Dear Sir/Madam

Re:- Curson Supermarket, 26 Camberwell Church Street, London SE5 8QU

Police are in possession of an application from the above for a new premises licence. The general description as per the application is for a traditional grocer's store.

The premises are situated in the Camberwell Cumulative impact Zone as designated by Southwark Council. The High Court approval of Cumulative impact policies came in Westminster City Council v Middlesex Crown Court. In brief, it stated 'A licence could be refused on the sole ground that the area was already saturated with licensed premises"

Camberwell is subject to considerable problems with alcohol misuse including a large problem with street drinking. The area has been subject to considerable investment in the area to improve the local amenities. Kings College hospital and the Maudsley Hospital are situated in the area and have Alcohol treatment centres within both which attract alcohol dependent people to the area. I have attached a statement by PC McKay a local officer from 2017 explaining the issues in the area, which I believe is still relevant today. A BBC documentary by Louis Theroux 'Drinking to Oblivion' in 2016 was filmed in Camberwell and shows the considerable issues around the area.

The metropolitan police object to the granting of the licence in full, as any further premises selling alcohol will only add to the cumulative impact, attract alcohol dependent people, and add to the local crime and disorder.

If the licensing Sub Committee feel it is appropriate to grant the licence I would like the following noted.

The opening hours for the premises is 06.00hrs and the sale of alcohol to start at 06.00hrs. The applicant should consider issues caused by opening and selling alcohol

Working for a safer Southwark

in the early morning as it would attract alcohol dependent people and the problems associated with this. When setting out the steps they will take to promote the licensing objectives these factors should be considered. I believe that the sale of alcohol should not be until 10am.

The applicant has offered a number of conditions as part of the operating schedule, the conditions set out in the operating schedule should be precise and enforceable, as stated in the Section 182 Guidance of the Licensing Act 2003 issued by the Home Office.

We object to application in its current format. If the committee are minded to grant the licence, I would ask the applicant to consider the following control measures to promote the prevention of crime and disorder.

1. That a CCTV system be installed at the premises and be maintained in good working order and be continually recording at all times the premises are in use under the licence. The CCTV System must be capable of capturing a clear facial image of every person who enters the premises
2. All CCTV footage be kept for a period of 31 days and shall on request be made immediately available to officers of the police and the council.
3. A member of staff should be on duty at all times the premises is open that is trained in the use of the CCTV and able to view and download images to a removable device on request of Police or council officer.
4. That all staff are trained in their responsibilities under the licensing act 2003 and training records to be kept and updated every 6 months and shall, upon request, be made immediately available to Officers of the Police and the Council.
5. No beers / ciders in single cans, bottles or multi-packs with an ABV of above 6.5% will be displayed / sold or offered for sale from the premises.
6. No alcohol to be stored or displayed within 2 metres of the entrance/exit unless behind the staff counter.

If opening hours are granted outside the sale of alcohol then the following condition should be placed on the licence, to avoid confrontation with customers.

7. When the premises are open to the public and the licence is not in operation. All alcohol shall be stored in a locked cabernet/cooler, behind a lockable blind or behind the counter.

The Following is submitted for your consideration.
Yours Sincerely

Subject: Application for a premises license from West End Food and Drink Ltd T/A "Cruson Supermarket" , 26 Camberwell Church Street, SE5 8QU Ref 1246007 / 868442

As a responsible authority under the Licensing Act 2003, Trading Standards are in receipt of an application from "West End Food and Drink Ltd" to sell alcohol from 06:00 hours to 00:00 hours, Monday to Sunday (inclusive).

Trading Standards as a responsible authority are making representations wrt this application wrt the licensing objective "the prevention of crime and disorder".

