<b>Item No.</b> 9.1	<b>Classification:</b> Open	<b>Date:</b> 5 July 2022	<b>Meeting Name:</b> Planning Sub-Committee A
<b>Report title:</b>	<b>Development Management planning application:</b> Application 21/AP/3625 for: Full Planning Application  <b>Address:</b> BURGESS PARK COMMUNITY SPORTS PAVILION BURGESS PARK COMMUNITY SPORT GROUND 106 COBOURG ROAD LONDON SOUTHWARK SE5 0JB  <b>Proposal:</b> Construction of a ball court with perimeter fencing and installation of x2 LED floodlights. The ball court will provide a pitch for wheelchair sports which also functions as a court for basketball, to be included as part of the new Burgess Park Sports Centre Hub.		
<b>Ward(s) or groups affected:</b>	Faraday		
<b>From:</b>	Director of Planning and Growth		
<b>Application Start Date:</b> 27/10/2021		<b>PPA Expiry Date:</b> 01/02/2022	
<b>Earliest Decision Date:</b> 21/12/2021			

## RECOMMENDATION

1. That planning permission be granted subject to conditions.

## EXECUTIVE SUMMARY

2. The proposed development is for the construction of a new ball court for wheelchair sports and basketball, ancillary to the approved re-development of Burgess Park Sports Centre Hub (21/AP/1002). This site is located on the eastern portion of Burgess Park. The proposal meets national and local planning policy tests for appropriate development within Metropolitan Open Land (MOL). Therefore, the principle of the proposed land use is acceptable.
3. The additional ball court is in keeping with the character of this area of the park and adjacent to the existing Burgess Park Sports centre facilities, which include outdoor sports pitches. The proposed design and positioning of the new ballcourt in this context, would have no greater impact on the setting, accessibility and quality of the MOL, and would not affect its openness or detract from its character.
4. There is a degree of certainty that the consented scheme for Burgess Park Sports Centre Hub (21/AP/1002) will be brought forward simultaneously with this application; to deliver improvements to the wider site layout, access and ancillary sports facilities as well as provide ecological enhancements and biodiverse

landscaping. This proposal will further contribute to the overall quality of the new sports facility, through the delivery of a ball court that meets an identified need for a hard surfaced outdoor pitch of this size and design specification. The site would benefit from wheelchair accessible changing facilities and step free access arrangements consented as part of the sports centre re-development. It is therefore recommended that planning permission is granted subject to planning conditions.

## **BACKGROUND INFORMATION**

5. The Burgess Park Sports Centre was granted planning permission in 2021 (21/AP/1002) (S.73 application to vary planning permission 19/AP/1275) for the demolition of the existing centre and all-weather pitch and construction of a new sports centre with two new all-weather pitches, associated lighting and hard and soft landscaping (including new 'spectator mounds' to west and north of new pitches).
6. An Equalities Impact Assessment (EQIA) was undertaken for the proposed development in October 2020. This sought to identify opportunities for the site to promote equality, and improve access and participation in public life and good relations between all groups, in accordance with the council's duties as public authority under the Equality Act 2010. The EQIA assessed the impact of the proposed scheme on the relevant groups with protected characteristics, providing recommendations to improve the site's inclusive design approach.
7. A key outcome of the EQIA was the need for a fenced, hard surfaced court with basketball facilities and provision for wheelchair sports. No feasible location for the ball court was identified in the 2019 planning application due to ball strike issues with the cricket pitch on the eastern part of the masterplan site. Notwithstanding this, the provision of a wheelchair accessible court is a requirement of the council's Public Sector Equality Duty. This application has therefore been prepared to seek planning permission for the delivery of an enclosed hard surfaced court that will facilitate wheelchair rugby, football and basketball, as well as basketball for all users. The provision of this inclusive sport pitch would deliver a significant positive benefit to the re-development of the Burgess Park Sports centre and local community.
8. The application was first presented to Planning Sub-Committee A on 25 January 2022. A motion to defer the planning application to a future meeting was carried. This officer report has been updated to address the issues raised at the meeting. It is recommended that planning permission is granted subject to planning conditions.

## **Site location and description**

9. The application site is located on the eastern part of Burgess Park, on informal open parkland. To the east of the site is an outdoor fenced artificial grass football pitch (AGP) ancillary to the Burgess Park Community Sports Centre. To the west of the site is the park's designated BBQ area. To the north of the site is a lake and to the south and wider surrounding area is open parkland. Further to the north-west is the Cobourg Road Conservation Area, which comprises terraced residential properties, Cobourg Primary School and New Peckham Mosque which is also Grade II Listed.

