

Camberwell Baths Update:

7 Submissions from Architects and Developers submitted in response to the Advertised Brief

Internal Assessment by Leisure, Planning, and Regeneration Officers identified 3 concepts that would benefit from further investigation submitted by Fusion, Ash Sakula Architects, and English National Ballet

The 3 Proposals are currently being independently assessed by Freshfield Foundation

The foundation is examining the Community Impact, Design Feasibility, and Financial Deliverability of the concepts. Their report is expected at the end of August.

The 3 proposers have been invited to a Public meeting on the 8th September. They will have the opportunity to present their ideas to the local community and answer any questions.

Report to Executive is expected in October which will outline the best route for the development of Camberwell Baths, based on the findings of the Freshfield Foundation, and procurement/legal advice from Council Officers.
