Queens Road Parking Review

First stage consultation

November 2011

www.southwark.gov.uk

Why have I received this consultation pack?

The council sets out an annual programme to look at parking issues. This included a 1st stage parking consultation in uncontrolled streets south of Queens Road.

The area was last consulted in 2002 prior to the Congestion Charge being introduced, at that stage there was no clear level of support for a CPZ.

In recent years, Queens Road Peckham station has seen a large increase in passenger numbers and this is expected to increase further when the London Overground is completed in 2013, connecting through to Clapham Junction and beyond.

There have also been a number of new residential and commercial developments in the area.

As part of the planning permission for the development on Lugard Road, the developer was required to fund a consultation on the option of introducing a Controlled Parking Zone (CPZ).subsequently, the council has taken the lease of this building.

This leaflet will explain:

- How you can have your say
- What will happen after the consultation closes
- How a CPZ operates and what you would need to do to be able to park in it

This information is intended to help you understand the proposals being made to change parking in your area and so you can make informed decisions when completing the accompanying questionnaire.

Your opinion is very important to us so please make sure you send your questionnaire back before consultation closes on 25 November 2011.

Your views count

We are aware that parking difficulty may have increased in your area due to displacement from nearby B CPZ, more commuter parking as well as the recent development housing and office projects.

We are giving you the opportunity to decide if you would now like your street to become a CPZ. The inclusion of your road will be based on several factors including, support from local residents and businesses, parking survey results and the need to create a clear and logical CPZ boundary.

A map showing the area being consulted is enclosed with this leaflet.

We have sent this consultation pack to all residents and businesses in the area as everybody's opinion counts. We want to hear from you even if you do not drive; displacement parking may affect you as a pedestrian or cyclist and any visitors you receive.

This is a first stage consultation where a decision is made on whether parking controls should be introduced. We would consult with you again regarding the design of parking restrictions if a decision is made to introduce a CPZ on your road.

How can I let you know my views?

The best way to give feedback is by completing the questionnaire online at www.southwark.gov.uk/consultations or by returning it to us by freepost. Please note that you should only respond via one method, duplicate responses will not be included in the final analysis.

The consultation closes on 25 November.

You can also:

Phone: **020 7525 2131**

Email: **parkingreview@southwark.gov.uk**

What happens after the consultation closes?

Once the consultation has closed we analyse all the responses received then present the draft findings and recommendations to Nunhead and Peckham Rye Community Council before a final report is approved by the Cabinet Member for Environment, Transport and Recycling.

You will receive a summary letter explaining the consultation results and the decision that has been made. We will also make this information available on our website at www.southwark.gov.uk/parking

If the decision is made to go ahead with introducing parking controls, we will carry out a further consultation with all residents and businesses in the roads concerned to determine the final parking layout before any works begin.

What is a controlled parking zone and how does it operate?

A CPZ is an area in which all on-street parking is controlled. Parking bays are painted on the road to show where it is safe to park and all other kerb lengths are marked with yellow lines. This helps keep the street safe for both road users and pedestrians allowing priority for parking to be given to disabled people, residents and their visitors and local businesses.

display a valid permit, visitor voucher or pay and display ticket according to the type of bay they are parked in. The council has the power to issue a penalty charge notice to people who park in CPZ bays without the appropriate permit or ticket.

You do not need to display a permit, voucher or 'pay and display' ticket outside of CPZ hours; however other restrictions such as double yellow lines (no waiting at any time) will still apply.

How do you balance different parking needs?

Southwark Council has established a parking priority that is detailed in our 2011 Transport Plan. It is our policy to give priority to disabled blue badge and companion badge holders, local residents and then business visitors. CPZs are designed to deter commuters and encourage public transport use.

We are also committed to supporting the economic viability of our local businesses and to encourage growth in jobs and the regeneration of town centres. As there is a limited amount of kerb space available for parking, we aim to balance the needs of residents with those of local businesses and their customers.

A CPZ provides many benefits for the surrounding community, whether they are pedestrians, cyclists, motorists or those on buses.

- Greater ease in finding parking spaces close to home for residents and their visitors.
- Easier parking near shops, schools and other amenities within the area with nearby pay and display bays, loading bays and disabled visitors.
- Reduced traffic congestion due to less inappropriate parking as all kerb lengths will be controlled either through designated parking bays or yellow lines. CPZs already reduce the number of vehicles driving into or through Southwark.
- A safer road environment for all motorists, cyclists and pedestrians due to less dangerous parking.
- Yellow lining at junctions will ensure better visibility and pavements will be clear of parked cars.
- Greater access for emergency vehicles, as we will be able to maintain a safe width on narrow or busy roads and powers to act on vehicles blocking access to private property.
- Improving air quality by deterring non essential car journeys and encouraging motorists to think about using a sustainable alternative to the car when walking, cycling or public transport might be quicker and more convenient.
- Assisting control on future development. Occupiers of new developments can be excluded from purchasing a permit if a CPZ surrounds the site, therefore reducing the impact on existing communities.
- Improved public realm due to the reduction of parked cars.

