

APPENDIX D

Date	Time	Officer	Notes
06/07/2019	20:00	Charlie Jerrom	Visit to the premises with Clarissa O'Toole and Maria O'Mahoney, approached the staff and introduced ourselves as council officers, a full licensing inspection was conducted and breaches were found 348, 349, 350, 351, 357, 364, 841, 842 and 849. The outside area is currently under planning permission so due to conditions on the licence I advised no use of that area. Action: Warning letter to be sent
12/07/2019	23:30	Justin Williams	Attended premises accompanied by PO McArthur introduced ourselves to Mr Jason Hoffman who works at the premises informed him of complaint of noise nuisance we went upstairs to check the sound and into the rear garden to ascertain if the music was escaping from the premises to the nearest residential property. Whilst in the premises I noticed that one of the metal rails on the stairway was very loose. We informed Mr Hoffman of this I took a photograph of this. In the garden Officer McArthur observed that there was a lot of waste materials laying around the side and rear of the garden due to renovation works being carried out. Mr Hoffman explained that it was his neighbour's. Officer McArthur advised Mr Hoffman that he should get a Heras fence to keep the materials away from patrons to avoid a potential accident or claim against the premises. Action: Email photo to Farhad H&S.
13/07/2019	21:20	Ray Moore	Spoke with the owner Jason HIFFAN and the DPS olga ZAJAC... they told us that Wesley had done a full inspection the night before. While there were two members of the noise team turned up due to complaint that night. As Wesley had inspected the night before I didn't go through all the conditions. However, it was confirmed that they didn't have a sound limiter...It was agreed to close the doors leading to the garden, post someone on the door to open and close it as people went in and out. This seemed to deal with he music issue at the back for now. They want to build a conservatory on the back but are unsure as to whether planning permission would be granted (probably not).Will leave any advisory letter to wesley.
30/07/2019	22:05	Andrew Heron	Visit further to inspection. Met with Jason, the owner. None of the issues had been resolved - Inc.: Cs 348/357/364/842/849.Explained that cannot use the garden until the lobby is sorted. Cannot use upstairs for licensable activities, as not on plan. Also had an open window, which had noise egress - says the window is broken. Owner says that he will take measures to put it right, but does not want to close and is running out of money.S19 issued by Police.
