Dear Sir

I object to above quoted license application due to following reason:

Closing times are very late and will cause nuisance: Sayer street is a very quiet street, especially after 8PM. There is no traffic through the street and hence it is a quiet street. A restaurant/ pub which is open until late night and serves alcohol will probably play music and will have loud customers. That kind of noise is more noticeable when on a quiet area. The noise will disturb many people on the street and it will adversely affect my children's sleep quality.

Yours Faithfully

Subject: Licence application objections

Dear Licensing team

I note the following licence applications:

864614
864616
864617
864622

My address is:

[REDACTED]

I live directly above the premises that these applications relate to and I have serious concerns about the public nuisance that granting a licence to these premises will likely cause.

The design and layout of the buildings in the direct vicinity means that sound is significantly amplified and very quickly becomes not only intrusive but a public nuisance.

The local housing environment means this is not a suitable location for such premises and certainly not with the opening hours proposed in the application.

Yours sincerely

[REDACTED]