Frequently asked questions

What is the difference between the first and second stage consultation?

First Stage Consultation

This initial consultation aims to establish whether or not there is support for a CPZ. We usually ask a large area so that everyone is aware of the consultation. Based upon the results, the council will decide whether a CPZ should be implemented in some, all or none of the streets. Before the CPZ is introduced a second stage consultation will be carried out.

Second Stage Consultation

The second stage consultation aims to understand how you think the layout (type and position) of parking bays should be arranged. The results of your comments are analysed and reported before the proposals are advertised and implemented.

Will I have to buy a parking permit if my street becomes a CPZ?

Yes, as a resident or business in the area you will need to purchase either a resident or business permit to park in the CPZ. Permits will have to be displayed at all times during the operational hours.

When will the CPZ operate?

You will be consulted on the operational hours/days at the second stage, if a CPZ is approved for your area. However, controls are introduced that match the requirements of the area. For example town centres require longer hours of control (eg. Monday to Saturday 8.30am – 6.30pm) but areas around commuter rail stations will be successful with shorter hours (eg. Monday to Friday Noon to 2pm).

How much will the permit cost?*

Type of permit	Cost of permit				Discount
Resident	1month	3months	6months	12months	75% discount for alternative fuel vehicles or motorcycles
	£15.74	£36.58	£67.83	£125.00	
Business	3month	6months	12months		n/a
	£160.00	£320.00	£525.00		
Residents' visitors	£16 for ten, one-day permits. (1st book)				
	£36 for ten, one-day permits (2nd + book per year)				
Average pay and display charge	£2.70 per hour				

*Charges are reviewed annually. Information correct at time of going to print

Where will my visitors park?

Residents are eligible to purchase 'resident-visitor' permits which allow visitors to park in any vacant resident, permit or shared-use ('pay and display' and permit) bay in the CPZ. You only need to use a visitor permit during the operational hours of the zone. Each voucher allows a whole day's parking. They are available in books of 10, which cost £16 for the first booklet each year and £36 for subsequent booklets.

What if I have a blue badge?

Blue badge holders can park free and without time limit in all shared-use bays ('pay and display' and permits), 'pay and display' bays, yellow lines (for a maximum of 3 hours) and dedicated blue badge bays. The council offers a disabled parking bay service to blue badge holders. This service continues irrespective of any new CPZ. If you don't have a blue badge bay you would need to purchase a residents parking permit.

What if I live on an estate?

Many housing estates have their own parking regulations which are independent from CPZs and would not be altered as a result of this consultation. Whether or not your estate has parking controls, you would notice the effects of a CPZ in nearby streets. Your views still count in this consultation and you would be eligible to buy an on-street permit, even if your estate has its own parking scheme.

Have your say about parking

The following questions should only take you a few minutes to complete and will ask you:

- A) for a few details about you
- B) about your parking experience and whether or not you support a CPZ in your street

You can complete this consultation online at www.southwark.gov.uk/consultations

Please refer to the background document whilst completing the questionnaire.

Section A – About you

It's important to know some details about you so that we can carefully analyse the results. To enable your comments to be matched to your street and to avoid any possible duplication of responses we need your full details. Additionally, we will be able to give greater weight to your comments if you provide us with your name and address.

1. Are you a resident or business

- Resident Business Both

Name: required

House / flat number: required

Street name: required

Postcode: required

Section B – Your parking experience

2. How many vehicles do you park on the road?

- None, I park off-street I don't have a vehicle 1 2 or more

3. Please rate the ability to find an on-street parking space near this address?

- | | | | | | | | |
|------------------|------|---|---|---|---|---|-----------|
| a) Yourself | Easy | 1 | 2 | 3 | 4 | 5 | Difficult |
| b) Your visitors | Easy | 1 | 2 | 3 | 4 | 5 | Difficult |

4. What time of day do you or your visitors have difficulty parking? (Tick all that apply)

- | | | |
|-------------------|---------------------------|-------------------------------------|
| Mon – Fri daytime | <input type="radio"/> You | <input type="radio"/> Your visitors |
| Mon – Fri evening | <input type="radio"/> You | <input type="radio"/> Your visitors |
| Saturday | <input type="radio"/> You | <input type="radio"/> Your visitors |
| Sunday | <input type="radio"/> You | <input type="radio"/> Your visitors |
| Never | <input type="radio"/> You | <input type="radio"/> Your visitors |

5. Do you want controlled parking to be introduced in your street?

- Yes (go to Q7) No (go to Q6) Undecided (go to Q6)

6. If you answered “No” or “Undecided” to Q5 would you change your mind if a CPZ was introduced in an adjacent street?

This is an important question if you don’t want a CPZ at the moment but consider parking to be quite difficult – a CPZ in the road next to yours is likely to increase the demand for space in your street.

