WALWORTH COMMUNITY COUNCIL

MINUTES of the Walworth Community Council held on Tuesday 3 May 2011 at 6.30 pm at Darwin Court, 1 Crail Row, London SE17 1AD

PRESENT: Councillor Martin Seaton (Chair)
Councillor Neil Coyle (Vice-Chair)
Councillor Catherine Bowman
Councillor Patrick Diamond
Councillor Dan Garfield
Councillor Darren Merrill
Councillor Abdul Mohamed
Councillor Helen Morrissey

OFFICER SUPPORT: Nicky Costin, Business Unit Manager
Rob Bristow, Group Manager West Team
Kate Johnson, Planning Policy Officer
Pauline Bonner, Neighbourhood Coordinator
Alexa Coates, Principal Constitutional Officer

1. INTRODUCTION AND WELCOME

The chair welcomed everyone to the meeting.

2. APOLOGIES

Apologies for absence were received from Councillor Lauder and apologies for lateness from Councillors: Bowman, Coyle and Morrissey.

3. DISCLOSURE OF MEMBERS' INTERESTS AND DISPENSATIONS

There were none.

4. ITEMS OF BUSINESS THAT THE CHAIR DEEMS URGENT

There were none.

5. MINUTES

RESOLVED

That the minutes of the meeting held on 1 March 2011 were agreed as a correct record and signed by the chair.

6. DEPUTATIONS/PETITIONS (IF ANY)

There were none.

7. COMMUNITY ANNOUNCEMENTS

The chair started the community announcements by expressing congratulations to the Duke and Duchess of Cambridgeshire on their recent wedding.

Public Spaces research

The chair invited David Yeates to tell the meeting about some research he was conducting into public space in Walworth. David explained that he was from the University of Kent and was conducting a study of public space in South London. He was interested in speaking to people who had lived in the area for a long and collecting their stories. David explained the aim of the research was to inform government and organisation to help them build better spaces in the area. David committed to feedback quarterly as he conducted his research. He asked people interested in taking part to speak to him at the break.

Council Assembly Themed Debates

Councillor Mohamed, cabinet member for equalities and community engagement, explained that the next themed debate at council assembly would be held in July on Sport and Young people. The July meeting will also be the first time a council assembly meeting had been held outside of the town hall. The chair encouraged people to keep an eye on the website to find out more information.

Community council fund launch

This item was scheduled at item 8 but the chair explained he would take the item as a community announcement. The community council fund will be open for application from 4 May and the closing date for applications is 16 June.

Application packs were available and residents could speak to the Neighbourhood Co-ordinator in the break about how to apply.

The chair asked Melanie from Cooltan Arts to explain how they used their community council fund grant. Cooltan Arts, is a charity which provides mental health support through the arts. They had arranged an open day which included an art exhibition, a poetry reading,

and taster workshops. The event had been part funded by the community council grant.

Residential Design Standards

The chair invited Kate Johnson from planning policy to tell the meeting about a consultation on an update to the residential design standards. The update includes additional guidance on new minimum dwelling sizes. The proposed update would mean that the minimum size for new dwellings would increase, so larger units for new houses would be built.

The consultation is open until Thursday 2 June, consultation forms can be completed online.

Carter Place Appeal

Rob Bristow from the planning department attended to explain an administrative error which had occurred at the inspector's site visit on 13 April. The planning case officer had arrived late as he had been given the wrong date due to an administrative error. Rob apologised for the officer arriving late and stated that this would not undermine the council's case in anyway as the case would be judged by written submissions alone and verbal submission at the site visit were not allowed.

Elephant Amenity

Celia from elephant amenity announced that they would be holding a visioning event on Saturday 4 June from 11am-4pm at Crossways church on the New Kent Road. The event would consist of workshops where people could talk about what they wanted for the area, the event was open to everyone. More information was available at www.elephantamenity.wordpress.com

Walworth Road Update

Nicky Costin from the environment department updated the meeting on repairs to the Walworth Road. He explained that there were three main issues:

- 1) When utility companies need to dig the road up to make repairs they don't always reinstate the road to an adequate standard. The council was seeking to take enforcement action against the utility companies for particular failures in this area.
- 2) Some maintenance fixes haven't proved adequate. The council was seeking different technical fixes to ensure this didn't happen again.
- 3) Difficulties with the road levels, it was anticipated that the work needed to remedy these issues would be completed before the autumn, but this would take time as the work would require new surveys and new design work.

