Dog Kennel Hill adventure playground binding our community	
one stitch at a time	£3,000
Safer Camberwell Youth Project	£1,300

Meeting ended at 7.45pm

CHAIR:

DATED:

Item No. 7.	Classification: Open	Date: 13 February 2019	Meeting Name: Camberwell Community Council
Report title:		Cleaner Greener Safer 2019-20: Capital Funding Allocation	
Ward(s) or groups affected:		Camberwell Green, Champion Hill, St. Giles	
From:		Head of Highways	

RECOMMENDATION

1. To approve the allocation of funds for the 2019-20 Cleaner Greener Safer capital programme in the Camberwell Community Council area from the list of applications set out in Appendix 1.

BACKGROUND INFORMATION

2. The council's Cleaner Greener Safer (CGS) capital programme has been running since 2003.
3. In the first sixteen years of the CGS programme, £36,033,000 has been allocated to community councils leading to 3,072 projects being approved.
4. In the Camberwell Community Council area, £5,172,754 has been allocated to 422 projects, 355 of which have been completed to date.
5. Examples of the types of projects that have been funded include:
 - Parks, community gardens, landscaping, tree planting and wildlife areas
 - Children's playgrounds, youth facilities, ball courts and cycle tracks
 - Lighting, security measures, pavements, streets, and tackling 'grot spots'
 - Grants to local groups to self-deliver projects.

KEY ISSUES FOR CONSIDERATION

6. There is £238,730 available for the 2019-20 CGS capital programme for new projects in the Camberwell Community Council area.
7. Unallocated funding from previous years' programmes will also be reallocated subject to approval in a separate report.
8. Eligible proposals must bring about a permanent improvement and make an area cleaner, greener or safer.
9. Proposals with revenue costs, including salaries, costs for events, festivals, workshops or other one-off events are not eligible for capital funding. CCTV proposals and internal improvements to housing property and works on schools where there is no access to the general public are also not eligible.

Works on private property are not eligible unless there is a long-term guarantee of public access or a demonstrable public benefit.

10. The application form invited expressions of interest for the applicants to deliver projects themselves. A due diligence exercise to ensure that this is both practical and realistic has been undertaken as part of the feasibility process. In such cases, the council would give the funding allocation to the applicant in the form of a capital grant, with appropriate conditions attached.

Policy implications

11. The Cleaner Green Safer programme is fully aligned with the council's policies around sustainability, regeneration and community engagement.

Community impact statement

12. The roles and functions of community councils include the promotion of involvement of local people in the democratic process. Community councils take decisions on local matters including environmental improvements and community safety, as well as consultation on a wide range of policies and strategies that affect the area.
13. An explicit objective within community councils is that they be used to actively engage as widely as possible with, and bring together, Southwark's diverse local communities on issues of shared or mutual interest. The Cleaner Greener Safer programme is an important tool in achieving community participation.
14. In fulfilling the above objectives of community councils to bring together and involve Southwark's diverse local communities, consideration has also been given to the council's duty under The Equality Act 2010 which requires the council to have due regard when taking decision to the need to:
 - a. Eliminate discrimination, harassment, victimisation or other prohibited conduct;
 - b. Advance of equality of opportunity between persons who share a relevant protected characteristics and those who do not share it;
 - c. Foster good relations between those who share a relevant characteristic and those that do not share it.
15. Of particular regard are issues of age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation.
16. Having due regard to the need to advance equality of opportunity is further defined in s.149 as having due regard to the need to:
 - a. Remove or minimise disadvantages connected with a relevant protected characteristic;
 - b. Take steps to meet the different needs of persons who share a relevant protected characteristic;
 - c. Encourage persons who share a relevant protected characteristic participate in public life or any other activity in which they are under- represented.
17. Ideas for CGS projects come from the local community, the majority via a simple project nomination form available in electronic and paper format.

