Dear Sir/Madam

Nivla 51 Camberwell Road SE5 OED

I write in respect of the above premises for which I wish to make the following representations/objections to the granting of a Premises Licence under the Licensing Act 2003.

Regrettably the applicant has failed to adequately address the four main Licensing Objectives by offering control measures that would ensure that there would be no detrimental effect upon the local community and indicate that the management of the premises have given sufficient consideration to the licensing objectives. The applicant has applied for extended hours on each day of the week, but has not offered any additional control measures that would normally be placed on a premises licence that operates such extended hours.

Therefore I have attached a list of sample conditions for the applicant to consider and which Police would like to see placed on the varied premises licence.

1. That there shall be no movement of musical or amplification equipment from the premises between the hours of 12.00 midnight and 8.00 am.
2. That SIA registered Door Supervisors, at least one of whom shall be a female, shall be employed at all times after 22.00hrs and the terminal hour that the premises are in use under this licence and provided with Hand held metal detection units in order to ensure that searches are carried out in respect of all admissions to the premises, whether members of the public or performers and their assistants and Mechanical counting devices to ensure that the maximum accommodation limit of the premises is not exceeded.
3. That signs shall be displayed in the entrance foyer to the premises that state 'Drugs Free Zone' and 'No Search No Entry, Management reserve the right to refuse entry'

4. That all matters relating to drugs shall be in accordance with the Metropolitan Police Best Practice Guide on the handling of drugs in pubs and clubs
5. That suitable notices shall be displayed and announcements made requesting people to leave the premises in a quiet and orderly manner so as not to disturb local residents
6. That a CCTV system be installed at the premises and be maintained in good working order and be continually recording at all times the premises are in use under the licence. The CCTV System must be capable of capturing an image of every person who enters the premises.
7. That all CCTV footage shall be kept for a period of thirty one (31) days and shall, upon request, be made immediately available to Officers of the Police and the Council
8. That you shall require any regular and external promoters hiring the premises to complete the 'Venue Hire Agreement' provided by Southwark Council and, once completed, you shall ensure that a copy of the agreement is provided to the Police and Licensing Unit a minimum of fourteen days prior to the date of hire.
9. That a Personal Licence holder is on the premises and on duty at **all** times that intoxicating liquor is supplied.
10. That the Premises Licence holder and/or Designated Premises Supervisor join and support a local Pub Watch Scheme should there be one in existence for the area in which the premises is located.
11. There shall be no new entry or re-entry to the premises after 02.00am.
12. Customers shall use no outside area after 22.00hrs other than those who temporarily leave the premises to smoke a cigarette. Those who do temporarily leave for this reason shall be the subjected to the requirement of a further search.
13. Customers shall use no outside area after 22.00hrs other than those who temporarily leave the premises to smoke a cigarette. Those who do temporarily leave for this reason shall be the subjected to the requirement of a further search.

Police would welcome the opportunity of a conciliation meeting with all interested parties.

I respectfully submit this representation in order that it is given consideration by your Licensing Committee and would be obliged if you could acknowledge receipt.

Paul Compton PC294MD

Subject Nivla 51 Camberwell Road SE5 Ref 446688

The applicant seeks a license for live and recorded music and dancing 7 days a week until 0400

The premises is a ground floor bar and restaurant with steps down the basement beneath residential accommodation fronting Walworth Road. There is a history of noise disturbance arising from music affecting the residents above during its two previous management arrangements, which need to be taken into account in both the applicants operating schedule and the refurbishment of the premises - which was ongoing at time of visit.

It is understood that both ground floors and basement will be equipped with sound making equipment. It is not clear from the applicant the extent of current amplification and speaker equipment which is to be re-utilised or how the amplification systems is to be managed and regulated.

The ground floor entrance is lobbied, however the doors are ill-fitting and are a potential source of sound escape. There is no means of ventilating the premises, which may lead to the entrance doors being opened during performance of regulated entertainment late into the night

The basement is entered form a stairway down from the ground floor, there would be potential for sounds to generate to the ground floor. This basement is not equipped with ventilation other than a portable circulating fan which is to be re-used. The emergency exit via secondary stairway direct to street, would appear to have been used as the location of /or route to a smoking area and has the potential to sound escape.

I do not believe the terminal hours for patrons to be on/ or leaving could be accommodated until 0400 7 days a week.

The applicant has not adequately addressed the prevention of public nuisance from music sounds and / or patron use in the application.

I have discussed my concerns with the applicant regarding entrance and exit doors, inadequacy of ventilation and potential for and sound escape with the applicant. However more information will be required on the sound making equipment and facilities, its location and control, and extent of sound insulation measures undertaken both during refurbishment and that proposed before I can propose conditions

I therefore object to the application

Alan Blissett
