Date: 1 November 2024

Meeting Name:	Corporate Parenting Committee
5	
Date:	11 November 2024
Report title:	Quality Assurance of Children's Homes
Ward(s) or groups affected:	All
Classification:	Open
Reason for lateness (if applicable):	Report finalised after agenda circulation
From:	Alasdair Smith, Director of Children's Services

RECOMMENDATION

1. That the Corporate Parenting Committee note the quality assurance framework for the council's children's homes.

BACKGROUND INFORMATION

Purpose of report

- On 18 October 2022, the council Cabinet approved a strategy to provide children's residential care in Southwark as an in-house service, managed by the children and families division of the council starting from August 2024. This decision responded to the evident need for local homes for Southwark children.
- 3. Cabinet delegated authority to the strategic director of children and adult services to approve operational and resourcing decisions for establishing the initial children's home and subsequent homes in accordance with the outline proposals set out in the associated Gateway 1 report.
- 4. Cabinet also made a resolution that:

"...a further report on the implementation of a quality assurance framework for residential service delivery, to include specific reference to the quality of provision and safe and effective recruitment and retention arrangements be received by cabinet".

5. This report is intended to fulfil this resolution and is consulting with the Corporate Parenting Committee prior to finalizing the quality assurance framework for presentation to cabinet.

What are children's homes?

- 6. Children's homes offer support and care to some of our most vulnerable children and young people. Our goal is to ensure each child in care receives the appropriate placement at the right time, making residential childcare a positive and beneficial choice for those residing in these homes.
- 7. According to the Care Standards Act 2004, 'an establishment is a children's home if it provides care and accommodation wholly or mainly for children'.
- 8. The Independent Children's Home Association advocates that the term "children's home" be protected and exclusively used for settings regulated by the Office for Standards in Education, Children's Services and Skills (Ofsted). In this report, terms such as residential home, residential care, or children's homes refer to facilities run by a Registered Manager and staffed by paid employees.
- 9. Some children find it challenging to manage the intimacy of living in a foster family or struggle with forming close attachments to adults, or they may simply not want a replacement family. For these children, it is now acknowledged that a children's home, sometimes called residential care, can often provide excellent care.

Why are we opening children's homes in the borough?

- 10. More children from Southwark currently in residential placements need to live closer to home. Local placements offer distinct advantages, including better connections with family and access to local services that support their needs.
- 11. There is also an identified need for improved outcomes for children from Global Ethnic Majority backgrounds. Children from these groups face significant disadvantages both in terms of their identity and education

when placed at a distance compared to their white peers. Providing local placements will help address these disparities and enhance outcomes for these children.

- 12. Furthermore, there is a recognised need for comprehensive support to meet the children's needs, linking into Southwark's services, including education, health, and the Police partnerships. Discussions have begun with stakeholders regarding this wraparound support (both outreach and in-reach), which will be formalised should the decision be made to source children's residential provision.
- 13. The council's Southwark Homes for Southwark Children (SHfSC) programme is crucial for the council's role as a corporate parent. The programme aims to increase placement availability in the borough while enhancing current services. To tackle the shortage of local residential placements, the council is backing a DfE-supported project to establish two council-operated children's homes in the area.

Our first children's home

- 14. The first new children's home is situated in the Peckham and Nunhead ward of the borough. Considerable capital investment from the council and Department of Education has been allocated to this building, along with extensive efforts in recruiting staff, installing fixtures and fittings, drafting policies and procedures, and arranging contracts for maintenance and data systems.
- 15. The children's home is nearing its opening. It is anticipated that the first residents will be welcomed in January 2025, pending OFSTED registration and successful staff recruitment.

KEY ISSUES FOR CONSIDERATION

- 16. Southwark has not run a children's home for a very long time. It is therefore important that the quality of care provided, the adherence to policies and guidance is as robust as possible to ensure that children receive appropriate safe and care.
- 17. This report sets out in Appendix 1 the proposed quality assurance framework for the council's children's homes.

