

Planning Sub-Committee B

Monday 13 July 2020
7.00 pm

Online/Virtual: please contact Constitutional.Team@southwark.gov.uk for a link or dial-in instructions to join the online meeting

Membership

Councillor Cleo Soanes (Chair)
Councillor Maria Linforth-Hall (Vice-Chair)
Councillor Maggie Browning
Councillor Sirajul Islam
Councillor Nick Johnson
Councillor Martin Seaton
Councillor Bill Williams

Reserves

Councillor Sarah King
Councillor Graham Neale
Councillor Margy Newens
Councillor Jason Ochere
Councillor Kath Whittam

INFORMATION FOR MEMBERS OF THE PUBLIC

Access to information

You have the right to request to inspect copies of minutes and reports on this agenda as well as the background documents used in the preparation of these reports.

Babysitting/Carers allowances

If you are a resident of the borough and have paid someone to look after your children, an elderly dependant or a dependant with disabilities so that you could attend this meeting, you may claim an allowance from the council. Please collect a claim form at the meeting.

Access

The council is committed to making its meetings accessible. Further details on building access, translation, provision of signers etc for this meeting are on the council's web site: www.southwark.gov.uk or please contact the person below.

Contact

Beverley Olamijulo on 020 7525 7234 or email: Beverley.olamijulo@southwark.gov.uk

Members of the committee are summoned to attend this meeting

Eleanor Kelly
Chief Executive
Date: 26 June 2020

Planning Committee

Guidance on conduct of business for planning applications, enforcement cases and other planning proposals (virtual meetings)

Please note:

The council has made the following adaptations to the committee process to accommodate virtual meetings:

- The agenda will be published earlier than the statutory minimum of five working days before the meeting. We will aim to publish the agenda ten clear working days before the meeting.
- This will allow those wishing to present information at the committee to make further written submissions in advance of the meeting in order to:
 - Correct any factual information in the report
 - Confirm whether their views have been accurately reflected in the report
 - Re-emphasise the main points of their comments
 - Suggest conditions to be attached to any planning permission if granted.
- **Those wishing to speak at the meeting should notify the constitutional team at Constitutional.Team@southwark.gov.uk in advance of the meeting by 5pm on the working day preceding the meeting.**

1. The reports are taken in the order of business on the agenda.
2. The officers present the report and recommendations and answer points raised by members of the committee.
3. The role of members of the planning committee is to make planning decisions openly, impartially, with sound judgement and for justifiable reasons in accordance with the statutory planning framework.
4. The following may address the committee (if they are present in the virtual meeting and wish to speak) for **not more than three minutes each**. **Speakers must notify the constitutional team at Constitutional.Team@southwark.gov.uk in advance of the meeting by 5pm on the working day preceding the meeting.**

- (a) One representative (spokesperson) for any objectors. If there is more than one objector wishing to speak, the time is then divided within the three-minute time slot.
- (b) The applicant or applicant's agent.
- (c) One representative for any supporters (who live within 100 metres of the development site). If there is more than one supporter (who lives within 100 metres of the development site) wishing to speak, the time is divided within the 3-minute time slot.
- (d) Ward councillor (spokesperson) from where the proposal is located.

(e) The members of the committee will then debate the application and consider the recommendation.

Note: Members of the committee may question those who speak only on matters relevant to the roles and functions of the planning committee that are outlined in the constitution and in accordance with the statutory planning framework.

5. If there are a number of people who are objecting to, or are in support of, an application or an enforcement of action, you are requested to identify a representative to address the committee. If more than one person wishes to speak, the three-minute time allowance must be divided amongst those wishing to speak. Where you are unable to decide who is to speak in advance of the meeting, the chair will ask which objector(s)/supporter(s) would like to speak at the point the actual item is being considered. The clerk will put all objectors who agree to this in touch with each other, so that they can arrange a representative to speak on their behalf at the meeting. The clerk will put all supporters who agree to this in touch with each other, so that they can arrange a representative to speak on their behalf at the meeting.
6. Speakers should lead the committee to subjects on which they would welcome further questioning.
7. Those people nominated to speak on behalf of objectors, supporters or applicants, as well as ward members, will be speaking in their designated time-slots only, apart from answering brief questions for clarification; this is **not** an opportunity to take part in the debate of the committee.
8. Each speaker should restrict their comments to the planning aspects of the proposal and should avoid repeating what is already in the report. The meeting is not a hearing where all participants present evidence to be examined by other participants.
9. This is a council committee meeting to which is open to the public and there should be no interruptions from members of the public.
10. Members of the public are welcome to record, screenshot, or tweet the public proceedings of the meeting.
11. Please be considerate towards other people and take care not to disturb the proceedings.
12. This meeting will be recorded by the council and uploaded to the Southwark Council YouTube channel the day after the meeting.

The arrangements at the meeting may be varied at the discretion of the chair.

Guide for guests to join Southwark Council virtual committee meetings

To access the meeting via a desktop computer or laptop:

- 1) Right click on the meeting link provided via email:

Join Microsoft Teams Meeting

- 2) The link will open in a browser (please use Chrome or Microsoft Edge web browsers). Your browser may ask if it's okay for Teams to use your mic and camera. You will need to agree to this.

The below screen shot shows what the page will look like when it opens.

Follow the instructions as indicated by the red arrows – enter your name and then right click 'join now'

- 3) The meeting organiser will accept you as a guest to the meeting and you will be added to the meeting.