The site is situated within designated Metropolitan Open Land (MOL) and Site of Importance for Nature Conservation (SINC).

*Site location plan*

## **Details of proposal**

10. The application proposes the construction of a ball court, which will form part of the new Burgess Park Sports centre consented under planning application 21/AP/1002 (S.73 application to vary planning permission 19/AP/1275). The ball court seeks to provide facilities for wheelchair sports and basketball.

## Proposed site plan

11. The new court will be enclosed by 4.5m high sports fencing on the north, west and south elevations, to match the fencing proposed to surround the adjacent AGP to be delivered to the east. A 1.2m high fence on the east elevation will provide separation between the basketball court and AGP. Gated access into the new court is proposed from the north-eastern corner of the court, and a footpath will run along the northern boundary of the wider site, connecting the court with the new Burgess Park Sports centre to the east.
12. There is a degree of certainty that the consented scheme for Burgess Park Sports Centre Hub (21/AP/1002) will be brought forward simultaneously with this application, to ensure that the court sits within the boundary of the Burgess Park Sports Centre Hub facility.

## Consultation responses from members of the public and local groups

13. The application has received 170 public comments including 143 comments of objection and 25 comments of support. Summarised below are the material planning considerations raised by members of the public. These matters are addressed in the subsequent parts of this report.

#### 14. **Support:**

- The proposal would deliver a positive community benefit that supports young adults and teenagers and meets an identified need for a basketball and wheelchair sports court in the park

#### **Objections:**

##### Principle of development

- Over provision of sports facilities in this location
- Harm to Metropolitan Open Land

##### Design quality and site layout

- Loss of publically open green space
- Loss of the informal use of this area of the park for picnic's ancillary to the adjacent BBQ area
- Inadequate access to the ball court for wheelchair users
- Blocking views from the lake reduces sense of space, openness and connectivity
- Sport facilities are out of keeping with the character of the lakeside area
- Erosion of the park's green credentials

##### Environmental impacts

- Light pollution and noise nuisance affects local ecology and wildlife on the lake, and park users – both in construction and operation.
- Heat affects from loss of open space worsening climate change
- Ground contamination from court surface into the lake
- Drainage and flood risk from increased hard surface

##### Security and prevention of anti-social behaviour

- Loitering, smoking, noise, and potential anti-social behaviour
- Safety concerns from a reduction in visibility and creation of a narrow bottleneck between the ball court and BBQ area

##### Other

- Mental health impacts from loss of open space
- The new facility is controlled via a booking system and not free of charge
- Insufficient consultation with park users
- More planting is needed to screen views of the courts from the lake
- Existing hard standing areas should be used

15. The comments summarised above include an objection from Friends of Burgess Park who are opposed to the loss of open green space, impact on the use of the adjacent BBQ area and lake, smoke pollution from the use of the adjacent BBQ area, distance of the ball court from the sport centre facilities, and the controlled use of the court. They request that there is a reduction in hard surfacing elsewhere in the park to compensate for the loss of green space from this proposal. They also request that a planning condition is imposed which requires the applicant to undertake an assessment of the impact on the BBQ area, functionality and circulation space, as well as a wider review of MUGA's in the local area to

understand demand and supply for this type of facility and its maintenance. The applicants have identified that there is currently no ballcourt provision within Burgess Park.

16. In terms of impact on open space, the proposal meets national and local planning policy tests for appropriate development within Metropolitan Open Land. The adjacent BBQ area is to remain closed until a review of the facilities are undertaken to assess the most suitable location and type of BBQ area. This is for the safety of park users and protection of the environment. The additional court sits within the boundary of the already consented sports centre, replacing the provision of a spectator mound, and does not sit any closer to the lake than the adjacent consented sports courts still to be delivered. A spectator mound is consented to the north of the courts, screening views of the sport facility from the lake. Southwark's Environmental Protection Team and Ecologist have reviewed the application and raise no concerns with the proposal in terms of ecology impact, light pollution or noise nuisance, subject to planning conditions. The ballcourt drainage will connect to the lake at Burgess Park to prevent any additional output into the sewer. The court will sit within the Burgess Park Sport Centre facility, enclosed by a 4.5m fence to manage access and reduce potential anti-social behaviour.

### **Planning history of the site, and adjoining or nearby sites**

17. Any decisions which are significant to the consideration of the current application are referred to within the relevant sections of the report. A fuller history of decisions relating to this site, and other nearby sites, is provided in Appendix 3.