- 18. The quality assurance framework is based on the Children's Homes (England) Regulations 2015 ("the Regulations"). The regulations include quality standards which set out the aspirational and positive outcomes that are expected for children's homes to achieve.
- 19. The regulations also set out the underpinning requirements that homes must meet to achieve those overarching outcomes.
- 20. The quality standards, described within the regulations, and which the quality assurance framework measures against are:
 - The quality and purpose of care standard (see regulation 6)
 - The children's views, wishes and feelings standard (see regulation 7)
 - The education standard (see regulation 8)
 - The enjoyment and achievement standard (see regulation 9)
 - The health and well-being standard (see regulation 10)
 - The positive relationships standard (see regulation 11)
 - The protection of children standard (see regulation 12)
 - The leadership and management standard (see regulation 13)
 - The care planning standard (see regulation 14)
- 21. The framework operationalises how we will have an overview, scrutiny and challenge of the provision to ensure it meets the regulations. The various activities highlighted in the framework extensively allow for us to measure how well we are doing to respond to all standards highlighted in the regulations.
- 22. The framework is also important for anticipating the risks associated with running children's homes, and providing assurance to children, staff and all corporate parents that we have a clear oversight of the welfare of children in our homes.

Policy framework implications

23. The Southwark 2030 has a commitment to a great start in life for all children and young people in the borough. This particularly has in mind those who are in care, for whom Independent Reviewing Officers are a key part of overseeing the Borough Plan commitment.

Community, equalities (including socio-economic) and health impacts

Community impact statement

- 24. The decision to note this report has been judged to have no or a very small impact on local people and communities. There will be other reports that will have considered the role of the residential home in the local community, and a location assessment would have been completed already as part of the establishment of the home.
- 25. The quality assurance framework is intended to improve the outcome for children and young people in residential care.
- 26. Section 149 of the Equality Act 2010, lays out the Public Sector Equality Duty (PSED) which requires public bodies to consider all individuals when carrying out their day to day work in shaping policy, in delivering services and in relation to their own employees. It requires public bodies to have due regard to the need to eliminate discrimination, advance equality of opportunity, and foster good relations between different people when carrying out their activities. The council's <u>Approach to Equality</u> commits the council to ensuring that equality is an integral part of our day to day business.
- 27. The council's Children and Families directorate involves working closely with all relevant stakeholders and partners across the sector and collectively we are committed to upholding the responsibilities towards advocating the Public Sector Equality Duty and complying with the Equalities Act 2010.
- 28. The PSED enables public bodies to consider the diverse needs of groups and have due regard to the need to eliminate discrimination, advance equality of opportunity and foster good relations between different people when carrying out their activities. Due regard is about considering the different needs of protected characteristics in relation to the three parts of the duty.
- 29. The Equalities Act 2010 define the following as protected characteristics; age; disability, gender reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex; and sexual orientation.

Equalities (including socio-economic) impact statement

30. The report takes account of the ethnicity, age and disabilities of children in care, as well as the racial and ethnic background of current staffing of the IRO Service and addresses these areas in light of commitments set out by Southwark Stands Together (SST).

Health impact statement

31. The report takes account of the health and wellbeing of children in care.

Climate change implications

32. None.

Resource implications

33. None

Legal implications

34. None.

Financial implications

35. None

Consultation

36. Not applicable.

Introduction

The vision for our children's homes is to help transform our children's lives through developing meaningful nurturing relationships, consistently providing high-quality personalised care and enabling our children to flourish.

This quality assurance framework is designed to help us achieve this vision by ensuring that we are focussing on the things that matter most to impact positively on our children's experiences, progress, and outcomes.

This quality assurance framework also sets out how we will ensure we are fulfilling our key responsibilities in accordance with <u>The Children's Homes (England) Regulations 2015</u> and <u>Guide to</u> the Children's Homes Regulations including the quality standards (2015).

We have a relentless commitment to embedding a culture of continuous learning as part of our aspiration to achieve the best possible outcomes for our children. This includes recognising and celebrating what's working well as well as applying learning where we identify we can do even better for our children.

This quality assurance framework helps us achieve this and includes a range of methods to assess our quality, incorporating both internal and external mechanisms as part of providing high support and challenge.

Southwark 2030 sets the goal for children and young people to have a great childhood that builds a very solid foundation for adult life. Underneath that there is a commitment to improve outcomes for children who face disadvantage. This quality assurance framework aligns fully behind that goal to support its delivery.