Firstly, it should be noted that this premises is in the Camberwell Cumulative Impact Zone(CIZ) and has not previously been licensed to sell alcohol. It is acknowledged in the application that it is in a CIZ as follows under the general description of the business:

"The premises are currently a traditional grocers shop known as Cruson that has been in this location for over 45 years. It is located on the main road and has been purchased by new owners who are intending to invest heavily in the business. The changes will involve a process of modernisation with new equipment such as CCTV and new fixtures and fittings as part of a new shop fit. The new owners will be partners with Nisa but due to the long tradition of the shop at this location they intend to retain that tradition by keeping the name Cruson Supermarket.

The store will continue to supply fresh food and other convenience goods such as frozen food, toiletries and household items. Alcohol will form part of the general offering to customers.

This application is made in full knowledge if the CIZ and the requirements that are detailed within the Southwark Licensing Policy. The hours applied for alcohol sales are as per the policy for this area and the conditions applied to the licence have taken into account the nature of the area."

Nowhere in the application is there any explanation as to how they would ensure that there is no further cumulative impact from the opening of what is in effect a new off license. It should also be noted that the Camberwell area has some serious street drinking problems and the police and trading standards have worked hard over the last seven years to deal with problem off licenses in the area. Illegal alcohol has been a major issue in the area and particular attention has been turned over the years to shops selling super strength lagers at or close to the minimum price. It is particularly pertinent in the application that there is no acknowledgement of the issues faced in the area by the use / abuse of high strength drinks. There is no acknowledgement in the application about these issues and what the business would do to mitigate them should it be granted a premises license. It should also be noted that this is a 24 hour shop.

The issue of the prevention of alcohol sales to minors are adequately dealt with in the licensing objectives. However, given the issues relating to problem drinking in the area and the applicants desire to open another off license opening 24 hours a day (even if the licensed hours do not cover the actual opening hours) - this application appears to have no regard to the public health issues this raises and the effects that alcohol misuse has on crime and disorder in the area

Trading Standards as a responsible authority would therefore ask the licensing sub committee to reject this application outright on the basis that this premises would have a serious impact on the Camberwell CIZ..

RE: Cruson Supermarket, 26 Camberwell Church Street, SE5 8QU

On behalf of the Director of Place and Wellbeing (incorporating the role of Director of Public Health) for Southwark (a responsible authority under the Licensing Act 2003) I wish to make representation in respect of the above.

This representation is made in respect of the following licensing objective(s):

- Prevention of public nuisance
- Protection of children from harm
- Prevention of crime and disorder

General Comments

The applicant requests a new application for the sale of alcohol off the premises.

Requested hours of operation	Opening hours	Supply of Alcohol off the premises
Monday - Sunday	24 hours	06:00 – 00:00

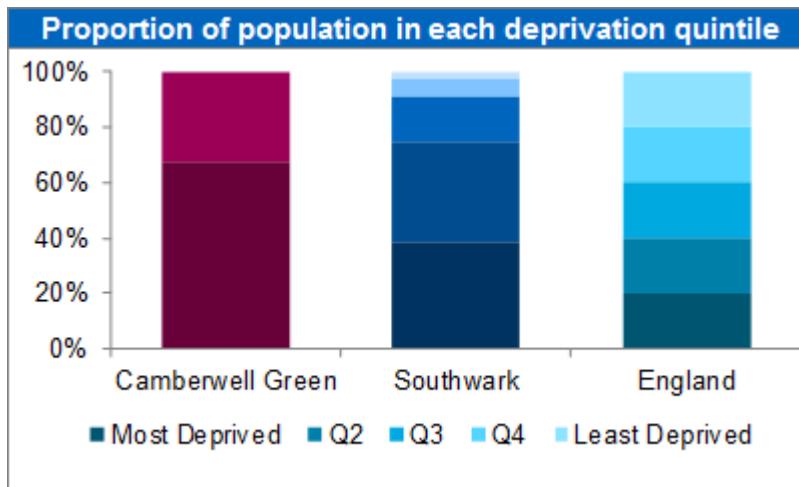

Concerns relating to this application

This premises is located in the Camberwell Green ward and is within the Camberwell Cumulative Impact Policy (CIP); a geographical zone within which the current saturation of licensed premises is having a negative impact on the local area. These negative impacts include crime, anti-social behaviour (see attached report) and alcohol-related health harm and in my opinion the applicant has not adequately rebutted the presumption that this premises will add to the cumulative impact of alcohol harms in the local area.

