get into sport.

Unlike other bars, this venues is unlikely to attract smokers (runners rarely smoke), which means there will be no need for people to stand outside in front of the venue. The x 3 toilets we provide and the mens urinal we feel will actively ensure that our members would never have a need to urinate outside of the premises. We'll have x4 high definition CCTV cameras and if any member were to be found to doing this they would no longer be allowed to be part of the club.