Values

Everything that we do as a council is to work towards a fairer, safer and greener Southwark. Our values inform how we do this, guide our decisions and determine how we deliver on the commitments that we have made.

Since 2010, when we first stated our vision, many of the challenges have changed and some of the solutions have too, but our values remain as strong as ever. We remain committed to supporting, standing up for and empowering residents. Our residents are still at the heart of everything we do and they have helped us form the values that underpin the work of the council.

We will:

- Treat residents as if they were a valued member of our own family
- Be open, honest and accountable
- Work for everyone to realise their own potential
- Spend money as if it were from our own pocket
- Make Southwark a place to be proud of
- Always work to make Southwark more equal and just
- Stand against all forms of discrimination and racism

For our children this means:

• Putting Children First - prioritising and actively supporting all children and young people's right to grow up safe, healthy and happy, in their own families and communities, when it is safe to do so.

and;

• Keeping Families Strong - working together with parents and carers, and the networks and services around them, to enable their families to be safe, healthy and happy.

Principles

We are guided in all of our work by our commitment to the principles of our Southwark 2030 strategy. Everything we do will be focused on reducing inequality, empowering people and investing in prevention. For the children living in our homes, this means:

- Reducing inequality: too many of our care experienced young people faced having to live in places that break their connection to the communities they most identify with. Our homes will work to ensure our children remain connected to their culture, their community and their identity.
- Empowering people: our approach to ensuring our homes is providing the right quality of environment and quality of care is to place the voice of our children at the forefront of our assurance activity and making sure that our children are always heard.
- Investing in prevention: we will wrap around our children and the team in our home to make sure our children have nationally leading resources, to ensure they can safely return home where possible, or effectively transition into a safe and stable adulthood.

Our quality assurance framework incorporates our values across Southwark children's services.

- Child-centred: Hearing and championing the voice of our children by understanding their lived experience and responding to this with active listening and participation at its heart;
- Family-minded: Providing children with the opportunities and tools they need to set goals together, create plans and achieve those goals;
- Relationship based: Working with our children, not doing things to them, developing and supporting meaningful relationships, with compassion and respect;
- Outcome focused: Working with purpose to achieve the aspiration, goals and priorities of our children while safeguarding and promoting their welfare;
- Strengths-based: Considering first what people can do with their skills and resources, and what those around them offer in their families and communities;
- Evidence informed: Using the views and experiences of our children and their own expertise alongside that of our practitioners, and what research of all forms tell us, to guide what we do;
- Fairness: Working in an open and transparent way, understanding the difficulties our children and families face, promoting a just culture based on rights and accountability;
- Reflective: Thinking about what we do and have done, what we know and need to know, questioning our understanding and assumptions, and those of others, and continually learning;

Our commitment to outstanding care

Our approach to quality assurance aims to support and challenge our teams to always deliver the foundations of the best quality of care for all our children, we commit too:

- Consistent high quality personalised care: We will always understand and respect the individuality and individual needs of our children. We will ensure that the care they receive is of the highest quality and is responsive to them and their expressed wishes. Care and support will always be proved in collaboration with our children, the people they care about and the right partners who can best meet their needs;
- A secure base: We will ensure that all of our children live in, and tell us that they feel secure and safe in their environment, that they are surrounded by trusted and respectful carers, providing them with a secure base from which to explore the world and themselves safely;
- Trauma informed: We will recognise, respond and tailor our care to the individual experiences of our children. Ensuring our care and support recognises traumatic experiences and our practice is responsive to children's needs;
- Culturally sensitive: We will celebrate diversity in all its forms and support our children to appreciate and respect themselves and each other, through enjoying and engaging in difference and different experiences.

Children's Services Quality Assurance

Our approach to achieving excellence through quality assurance is termed Learningfest. This views all quality assurance work as a learning activity through a continuous and seamless process of appreciative **celebration**, **learning**, **improving** and **sharing**.

Quality assurance is a 360-degree activity from celebrating **good practice**, undertaking learning activities through using **data**, **audit and feedback**, to make improvements on **what we are getting wrong**, or could do better, and finally sharing the outcomes with each other so we learn together.