Camberwell Green is a ward with high levels of deprivation (Figure 1). Approximately 67% of residents are in the most deprived quintile and the other 33% of residents are in the second most deprived quintile. Additionally, a quarter of working age adults in the Camberwell Green

ward are claiming out-of-work benefits. This is relevant because the evidence shows that deprived populations are disproportionately affected by alcohol related harm.

Figure 1 – Proportion of population in each deprivation quintile

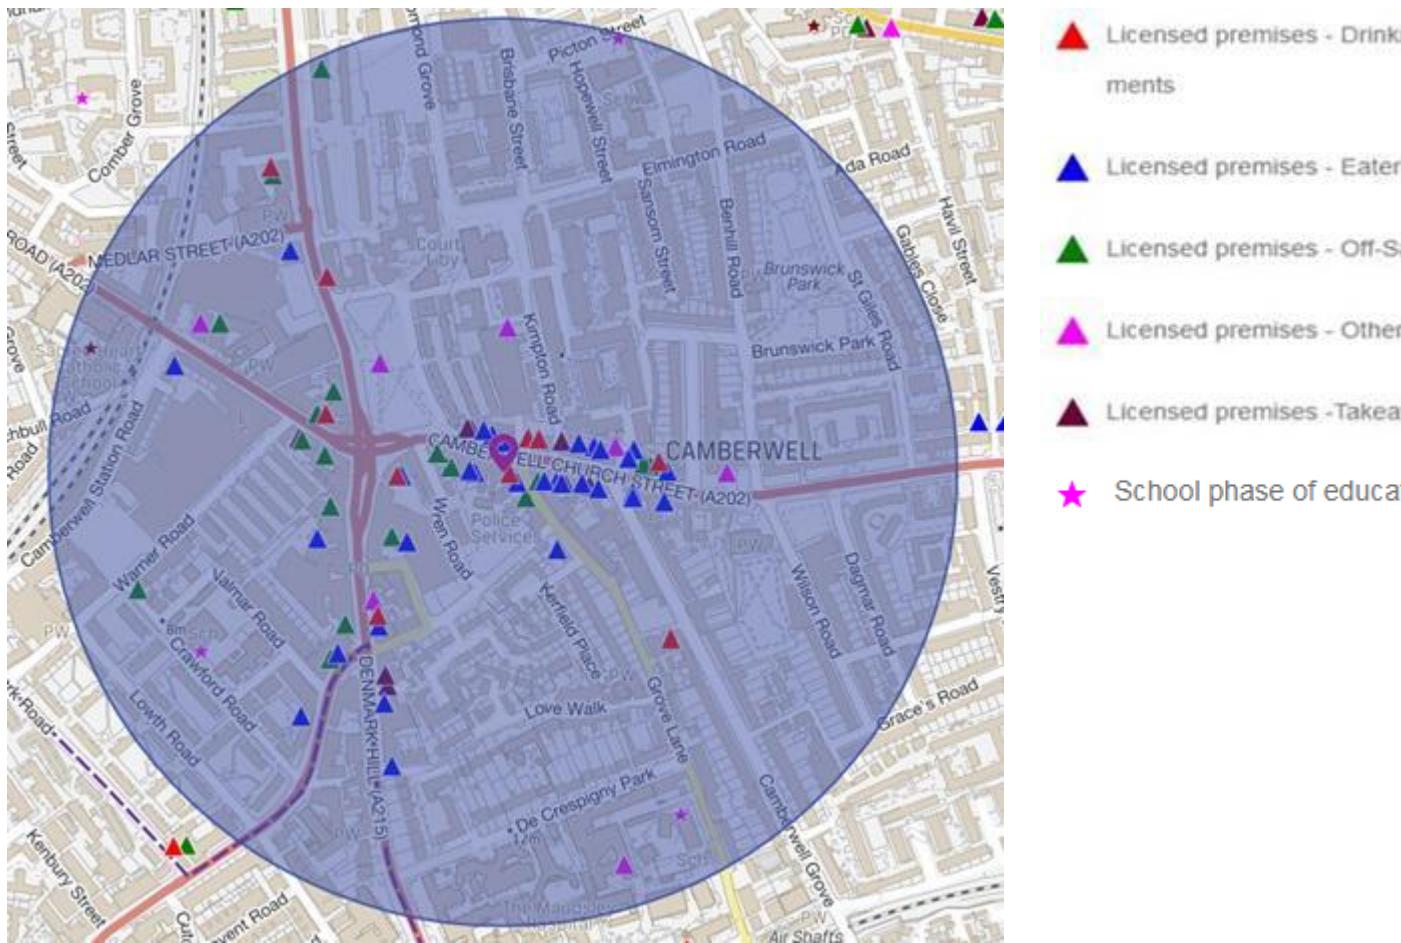

Furthermore, the attached report shows that the Camberwell CIP area accounts for 9.5% of all rowdy behaviour and street drinking, and 8.4% of all alcohol related non-domestic violence in Southwark (2017 - 2018). More specifically, Camberwell Green is responsible for 6% of all alcohol related ambulance call outs in Southwark (222 in 2017 alone), thus placing it in the second highest quintile.

