

APPENDIX 1

Demand for Primary School Places

In common with most London boroughs, Southwark until recently saw a gradual increase in demand for primary places. In 2016 there was a drop in primary school applications from Southwark residents (see below, Table 1) followed by further drops in 2017 and 2018, also in common with many London boroughs and Londonwide (a drop of 7% in both cases). Conversely, secondary applications from Southwark residents have *increased* over 4 years by 13% - the same Londonwide.