Nicky advised that any remedial works in relation to 3 will be paid for from existing Walworth Road budget as some monies had been retained in case remedial works were needed.

8. CHARGES FOR RESIDENTIAL PARKING BASED ON CO2 EMISSIONS

Nicky Costin gave residents some information on proposals to base residential car parking charges on Co2 emissions outlining the potential costs for different models of car. He presented two options one for a flat rate charge and secondly for a charge based on Co2 emissions and engine capacity if the vehicle pre-dates 2001.

Option 1

- The cost of a residents parking permit will increase from 99.30 to £125.
- The increase will be across all residents permits
- Even with this increase Southwark are still below the inner London average

Option 2

- Charging motorists for permits based on CO2 emissions, and CC if your vehicle pre-dates 2001
- What this means is cheaper permits for residents with low emission vehicles and higher charges for cars that emit more CO2
- With this option 47% of car owners will be paying less for their permit than the Option1 flat rate of £125
- The scheme will be based on the DVLA Model with 6 bands

Nicky took questions and comments from the floor. Residents questioned the effect of the charges based on Co2 emissions on those who could not afford new cars and requested that an impact assessment accessing why people use cars be carried out. Residents and councillors also questioned the format and level of the consultation and felt they should have something to digest and consider or an online facility to respond to the consultation.

Cllr Seaton advised he would write to the relevant cabinet member to express these concerns.

9. ANNUAL REVIEW OF THE WALWORTH COMMUNITY COUNCIL

The chair introduced the review of the year where he asked councillors summarise the work of the Walworth community council over the year.

Open Spaces

Cllr Diamond talked about the open spaces workshops which had taken place in March 2011. He explained that the meeting had been well attended with over 60 people taking part in workshops around the themes of: types of open space, quality of open space and linking open spaces.

The chair added that at that meeting the community council has agreed to look into the possibility of establishing an open spaces network. The Walworth Green Spaces, Open Spaces network would soon have their inaugural meeting. He informed residents that this would be an independent body which would feed comments into the community council and as such would have an independent chair. He asked residents interested in taking part to complete a form so they could be kept informed of meeting details.

Burgess Park

Cllr Garfield updated the meeting on the Burgess Park Revitalisation Project. The council had £6million to spend on the development of the park and it was expected that work would be completed by March 2012. As part of the project the lake would be reformed and the fountain replaced, new meadow flowers and new trees would be planted. Cllr Garfield explained that some parts of the park would be closed, but not all, whilst the work was completed.

Residents raised concerns relating to the lack of toilets and supervision in the park, some felt that a full-time park attendant should be employed.

Aylesbury Update

Cllr Garfield also updated the meeting on the regeneration of the Aylesbury estate. He explained that PFI funding had been removed just before Christmas. He stated that the council were committed to regeneration on the estate and that scheduled demolition had begun. He also stated that the regeneration was not just about the building being built but the facilities around the estate, such as the revitalisation of Burgess Park. Cllr Mohamed added that residents should be credited for their role in the Burgess Park project as they had helped to raise £2million of the funding.

One resident questioned the validity of the Aylesbury regeneration as the project had been designed at a time when more funding was available. Cllr Garfield explained that the Aylesbury Action Plan was in effect a 20 year plan for the regeneration of the area and although finances were limited at this time that would not always be the case.

Housing Repairs

Cllr Merrill updated the meeting on the housing repairs theme of the November meeting. He explained that Cllr Edwards had attended as scrutiny had been conducting a review into the housing repairs service. The recommendations of that review were being implemented by the council, As a result of the review the service was being made more transparent, satisfaction would be monitored by resident survey rather than reports from contractors, the collation of satisfaction results would change and improvements were being made to the contact centre which included one reference number per job.