- Celebration: Involves activities of learning that recognises and celebrates good practice, achievements and successes.
- ✓ Learning: Examining our practice and feedback from our children, families and partners to learn about ourselves from other perspectives.
- ✓ **Improvement:** How we continuously develop ourselves including developing meaningful action plans designed to further improve standards and outcomes for our children.
- Sharing: Closing the learning loop through disseminating outcomes of quality assurance activities. This is achieved through a range of methods including our leadership and management meetings, team meetings, supervisions (one-to-one and group) and in writing.

Through a Learningfest approach, learning is a dedicated activity where the whole of Children Services and our partners engage in learning together on different topics during a week of learning opportunities. Because we know that it can be difficult to set time aside for learning and quality assurance activities while delivering services, we run quarterly learning events during a Learningfest Week. learn. During this time, audits take place, and there are practice workshops on themed topics.

Children's Homes Quality Assurance

Our approach to achieving excellence through quality assurance includes a range of activities specific to our children's homes, which involves participation from all levels of management, alongside external and peer support and scrutiny.

Children's home staff will join the rest of the Children's Services workforce in learning activities during Learningfest Week. This will ensure seamless learning across the whole workforce. Through each of our Learningfests we will have a broad thematic program that connects our children's home workforce to wider learning but that also includes specialised learning opportunities for children's home staff and for wider staff to develop their understanding of our children's homes and how they can ensure a joined-up approach in our wider services.

An Audit and Learning Lead from the Quality Assurance and Practice Development Service, will provide dedicated support with audit and learning activities to our children's homes, supporting an integrated approach to quality assurance.

The Lead Member, Director of Children's Services, Assistant Director, Head of Service, Registered Manager, and their deputies will all form a key part of the quality assurance process. We will seek to develop the breadth of our quality assurance arrangements to include engagement from the wider council Cabinet and Corporate Management Team, to include multi-disciplinary expertise and wider perspectives into our support and challenge, and further embed council wide corporate parenting.

This quality assurance framework anticipates risks associated with running our own children's homes and has a wide range of activities that touch on all areas of the <u>The Children's Homes</u> (England) Regulations 2015. It is also geared towards ensuring that children have the best outcomes in line with the key principles for residential children's homes (<u>QS Stat Guidance</u> (Consultation version - Formatted for Pub).

Framework activity

Theme	Activity	Descriptor
Learning	The voice of children and young people	The views of children and young people who live in our homes will come first in all our quality assurance activity. Everything will begin with through conversations with them to explore their feelings and experiences of the care they receive. We will create pathways for them to raise any issues they choose to at any time, openly or anonymously. We will ensure every child has access to an advocate that is independent of the services caring for them. This includes ensuring all of our children fully understand their rights and entitlements to advocacy and how to raise a complaint about their care. All feedback will feed into development and learning activity.
	Data and intelligence	Our outcomes framework will give leaders and managers live access to all key performance indicators. Ensuring a transparent and honest approach to support and challenge. Quarterly performance meetings chaired by the Assistant Director for Quality Assurance, will routinely provide formal oversight of performance and quality within our children's home, and hold the management and leadership to account for performance as well as offering support for improvement, and celebrating achievements.
	Individual children's audit	The quality of care for each of our children will be individually audited on a bi-monthly basis by the Registered Manager and Deputy Manager and moderated by a professional independent of the home team. Starting with a conversation with the child, these audits will have an emphasis on assessing the quality of practice in relation to children's lived experiences, progress and outcomes. Feedback from these audits will be discussed with children's key work teams as part of recognising achievements and identifying actions for further improvement. Progress with identified actions will be monitored by the Responsible Individual.
	Leadership & management audit	The Responsible Individual, supported by the Audit and Learning Lead, will complete a bi-monthly leadership and management audit that reviews a range of factors related to our wider responsibilities. Feedback from these audits will be shared with the children's home team as part of recognising achievements and identifying