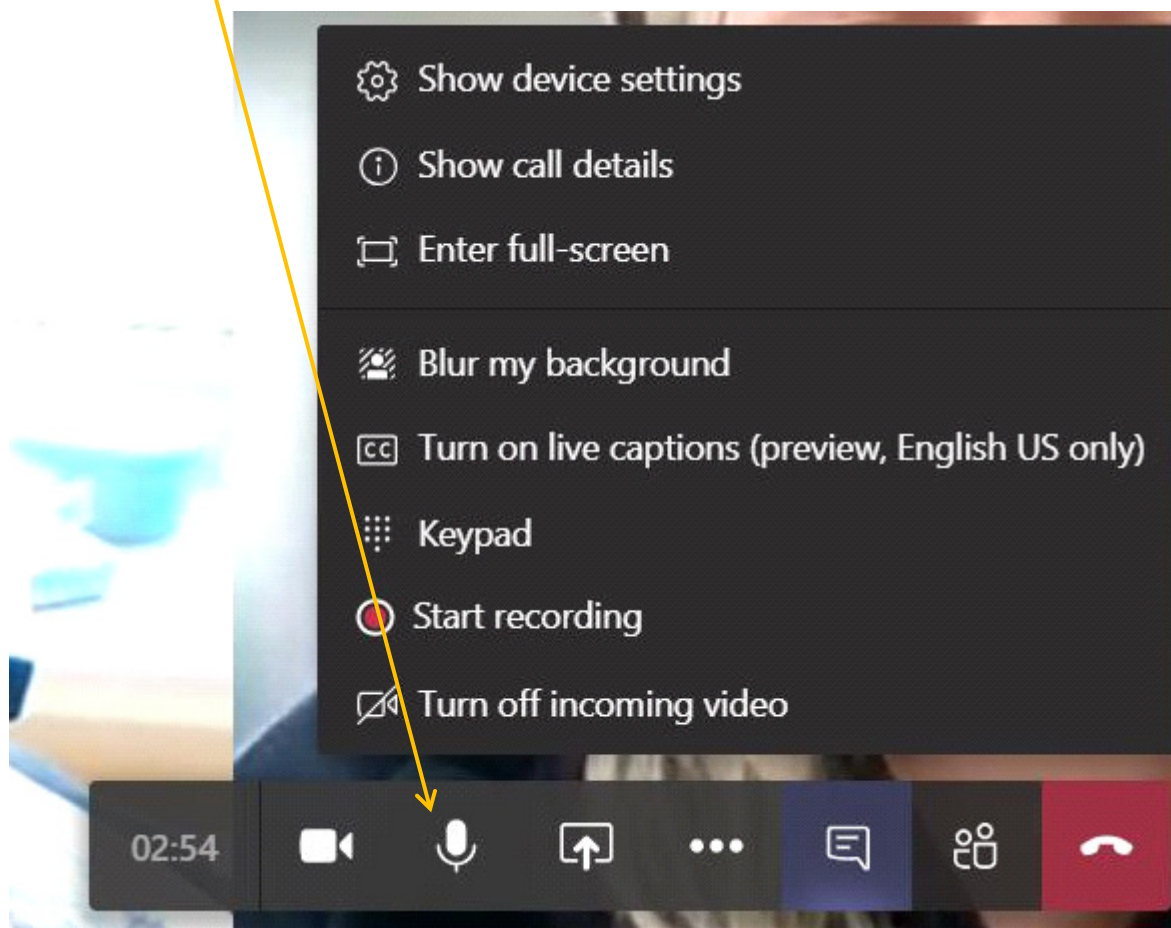

Meeting rules:

- Please note **all guests will have their microphones muted** when they join the meeting – you will be asked to remain on mute unless told otherwise.
- Please note all guests will be made attendees after they have entered the meeting, a message will show up on your screen once this has been done:

▲ You're an attendee You can chat and share audio and video, but not present or facilitate. [Learn more](#)

Dismiss

- If the chair invites you to speak, you will be able to un-mute yourself via the menu bar below; the second icon is the mic, which you will need to click on to un-mute yourself when you are called on.

- The meeting will be recorded and uploaded to Southwark Council's YouTube channel as soon as possible after the meeting ends.

To access the meeting via a smartphone or tablet:

Even if you do not have a Microsoft Teams account, you can still join the meeting via the application on your mobile or tablet device.

- 1) If you don't already have the Microsoft Teams application on your device, download the application from your local app store on your smartphone or tablet:

- 2) Once downloaded, open the Teams app from the app store page.
- 3) Go back to the meeting invite email, and click the '**Join Microsoft Teams Meeting**' hyperlink:

Join Microsoft Teams Meeting

- 4) You'll be given two options for joining the meeting: **Join as a guest** or **Sign in and join** – choose **Join as a guest**.

- 5) Type your name and tap **Join meeting**.

14:15

◀ Mail

Type your name, then select
Join meeting.

For a tablet, options to see the chat and the list of participants are in the top right hand corner of the screen after the user has tapped the screen, as below:

Planning Sub-Committee B

MINUTES of the virtual Planning Sub-Committee B meeting held on Tuesday 9 June 2020 at 7.00 pm

PRESENT: Councillor Cleo Soanes (Chair)
Councillor Maria Linforth-Hall (Vice-Chair)
Councillor Maggie Browning
Councillor Sirajul Islam
Councillor Nick Johnson
Councillor Martin Seaton
Councillor Bill Williams

OTHER MEMBERS PRESENT: Councillor Andy Simmons (ward member)

OFFICER SUPPORT: Dipesh Patel (Development Management)
Liam Bullen (Development Management)
Glenn (Development Management)
Alex Gillott (Legal Officer)
Beverley Olamijulo (Constitutional Officer)

1. INTRODUCTION AND WELCOME

The chair welcomed councillors, members of the public and officers to the meeting.

2. APOLOGIES

There were none.