The chair added that a new Director of Housing had been appointed to the council and it was intended that contracts would be more closely monitored.

Sex Establishments Consultation

Cllr Coyle spoke about the meeting on the sex establishment consultation where the council was seeking views on whether any area in the community council area were considered appropriate for sex establishment licenses. Cllr Coyle added that the majority view of the meeting had been that there were no suitable locations in the Walworth community council area and this had been supported by written submissions after the meeting. A report to the Licensing Committee to approve the final policy was being worked on and the final stage would be for this to be considered by Council Assembly. When the final policy was agreed the community council would be updated.

Elephant and Castle Leisure Centre

Cllr Morrissey provided an update on the leisure centre consultation to find out what people wanted from the new leisure centre and why they would use the centre. A new swimming pool was the most desired option. Existing customers of the leisure centre voted

for the swimming pool, gym and sports hall as their top three priorities. Non-users of the leisure centre voted for the swimming pool, gym and exercise/studios as their top three properties. The results of the consultation exercise helped define the leisure centre design brief which was then issued to the project architects to define. Construction is programmed to commence Summer 2012.

10. ELEPHANT & CASTLE REGENERATION UPDATE

Susie Wilson and Rob Deck from Lend Lease attended to tell residents about the Elephant and Castle regeneration. Susie explained that 70 organisations had been contacted. A forum was being established to discuss plans for Elephant and Castle and the first meeting was being planned for 26 May, invitations would be sent to key groups in the week beginning 9 May. It was expected that the forum would exist for the lifetime of the project. There were also plans to hold a public exhibition to showcase some initial plans in June or July.

Residents asked if the list of organisations being contacted would be made available and whether there would be opportunities for the community to talk directly to the architects and planners involved in the project so they could understand their aspirations for the development. In response Susie explained that the list of the organisations contacted would go on the new website. Rob thought it was a good idea for architects and planners to meet the community and thoughts that the forum and public exhibition would be good opportunities to do this.

11. PUBLIC QUESTION TIME

The responses to public questions submitted on 1 March 2011 were noted.

The following public questions were submitted and the chair advised that written responses would be provided at the next meeting:

When will the work on the Walworth Road (to deal with the water levels and residents being drenched) commence and how long will it take?

Burgess Park

Are there any plans for the council to start charging for the use of open space in Burgess Park?

What are the plans for the play area in Burgess Park which is of poor design and in need of change?

When will the cost of the development to Burgess Park be provided to the community council?

How much was spent on consultants?

Housing Repairs

Have any contractors been sacked as a result of poor performance?

Will any independent satisfaction survey been consulted after repairs are completed?

What training is given to people on the helpdesk and is this monitored as residents experience conflicting information when they call?

Have council staff and contractors been warned that they must wear identity badges at all times?

Is there any scrutiny of contractors to ensure they are wearing ID?

Have any contractors been suspended for not wearing IDs during visits to residents?

How many random visits did council environmental health and safety officers make in 2010/11 and how many are planned for 2011/12?

Can blue recycling wheelie bins be placed on Pullens estate to prevent a return to the old situation when black bags were just dumped on the pavement?

Are you going to protect/expand allotments?

Elephant and Castle Leisure Centre

How much is being spent on the project?

Elephant and Castle Regeneration

Can each Walworth community council agenda include a list of consultation meetings for the Heygate regeneration?

Will the residential development of the Elephant and Castle comply with the New London Plan and the new space standards proposed by the Council? Also will there be houses built in the scheme that also comply with these space standards?

Are residents consulted about large buildings in the area – tower blocks that might not be close to be affect their environment. E.g. the enormous new tower and the Elephant? If not why?

Can we have written updates at community council meetings as well as slide shows?

Can all major planning applications be sent to all the TRAs in the relevant ward?

It has been brought to the council's attention that there is a portacabin at the end of Larcham Street which is there without planning permission. Why is this dangerous obstacle still there?

Why are only questions allowed from the floor? This limits comments and input from the public. This makes it undemocratic and a 'fake consultation'.
How and to whom, were the open space workshops publicised?

