Subject: Representation Against New Premises Application- 104 Druid Street, Billy Franks

To whom it may concern

Dear Sir/ Madam,

This is to confirm that I am objecting to this above application.

1/Noise nuisance is the major consequence of the boom of the brewery industry accelerating on Druid Street. This fact has a strong and negative impact on the rights of many residents to live in peace.

2/ My colleagues councillors and I have repetitively visited the residents in the Arnold Estate who stated that they are constantly suffering from the noise at night.

3/If that license application would be successful; it would worsen the nuisance situation. Pupils, vulnerable residents and families will not support this increase of the noise and this will prevent them to fulfil their daily commitments.

4/ It is unfair for residents to undergo such experience while their paying their rents, bills and government taxes.

5/ We should also take into account that some of these residents are elderly or people with disabilities.

6/ An increase of noise could also lead to frustration, anger and total disorder after a long period of a lockdown.

Thus, I definitely object to further settlement of such business in that particular area; knowing that there are other areas available and suitable for the purpose.

Best wishes

William

Councillor William HOUNGBO
Liberal Democrat Councillor for London Bridge and West Bermondsey Ward

I support everything that councillor Hounbo has said here.

The harm to children is unacceptable with many exhausted due to lack of sleep where loud noise is concerned.