As a general comment, I also have concerns regarding the hours of operation and I would suggest a later start time for alcohol sales: early-morning alcohol purchasers are more likely to be alcohol misusers and may thereby contribute to antisocial behaviour such as street drinking. In fact, early morning drinking is considered one of the indicators for alcohol misuse (this is regularly screened for in the AUDIT, CAGE and T-ACE Alcohol misuse screening questionnaires).

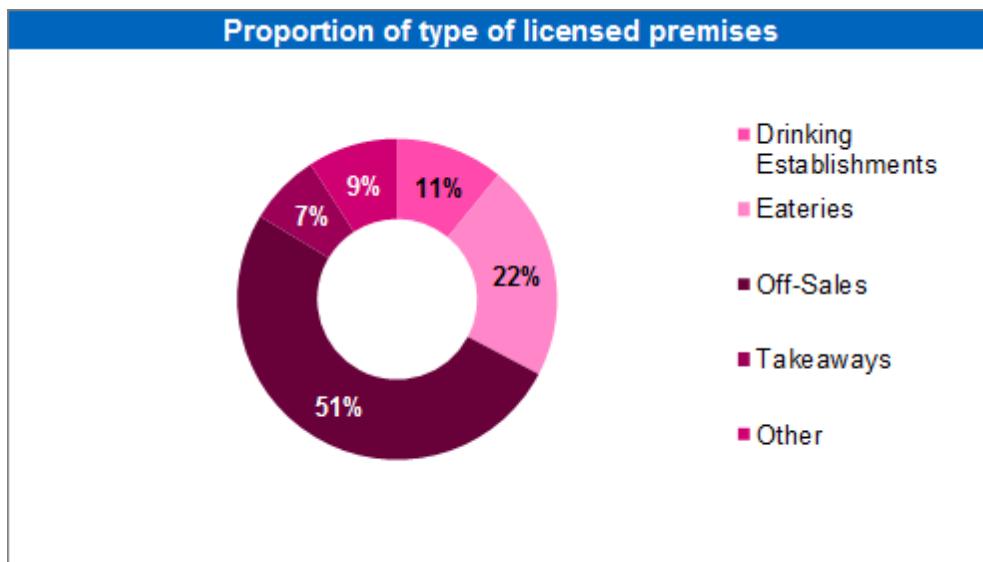

Additionally, the premises is located within a 10 minute walk from three primary schools and one secondary school. It is therefore likely that children will live close to this premises and are likely to be negatively impacted. For example, early in the morning, children could be exposed to street drinking on their way to school. In addition to this, this premises is in close vicinity of numerous other licenced establishments (Figure 2).

