Non-strategic Traffic and Highway improvement

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement a traffic and highway improvement project, subject to statutory consultation.

Background / Request

- This request came from a parking officer, who informed Highways that the doctor's surgery moved from Parkers Row five years ago and no longer needs the doctor's bay.

Location

- Parkers Row, North Bermondsey.
- Parkers Row is in the Bermondsey (G) CPZ.
- G CPZ was implemented in 1998 and is in operation Monday-Friday 08:30-18:30.

Investigation and conclusions

- Officers visited site on 17th September 2019 and noted that the existing doctor's bay was not in use.

Recommendation

It is recommended that the existing doctor's bay be removed and replaced with a permit holders only bay to allow more parking spaces for residents.

This proposal is subject to Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

A detailed design drawing of the proposal is provided within this document.

Next steps

Should this non-strategic Traffic and Highway improvement proposal be approved, then arrangement will be made to carryout statutory consultation.

Following the statutory consultation period, the council will make arrangements to install the restrictions (road marking and signage).

Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