Why are officers unable to answer so many questions? And why are the answers postponed?

12. LOCAL PARKING AMENDMENTS

Executive Function

Members considered the local parking amendments report

RESOLVED

That the following local parking amendments be approved for implementation subject to the outcome of any necessary statutory procedures:

- Larcom Street – Install one disabled persons (blue badge) parking bay
- Olney Road – Install one disabled persons (blue badge) parking bay

The meeting ended at 9.10 pm.

CHAIR:

DATED:

Feedback about issues raised at previous community council meetings

Question	Response
<p>Elephant and Castle Leisure Centre How much is being spent on the project?</p>	<p>The July 2010 report to cabinet concerning the Elephant and Castle Leisure centre estimated the capital costs of developing a new facility would be in the region of £20m. This figure included a significant sum for contingency and project risk. Since that report further work has been carried out to test and evaluate the scheme and this exercise has concluded that a project capable of complying with the council's project mandate agreed in November 2010 can be delivered within this total. The final cost of the scheme however will be subject to final design and evaluation of the construction tender.</p>
<p>Elephant and Castle Regeneration Can each Walworth community council agenda include a list of consultation meetings for the Heygate regeneration?</p> <p>Will the residential development of the Elephant and Castle comply with the New London Plan and the new space standards proposed by the Council? Also will there be houses built in the scheme that also comply with these space standards?</p> <p>Are residents consulted about large buildings in the area – tower blocks that might not be close to be affect their environment, e.g. the enormous new tower and the Elephant? If not why?</p>	<p>The council and Lend Lease will use the Elephant and Castle project update section of Walworth Community Council meetings to provide information on consultation events and exhibitions relating to the regeneration of the Heygate.</p> <p>Residential schemes including units suitable for families will be designed to comply with the Mayor of London's standards for housing.</p> <p>The council's planning department endeavours to consult as widely as possible on planning applications for residential towers. For example in addition to site and press notices over 5000 consultation letters were issued to residents considered to be affected by the Strata planning application. Details of all planning applications received by the council can be viewed on the Southwark website and interested residents can have copies of the updated weekly register sent directly to them.</p>
<p>Can all major planning applications be sent to all the TRAs in the relevant ward?</p>	<p>No. Only those properties most likely to be affected are sent consultation letters. Site notices provide an opportunity for those living wider afield. There is considerable cost to posting neighbour consultation notices. It is important to note that TRAs may subscribe to the weekly list online.</p>

Question	Response
<p>It has been brought to the council's attention that there is a portacabin at the end of Larcham Street which is there without planning permission. Why is this dangerous obstacle still there?</p>	<p>The portacabin in question is a temporary structure erected to facilitate implementation of extant permission (09-AP-1392) for the erection of one part 4, part 5 storey building on the corner of Brandon Street and Charleston Street and one part 5, part 6 storey building on the corner of Brandon Street and Larcom Street, comprising 18 dwellings in total with communal private courtyard and public amenity space at ground floor level on land bound by Brandon Street, Larcom Street and Charleston Street, London, SE17 1NL. As such, the portacabin does not require planning permission.</p> <p>I understand that the main concern of residents is that that the structure is obstructing the highway near a school and pre-school forcing pedestrians into the street. I understand that the structure benefits from a highway licence. Highways have prioritised this matter and are in the process of arranging the creation of a temporary walkway around the hoarding to create safe passage through the temporary suspension of some of the parking bays.</p> <p>Ketchi Anorijebe is the contact officer in Public Realm.</p>
<p>When will the work on the Walworth Road (to deal with the water levels and residents being drenched) commence and how long will it take?</p>	<p>To follow</p>
<p>Are there any plans to address the issues, in terms of visibility of the lights, at the traffic junction Walworth Road/East Street?</p>	<p>To follow</p>
<p>Burgess Park</p> <p>Are there any plans for the council to start charging for the use of open space in Burgess Park?</p> <p>What are the plans for the play area in Burgess Park which is of poor design and in need of change?</p> <p>When will the cost of the development to Burgess Park be provided to the community council?</p> <p>How much was spent on consultants?</p>	<p>Responses to follow</p>

Item No. 12.	Classification: Open	Date: 2 July 2011	Meeting Name: Walworth Community Council
Report title:		Walworth Community Council Fund 2011- 2012	
Ward(s) or groups affected:		East Walworth, Faraday and Newington wards	
From:		Stephen Douglass, Head of Community Engagement	

RECOMMENDATION

1. That the Walworth Community Council considers allocating £15,260 of community council fund monies. The groups to be considered are set out in Appendix 1.