3. CONFIRMATION OF VOTING MEMBERS

The members listed as present were confirmed as voting members of the sub-committee.

4. DISCLOSURE OF MEMBERS' INTERESTS AND DISPENSATIONS

None were declared.

5. ITEMS OF BUSINESS THAT THE CHAIR DEEMS URGENT

The chair gave notice of the following additional papers circulated prior to the meeting:

- Members pack

It is noted that no addendum report was required at this meeting.

6. MINUTES

RESOLVED:

That the minutes of the meeting held on 4 March 2020 be approved as a correct record and signed by the chair.

7. TREE PRESERVATION ORDER: LAND BOUNDED BY 1 - 15 ALLEYN ROAD SE21, LOGGETTS, MORKYNS WALK AND 43 - 49, 61, 63 AND 69 ALLEYN PARK LONDON SE21

Report: see pages 4 to 31 of the agenda pack.

The sub-committee heard the officer's introduction to the report. Councillors asked questions of the officer.

There were no representations.

Councillor Andy Simmons was present and addressed the meeting in his capacity as ward councillor.

The sub-committee discussed the report and recommendation.

RESOLVED:

That the provisional tree preservation order reference 582 be confirmed unamended.

8. DEVELOPMENT MANAGEMENT ITEMS

Members noted the development management report.

RESOLVED:

1. That the determination of planning applications, or formal observations and comments, the instigation of enforcement action and the receipt of the reports included in the attached items be considered.
2. That the decisions made on the planning applications be subject to the conditions and/or made for the reasons set out in the attached reports unless otherwise stated.

3. That where reasons for decisions or conditions are not included or not as included in the reports relating to an individual item, they be clearly specified.

8.1 1 POTTERS FIELDS PARK

Planning application reference: 20/AP/0210

Report: see pages 36 to 54 of the agenda pack.

PROPOSAL

Temporary use of the open space for events with the erection of associated temporary structures (cumulatively no more than 800 sq. metres) for no more than 75 days in any one calendar year, until 9 October 2025. (Amendment and renewal of existing temporary consent ref: 15/AP/1776).

The sub-committee heard an officer's introduction to the report.

There were no objectors present who wished to address the sub-committee.

The applicant addressed the meeting and responded to questions from members.

There were no supporters who lived within 100 metres of the development site present who wished to speak.

There were no ward councillors present at the meeting wishing to speak.

A motion to grant planning permission was moved, seconded, put to the vote and declared carried.

RESOLVED:

That the planning application 19/AP/0210 be granted, subject to the conditions set out in the report and a variation to condition 2 (set out below) regarding the restriction of days which has been amended to remove the limit on the number of days which may be used for the setting up and taking down of any associated structures provided that any such days fall within the overall limit.

Condition 2:

The use hereby permitted shall be for not more than 75 days within any one financial year, including set up and take down of any associated structures, until 9 October 2025, on or before which date the temporary use of the park for events shall be discontinued.

Reason

Such use, other than for a temporary period would prejudice the openness of the Metropolitan Open Land in accordance with Strategic Policy 11 of the Core Strategy 2011, saved policy 3.25 the Southwark Plan 2007, Policy 7.17 of the London Plan (2016) and the National Planning Policy Framework 2019.

8.2 ALLEYNS SCHOOL, TOWNLEY ROAD SE22 8SU

This item was withdrawn.

The meeting ended at 8.00 pm

CHAIR:

DATED:

Item No. 7.	Classification: Open	Date: 13 July 2020	Meeting Name: Planning Sub-Committee B
Report title:		Development Management	
Ward(s) or groups affected:		All	
From:		Proper Constitutional Officer	

RECOMMENDATIONS

1. That the determination of planning applications, or formal observations and comments, the instigation of enforcement action and the receipt of the reports included in the attached items be considered.
2. That the decisions made on the planning applications be subject to the conditions and/or made for the reasons set out in the attached reports unless otherwise stated.
3. That where reasons for decisions or conditions are not included or not as included in the reports relating to an individual item, they be clearly specified.

BACKGROUND INFORMATION

4. The council's powers to consider planning business are detailed in Part 3F of Southwark Council's constitution which describes the role and functions of the planning committee and planning sub-committees. These were agreed by the annual meeting of the council on 23 May 2012. The matters reserved to the planning committee and planning sub-committees exercising planning functions are described in part 3F of the Southwark Council constitution.

KEY ISSUES FOR CONSIDERATION

5. In respect of the attached planning committee items members are asked, where appropriate:
 - a. To determine those applications in respect of site(s) within the borough, subject where applicable, to the consent of the Secretary of State for Communities and Local Government and any directions made by the Mayor of London.
 - b. To give observations on applications in respect of which the council is not the planning authority in planning matters but which relate to site(s) within the borough, or where the site(s) is outside the borough but may affect the amenity of residents within the borough.
 - c. To receive for information any reports on the previous determination of applications, current activities on site, or other information relating to specific planning applications requested by members.

6. Each of the following items are preceded by a map showing the location of the land/property to which the report relates. Following the report, there is a draft decision notice detailing the officer's recommendation indicating approval or refusal. Where a refusal is recommended the draft decision notice will detail the reasons for such refusal.
7. Applicants have the right to appeal to Planning Inspector against a refusal of planning permission and against any condition imposed as part of permission. Costs are incurred in presenting the council's case at appeal which maybe substantial if the matter is dealt with at a public inquiry.
8. The sanctioning of enforcement action can also involve costs such as process serving, court costs and of legal representation.
9. Where either party is felt to have acted unreasonably in an appeal the inspector can make an award of costs against the offending party.
10. All legal/counsel fees and costs as well as awards of costs against the council are borne by the budget of the relevant department.