## **KEY ISSUES FOR CONSIDERATION**

### **Summary of main issues**

18. The main issues to be considered in respect of this application are:
  - Principle of the proposed development on MOL in terms of land use;
  - Impact on openness of MOL;
  - Design and layout including impact on heritage assets
  - Transport and highways including access arrangements, cycle and car parking
  - Landscaping and trees
  - Ecology and biodiversity
  - Environmental matters including noise, light, contamination, air quality and flood risk
  - Other matters
  - Mayoral and borough community infrastructure levy (CIL)
  - Consultation responses
  - Community impact, equalities assessment and human rights.
19. These matters are discussed in detail in the Assessment section of this report.

## **Legal context**

20. Section 38(6) of the Planning and Compulsory Purchase Act (2004) requires planning applications to be determined in accordance with the development plan, unless material considerations indicate otherwise. In this instance the development plan comprises the London Plan 2021 and the Southwark Plan 2022. Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires decision-makers determining planning applications for development within Conservation Areas to pay special attention to the desirability of preserving or enhancing the character or appearance of that area. Section 66 of the Act also requires the Authority to pay special regard to the desirability of preserving listed buildings and their setting or any features of special architectural or historic interest which they possess.
21. There are also specific statutory duties in respect of the Public Sector Equalities Duty which are highlighted in the relevant sections below and in the overall assessment at the end of the report.

## **Planning policy**

22. The statutory development plans for the borough comprise the London Plan 2021 and the Southwark Plan 2022. The National Planning Policy Framework (2021) and emerging policies constitute material considerations but are not part of the statutory development plan. A list of policies which are relevant to this application is provided at Appendix 2. Any policies which are particularly relevant to the consideration of this application are highlighted in the report.
23. The site is located within the:
  - Air Quality Management Area
  - Site of Importance for Nature Conservation
  - Metropolitan Open Land

## **ASSESSMENT**

### **Principle of the proposed development in terms of land use**

24. The application proposes to construct a new ball court within Burgess Park MOL. The London Plan Policy G3 affords MOL the same level of protection as Green Belt. Areas of MOL must be protected from inappropriate development, in accordance with national planning policy tests. Exceptional circumstances where new development would be permitted on MOL are set out within paragraph 149 of the NPPF (2021) and the Southwark Plan Policy P57. This includes the provision of appropriate facilities which are deemed essential for outdoor sport or recreation. Therefore, the proposal meets the policy test for appropriate development in MOL.
25. The Southwark Plan Policy P45 supports the development of new sport facilities, recognising that this type of development will maximise healthy and active life choices in the Borough and reduce social isolation, poor mental health, obesity and

inactivity. The Southwark Plan Policy P47 supports the provision of new community facilities which are accessible for all members of the public. Community facilities should promote healthier lifestyles and be designed and operated to meet the needs of people from all backgrounds. The additional ball court would increase the accessibility of Burgess Park Community Sports Centre so that it can be inclusive of wheelchair users and basketball players. This is a requirement of the public sector equality duty.

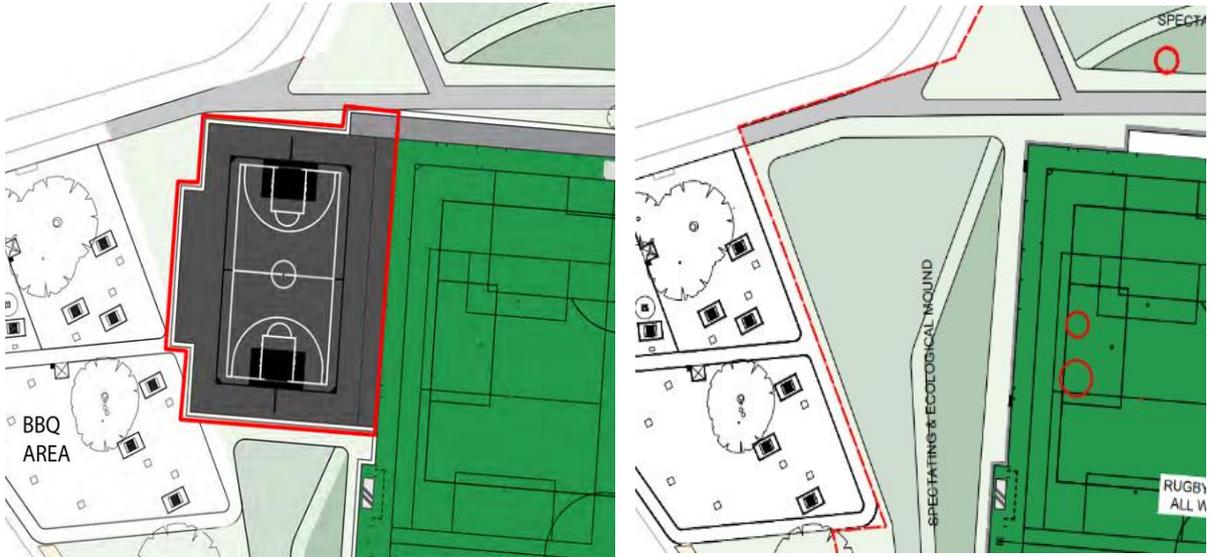

26. Therefore, the principle of proposed development in terms of land use is acceptable, subject to the new facility positively contributing to the setting, accessibility and quality of the MOL and without affecting its openness or detracting from its character.