Resource implications

18. The funding for the CGS capital programme from 2011 to 2021 was approved by the cabinet and is part of the council's overall capital programme as detailed in the Capital Programme 2011-2021 report dated 21 June 2011.
19. The allocation of funding per ward for the CGS capital programme was approved by the cabinet member for transport environment and recycling as detailed in the launch of Cleaner Greener Safer Capital Programme 2015-16 report dated 6 August 2014.
20. The funding for the 2019-20 CGS capital programme was approved by the cabinet member for environment, transport management and air quality as detailed in allocation of funds to wards via Cleaner Greener Safer and Devolved Highways programmes report dated 20 December 2018.
21. All professional fees related to the project are also treated as the capital costs of the project. Where projects are awarded as a grant to organisations, the award amount announced at community council includes professional fees. The community council award notifications to grant recipients details the grant amount only, excluding these fees.
22. CGS projects must be completed within two years of award of funding. Projects that are unlikely to be completed within two years will be reported to community council and available budgets may be reallocated to other projects. Revenue costs not covered by maintenance or the contractual liability period will fall upon the asset owner. The department will be notified of the likely costs before the schemes proceeds, in order to secure permission to implement the scheme.
23. After the defects and liability period, or three-year maintenance period in the case of planting works, all future maintenance is assumed by the asset owner, for example housing, parks, highways, or in some cases external asset owners. Therefore, there are no revenue implications to the highways division as a result of approving the proposed allocation.
24. The total expenditure and sources of funding for the scheme will be monitored and reported on as part of the overall capital programme.
25. Value for money will be ensured when the contract is procured by following the council's contract standing orders.

Consultation

26. All Cleaner Greener Safer projects require consultation with stakeholders, including the project applicant, local residents, tenants and residents associations and local community groups where appropriate.

SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

Director of Law and Democracy

27. The Local Government Act 2000 ('the 2000 Act') gives the Leader the power to

delegate any executive function to whoever lawfully can undertake the function. The allocation of the CGS capital fund is an executive function.

28. Community councils are 'area committees' within the meaning of the 2000 Act and executive functions can be delegated to them by the Leader. The terms of the delegation are set out in part 3H of the council's constitution.
29. This report recommends that that community council approve the allocation of funds to the individual projects specified at Appendix 1. Paragraph 14, Part 3H of the constitution enables community councils to approve "the allocation of funds to cleaner, greener, safer capital and revenue schemes of a local nature, using the resources and criteria identified by the cabinet".
30. Community councils further have powers under paragraph 16, Part 3H of the Constitution to oversee and take responsibility for the development and implementation of the local schemes.
31. In allocating funding under the CGS community councils must have regard to the council's equality duty set out in section 149 of the Equality Act 2010. The report author has demonstrated how those duties need to be considered in the body of the report at paragraphs 12 to 17 in the community impact statement.

Strategic Director of Finance and Governance (CAP18/051)

32. This report seeks the approval of the Camberwell Community Council for the allocation of funds (£238,730) for the 2019-20 Cleaner Greener Safer (CGS) programme in the Camberwell Community Council area from the list of applications set out in Appendix 1.
33. The strategic director of finance and governance notes the resource implications in the report that the proposed allocations will be contained within the council's capital programme.
34. It is also noted that officers' time and any other costs connected with this recommendation will be contained within existing departmental revenue budgets.

Item No. 8.	Classification: Open	Date: 13 February 2019	Meeting Name: Camberwell Community Council
Report title:		Camberwell Community Council Highways Capital Investment 2019-2020	
Ward(s) or groups affected:		Camberwell Green, Champion Hill, St Giles	
From:		Head of Highways	

RECOMMENDATION

1. That the Camberwell Community Council approve the allocation of funds for the 2019-20 Community Council Highways Capital Investment programmes in Camberwell Community Council area from the list of proposals set out in Appendices 1 and 2.