1	
	actions for further improvement. Progress with identified actions will be monitored by the Responsible
	Individual.
Regulation 45	In line with regulatory requirements our registered managers will have a system in place which allows them to monitor the matters set out in the regulation. At least once every six months a formal review of quality of care (Regulation 45) will be completed by the Registered Manager and submitted to OFSTED. The Assistant Director for Safeguarding and Corporate Parenting will have oversight of all submissions.
Dip-Sample Audits	Will be alert and responsive to any key line of enquiry coming from our wider quality assurance activities and where necessary thematic audits and dip-sampling will be mobilise by drawing in additional capacity from across our services and partners to better understand and respond to understand and respond to issues or concerns promptly quality.
Regulation 44 Visits	We have commissioned specialist and experienced Regulation 44 visitors to provide independent and objective oversight of our homes. Reports will be reviewed by the Registered Manager and the Responsible Individual, and findings reported into quarterly performance meetings for further oversight.
Young Inspectors	Our care experienced Young Inspectors will be matched to the children in our homes and will provide an additional avenue for escalation of any individual concerns, as well as undertaking regular assurance visits and leading a young scrutineer panel, which will review all our reports and assurance activity, as well as our action plans.
Peer review and challenge	As members of the London children's home network, we will work with our peers and other external professionals to bring in at least bi-annual peer reviews of our homes, as well as supporting networks of best practice and shared learning between our leadership, managers, and staff groups.
Corporate Parenting Committee	Our corporate parenting committee members will be provided with a quarterly digest of the findings of all our quality assurance learning and improvement activity and provide the opportunity for scrutiny and challenge to management and leadership of the service.
Policy and procedure	All our key policies and procedures, such as the Statement of Purpose and Location Assessment will be renewed on an annual basis and signed off by the Children's Services Leadership Team chaired by the Director of Children's Services.
Senior Leadership Visits	The Director of Children's Services and Assistant Director for Safeguarding and Corporate Parenting will undertake formal review visits to our homes at least twice a year to meet our children, see and hear from them and their experience of their care. We will work with the council Cabinet and Corporate Management Team to as part of our work to embed cross-council corporate parenting to expand the range of senior leadership connections to our homes and our children.
	AuditsRegulation 44 VisitsYoung InspectorsPeer review and challengeCorporate Parenting CommitteePolicy and procedureSenior Leadership

	Children's	The Children's Services Leadership Team will receive a quarterly digest of the findings of all our quality
	Services	assurance learning and improvement activity and provide the opportunity for scrutiny and challenge to
	Leadership	management and leadership of the service. The Leadership Team members will have live access to
	Team	performance dashboards with the ability to review key performance indicators at any time.
Sharing	Group supervision	A dedicated Clinical Practitioner will support reflective group supervision for the staff in our homes monthly to support staff and managers to explore the quality of care and individual needs of our children.
	Best practice repository	We will build a repository of best practice and learning from our quality assurance activity. Made available to all staff in our homes, the Registered Manager will routinely share new examples of best practice in team meetings and individual supervision with staff
	Practice briefings	All findings from quality assurance activity will be disseminated to all staff in our homes, through email communications, team and individual briefings facilitated by the Audit and Learning Lead.
	Co-produced actions plans	Action plans for any identified areas for improvement or issues for resolution will be led by the management team and co-produced by the staff team to ensure shared ownership of development and improvement activity within our homes
Improvement	Learning and development	We will invest in an industry leading learning and development, and career progression offer for the staff in our home, including support all staff to pursue relevant specialisms pathways and qualifications to increase the professional and multi-disciplinary capacity of our network of homes and to grow our own future leaders.
	Action planning	All our learning activities will contribute to our iterative continuous improvement plan for our homes, and individual learning plans for our staff. Leaders and managers will be responsible for delivering our plans with progress scrutinised at the bi-monthly performance meetings.
	Supervision and appraisal	All our staff and managers will receive annual work and learning plans and these will be reviewed through monthly supervision with line managers, and an annual performance appraisal.
Celebrating	Award and recognition	Individual best practice and achievements will be promoted across children's services in the monthly Directors Blog
	Learningfest promotions	Outstanding practice will be promoted at our quarterly learningfest celebrations
	Career progression	We will offer a strong developmental offer to promote career progression for our staff, identifying talented individuals early and ensuring they are guided into leadership roles, or to specialist positions within our network of homes.