### **Impact on openness of MOL**

27. The additional court would remove a small amount (1,123sqm) of grassed open space currently used for informal recreation and picnics. The additional court sits mostly within the red line boundary of the consented sport centre and does not sit any closer to the lake (to the north) than the adjacent sports courts. This area of the sports centre site was originally consented for a spectator mound.
28. There is an established use for outdoor sports in this area of the park and the proposed fencing and floodlights would match what has been approved for adjacent courts. This is demonstrated by the proposed elevation plans submitted with this application, which show the court in the context of the wider sports centre site. The impact of an additional ball court in this location is therefore not considered to be harmful to the openness of the MOL

### **Design and layout**

29. The extant planning permission on this area of the site sought to deliver a spectating mound adjacent to the proposed APG to the east, contributing some noise mitigation for users of the part to the west, and the provision of biodiversity planting. This current application would preclude the future provision of a spectator mound in this location.

*Proposed site plan (left image) and consented site plan (21/AP/1002) (right image).*

30. At the time of assessing this application the spectator mound has not been delivered. Therefore, the ball court would not result in a loss of any ecological habitats or amenity benefits from the mound. Spectator mounds would still be delivered to the north-east and south of the court. The use of this space for a new ball court would provide significant positive benefits to the local community that outweigh the provision of spectator mounds in this location. Biodiverse planting is proposed elsewhere in the park to secure ecological enhancements. This is recommended to be secured through planning condition, in consultation with the Friends of Burgess Park.
31. The new ball court would sit adjacent to the designated BBQ area. The BBQ area is a popular facility within the park and a number of the objectors have raised concern with the closeness of this ball court to the BBQ area. The applicant has advised that the BBQ area has been closed for the last three years. This was initially following advice from the London Fire Brigade in 2018 due to risk of fire in hot weather. It was closed again in 2019 following irresponsible usage and dry ground which presented an unacceptable level of fire risk that could not be safely managed. The area remained closed in 2020 and 2021 due to COVID-19 restrictions. As a result, the BBQ area is in a poor state of repair. Due to concerns with poor air quality, fire risk, anti-social behaviour and management issues it is anticipated that the BBQ area will remain closed in 2022. The applicants are reviewing options to upgrade the park's BBQing facilities through public consultation that will address issues surrounding poor public health and environmental impact. This could involve relocating the BBQ area within the park and utilising electric hotplates instead of charcoal BBQs.
32. the ballcourt boundary would not extend further north than the adjacent articular grass pitches. the pitches and ball court would be enclosed by a 4.5m high black sports fence. therefore, the additional of the ball court would not look out of place when viewed from the surrounding areas of the site. overall, the proposed design and positioning of the new ball court in keeping with the wider sports facilities to be delivered under planning permission 21/ap/1002. any negative impact on the wider

setting of the open park to the north and west is outweighed by the benefit of this additional court, which would improve the accessibility and quality of this community sport facility, in accordance with the public sector equality duty.

### **Impact on heritage assets**

33. The Cobourg Road Conservation Area is situated to the north-west of the site. The new ball court is set back from the conservation area and would result in no additional harm, over and above that caused by the existing AGP situated in closer proximity to the heritage assets. Any impact would be further reduced when considered in the context of the consented AGPs and spectating mound which are to be situated between the new ball court and the conservation area. Overall it is considered that the proposal for an additional court in this location will have no impact on the setting of the nearby conservation area and listed buildings to the north-west of the site. The type of development proposed is in keeping with the characteristic of this area of the park and will be used for active recreation.

### **Transport and Highways**

#### **Access arrangements**

34. The new court will utilise the access arrangements consented under planning permission 21/AP/1002. Pedestrian access would be provided between the court and the consented sport centre to the west, which provides ancillary changing rooms and WC facilities. Given the consented layout of the wider site re-development, the new court could not be located any closer to the sports centre, however, access between the court and sports centre is step free. The EQIA undertaken on this site provides assurance and recommendations on the suitability of the sport centre facilities in terms of accessibility.

