## Non-strategic Traffic and Highway improvement

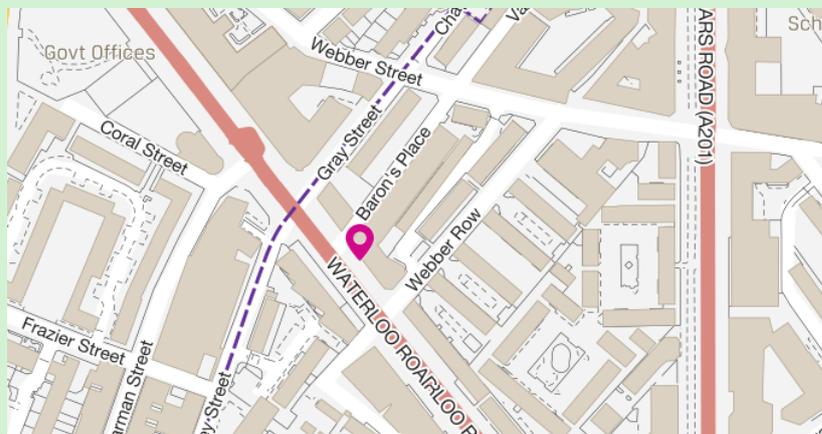

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement permanent traffic orders to support the current traffic restrictions, subject to statutory consultation.

## Background / Request

- These changes from part of a scheme of traffic control for Bus Route 68, which was introduced through the London Bus Initiative (LBI), to improve bus operations, bus passenger journeys and bus stop accessibility.
- To increase the length of a bus lane on Waterloo Road
- No issues have been found since the restriction was implemented in 2002

## Location

- The north-east side, from a point 5 metres south-east of the south-east kerbline of Baron's Place south-eastward for a distance of 190 metres.

## Investigation and conclusions

- The restriction was installed since 7<sup>th</sup> Jun 2002

## Feedback from Councillors

### Comments

## Recommendation

No issues have been identified since the restriction was implemented. The experimental traffic order is expired. It's recommended to make a permanent traffic order to support the signs that are installed on site.

This proposal is subject to Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

## Next steps

Should this permanent traffic orders be approved, then arrangement will be made to carryout statutory consultation.

Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
