**Subject:** Premises License Variation - for Boulevard

Dear Mr Graham

Hope you well

I understand your concerns regarding our Application for a Premises License Variation to the Boulevard.

**For the following reasons, I believe this business should have this Variation Granted because:**

The business only asked for an extra 3x hours a week. 1.5 hours extra on Friday and another 1.5 hours on Saturday. Not all week

This 3 x hours extra a week will have a financial impact in our business. Most business struggling financially at the moment due to the COVID restrictions and now all prices increase from electricity, gas, food products ... This extra will help a lot

This business has an incident in 2015 but since then, no more problems and place has been managed professionally and without any problems (information given by the Applicant)

Is the only Bolivian restaurant/café in the area. So is very important to the Bolivian Community

The Capacity of the Restaurant does not exceed 50 x guests (in a good day)

There is no Representations from neighbours or residents.

There are another 3 x restaurants /bars/ clubs on the same road that finish late and all week. They are:

***Mambo Bar*** – 192 Bar and Lounge - Fridays and Saturdays until **04:00 Am** and any others days until 01:30Am

***La Cabana*** – 189 Old Kent Road – **01:00 Am** during 4x days a week

***Crow and Anchor*** – 116 New Kent Road – SE1 6TU - **24 hours License**

***Le Join Wine and Snack*** 193 Old Kent Road – 7x days a week until **03:00 Am**

Our Premises License already have robust conditions to protect the 4x License Objectives (from Door Supervisor, CCTV, Sound Limiter, Under 25 Challenge and many others)

The Premises License Holder welcome recommendations proposed by the local Authorities.

The Business will have a Dispersal Policy

**Any additional hour the business has, will have will a big impact for the financial stability of the company and keep staff jobs safe.**

**The Applicant welcome recommendations you may have regarding the Hours and activities we apply for**

Kind Regards

Manuel Rocha

## RESPONSE TO LICENSING
