In October 2002, members were invited to a full briefing on the outcomes of the MORI 2002 poll of Southwark residents.

The aim of this report is to highlight outcomes of particular relevance to this sub-committee, which members may wish to make use of to inform preparations for their annual meeting with the Executive Member in February and/or the selection of future scrutiny topics for the 2003/4 work programme of the sub-committee (a planning meeting is scheduled for April).

Attached as Appendix 1 are a series of slides explaining the background to the MORI poll, and highlighting the views of residents on:

- Good and bad things about Southwark
- Areas where improvements are needed
- What the priorities should be for the Council
- Which services are most important
- Level of satisfaction with services