#### **Cycle and car parking arrangements**

35. Cycle parking is to be delivered within the wider site and will comprise secure, single stack cycle stands, usable for disabled persons. Vehicle drop off is provided on Cobourg Road at the site entrance with a suitably dropped kerb for step free access onto the footway. The applicant will be required to provide designated visitor Blue Badge Bays as part of the proposed development.

### **Landscaping and trees**

36. The application does not propose the loss of any trees. Details of the soft and hard landscaping proposals will be delivered on the wider site as part of the consented scheme (see 21/AP/1002).

### **Ecology and biodiversity**

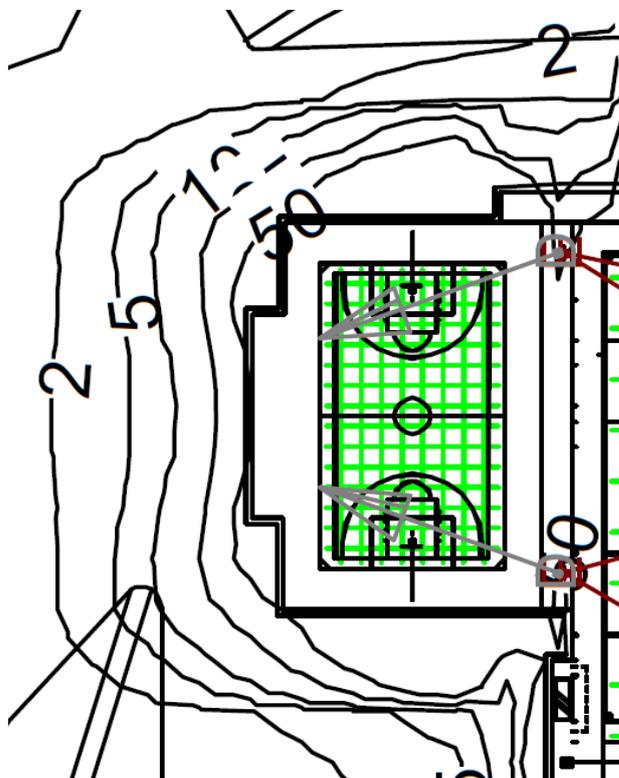

37. The proposed development would not have a greater negative impact on biodiversity. The applicant is proposing to create 500m<sup>2</sup> of wildflower meadow to

be delivered elsewhere within the park. This will provide biodiversity net gains for the sport centre facility.

