**Strategic Health Authority:**

The chair read out the following response from the Strategic Health Authority (SHA) with regard to their to meeting:

*The SHA has responsibility for approving capital investment proposals for schemes whose value exceeds the delegated financial limits of the NHS organisation concerned.*

*The SHA seeks to ensure that local proposals fit with the strategic vision for healthcare in London. We understand that Southwark PCT is currently reviewing its strategy for out-of-hospital services and NHS London is not expecting firm capital investment proposals for some time. We think Southwark PCT are best placed to update Dulwich community council both on the state of plans for use of the Dulwich Hospital site and how the PCT will be seeking to ensure strategic fit with the broader requirements of the NHS in London.*

**Presentation from Southwark Primary Care Trust**

Susanna White was present at the meeting who outlined issues concerning:

Health Care for London – consultation ensuring the overall strategy is consistent with Dulwich Community Hospital

Polly Clinics – describing community and primary care facilities operating from one site

Business case – looking at strategic fit and size of the development (Aug/Sept 08) also working with GPs and hope to consult formally in Oct – Dec 08

Business case on Dulwich site – best suitable model for the Dulwich will be announced in Jan 09

Susanna responded to questions concerning cost and size of development, number of beds for the new DCH, - which currently has 12 beds - this is likely to be reviewed.

Further questions and discussion took place on issues concerning the type of facilities (GP practice, renal services and a whole range of diagnostic services) at the Dulwich site and G.P. services – including extended hours etc.

Susanna agreed to feedback views and concerns expressed at this meeting to Southwark PCT.

### **RECOMMENDATION(S)**

1. It is recommended that the local parking schemes detailed in the appendices to this report be approved for implementation subject to the outcome of any necessary statutory procedures.

### **BACKGROUND INFORMATION**

2. This report presents proposals for a number of local parking amendment schemes, which are matters reserved to Community Council for decision.
3. The origins and reasons for the proposals are discussed in the main body of the report.

### **KEY ISSUES FOR CONSIDERATION**

#### **Melbourne Grove (0809Q2048)**

4. The network development team received a request from a local resident supported by Cllr Thomas, to revoke the partial footway parking on Melbourne Grove between Grove Vale and East Dulwich Grove.
5. A site inspection was made and various road widths taken. This showed that the road varied between 7.9 and 8.3 metres. Should partial footway parking arrangement be removed this would leave approximately 4 metres of clearance between parked vehicles which exceeds current Fire Brigade requirements.
6. This arrangement will make it more difficult for two large vehicles to pass one another and with parking demand very high in Melbourne Grove there are few natural passing spaces to allow one vehicle to pull-in and give way to the other.
7. Network development do not consider the installation of yellow line passing places to be necessary. However should feedback from the local community be received network development will re-evaluate the location
8. It is recommended that on completion of the planned road in the vicinity that the partial footway parking be revoked and that vehicles park wholly on the highway.
9. A Letter will advise occupiers in Melbourne Grove approximately 2 weeks before the partial footway parking is revoked.

## **POLICY IMPLICATIONS**

10. The recommendations contained within this report are consistent with the policies of the PEP and associated Local Implementation Plan (LIP).
11. The proposals will support the council's equalities and human rights policies and will promote social inclusion by:
  - providing improved access for emergency vehicles, refuge vehicles, residents and visitors;
  - improving sight lines for all road users; and
  - improving junction and pedestrian safety, especially those with limited mobility or visual impairment.

## **COMMUNITY IMPACT STATEMENT**

20. The policies within the Parking and Enforcement Plan are upheld within this report have been subject to an Equality Impact Assessment (EqIA).

## **RESOURCE IMPLICATIONS**

21. The Head of Public Realm has confirmed that any costs arising from implementing the proposals, as set out in the report, will be fully contained within the existing budget.

## **CONSULTATION**

22. No informal consultation has been carried out.
23. Should the community council approve the item, statutory consultation will take place as part of the making of the traffic management order. A proposal notice will be erected in proximity to the site location and a press notice will be published in the Southwark News and London Gazette. If there are objections the proposal or a modified proposal will be re-submitted to the community council.
24. The road network and parking manager has been consulted on the proposals and has no objections.
25. No consultation or comment has been sought from the borough solicitor & secretary or the chief finance officer.

### **RECOMMENDATION(S)**

1. It is recommended that the disabled parking bays set out in the Appendix B to this report are approved for implementation subject to the outcome of any necessary statutory procedures.

### **BACKGROUND INFORMATION**

2. This report presents proposals for a number of local traffic management schemes, which are matters reserved to Community councils for decision.
3. The origins of the proposals are indicated in the annexed schedule.

### **KEY ISSUES FOR CONSIDERATION**

4. The reasons for the proposed traffic schemes are set out in the Appendix B.
5. The proposals are consistent with the policies set out in the draft Parking and Enforcement Plan, which in turn reflects the Council's policy priorities as set out in the Community Strategy and the emerging Transport Plan.
6. The proposals will support the Council's Equal Opportunities Policy and will promote social inclusion:
  - by providing improved access for emergency vehicles and residents
  - for disabled drivers
  - increasing parking provision

### **RESOURCE IMPLICATIONS**

7. Implementation of the proposals can be undertaken within existing budgets.

## CONSULTATION

8. Preliminary consultation of the occupants of properties directly affected has been undertaken where appropriate.
9. Should the Community Council approve the item, statutory consultation will take place as part of the making of the Traffic Management Order. A proposal notice will be erected in proximity to the site location and a press notice will be published in the Southwark News and London Gazette. If there are objections to the proposal, or a modified proposal will be re-submitted to the Community Council.
10. The Head of Transport Planning (Regeneration Department) and the Head of Parking Services (Environment and Leisure Department) have been consulted on the proposals and have no objections.
11. No Consultation or comment has been sought from the Borough Solicitor & Secretary or the Chief Finance Officer.