BACKGROUND INFORMATION

2. The council's non-principal road investment programme prioritises works on non-principal roads on a borough-wide basis and this investment forms the largest part of the annual investment programme.
3. Community councils are allocated a devolved fund of £800,000 each year from the total annual programme to spend on their priorities for highway renewal and maintenance that may not be prioritised as part of the borough-wide programme.
4. The financial provision for each community council is pro-rata by ward, as published in the Highways Capital Investment Programme 2014-15 report.
5. Commencing in 2017-18, the scope of the fund has been widened to permit the full range of minor traffic and highway capital schemes rather than solely like-for-like repair and replacement. Examples of the types of works which can now be funded include:
 - Footway and carriageway resurfacing;
 - Traffic calming;
 - Localised repairs;
 - Accessibility improvements;
 - Footway buildouts;
 - Cycle hangars.

KEY ISSUES FOR CONSIDERATION

6. Camberwell Community Council has been allocated £101,587 highway improvement works of its choice.
7. This amounts to £25,396 for Champion Hill, Camberwell Green and St Giles Wards have an allocation of £38,095.

8. This can be spent on any non-principal road in the area.
9. Proposals on private land or housing estates, ideas which are contrary to council policy, or are outside the control of the council, are not eligible – for example the removal of traffic calming measures without suitable replacements, speed cameras or traffic speed indicators.

Policy implications

10. The Community Council Highways Capital Investment programme is part of the investment programme set out in the Highway Infrastructure Asset Management Plan (HIAMP).

Community impact statement

11. The roles and functions of community councils include the promotion of involvement of local people in the democratic process. Community councils take decisions on local matters including environmental improvement and community safety as well as consultation on a wide range of policies and strategies that affect the area.
12. An explicit objective within community councils is that they be used to actively engage as widely as possible with, and bring together, Southwark's diverse local communities on issues of shared or mutual interest.
13. In fulfilling the above objectives of community councils to bring together and involve Southwark's diverse local communities, consideration has also been given to the council's duty under The Equality Act 2010 which requires the council to have due regard when taking decision to the need to:
 - a. Eliminate discrimination, harassment, victimisation or other prohibited conduct;
 - b. Advance of equality of opportunity between persons who share a relevant protected characteristics and those who do not share it;
 - c. Foster good relations between those who share a relevant characteristic and those that do not share it.
14. Of particular regard are issues of age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation.
15. Having due regard to the need to advance equality of opportunity is further defined in s.149 as having due regard to the need to:
 - a. Remove or minimise disadvantages connected with a relevant protected characteristic;
 - b. Take steps to meet the different needs of persons who share a relevant protected characteristic;
 - c. Encourage persons who share a relevant protected characteristic participate in public life or any other activity in which they are under-represented.
16. This year, ideas for the Community Council Highways Capital Investment programme have been invited from the local community via the Cleaner

Greener Safer programme's simple project nomination form available in electronic and paper format.

Financial implications

17. The funding for the Community Council Highways Investment programme from 2011 to 2021 was approved by the cabinet and is part of the council's overall capital programme as detailed in the Capital Programme 2011–2021 report dated 21 June 2011.
18. A further £4m was approved by the cabinet on 25 September 2012 to be included in 2021-22 to allow for an extra year of investment in the non-principal roads network.

Resource implications

19. The delivery of the proposed works will be through the highways and professional services term contract and will be managed by the transport projects team in the highways division. All works will be subject to quality and financial review through the Highways division's monitoring processes led by the Head of Highways.
20. The total expenditure and sources of funding for the scheme will be monitored and reported on as part of the overall capital programme.

Sustainability implications

21. All materials excavated from the highway are sent for recycling and footway sub-base and base course materials are incorporated into the recycling regimes of our highways and professional services term contractor.
22. Every attempt will be made to minimise noise and disruption during the course of the proposed works. Night and weekend working will only be used where site or network constraints require this approach. However, this will only be as a last resort and following full consultation with the noise team.