Community impact statement

11. Community impact considerations are contained within each item.

SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

Director of Law and Democracy

12. A resolution to grant planning permission shall mean that the development & building control manager is authorised to grant planning permission. The resolution does not itself constitute the permission and only the formal document authorised by the committee and issued under the signature of the head of development management shall constitute a planning permission. Any additional conditions required by the committee will be recorded in the minutes and the final planning permission issued will reflect the requirements of the planning committee.
13. A resolution to grant planning permission subject to legal agreement shall mean that the head of development management is authorised to issue a planning permission subject to the applicant and any other necessary party entering into a written agreement in a form of words prepared by the director of legal services, and which is satisfactory to the head of development management. Developers meet the council's legal costs of such agreements. Such an agreement shall be entered into under section 106 of the Town and Country Planning Act 1990 or under another appropriate enactment as shall be determined by the director of legal services. The planning permission will not be issued unless such an agreement is completed.
14. Section 70 of the Town and Country Planning Act 1990 as amended requires the council to have regard to the provisions of the development plan, so far as material to the application, and to any other material considerations when dealing with applications for planning permission. Where there is any conflict with any policy contained in the development plan, the conflict must be resolved in favour of the policy which is

contained in the last document to be adopted, approved or published, as the case may be (s38(5) Planning and Compulsory Purchase Act 2004).

15. Section 38(6) of the Planning and Compulsory Purchase Act 2004 provides that where, in making any determination under the planning Acts, regard is to be had to the development plan, the determination shall be made in accordance with the plan unless material considerations indicate otherwise. The development plan is currently Southwark's Core Strategy adopted by the council in April 2011, saved policies contained in the Southwark Plan 2007, the where there is any conflict with any policy contained in the development plan, the conflict must be resolved in favour of the policy which is contained in the last document to be adopted, approved or published, as the case may be (s38(5) Planning and Compulsory Purchase Act 2004).
16. On 15 January 2012 section 143 of the Localism Act 2011 came into force which provides that local finance considerations (such as government grants and other financial assistance such as New Homes Bonus) and monies received through CIL (including the Mayoral CIL) are a material consideration to be taken into account in the determination of planning applications in England. However, the weight to be attached to such matters remains a matter for the decision-maker.
17. Regulation 122 of the Community Infrastructure Levy regulations (CIL) 2010, provides that "a planning obligation may only constitute a reason for granting planning permission if the obligation is:
 - a. necessary to make the development acceptable in planning terms;
 - b. directly related to the development; and
 - c. fairly and reasonably related to the scale and kind to the development.

A planning obligation may only constitute a reason for granting planning permission if it complies with the above statutory tests."

18. The obligation must also be such as a reasonable planning authority, duly appreciating its statutory duties can properly impose, i.e. it must not be so unreasonable that no reasonable authority could have imposed it. Before resolving to grant planning permission subject to a legal agreement members should therefore satisfy themselves that the subject matter of the proposed agreement will meet these tests.
19. The National Planning Policy Framework (NPPF) came into force on 27 March 2012. The NPPF replaces previous government guidance including all PPGs and PPSs. For the purpose of decision-taking policies in the Core Strategy (and the London Plan) should not be considered out of date simply because they were adopted prior to publication of the NPPF. For 12 months from the day of publication, decision-takers may continue to give full weight to relevant policies adopted in accordance with the Planning and Compulsory Purchase Act (PCPA) 2004 even if there is a limited degree of conflict with the NPPF.
20. In other cases and following and following the 12-month period, due weight should be given to relevant policies in existing plans according to their degree of consistency with the NPPF. This is the approach to be taken when considering saved plan policies under the Southwark Plan 2007. The approach to be taken is that the closer the

policies in the Southwark Plan to the policies in the NPPF, the greater the weight that may be given.

Item No. 7.1	Classification: Open	Date: 13 July 2020	Meeting Name: Planning Sub-Committee B
Report title:	Development Management planning application: Application 19/AP/5616 for: Full Planning Application Address: ALLEYNS SCHOOL, TOWNLEY ROAD, LONDON, SOUTHWARK, SE22 8SU Proposal: Refurbishment and erection of a single storey extension of the existing Junior School building		
Ward(s) or groups affected:	Goose Green		
From:	Director of Planning		
Application Start Date 01/10/2019		Application Expiry Date 26/11/2019	
Earliest Decision Date 29/01/2020			

RECOMMENDATION

1. That planning permission is granted subject to conditions.

BACKGROUND INFORMATION

Site location and description

2. The site is the grounds of Alleyn's Junior School located between Lycott Grove and Hillsboro Road, and is located within the wider grounds of Alleyn's School. The existing junior school and Hooper Music School located to the Eastern side of the site are two storeys in height, and the site is adjoined by a large sports hall facility (approximately three storeys in height) to the West.
3. The site is located within:
 - Sub-Urban Density Zone
 - Air Quality Management Area (AQMA)
 - Metropolitan Open Land (MOL)
 - Site of Importance of Nature Conservation (SINC)
 - East Dulwich Parking Zone (not yet in place)
4. While the site itself is in MOL, the scheme has been amended so that no development would take place on the MOL. The site is not listed, nor is it located within a conservation area. There are no heritage assets in the immediate vicinity of the site. The nearest heritage asset is the Dulwich Village Conservation Area, which is approximately 130m to the West of the site on the other side of the school grounds and is not considered to be affected by the proposal.