## Environmental matters

### Noise and light

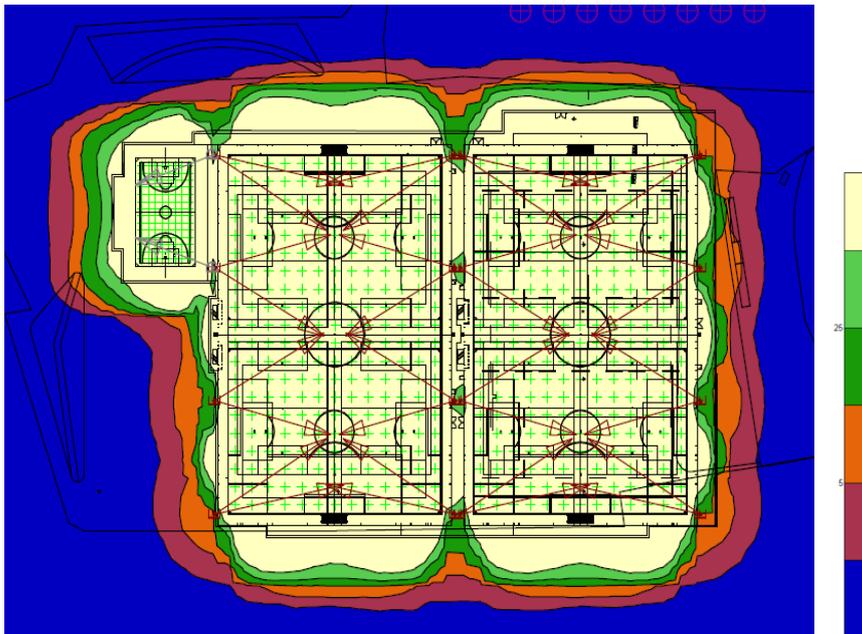

38. There is already an established sport and recreational use within this area of the park. The addition of this ballcourt would not cause greater harm to the amenity of users of the park and surrounding residents in terms of noise nuisance. It is recommended that a planning condition is applied to restrict the hours of use of the court to within the hours of 08:00 to 22.00 on Monday to Friday or 09:00 to 20:00 on Saturdays, Sundays and Bank Holidays. This aligns with the hours of use agreed under planning permission 21/AP/1002 to reduce noise nuisance.
39. The application proposes the installation of x2 LED floodlights that would be attached to the floodlighting columns consented for the adjacent AGP, on the eastern boundary of the new court. The applicant has submitted an artificial lighting assessment to demonstrate compliance with the Institute of Lighting Professionals (ILP) guidance. The ILP Guidance Notes for the Reduction of Obtrusive Light (2021) sets a limit of 25 Lux light spillage in Urban areas (E4 Zone), 10 Lux in suburban areas (E3 Zone) or 5 Lux in rural areas (E2 Zone).
40. The lighting assessment for this development shows the overspill lighting levels to be in compliance with an E2 Zone (rural), dropping below 5 Lux outside of the court boundary. The light overspill faces west, away from residential development located to the north-east and lake area to the north.

*ISO contour overspill diagram*

41. The lighting assessment considers the impact on lighting overspill for this new court in addition to the lighting overspill resulting from the consented AGPs. The same compliance planning conditions that are secured to planning permission 21/AP/1002, should therefore be applied to the additional court. This would restrict the use of floodlights within the hours of 08:00 and 22:00 on any day and prevent any lighting spill from floodlights on the site exceeding more than 5 lux towards any neighbouring premises.

*Filled ISO contour overspill diagram (showing lighting levels for showing consented*

*scheme for two sports pitches on the right 21/AP/1002)*

## Land contamination

42. The application site is situated predominantly within the red line boundary for the approved Burgess Park Sports Centre Hub (21/AP/1002). The Environmental Protection Team have reviewed the submission and have recommended that the Remedial Method Statement (prepared by Leap Environmental Ltd) used to discharge part (a) of Condition 3 (Site investigations) as required by planning permission 21/AP/1002, is applied to the construction of this ball court.

## Air quality

43. The site is within an Air Quality Management Area. The proposed development should achieve at least air quality neutral standards and reduce exposure to and mitigate the effects of poor air quality. The provision of an additional ball court on this site is not likely to noticeably increase transport emissions generated, greater than that generated by the use of the existing or replacement sports centre facility. Measures to encourage more sustainable modes of travel are part of the consented scheme for the wider re-development of the site, to reduce vehicle trip generation onto the site.

## Flood Risk

44. The site is located in Flood Zone 3 but in an area that benefits from the defences of the Thames Barrier and therefore is subject to a low risk of tidal and fluvial flooding. The ballcourt drainage will connect to the lake at Burgess Park to prevent any additional output into the sewer.

## Mayoral and borough community infrastructure levy (CIL)

45. Section 143 of the Localism Act states that any financial contribution received as community infrastructure levy (CIL) is a material 'local financial consideration' in planning decisions. The requirement for payment of the Mayoral or Southwark CIL is therefore a material consideration. However, the weight attached is determined by the decision maker. The Mayoral CIL is required to contribute towards strategic transport investments in London as a whole, primarily Crossrail. Southwark's CIL will provide for infrastructure that supports growth in Southwark. In this instance, the development does not constitute CIL liable development.

## Consultation responses from external and statutory consultees

46. Sport England:
  - Satisfied that the proposed development meets exception 3 of playing fields policy;
  - Supportive of ballcourt which provides a facility suitable for wheelchair sports;
  - No objection raised.
  - Clarity sought on the commitment to ongoing risk assessments for the consented AGP to mitigate the sub-optimal run-off areas. The added complexity of players potentially transitioning from the AGP and across the boundary between the two surfaces should be factored in and addressed in the risk assessment.
47. Officer response to issue(s) raised: The commitment to risk assessments is secured under informative note 5 on planning permission 21/AP/1002. The applicant has confirmed that the risk assessments are to be undertaken once the facility is operational and the ballcourt will not prevent the risk assessments being undertaken.

## Consultation responses from internal consultees

48. Environmental Protection Team:
  - Application acceptable subject to planning conditions.
49. Ecology:
  - An additional basketball court does not negatively impact on biodiversity.
  - 500 m2 of wildflower meadow mitigates for the impact of the court and provides biodiversity net gain.
  - Lighting levels are low and focused on the court.