Consultation

23. Where appropriate, stakeholder consultation will take place prior, during and on completion of works.

SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

Director of Law and Democracy

24. The Local Government Act 2000 ('the 2000 Act') gives the Leader the power to delegate any executive function to an area committee. The allocation of the CGS capital fund is an executive function. These works can be carried out in accordance with various executive statutory powers, including in this instance the Highways Act 1980 and the Localism Act 2011 section 1 (general power of competence).
25. Community councils are 'area committees' within the meaning of the 2000 Act. The terms of the delegation relating to the CGS fund are set out in part 3H of

the council's constitution. Paragraph 14, Part 3H of the constitution enables community councils to approve "To approve the allocation of neighbourhood funds, cleaner, greener, safer and devolved highway capital schemes of a local nature using the resources and criteria identified by the cabinet."

26. This report is recommending that the community council approve the allocation of funds for the 2019-20 Highways Capital Investment Programme, which is in accordance with this delegation.
27. Community councils further have powers under paragraph 16, Part 3H of the constitution to oversee and take responsibility for the development and implementation of the local schemes.
28. In allocating funding under the CGS community councils must have regard to the public sector equality duty set out in section 149 of the Equality Act 2010. The report author has indicated how those duties need to be considered in the community impact statement referred to above.

Strategic Director of Finance and Governance (CAP18/056)

29. This report seeks the approval of the Camberwell Community Council for the allocation of funds (£101,587.30) for the 2019-20 Council Highways Capital Investment programme in the Camberwell Community Council area from the list of applications set out in Appendices 1 and 2.
30. The strategic director of finance and governance notes the resource/financial implications contained in this report.
31. It is also noted that officers' time and any other costs connected with this recommendation will be contained within existing departmental revenue budgets.

Item No. 9.	Classification: Open	Date: 13 February 2019	Meeting Name: Camberwell Community Council
Report title:		Allocation of Neighbourhoods Fund 2019-20	
Ward(s) or groups affected:		Camberwell Green, Champion Hill, St Giles	
From:		Director of Communities	

RECOMMENDATION

1. That the Camberwell Community Council allocate a total of £81,529 of the Neighbourhoods Fund 2019-20 from the list of applications outlined in Appendix 1. This amount consists of two elements, namely £80,000 available for 2019-20 and £1,529 of unallocated funding carried forward from the previous year's programme.

BACKGROUND INFORMATION

2. The neighbourhoods fund was introduced in 2015 by merging two former revenue programmes known as cleaner, greener, safer revenue (CGS) and community council fund (CCF). The cabinet member for communities, employment and business authorised the amalgamation the CGS revenue fund and community council fund, into a single funding programme to create a new Neighbourhoods Fund for the 2015-16 round and onwards. This decision was taken on 12 December 2014.
3. The neighbourhoods fund has a borough-wide funding budget of £630,000 with an allocation of £10,000 per councillor for each ward. This is subject to annual budget setting process.
4. The purpose of introducing the neighbourhoods fund was to give community councils decision making powers over significant amounts of revenue funding, that they could allocate to meet locally determined priorities.

KEY ISSUES FOR CONSIDERATION

5. Each ward will have £20,000 - £30,000 of revenue grants to allocate. It is proposed that any unallocated funds are to be carried forward from the previous round (year) and added to the financial year commencing 1 April 2019.
6. The community councils will use the criteria set out below for the allocation of this funding.
 - a. Creating opportunities for people from different backgrounds to get on well together; (e.g. community cohesion)
 - b. Establishing projects which treat each other with respect and consideration (e.g. being a good neighbour, inter-generational contacts)
 - c. Encouraging residents to be responsible for their own neighbourhood (e.g. community clean-ups; volunteering initiatives)
 - d. Specific measures to enhance a neighbourhood's environment (e.g. increased cleaning).

7. A community council may choose to allocate some of their neighbourhoods fund resources to their cleaner greener safer capital allocations.
8. Subject to the availability of resources, the neighbourhoods fund may be used to 'buy' services from the council.
9. As with any executive decision taken by community councils this is subject to the council's existing scrutiny arrangements.