Details of proposal

5. The proposal calls for the construction of a new building on site to facilitate a hall space (180sqm in size), and 8 new ancillary office rooms. The total new floorspace proposed under this building would be 472sqm of D1 (education facilities) floorspace. While the new building would be single storey, it would vary in height between 3.40m to 9.15m at the apex of the hall element.
6. A separate single storey extension would be constructed attached to the North-Western elevation of the existing Junior School to facilitate a new reception bathroom. This extension would be of the following dimensions:
 - Width: 3.00m
 - Depth: 3.34m
 - Height: 3.20m
7. New landscaping around the site is proposed as part of the scheme.
8. The creation of the new building would allow hall space within the existing school to be converted into new classrooms, though it is noted these internal works do not require planning permission. As per the updated transport assessment, the enhanced facilities and internal modifications to the existing school would result in an increase of 35 - 42 additional students and six additional staff members.

Relevant Planning history

9. See Appendix 1 for any relevant planning history of the application site.

KEY ISSUES FOR CONSIDERATION

Summary of main issues

Consultation responses from members of the public

10. The application was initially consulted on in October of 2019, and has been through two follow up rounds of re-consultation since, to allow the applicant to respond to a number of issues raised by the public consultation, and discussions with officers. In all, 99 comments have been received (96 in objection, one neutral, and two in support). The following relevant planning matters were raised as part of the consultation:
 - Traffic impacts
 - Parking
 - Air quality
 - Impact on neighbouring amenity
 - Impacts on privacy
 - Impacts on daylight/sunlight access to surrounding properties
 - Need for additional school facilities
 - Construction management
 - Ecology
 - Sustainability of materials proposed
 - Waste management (the scheme is not considered to result in any significant increase in waste generation that could not be met by existing arrangements)
11. The main issues to be considered in respect of this application are:

- Principle of the proposed development in terms of land use;
- Impact of proposed development on amenity of adjoining occupiers and surrounding area;
- Design quality;
- Transport and highways;
- Environmental impacts;
- Impact on trees
- Mayoral and borough community infrastructure levy (CIL);
- Community involvement and engagement;
- Community impact and equalities assessment;
- Human rights, and;
- Positive and proactive statement.

12. These matters are discussed in detail in the 'Assessment' section of this report.

Legal context

13. Section 38(6) of the Planning and Compulsory Purchase Act (2004) requires planning applications to be determined in accordance with the development plan, unless material considerations indicate otherwise. In this instance the development plan comprises the London Plan 2016, the Core Strategy 2011, and the Saved Southwark Plan 2007.
14. There are also specific statutory duties in respect of the Public Sector Equalities Duty which are highlighted in the relevant sections below and in the overall assessment at the end of the report.

Planning policy

National Planning Policy Framework (NPPF) 2019

 Policy 3.12 – Quality In Design
 Policy 3.13 – Urban Design
 Policy 3.25 - Metropolitan Open Land (MOL)
 Policy 3.28 – Biodiversity
 Policy 5.2 - Transport Impacts
 Policy 5.3 – Walking And Cycling
 Policy 5.6 - Car Parking
19. Dulwich Supplementary Planning Document

ASSESSMENT

Principle of the Proposed Development in terms of land use

20. Saved policy 2.2 [Provision of new Community Facilities] of the Southwark Plan 2007 states:

Planning permission will be granted for new community facilities provided:

- i) Provision is made to enable the facility to be used by all members of the community; and*
 - ii) The facility is not detrimental to the amenity of present and future occupiers of the surrounding area in compliance with Policies 3.2 and 5.2; and*
 - iii) Where developments will generate more than 20 vehicle trips at any one time a Transport Assessment will be required in compliance with Policies 3.3 and 5.2.*
21. Regarding criterion i), a condition is recommended requiring the submission of a Community Use Agreement to be adhered to by the applicant. This Community Use Agreement would ensure there would be a tangible public benefit to the scheme, and that the new facilities could be enjoyed by community groups. Transport and amenity impacts, and by association criteria ii) and iii) are discussed below. In light of these the proposal would be acceptable, in principle.
22. It is noted that the while the application site is located within MOL, the scheme has

been redesigned such that the proposed development would not be within the MOL. As such, the proposal would not need to be considered against policies around the appropriateness of development within MOL and as such this would not be a concern in land use terms. Furthermore, the proposal would be located in the context of a number of existing school buildings along the boundary of the MOL, and as such would not affect the openness of the MOL, the main body of which is located in the playing fields to the South of the site.

Impact of proposed development on amenity of adjoining occupiers and surrounding area

Privacy

23. The views from the proposed development would be at ground floor level, and would be typically be in excess of 21m (in particular those towards the rear of the staff accommodation along Hillsboro Road). The nearest view would be from one of the offices towards an outrigger of the nearest dwelling on Glengarry Road, which would be approximately 12.5m. While this is less than the 21m mentioned in the Residential Design Standards SPD, the view from the office window concerned would be on the ground floor and any view would be over the boundary fence looking up to the dwelling. It is not considered to pose a significant risk to privacy. As such the proposal is acceptable in this regard.

Daylight/sunlight

24. The scale and massing of the proposal, combined with its relatively far distance from the nearest residential properties, would satisfy the 25/45 degree tests as set out by the Building Research Establishment. With this in mind, the proposal would not have a significant impact on nearby residential occupiers' access to daylight/sunlight and would be acceptable in this regard.

Loss of outlook/Sense of enclosure

25. The proposal would be set a reasonable away from direct views from units along Glengarry and Hillsboro Road, and would sit below the eaves of the larger sports hall facility, as such the proposal is not considered to create any significant sense of enclosure to nearby occupiers. Similarly, the new building would be located in the context of a number of existing school buildings and would be set a reasonable distance from all nearby occupiers that it would not have a significant impact on their outlooks. As such, the proposal is acceptable in this regard.