## **Community impact and equalities assessment**

50. The council must not act in a way which is incompatible with rights contained within the European Convention of Human Rights
51. The council has given due regard to the above needs and rights where relevant or engaged throughout the course of determining this application. The development would have a significant benefit for wheelchair users as it would provide a facility designed for a particular need but accessible for other users too.
52. The Public Sector Equality Duty (PSED) contained in Section 149 (1) of the Equality Act 2010 imposes a duty on public authorities to have, in the exercise of their functions, due regard to three "needs" which are central to the aims of the Act:
  1. The need to eliminate discrimination, harassment, victimisation and any other conduct prohibited by the Act.
  2. The need to advance equality of opportunity between persons sharing a relevant protected characteristic and persons who do not share it. This involves having due regard to the need to:
    - Remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic
    - Take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it
    - Encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low
  3. The need to foster good relations between persons who share a relevant protected characteristic and those who do not share it. This involves having due regard, in particular, to the need to tackle prejudice and promote understanding.
53. The protected characteristics are: race, age, gender reassignment, pregnancy and maternity, disability, sexual orientation, religion or belief, sex, marriage and civil partnership.

## **Human rights implications**

54. This planning application engages certain human rights under the Human Rights Act 2008 (the HRA). The HRA prohibits unlawful interference by public bodies with conventions rights. The term 'engage' simply means that human rights may be affected or relevant.
55. This application has the legitimate aim of constructing a new ballcourt for wheelchair sports and basketball. The rights potentially engaged by this application, including the right to a fair trial and the right to respect for private and family life are

not considered to be unlawfully interfered with by this proposal.

## Carbon concurrent

### Achieving net carbon zero development in Southwark

56. This application has taken measures to reduce carbon emissions on site with the aim of contributing to net carbon zero by 2050 in accordance with the adopted development plan. These measures are summarised in the table below:

Net carbon zero: summary table	
Are carbon emission reductions covered in the main report?	No - The application proposes an additional ball court that would become part of the consented Burgess Park Community Sports Centre (planning application reference 21/AP/1002). Details of the energy efficiency measures proposed for the development site are summarised in the officer report for the original planning application (ref 19/AP/1275) and subsequent Section 73 planning application (ref 21/AP/1002). Measures include provision of Air Source Heat Pumps to heat the sports centre and a green roof.
Any other comments	The proposal is a minor development therefore is not required by planning policy to be net carbon zero.

### Meeting Southwark's Climate Change Strategy and Action Plan

57. In July 2021, the council adopted its Climate Change Strategy and Action Plan for tackling the climate emergency. The plan sets out how emissions in the borough can be reduced from buildings, transport and waste disposal. The Strategy sets out 148 Action Points that the council will undertake to achieve its ambition to do all it can to achieve a net zero carbon borough by 2030 across five key priority areas:
- Greener Buildings: these actions relate to Southwark's built environment and new developments e.g., emissions from privately rented homes, commercial offices and private property development. They cover scope one and two emissions.
  - Active and Sustainable Travel: these actions relate to surface transport across the borough, e.g., emissions from private car travel. They cover scope one, two and three emissions.
  - A Thriving Natural Environment: these actions relate to the maintenance and security of the borough's natural environment e.g., increasing tree canopy coverage.
  - A Circular Economy with Green Jobs: these actions relate to waste within the borough e.g., emissions from non-recyclable waste disposal. They cover

scope one and two emissions.

- Renewable Energy: these actions relate to the provision of more renewable energy within the borough i.e., local installation of technologies such as solar PV

58. The following action point/s have identified as relevant to this planning application:

<b>Priority Area:</b>	Thriving Natural Environment
<b>Action Point:</b>	Retain and protect existing key open spaces and soil carbon stocks which store CO2 in the borough
<b>Action Point Reference Number:</b>	E.2.i
<b>Officer commentary:</b>	The proposal meets the policy test for appropriate development in Metropolitan Open Space (MOL) as it comprises ancillary essential sports facilities that would contribute to the setting, accessibility and quality of the open space, preserving the openness of the space and without conflicting with the function of MOL. Whilst the usability of the space will change from informal recreation to formal outdoor sports provision, it would still be retained and protected as MOL.

### Positive and proactive statement

59. The council has published its development plan and Core Strategy on its website together with advice about how applications are considered and the information that needs to be submitted to ensure timely consideration of an application. Applicants are advised that planning law requires applications to be determined in accordance with the development plan unless material considerations indicate otherwise.
60. The council provides a pre-application advice service that is available to all applicants in order to assist applicants in formulating proposals that are in accordance with the development plan and core strategy and submissions that are in accordance with the application requirements.

### Positive and proactive engagement: summary table

61.