Figure 2 – Map excerpt showing location of the premises and proximity to other premises.

As Figure 3 shows, more than half of all licensed premises in Camberwell Green are off-licenses, thus showing that this area is now saturated.

Figure 3 - Number of licensed premises in Camberwell green

Recommendations

Given the evidence presented above, I recommend this application is rejected in its current state.

Should the Licensing Committee be minded to grant this licence, I would advise a later start time for alcohol sale as per the table below:

Requested hours of operation	Opening hours	Supply of Alcohol off the premises
Monday - Sunday	24 hours	11:00 – 00:00

Also, I recommend that no beers, lagers, ciders or similar alcohols to be sold in cans with an Alcohol By Volume (ABV) in excess of 6.5% or in bottles larger than 750ml with an ABV in excess of 6.5%.

If you have any further questions, please do not hesitate to contact me.

Yours sincerely,

Clizia Deidda

Subject Re: Cruson Supermarket, 26 Camberwell Church Street, London SE5 8QU

- Application for a premises licence

I write with regards to the above application for a premises licence submitted by West End Food and Drinks Limited under the Licensing Act 2003 which seeks the following licensable activities:

- Supply of alcohol (off the premises) on Monday to Sunday to from 06:00 to 00:00
- Overall opening times shall be on Monday to Sunday to from 06:00 to 00:00

The premises are described as: '*The premises are currently a traditional grocers shop known as Cruson that has been in this location for over 45 years. It is located on the main road and has been purchased by new owners who are intending to invest heavily in the business. The changes will involve a process of modernisation with new equipment such as CCTV and new fixtures and fittings as part of a new shop fit. The new owners will be partners with Nisa but due to the long tradition of the shop at this location they intend to retain that tradition by keeping the name Cruson Supermarket. The store will continue to supply fresh food and other convenience goods such as frozen food, toiletries and household items. Alcohol will form part of the general offering to customers. This application is made in full knowledge if the CIZ and the requirements that are detailed within the Southwark Licensing Policy. The hours applied for alcohol sales are as per the policy for this area and the conditions applied to this licence have taken into account the nature of the area.*'

My representation is based on the Southwark Statement of Licensing policy 2019 – 2021 and relates to the licensing objectives for the prevention of crime and disorder and the prevention of public nuisance.

The premises is situated in Camberwell District Town Centre Area and under the Southwark Statement of Licensing policy 2019 - 2021 the appropriate closing times are as follows:

- Closing time for Off-Licences and alcohol sales in grocers and supermarkets is 00:00 hours daily

This premise is also falls within the Camberwell Cumulative Impact Policy Area

Section six of the policy (from page 32) deals with Southwark's local cumulative impact policies. This premises sits in the Camberwell policy area as defined in paragraph 145 of the policy and as an off licence/grocer **this** premises falls into the class of premises in 149 of the policy.

Therefore under 130 of the policy there is a rebuttable presumption that applications for new premises licences that are likely to add to the existing cumulative impact will normally be refused or subject to certain limitations. In such circumstances, it is for the applicant to demonstrate that the

application will not, if granted, further contribute to the negative local cumulative impact on any one or more of the licensing objectives.

The applicant has not addressed the presumption to refuse this application within the operating schedule. I would recommend refusal of this application unless the applicant can demonstrate that the premises will not be contributing to crime and disorder and public nuisance within the policy area, the following conditions and amendment of hours would address my concerns and could assist the applicant in this rebuttal.

I ask the applicant to consider amending the closing times of the premises to be in line with the licensing policy and to close daily at **00:00**.

Due to the limited information on the application form and to promote the licensing objectives I ask the add further conditions to the operating schedule as follows:

- Off sales of alcohol shall be sold in closed containers and taken away from the premises.
- That clear legible signage shall be prominently displayed where it can be easily seen and read, requesting that alcohol sold as 'off sales' should not be opened and consumed in the vicinity of the premises.

I welcome any discussion with the applicant to consider the above representation.