19

Summary: Primary activity frequency

Frequency	Quality Assurance Activity			
As necessary	Dip-sample and thematic audits			
Monthly	Regulation 44 visits and Report to Ofsted			
Bi-Monthly	Individual child auditLeadership and management audit			
Quarterly	 Performance meetings Corporate parenting committee update Children's Services leadership team update 			
Six monthly	 Regulation 45 Report Young inspector visit and panel 			
Annually	 Children's Services leadership team policy and procedure review Corporate Parenting Annual Report Senior leadership visit 			
Bi-annually	Peer review			

Our key performance indicators capture both qualitative and quantitative measures to ensure a robust body of evidence to provide assurance on the quality and effectiveness of care provided in our homes, and our children's lived experience and views on the quality of care and their environment.

Area	Measure
Management and delivery	Occupancy rate
-	Staff turnover
	Timeliness of staff supervision
	Participation in continuous professional development
	Financial performance
	Ofsted rating
	Placement stability
Quality of care	Rate of children reporting feeling supported to settle into the home
	Rate of children reporting feeling safe and happy in the home
	Rate of children reporting they understand their rights,
	entitlements, how to make a complaint, and the rules within
	the home
	Number of complaints and compliments
	Number of injury incidents
Procedure	Rate of use of sanctions
	Rate of strategy meetings relating to children in the home
	Rate of health appointments kept
Outcomes	Number and rate of children with a missing episode, and
	total missing episodes
	Number and rate of children subject to exploitation or serious
	violence
	Rate of school attendance for children in the home
	Hours of positive extra-curricular activity
	Hours of physical activity
	Rate of children participating in active travel

Appendix A – Child Audit

Area	Compliant (yes or no)	Analysis of quality including strengths and areas of development	Action(s) Required
1. Quality and purpose of care			
Transitions into home			
Children are effectively supported to settle into the home.			
Areas for consideration:			
Children's guide has been discussed and utilized with the child, key work sessions meaningfully focused on the child settling			

period, initial check list discussed with the		
child.		
Placement plans.		
Flacement plans.		
Children's helistic needs are heing		
Children's holistic needs are being		
planned, met and reviewed effectively		
in collaboration with children, their		
families and multiagency partners.		
Areas for consideration:		
Are the primary goals and support		
identified effective?		
What progress is being made?		
Any action plans identified and shared		
with the professional network? i.e. if the		
placement is not meeting the needs of the		
child or there is a lack of progress.		
Children's cultural and diversity needs are		
being met.		
J. J		
D iele een en en te		
Risk assessments.		

Risk assessments effectively identify, and address known and potential risks. Areas for consideration: Are the main risks identified in the risk		
assessment? Has the risk assessment been reviewed and updated? Children are proactively supported to understand risks and safety.		
Children going missing Children who go missing experience effective multiagency response that safeguards them and contributes towards reducing further missing.		
Areas for consideration:		

Are they chronologies in place for the risks identified? i.e. missing chronology in place, independent return home interviews have been offered to young people, local authority is being challenged when the RHI don't take place. Family are being kept up to date when children go missing. Staff look for children when they go missing.		
Children are supported to take risks appropriate to their age and understanding and are supported to learn from things that don't go to plan.		
Multiagency working Multiagency partners are working together effectively to reduce risks and safeguard young people. Areas for consideration:		

Strategy meetings, placement review meetings, conversations with LADO, evidence of multi-agency work.		
Behavioural support plan Children are being effectively supported to manage and understand their behaviour in both short term and longer term.		
Areas for consideration: Is the behavioural support plan up to date and are the strategies identified effective? Evidence of multiagency work in creating and developing the behavioural support plan.		
Children in Care reports. Children are supported to understand their individual care plans, pathway		

plans and children are able to express		
their views.		
Areas for consideration:		
What is the current care plan		
arrangements? Is the Care plan up to date?		
What was the date of the last child looked		
after (CLA) review?		
(should take place every 6 months)		
Is there a copy of the plan and the CLA		
review minutes on child's file?		
Does the plan include the child's views,		
wishes and feelings?		
2. Health and wellbeing	 	
Children are supported with their		
holistic health needs (oral, physical,		
sexual and mental health needs) and		
key work teams effectively liaise with		
relevant health partners to ensure to		

	nsure children health needs are being
n	net.
4	areas for consideration:
	s the child registered with the optician, entist and GP?
	las the child attended any health pointments this month?
n	Vhen was the last children in care nedical appointment? Any actions from ne children in care medical appointment?
s	s the child receiving any therapeutic upport around his mental health or eneral wellbeing?
A	s there a copy of the Child and dolescen Needs and Strengths (CANS) ssessment on the child's file?
a	there are barriers to the child engaging nd/or accessing support around their ealth, how is the key work team
р	roactively supporting the child to have neir health needs met?