Noise

26. The use of the proposed building would be similar to the use of the existing junior school building, and adjacent sports hall facility. With this in mind, and given the relatively small scale of the proposal, it would not generate a significant increase in noise which would constitute a risk to nearby occupiers' amenity.

Design quality

27. The proposed building would be single storey, albeit double height at the hall space. The roofing is defined by a series of pitched roofs, culminating in the larger, and more sharply pitched roof of the hall. This creates a sensible arrangement with a strong focal point which established the character of the building. The scale would sit below that of the larger adjacent sports hall, such that it would not dominate the surrounding area, and the block would sit neatly in the context of the school grounds without leaving the wider grounds feeling cluttered.

28. The architecture of the proposal is complimented by a number of attractive architectural features including a glazed curtain wall with louvres to the hall's North gable end. The material palette is relatively simple, being largely defined by a red brick aesthetic in-keeping with the surrounding school buildings. A condition is recommended requiring samples of all external materials and detailing to ensure a high standard of final design. Subject to this the proposal would be of a high quality and attractive standard of design.
29. The proposed single storey extension is simple in terms of form, and would not detract from the appearance of the host building and would be similarly acceptable in design terms.
30. Finally, the proposed landscaping offers a good opportunity to improve on site greening and play facilities for pupils, while also improving the overall aesthetic of the school grounds from the existing hardstanding. A condition is recommended requiring a detailed landscaping plan to be provided. Subject to this, the element of the proposal would be acceptable.
31. In summary, the proposal would be of a high standard of design which would improve the character and setting of the school grounds.

Transport and highways

32. The applicant has submitted an updated transport assessment (including a parking survey) and updated travel plan as part of this application. The transport assessment has included an assessment of the breakdown of the different modes of transport used by staff and pupils to commute to the school. The findings of the travel surveys for students and staff are given below (note adjusted mode share refers to an adjustment for siblings sharing the same mode of transport, as would be expected with a family car for example):
33. Student travel data

Mode of Travel	Surveyed Mode Share	Adjusted Mode Share	Existing no. of Trips	Expected no. of Trips	Increase
Walking	23%	23%	57	67	10
Scooting	13%	13%	32	38	6
Cycling	8%	8%	20	23	3
Rail	1%	1%	3	4	1
Tube	0%	0%	0	0	0
Public Bus	4%	4%	10	12	2
School Bus/Taxi	6%	6%	14	17	2
Car	33%	21%	50	59	9
Car share	5%	18%	43	50	7
Park and Stride	6%	6%	14	17	2
Total	100%	100%	244	286	42

34. Staff travel data

Mode of Travel	Existing no. of Trips	Mode Share	Expected no. of Trips	Increase
Walking	58	20%	59	1
Cycling	49	17%	50	1
Rail	29	10%	29	1
Tube	3	1%	3	0
Public Bus	26	9%	26	1
School Bus/Taxi	0	0%	0	0
Car	111	39%	113	2
Car share	9	3%	9	0
Park and Stride	0	0%	0	0
Total	284	100%	290	6

35. Based on an increase of 42 pupils and 6 staff, the total increase in car based trips extrapolating from current travel data is 18 new journeys by cars (9 pupil and 2 staff individual car journeys, and 7 pupil shared car journeys). It is important to note the development would result in the loss of 8 parking spaces on site.
36. The parking survey conducted by the applicant has been carried out in accordance with the Lambeth methodology, an established standard for such surveys. This has surveyed on-street parking capacity at peak demand (i.e. 7:30am-9:30am and 15:00pm – 17:00pm) within 200m of the site (a total of 520 unrestricted parking spaces). The findings are as follows:
- Morning demand (7:00am-9:30am): 71% of spaces (369) are occupied
 - Afternoon demand (15:00pm-17:00pm): 68% of spaces (354) are occupied
37. Based on the above, it is considered there would be adequate capacity available for the projected increase in vehicular trips from the proposed development. The Council's Transport officer conducted a further site visit to assess parking strain in the area at 13:50hrs on 11 March 2020, and noted capacity in the area at off-peak times, including the use of bus bays (though restrictions for parking in these spaces for non-bus vehicles at certain times is in place).
38. The school has also taken active measures to encourage sustainable transport methods through their travel plan. This travel plan has achieved Gold standard membership of TfL's STARS (Sustainable Travel Active Responsible and Safe) scheme which encourages sustainable travel and, supports pupils' wellbeing by helping to reduce congestion at the school gates and improve road safety and air quality. It is anticipated that the school would continue to maintain this accreditation through its newly introduced sustainable travel initiatives encompassing an arrangement with Sainsbury's to assist patrons in 'Park and Stride' (an arrangement between the school and the nearby Sainsbury's to allow parents to park in the supermarket car park and walk the remainder of the journey with their children, an approximately 12 minute walk. This service has been advertised on the schools website, PTA meetings, and through letters to parents), improved site permeability, walking bus, expansion of 'cycle to work' scheme and provision of 30 more cycle parking spaces. A condition is recommended requiring details of these cycle parking spaces to be submitted. Subject to this the proposal would be acceptable in terms of transport impacts.

39. The school have been in discussion with the council's highways team about the "Our Healthy Streets: Dulwich" initiative. The roads surrounding the school are in the forthcoming East Dulwich controlled parking zone. This change would not alter the impact regarding pupil drop off and pick up but would reduce the likelihood of staff parking on nearby roads.

Ecology

40. The applicant has submitted an ecological assessment as part of the proposed development which has assessed the risks associated with the proposal against local bat and bird populations. The report goes on to set out a range of measures to protect local wildlife during and following the construction phase, including lighting standards for local bat populations, and pre-clearance checks for birds in local shrubs during nesting season. The council's ecologist has reviewed this assessment and deemed it be acceptable. A condition is recommended requiring adherence to the ecology assessments recommended measures. Subject to this, the proposal would be acceptable in this regard.