Community impact statement

10. The roles and functions of community councils include the promotion of involvement of local people in the democratic process. Community councils take decisions on local matters including environmental improvements and community safety as well as consultation on a wide range of policies and strategies that affect the area.
11. An explicit objective within community council is that they be used to actively engage as widely as possible with, and bring together, Southwark's diverse local communities on issues of shared mutual interest.
12. The allocation of the 2019-20 Camberwell neighbourhoods fund will in the main, affect the people living in the Camberwell community council area. However, in making the area a better place to live and improving life chances for local people, Camberwell neighbourhoods fund activities will have an impact on the whole of Southwark.
13. The neighbourhoods fund is an important tool in achieving community participation and cohesion.
14. In fulfilling the above objectives that community councils have of bringing together and involving Southwark's diverse local communities, consideration has also been given to the council's duty under The Equality Act 2010 which requires the council to have due regard when taking decisions to the need to:
 - a. Eliminate discrimination, harassment, victimisation or other prohibited conduct
 - b. Advance of equality of opportunity between persons who share a relevant protected characteristic and those who do not share it
 - c. Foster good relations between those who share a relevant characteristic and those that do not share it.
15. Of particular regard are issues of age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation. In this process there are no issues that contravene the Equality Act 2010.
16. Having due regard to the need to advance equality of opportunity is further defined in s.149 as having due regard to the need of:
 - Remove or minimise disadvantages connected with a relevant protected characteristic.
 - Take steps to meet the different needs of persons who share a relevant protected characteristic.

- Encourage persons who share a relevant protected characteristic participate in public life or any other activity in which they are under-represented.
- Due consideration was given to equalities impact assessment during the design of this awards process and no adverse impact was evident.

Resource implications

17. There are no resource implications.

Consultation

18. The neighbourhoods fund projects may require consultation with stakeholders, including the project applicant, local residents and tenants and residents associations where applicable.

Financial implications

19. The Camberwell neighbourhoods fund has been allocated a total of £80,000 for 2019-20. In addition to this, funds totaling £1,529 remain unallocated from previous years' allocations and thus also available to allocate.
20. It is recommended that community councils set aside some of the unallocated funds from previous years in order to prevent an over allocation of funds, as well as act as a contingency from which urgent or incidental requests can be funded throughout the year. It must also be noted that the unallocated figures reported in the previous paragraph represent current best estimates as the 2019-20 funding round is only finally over on 31 March 2019.
21. Projects that are unlikely to be completed within the year will be reported to the community council and available funding may be allocated to other projects or carried over to the following financial year.

SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

Director of Law and Democracy

22. The Local Government Act 2000 ('the 2000 Act') gives the Leader the power to delegate any executive function to an area committee. The allocation of the neighbourhood fund is an executive function. Payments from the fund can be made in accordance with the powers in the Localism Act 2011 section 1 (the general power of competence for councils to do anything that individuals generally may do).
23. Community councils are 'area committees' within the meaning of the 2000 Act.
24. The terms of the delegation relating to the neighbourhood fund are set out in part 3H of the council's constitution. Paragraph 14, Part 3H of the constitution enables community councils to approve "the allocation of neighbourhood funds, £81,529 using the resources and criteria identified by the cabinet."
25. This report is recommending that the community council approve the allocation of monies from the Neighbourhoods Fund 2019-20 as specified at Appendix 1.
26. In allocating funding under the neighbourhoods fund community councils must have regard to the council's equality duties set out in section 149 of the Equality Act 2010. The report author has indicated how those duties have been

considered in the body of the report at paragraphs 10-16 of the report.

Strategic Director of Finance and Governance (FIN1092 – JB)

27. The 2019-20 budget allocation for the neighbourhoods fund is to be agreed by council assembly as part of the budget setting process. The report notes the allocation is £10,000 per councillor by ward and thus £80,000 would be awarded to Camberwell community council. The report allocates a further £1,529 from the 2018-19 allocation, this being the current estimate of the funds available at year end.
28. Paragraph 20 notes the need to maintain a contingency element from the funding available for urgent or incidental requests. This is a prudent measure to assist in the effective running of the neighbourhoods fund.