2. Education
3. Education
Key workers are ambitious for their
children's educational progress and
outcomes. They effectively liaise with
multi-agency partners involved in
supporting the child's education
goals.
Areas for consideration:
What are the education plans for the
child?
What was the date of the last Personal
Education Plan (PEP) review?
(should take place every 6 months)
(should take place every o months)
Is there a copy of the PEP review minutes
on child's file?
Does the plan include the child's views,
wishes and feelings?

How owe support information formation learning at the home? Does the child have an Education Health Care Plan (EHCP)? When was last updated? Is there a copy of the EHCP review minutes on the child's file? Regular meeting with the virtual school and/or additional support available for children. Are there any barriers that impact on the child attending and/ or engaging in full time education? Children are supported to and involved in the decisions about their lives as appropriate. Areas for consideration:

involved in the decisions about their lives as appropriate.	Children are supported to and		
lives as appropriate.			
Areas for consideration:	lives as appropriate.		
Areas for consideration:			
	Areas for consideration:		

Are the wishes and feelings of the children and their views being included in their reports? Are the children's view's being captured in their key work sessions? Are the children receiving debriefs following incidents? Are their views being captured following incidents or/and missing? Are children participating in the decoration of the home and their bedrooms?		
Children are supported to raise complaints (formal and informal) and understand what has happened in response to this. Areas for consideration:		

Are children being updated through the	ı	
complaint process? Have they received		
an outcome following their complaint?		
Are children being supported to access	l l	
Barnardo's advocacy service?	l l	
	l l	
5. Enjoyment and achievement		
Children participate in positive		
activities where their interests are	l l	
explored, and key work team promote	l l	
new experiences for young people.	l l	
Areas for consideration:		
Key work sessions		
Rey work sessions	l l	
Are the key work sessions linked to the	l l	
child's individual care plan and reflect	l l	
their progress?		
What is the quality of the recording?		

Are children taking part in their individual weekly planners?		
Are children attending any youth clubs or interested in sports or activities out in the community?		
Children's birthdays, children's cultural and religious celebrations Areas for consideration: Are we supporting children to explore their own culture and to celebrate their festivities?		
6. Care planning	 	
Key work team are effectively supporting children to develop their independence according to their individual needs and supporting transitions in line with the child's individual pathway plans.		

Areas for consideration:		
Areas for consideration.		
Life skills, budgeting, cooking, health		
appointments and education.		
Is the key work team fulfilling the		
identified actions as well as working to		
_		
support and challenge the pathway		
plans?		
Are the children's views included on their		
Pathway plans?		
7. Positive relationships

Feedback from children living at the home

What do you feel is working well?

If things were to be better, what would need to happen?

Feedback from friends and family

What are your views on the experience, progress, and outcomes for your child? (e.g. what is working well and what can be better?

What is your experience of the relationship and communication with the home? (e. g what is working well and what can be better)

Appendix B – Leadership & Management Audit

maintained.

Area	Compliant (yes or no)	Analysis of quality including strengths and areas of development	Action(s) Required
1. Supervision			
All staff are provided with monthly one-one- emotions of children as well as holistically s		nderstand and manage their own feelings and res	sponses to the behaviour and
All members of staff have received supervision this month evidenced by a record of supervision on Clearcare.			
2. Appraisal			
Staff have their performance and fitness to the views of other professionals who have v		ally. The appraisal should take into account, whe he year and our children's views.	re reasonable and practical,
Members of staff requiring an appraisal this month have been met with evidenced by a record of appraisal.			
3. Recruitment			
The recruitment and selection process safe	guards young people and minimise	s potential risks to them.	
Staff members have been recruited in accordance with safer recruitment arrangements.			
Vacant posts are being promptly recruited to and the staff/children ratio is			

4. Induction

Each new member of staff completes an appropriate induction relevant to their role. Children receive care from staff who understand the homes statement of purpose.

Member of staff has completed induction		
plan.		

5. Probation

Each new member of permanent staff appointed is subject to the satisfactory completion of a period of probation.

