

Non-strategic Traffic and Highway improvement

| | |
|-------------------|--|
| Appendix | 1819CH-055 |
| Location | Grosvenor Terrace |
| Proposal | Install 2x cycle hangar with a capacity to hold six bicycles |
| Community Council | Camberwell |
| Ward(s) affected | Camberwell Green |

Non-strategic Traffic and Highway improvement

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement a traffic and highway improvement project, subject to statutory consultation.

Background / Request

- Due to increased demand for cycle storage, ward councillors have requested more hangars to be installed in the Camberwell Green.
- Funding for new hangars in Camberwell Green was approved at the Camberwell Community Council meeting on January 2018. A link to the minutes of that meeting is here <http://moderngov.southwark.gov.uk/documents/g5913/Printed%20minutes%20Tuesday%2030-Jan-2018%2018.30%20Camberwell%20Community%20Council.pdf?T=1>
- The locations for the hangar will be based on a proposal suggested by council officers following a feasibility survey in the area.

Location

- The proposed location is on Grosvenor Terrace opposite no.108
- This road is within a controlled Parking but not a Conservation area.

Investigation and conclusions

- Install 2x cycle hangars at proposed location.
- Cycle hangars to provide security for cyclists.

Comments

Recommendation

Based on our investigation and conclusions, we recommend installing one hangar at the location above. A detailed design drawing of the proposal is provided within this document.

This proposal is subject to a Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to highway modifications and allow them to be enforceable.

Next steps

Should this non-strategic Traffic and Highway improvement proposal be approved, then arrangements will be made to carry out a statutory consultation. Following the statutory consultation period, the council will make arrangements to install a cycle hangar. Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