- Yes No Undecided

7. Please let us know any other comments you have about this proposal or the consultation?

Replies will be used for the analysis of parking requirements in the area and for no other purpose. The information you provide will be used fairly and lawfully and Southwark Council will not knowingly do anything which may lead to a breach of the Data Protection Act 1998.

Queens Road 1st stage parking consultation

HAVE YOUR SAY

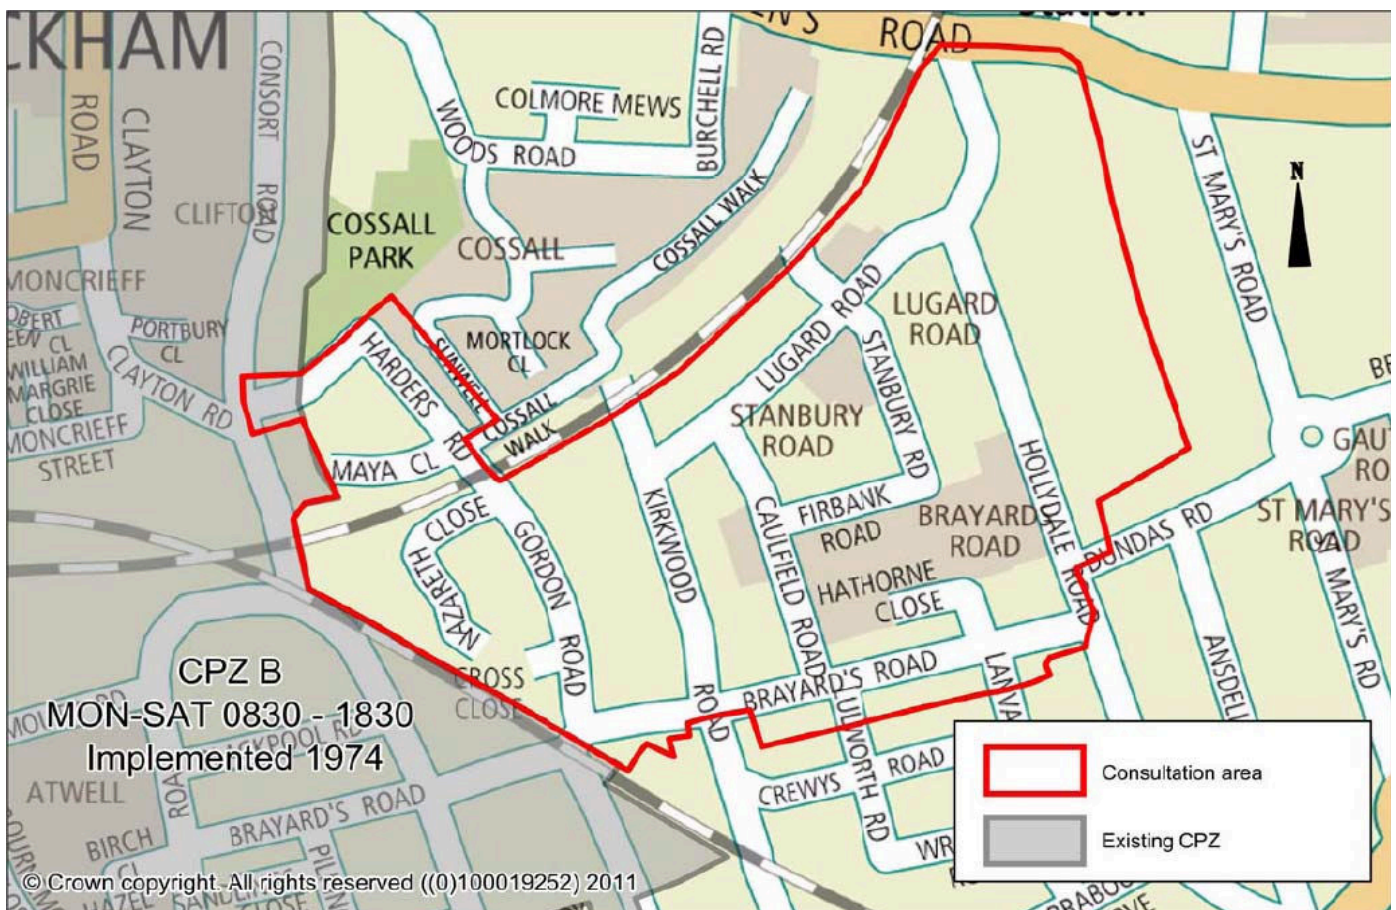

Your views will help us develop our parking plans for the future

November 2011

www.southwark.gov.uk

Southwark Council has recently sent out a consultation document to all addresses in this area to find out what you think about parking.

We need the views of all residents and businesses in the area – whether you own a car or not.

Your views are very important to us.

Please return your questionnaire no later than
25 November 2011

You can complete the consultation online at:
www.southwark.gov.uk/consultations

If you haven't received your consultation pack please contact us:

Email: parkingreview@southwark.gov.uk

Telephone: 020 7525 2131
