**ITEM 14: POLICY AND RESOURCES STRATEGY 2018-19 TO 2020-21**

Please note that recommendation 1 of the overview and scrutiny recommendations (OSC) recommendations had not been included in the Policy and Resources report (paragraphs 110-112).

The complete table is set out below (with recommendation 1 included):

<b>Ref</b>	<b>Recommendation</b>
1	That the cabinet defers budget saving proposal contained in line 302 (online only services), until such time as sufficient improvements are made to the Council website and there is greater confidence that digital exclusion will not prevent access to services. The Cabinet should also carry out appropriate consultation prior to implementation.  <i>Note, as discussed in paragraphs 88 and 89 these proposals have been amended in accordance with this recommendation.</i>
2	That the cabinet investigates the possibility and financial viability of purchasing the Queens Road 1 site in the light of recent substantial rent increases.
3	That overview & scrutiny committee receives a draft timetable for the opening of welfare secure places in Southwark provided by the local authority, including regular milestones for an appropriate committee to review. That overview & scrutiny committee makes comment and recommendation to the cabinet on the merits of the timetable in order to ensure that we transparently meet this aspiration
4	That the cabinet provides a report for the education and children's scrutiny sub-committee setting out a strategic overview of the successes of a traded for standards service, including input from schools.
5	That in future budget scrutiny documents, the cabinet seeks to quantify the benefits of public health investment for departments across the council, seeking to make savings where possible, whilst achieving positive public health outcomes.
6	That the cabinet review how the financial risks associated with new traded services are understood and accounted for across the council to identify how these risks can best be considered as a whole, recognising that the nature of these ventures is that not all will succeed and that for innovation to take place there needs to be a clear framework for risks to be shared.
7	That the cabinet member for public health report back to the appropriate scrutiny committee on the success of the introduction of London wide sexual health testing, including improvements to availability of e-testing online above the current Southwark/Lambeth cap on testing packs.
8	That the relevant cabinet member reports back to overview and scrutiny committee on the results of on going comparative reviews of the council's performance against other local authorities within 12 months.
9	That the cabinet assess the feasibility of extending the private-sector licensing scheme borough-wide
10	that the Cabinet member for the Environment and Public Realm should identify a nominated contact to be responsible for road safety and highways management.
11	That the cabinet consider using the opportunity of the extension of the

<b>Ref</b>	<b>Recommendation</b>
	licensing scheme for private sector landlords to ask those being licensed to consider removing any restrictions they place on renting to those in receipt of housing benefit/universal credit.
12	That the cabinet ensure that the overall pot of money spent by the council on children and adolescent mental health is not reduced and that any efficiencies identified by the joint Council/CCG/SLAM review of CAMHS are reinvested according to the priorities set out in the Mental Health and Wellbeing Strategy.
