Public questions raised	
Q1	Large vehicles have great difficulty in turning from Oglander Road into Copleston Road when inconsiderate motorist park in the keep clear box in Coplestone Road (as they often do). Can double yellow lines please be painted on both sides of Coplestone Road inside the keep clear box?
A1	Response to follow
Q2	Is the Men's Health Programme offering health related support of up to £450 sexist?
A2	Cllr Moise responded that it was not because Men's health compares badly to that of women throughout their lives. Life expectancy for men is five years less

	<p>than for women, young men are four times more likely to die from suicide or in accidents than teenage girls and male death rates for coronary heart disease are up to five times higher than those for women. Men are also less likely to visit a doctor when they are ill and are less likely to report the symptoms of disease or illness. For example Prostate cancer is the second most common cancer in men, but it is a cancer that we know too little about. Prostrate Cancer can be prevented if detected and treated early on when symptoms arise. More information on the NHS Prostate Cancer Programme is available on the Department of Health website or from the NHS Response line on 08701 555455.</p> <p>Problems in men's health arise throughout their lives and life expectancy for women is five years longer than that for men. The Government has made clear its determination to improve health across the board and to tackle health inequalities - including the stark inequality in life expectancy between men and women.</p> <p>We also need to ensure that men have suitable health information and easy access to health care services when problems arise. The Government will be supporting innovative projects across the country to improve men's health. It is calling on Health Action Zones, Health Improvement Programmes and Healthy Living Centres to come up with programmes to improve men's health and reduce health inequalities.</p> <p>The "Men's Health Matter Conference" organised by Southwark Primary Care Trust will take place on 9th March 2006 at Millwall Football Club. For more information on the work of Southwark Men's Health Programme people can contact Miss Danni Akinola (Events and Publicity Manager) on 0207 525 0268.</p>
Q3A	A resident of Coldharbour Lane raised an example of work done badly by Lambeth on the Southwark side of the street. He stated that the arrangement/deal between Southwark and Lambeth on boundary roads was not working well and needed to be looked at.
Q3B	Works are being undertaken on Daneville Road and the bollards have been removed , is the road being reopened?
A3B	No. The bollards have been removed as part of a Cleaner Greener Safer scheme (2004/05) and are due to be replaced with trees. Estimated date for completion of the works is April 2006.
Q4	What is the priority criteria used for resurfacing of pavements?
A4	Response to follow
Q5	A member of the public raised an issue regarding the colour, design and implementation of railings around Goose Green and the lack of consultation.
A5	Cllr Ward said she was aware of the issue and that the scheme was agreed prior to 2002 and linked to the Bellenden renewal. Cllr Ward undertook to investigate the matter further.
Q6	A member of the public raised concerns about the use of fines up to £3000 for

	for advertising an event on a poster on a tree. There seems to be no flexibility over what is and what is not allowed. (as a small community group seeking to advertise)
A6	The committee expressed mixed views as the problem of fly posting around the centre of Camberwell is much more acute and problematic than in other, more residential parts of the area. Cllr John stated that some flexibility in certain areas maybe appropriate.