Initial objectives have been set and		
probation reviews take place at the 12		
and 20 week stages.		

6. Training

Care is delivered by staff who have the experience, knowledge and skills to deliver care and is under the supervision of a person who is appropriately skilled and qualified to supervise that care.

Staff have completed their initial 12		
month training plan.		
Identified training needs arising from staff		
supervisions, staff team meetings and		
audits.		
Individuals have the appropriate		
qualification (the Level 3 Diploma) by the		
relevant date (2 years after the date on		
which the individual started working).		
At all times, at least one person on duty		
at the home has a suitable first aid		
qualification.		
At all times, at least one person on duty		
at the home has a suitable fire marshal		
qualification.		

7. Managing Attendance and Performance

To ensure consistent and robust management of attendance and performance. To monitor frequency, themes and to identify actions/support required.

Staff sickness is being appropriately and		
effectively managed.		
Return to work meetings have taken		
place on the date staff return to work		
following a period of sickness absence.		
Where necessary referrals have been		
made to occupational health and		
recommendations reviewed and		
implemented where appropriate.		
Identified themes in staff absence.		
Performance is being appropriately and		
effectively managed in relation to staff		
performance.		

8. Damage and Repairs

Our child live in a comfortable and homely environment. Where there are concerns with damage and repairs these are promptly addressed.

Details of any damage caused, by whom and when.		
Any damage to the home has been recorded in the maintenance log and robust action(s) are being taken to repair damage and/or replace items.		

9. Complaints

Demonstrate that practice in the home is informed and improved by taking into account and acting on feedback on the experiences of our children.

We want to empower our children to voice their concerns and ensure that each children is confident to provide feedback with a relevant person about the support and care they receive.

Total number of complaints made.		
Children who have made complaints.		
Nature of complaints made including any themes.		
A record is made of any complaint, the action taken in response, and the outcome of any investigation is recorded on Clearcare.		
Details of any issue-based advocacy offered/provided in relation to internal/external complaints from young people.		

10. Restraint

Restraint in relation to a young person is only permitted to prevent significant injury to any person and/or serious damage to the property of any person.

Total number of restraints.		
Children involved in restraints.		
Any injuries to children and/or staff.		
Staff member(s) involved in restraints.		
Themes of behaviours leading to use of restraint.		
Themes in days, timings, location and duration of restrains occurring.		
Incident reports are completed on Clearcare within 24 hours in accordance with the policy.		
Staff debrief has taken place and completed on Clearcare within 24 hours in accordance with the policy.

Management oversight and sign off is		
completed on Clearcare within the		
relevant timescale in accordance with the		
policy.		
Relevant plans i.e. risk assessment and		
behaviour management plan		
reviewed/updated.		

14. Allegations of Abuse or Neglect

Staff take effective action whenever there is a serious concern about a child's welfare and are familiar with, and act in accordance with, the home's safeguarding policies.

The correct procedure has been followed in the event of an allegation of abuse or neglect in accordance with the homes safeguarding policy.		
Records kept of an allegation of abuse or neglect, and the action taken in response.		

15. Bullying

Staff have the skills to recognise incidents or indications of bullying and how to deal with them. Staff protect and promote each child's welfare.

Total number of bullying incidents.		
Children involved in bullying incidents		
(e.g. harmer and harmed).		
Themes of behaviours leading to bullying.		
Themes in days, timings, location and		
duration of sanctions occurring.		
Actions taken and outcomes achieved in		
relation to incidents of bullying.		
The correct procedure has been followed		
in the event of an allegation of bullying in		
accordance with the homes prevention of		
bullying policy		
Relevant plans i.e. risk assessment and		
behaviour management plan		
reviewed/updated.		

16. Home Meetings

Children are able to express their views, wishes and feelings and these are taken into account in relation to matters affecting their care, welfare and their lives. Children are also encouraged to provide feedback as part of weekly home meetings.

House meetings are held weekly.	-		
Names of children at weekly house			
meeting and themes of non-participation.			
The minutes clearly record the matters			
raised and the agreed outcomes so our			
children are able to see the results of			
their views being listened to and acted			
upon.			

17. Medication

The registered person must make arrangements for the handling, recording, safekeeping, safe administration and disposal of medicines received into the children's home.
