

Local Development Scheme

The Timetable for Preparing Southwark's Planning Documents

The Local Development Scheme

The Local Development Scheme (LDS) sets out the timetable for preparing Southwark's development plan and supplementary planning documents. This LDS will replace the October 2018 LDS. All of the documents mentioned can be found at www.southwark.gov.uk/planningpolicy

The Amended Policies for the New Southwark Plan went out to consultation in March 2019, consultation has been taken into account and the Submission Version has been prepared. The New Southwark Plan has been delayed to take into account the consultation on the amended policies and the New London Plan Inspector Report. This is being submitted in December 2019. The NPPF update sets out that Local Plans should be more responsive with regular updates and a 5 year review rather than preparation of a new plan every 5 years. The LDS has been updated to show the new approach with amendments annually rather than a 5 year update. First amendments are likely to include Town Centres, Gypsy and Travellers, Air Quality and Climate Emergency.

The Old Kent Road AAP and the SPDs have been rescheduled at the earliest opportunity following the EIP on the NSP and the adoption of the NSP.

The Gypsy and Travellers DPD has been removed and this will be part of the new process of annual amendments.

Planning documents not included in the LDS include conservation area appraisals, Article 4 directions, and policy statements. This is because these are normally prepared in response to an issue on a short timeframe. They can all be found on our website at www.southwark.gov.uk/planningpolicy

All planning documents are quality tested. This can include an Integrated Impact Assessment, Equalities Impact Assessment and Habitats Assessment. All planning documents set out how we are going to consult in a consultation plan and how we have consulted with summaries of comments and You Said, We Did reporting. These are considered by the decision maker when documents are agreed for consultation and at the final stage. All planning documents have a consultation plan for consideration by the decision maker at the start of consultation following the processes set out in the Statement of Community Involvement. They also have a consultation statement with the representations and how they have been addressed when a final document is agreed for consideration by the decision maker.

Planning documents need to be based on evidence justifying issues, options, policies and decisions. Studies and the Annual Monitoring Report showing how development has taken place can be found at www.southwark.gov.uk/AMR

Local Plan Documents

These are planning documents which set out the regeneration strategy and planning policies for development in Southwark.

Adopted Plan Documents

Document	Date Adopted
Aylesbury Area Action Plan	January 2010

Viability	Jan 2021

Statement of Community Involvement

The Statement of Community Involvement is being updated to become an interactive, online tool for consultation and involvement in preparation of planning policy documents and also for commenting on planning applications. This will be prepared for adoption for consultation by December 2019.

Annual Monitoring Report

The Annual Monitoring Report is being updated to become an interactive, online tool for providing data about development in Southwark. Information is provided on housing, affordable housing, businesses, shops, open space, community and health facilities.

Resources

Our Planning Policy team has 10 permanent staff. We carry out consultation, policy writing, sustainability appraisal, equalities analyses, urban design and evidence collection predominantly in-house to reduce resource expenditure. Staffing resources from other parts of the council are also used to produce these documents and consultants will be used to support this work where necessary.