BACKGROUND INFORMATION

2. The Community Council Fund provides revenue grants of between £100 and £1,000 for community projects. Applications are considered by the borough's eight community councils, which have £15,260 each, for projects that will benefit the community.

KEY ISSUES FOR CONSIDERATION

3. The Community Council Fund forms part of Southwark 2016 objectives of:
 - Improving life chances
 - A better place for people
 - Delivering quality services.

Community impact statement

4. The allocation of the Walworth Community Council fund will, in the main, affect the people living in the Walworth Community Council area. However, in making the area a better place to live and improving life chances for local people, the Walworth Community Fund activities will have an impact on the whole of Southwark.
5. The Walworth Community Council fund aims to increase community participation and activity within the area and provide such groups with the support that they would have not been able to access otherwise.

Resource implications

6. The budget for the Walworth Community Council Fund is £15,260 to be spent by the 31 March 2012.

Legal/Financial implications

7. The Council has power under section 2 of the Local Government Act 2000 (“the Act”) to do anything which it calculates is likely to promote or improve the economic, social or environmental well being of the area. This power can be exercised for benefit of the whole or any part of the council’s area or for the benefits of any person resident or present in the area.
8. Section 2(3) of the Act requires the Council to have regard to its Community Strategy when determining whether or not to exercise this power. Section 2(4) of the Act specifies that this includes a power to give financial assistance to any person.
9. The Council has power under the Act to provide funding to voluntary organisations but in exercising this power regard must be had to the Council’s sustainable community strategy. These grants, from the community fund, are from revenue budgets.
10. The Executive in November 2005 agreed for this to be done by the community councils. The money can be granted to community projects ranging from cultural celebrations to providing equipment for local sports teams.

How can people apply?

You can get an application form either by

- going to www.southwark.gov.uk/communityfund to download it or
- by contacting the officer for the relevant CC area as listed on the left.

After filling in the form, send it back by post or email to the officer for the relevant CC area as listed on the left or at the back of the application form.

Closing date for receiving all applications is **Monday 16 May 2011**.

Late or partially filled applications will not be considered.

How can I get more information or support?

If you would like help with filling in the application please contact the officer for the relevant CC area as listed on the left.

How does the scheme work?

Applications will be screened to make sure they meet the criteria above. Remember that eligibility for the scheme is also conditional on the applicant providing all the necessary information outlined in the application form which includes evidence on how they are or will be complying with appropriate safeguarding and health and safety policies.

Applications not fulfilling any of the above criteria will not be considered.

Locally elected councillors will be responsible for making decisions on all the eligible applications using the priorities outlined below:

- Applications that show a high level of involvement by the local community.
- Applications that involve groups working together.
- Activities delivered by:
 - New and emerging groups/individuals
 - We will give preference to groups who have not received community council funding in the last two years
 - Groups who are based in the community council area.
- Activities taking place within the community council area – unless they involve an outing, or there is lack of space for it within the area.
- Where the majority of people benefitting from the activity live within the community council area.

Decisions for applications will be made and announced by councillors at the first community council meeting which will take place after the end of June 2011.

Every applicant will be notified of decisions by a letter no longer than 15 working days after the decision is taken. Successful applicants will be asked to sign and return a condition of funding agreement. It is only once this agreement has been received that we can release the funding.

So when planning your activity please make sure that you give enough time for this and that your activity does not start until at least four weeks after the decision date.

Please note that groups that are not constituted or individuals who would like to apply with project ideas should get in touch with the community council development officer (contact details on the left) for advice as soon as possible. Remember all applications – whether by email or post - must reach us by **Monday 16 May 2011**.