Air Quality

41. Following the initial round of public consultation, the applicant has supplied an air quality assessment as part of this application. The assessment has included monitoring data from five sites located within 1.5km of the site, which have demonstrated there has not been an exceedance of the annual mean NO₂ targets against DEFRA's Air Quality Strategy over a five year period. GLA annual mean predicted concentrations also indicate that there are no exceedances of the relevant objectives for PM₁₀ and PM_{2.5}.
42. Under the guidance set out by the Institute of Air Quality Management [Land-Use Planning & Development Control: Planning For Air Quality], the indicative requirements for an air quality assessment for planning applications within or adjacent to an Air Quality Management Area in terms of changes in vehicle Annual Average Daily Traffic is set at 100 for LDVs (Light Duty Vehicles) and 25 for HDVs (Heavy Duty Vehicles). The proposed development would be expected to generate, in the worst case scenario, an additional 30 LDV trips, and no additional HDV trips. This 30 LDV trip figure includes the 11 vehicle trips at peak times noted under the transport assessment (11 at morning peak, and 11 in the afternoon for a total of 22), and a further 8 trips taken outside peak hours, such as teaching assistants coming and going in the late morning or early afternoon. As such, the impact of these additional vehicle trips in terms of air quality and in line with the Institute for Air Quality Management's guidance would be negligible. Furthermore, this worst case scenario would not factor in the mitigation measures of the schools travel plan, which would have a knock on impact of improving air quality. As such, the proposal is not deemed to result in a significant risk to air quality and would be acceptable in this regard.

Impact on trees

43. There is a large mature pine tree in the vicinity of the site, in an area currently dotted with several pieces of play equipment for younger children. The proposed building and extension are a sufficient distance from the tree that these would not present a threat to the health of the tree or its roots. It is noted the proposed landscaping would replace the existing play equipment. While this is unlikely to present a threat to the tree based on the existing play equipment having a minimal impact on its survival, a precautionary condition is recommended requiring the submission of an Arboricultural Method Statement prior to works commencing to ensure the tree would be protected during works. Subject to this, the proposal would be acceptable in terms of impact on trees, a view which has been agreed by the Council's urban forester.

Mayoral and borough community infrastructure levy (CIL)

44. The proposal would be liable for both borough and Mayoral CIL.

Other matters

45. Objectors have raised the impact of the construction period on the local area, and the need for a construction management plan to mitigate against this. The site benefits from multiple entrances and space for on-site storage of construction equipment and materials. Given the proposal is relatively small in scale a comparatively small number of construction vehicles are anticipated, and construction is likely to occur outside of term times (e.g. over the summer) to minimize impact on the operation of the school and pupils and thus when roads are less likely to be busy. Therefore, a construction management plan is not considered necessary in this instance.
46. A further objection has been raised as to the choice of materials and their sustainability, in particular the choice of concrete blocks. It is understood the proposal would make extensive use of sustainable materials including laminated timber. Where concrete blocks have been included, these are limited to areas of frequent use for their durability, and these blocks would be sustainability sourced from recycled aggregate or pulverised fuel ash. As such, the scheme has demonstrated a good commitment to sustainable materials and development which is welcomed.

Community involvement and engagement

47. Prior to the submission of the current application, the applicant conducted a pre-application consultation with local residents which is outlined in Appendix D of the design and access statement. Two public exhibitions were conducted during July of 2019, allowing local residents to come and discuss the proposals and engage with the school prior to the formal submission of the application later that year. This public engagement is a positive aspect of the application and is welcomed.

Community impact and equalities assessment

48. The council must not act in a way which is incompatible with rights contained within the European Convention of Human Rights.
49. The council has given due regard to the above needs and rights where relevant or engaged throughout the course of determining this application.
50. The Public Sector Equality Duty (PSED) contained in Section 149 (1) of the Equality Act 2010 imposes a duty on public authorities to have, in the exercise of their functions, due regard to three "needs" which are central to the aims of the Act:
1. The need to eliminate discrimination, harassment, victimisation and any other conduct prohibited by the Act.
 2. The need to advance equality of opportunity between persons sharing a relevant protected characteristic and persons who do not share it. This involves having due regard to the need to:
 - Remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic
 - Take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it

- Encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low

3. “The need to foster good relations” between persons who share a relevant protected characteristic and those who do not share it. This involves having due regard, in particular, to the need to tackle prejudice and promote understanding.

51. The protected characteristics are: race, age, gender reassignment, pregnancy and maternity, disability, sexual orientation, religion or belief, sex, marriage and civil partnership.

Human rights implications

52. This application has the legitimate aim of providing new educational facilities. The rights potentially engaged by this application, including the right to a fair trial and the right to respect for private and family life are not considered to be unlawfully interfered with by this proposal.

Positive and proactive statement

53. The council has published its development plan and Core Strategy on its website together with advice about how applications are considered and the information that needs to be submitted to ensure timely consideration of an application. Applicants are advised that planning law requires applications to be determined in accordance with the development plan unless material considerations indicate otherwise.

54. The council provides a pre-application advice service that is available to all applicants in order to assist applicants in formulating proposals that are in accordance with the development plan and core strategy and submissions that are in accordance with the application requirements.

55. **Positive and proactive engagement: summary table**

Was the pre-application service used for this application?	No
If the pre-application service was used for this application, was the advice given followed?	N/A
Was the application validated promptly?	Yes
If necessary/appropriate, did the case officer seek amendments to the scheme to improve its prospects of achieving approval?	Yes
To help secure a timely decision, did the case officer submit their recommendation in advance of the statutory determination date?	A time extension has been arranged to bring this case to a planning committee.

CONCLUSION

56. The Proposal would result in the creation of a high quality new facility for the existing school which would also benefit the wider public through the provision of a community use agreement. The scheme would have a negligible impact on nearby occupiers' amenity, the local transport network, and local air quality. It is therefore recommended that planning permission is granted.

Time limit for implementing this permission and the approved plans

2. The development hereby permitted shall be begun before the end of three years from the date of this permission.

Reason:

As required by Section 91 of the Town and Country Planning Act 1990 as amended.

Permission is subject to the following Pre-Commencements Condition(s)

3. Prior to works commencing, including any demolition, an Arboricultural Method Statement shall be submitted to and approved in writing by the Local Planning Authority.

a) A pre-commencement meeting shall be arranged, the details of which shall be notified to the Local Planning Authority for agreement in writing prior to the meeting and prior to works commencing on site, including any demolition, changes to ground levels, pruning or tree removal.

b) A detailed Arboricultural Method Statement showing the means by which any retained trees on or directly adjacent to the site are to be protected from damage by demolition works, excavation, vehicles, stored or stacked building supplies, waste or other materials, and building plant, scaffolding or other equipment, shall then be submitted to and approved in writing by the Local Planning Authority. The method statements shall include details of facilitative pruning specifications and a supervision schedule overseen by an accredited arboricultural consultant.

c) Cross sections shall be provided to show surface and other changes to levels, special engineering or construction details and any proposed activity within root protection areas required in order to facilitate demolition, construction and excavation.

The existing trees on or adjoining the site which are to be retained shall be protected and both the site and trees managed in accordance with the recommendations contained in the method statement. Following the pre-commencement meeting all tree protection measures shall be installed, carried out and retained throughout the period of the works, unless otherwise agreed in writing by the Local Planning Authority. In any case, all works must adhere to BS5837: (2012) Trees in relation to demolition, design and construction and BS3998: (2010) Tree work - recommendations.

If within the expiration of 5 years from the date of the occupation of the building for its permitted use any retained tree is removed, uprooted is destroyed or dies, another tree shall be planted at the same place and that tree shall be of such size and species, and shall be planted at such time, as may be specified in writing by the Local Planning

Authority.

Reason

To avoid damage to the existing trees which represent an important visual amenity in the area, in accordance with The National Planning Policy Framework 2019 Parts 7, 8, 11 & 12 and policies of The Core Strategy 2011: SP11 Open spaces and wildlife; SP12 Design and conservation; SP13 High environmental standards, and Saved Policies of The Southwark Plan 2007: Policy 3.2 Protection of amenity; Policy 3.12 Quality in Design; Policy 3.13 Urban Design and Policy 3.28 Biodiversity.

Permission is subject to the following Grade Condition(s)

4. HARD AND SOFT LANDSCAPING

Before any above grade work hereby authorised begins, detailed drawings of a hard and soft landscaping scheme showing the treatment of all parts of the site not covered by buildings (including cross sections, surfacing materials of any parking, access, or pathways layouts, materials and edge details), shall be submitted to and approved in writing by the Local Planning Authority. The landscaping shall not be carried out otherwise than in accordance with any such approval given and shall be retained for the duration of the use.

The planting, seeding and/or turfing shall be carried out in the first planting season following completion of building works and any trees or shrubs that is found to be dead, dying, severely damaged or diseased within five years of the completion of the building works OR five years of the carrying out of the landscaping scheme (whichever is later), shall be replaced in the next planting season by specimens of the same size and species in the first suitable planting season. Planting shall comply to BS: 4428 Code of practice for general landscaping operations, BS: 5837 (2012) Trees in relation to demolition, design and construction and BS 7370-4:1993 Grounds maintenance Recommendations for maintenance of soft landscape (other than amenity turf).

Reason:

So that the council may be satisfied with the details of the landscaping scheme, in accordance with: Chapters 8, 12, 15 and 16 of the National Planning Policy Framework 2019; Strategic Policies 11 (Open Spaces and Wildlife), 12 (Design and conservation) and 13 (High Environmental Standards) of The Core Strategy 2011, and; Saved Policies 3.2 (Protection of Amenity), 3.12 (Quality in Design) 3.13 (Urban Design) and 3.28 (Biodiversity) of the Southwark Plan 2007.

5. Prior to above grade works commencing, material samples/sample-panels/sample-boards of all external materials to be used in the carrying out of this permission shall be presented on site or remotely and approved in writing by the Local Planning Authority; the development shall not be carried out otherwise than in accordance with any such approval given.

Reason:

In order to ensure that these samples will make an acceptable contextual response in terms of materials to be used, and achieve a quality of design and detailing in accordance with The National Planning Policy Framework 2019, Strategic Policy 12 - Design and Conservation of The Core Strategy 2011 and Saved Policies: 3.12 Quality in Design and 3.13 Urban Design of The Southwark Plan 2007.

Permission is subject to the following Pre-Occupation Condition(s)

6. Prior to first occupation of the new building hereby consented, a community use agreement shall be prepared and submitted to the local planning authority for approval. The agreement shall apply to the new building and include details of the pricing policy, hours of use, access by non-educational establishment users, management responsibilities and a mechanism for review. The development shall not be used otherwise than in accordance with any agreement approved.

Reason:

To secure community use of the facilities in accordance with Saved Policy 2.3 Enhancement of Educational Establishments of the Southwark Plan 2007 and SP4 Places for learning, enjoyment and healthy lifestyles of the Core Strategy 2011 and to ensure that residential amenity is satisfactorily protected with regards to Saved Policy 3.2 Protection of Amenity of the Southwark Plan 2007