Was the pre-application service used for this application?	NO
If the pre-application service was used for this application, was the advice given followed?	N/A
Was the application validated promptly?	YES
If necessary/appropriate, did the case officer seek amendments to the scheme to improve its prospects of achieving approval?	YES

To help secure a timely decision, did the case officer submit their recommendation in advance of the agreed Planning Performance Agreement date?	YES
--	-----

## CONCLUSION

62. The proposed development is for the construction of a new ball court for wheelchair sports and basketball, ancillary to the approved re-development of Burgess Park Sports Centre Hub (21/AP/1002). This site is located on the eastern portion of Burgess Park. The proposal meets national and local planning policy tests for appropriate development within Metropolitan Open Land (MOL). Therefore, the principle of the proposed land use is acceptable.
63. There is a degree of certainty that the consented scheme for Burgess Park Sports Centre Hub (21/AP/1002) will be brought forward simultaneously with this application; to deliver improvements to the wider site layout, access and ancillary sports facilities as well as provide ecological enhancements and biodiverse landscaping. This proposal will further contribute to the overall quality of the new sports facility, through the delivery of an inclusive ball court that meets an identified need for a hard surfaced outdoor pitch of this size and design specification. The site would benefit from wheelchair accessible changing facilities and step free access arrangements consented as part of the sports centre re-development. It is therefore recommended that planning permission is granted subject to planning conditions.
64. The proposed development would deliver a wheelchair accessible ball court in accordance with the council's public sector equality duty. The ball court is in keeping with the character of this area of the park, and within proximity to the existing Burgess Park Sports centre facilities which include outdoor sports pitches. The proposed design and positioning of the new ballcourt would have no greater impact on the setting, accessibility and quality of the MOL, and would not negatively affect its openness or detract from its character. It is therefore recommended that planning permission is granted subject to planning conditions

## BACKGROUND DOCUMENTS

**Recommendation**

This document shows the case officer's recommended decision for the application referred to below.

This document is not a decision notice for this application.

---

<b>Applicant</b>	Pippa Krishnan Southwark Council	<b>Reg. Number</b>	21/AP/3625
<b>Application Type</b>	Local Authority Development		
<b>Recommendation</b>	GRANT permission	<b>Case Number</b>	M2022

**Draft of Decision Notice**

**planning permission is GRANTED for the following development:**

Construction of a ball court with perimeter fencing and installation of x2 LED floodlights. The ball court will provide a pitch for wheelchair sports which also functions as a court for basketball, to be included as part of the new Burgess Park Sports Centre Hub facility.

At: Burgess Park Community Sports Pavilion Burgess Park Community Sport Ground 106 Cobourg Road London

In accordance with the valid application received on 27 October 2021 and supporting documents submitted which can be viewed on our Planning Register. For the reasons outlined in the case officer's report, which is also available on the Planning Register. The Planning Register can be viewed at: <https://planning.southwark.gov.uk/online-applications/>

---

**Conditions**

---

**Permission is subject to the following Approved Plans Condition:**

1. The development shall be carried out in accordance with the following approved plans:

Reference no./Plan or document name/Rev.

Received on:

---

DWG802 FENCE HEIGHTS

18/10/2021

18-0822 08 01 ELEVATIONS LAYOUT (NORTH AND WEST)	17/01/2022
DWG801 Rev1 BALLCOURT SITE PLAN	29/03/2022
DWG800 SITE LOCATION PLAN	18/10/2021

Reason:

For the avoidance of doubt and in the interests of proper planning.

**Permission is subject to the following Time Limit:**

2. The development hereby permitted shall be begun before the end of three years from the date of this permission.

Reason:

As required by Section 91 of the Town and Country Planning Act 1990 as amended.

**Permission is subject to the following Grade Condition(s)**

3. Details of the fencing materials to be used in the carrying out of this permission shall be submitted to and approved by the Local Planning Authority before any above ground works in connection with this permission are carried out; the development shall not be carried out otherwise than in accordance with any such approval given

Reason:

To ensure that the new works blend in with the existing building in the interest of the design and appearance of the building in accordance with Chapter 12 (Achieving well-designed places) of the National Planning Policy Framework (2021); Policy D4 (Delivering good design) of the London Plan (2021); Policy P13 (Design of places) and Policy P14 (Design Quality) of the Southwark Plan (2022).

**Permission is subject to the following Pre-Occupation Condition(s)**

4. Before the first occupation of the development hereby approved, detailed drawings of a landscaping scheme showing biodiverse planting to be delivered in the wider area of Burgess Park, shall be submitted to and approved in writing by the Local Planning Authority. The landscaping scheme shall not be carried out otherwise than in accordance with any such approval given and shall be retained for the duration of the use.

Reason:

To ensure the development provides the maximum possible provision towards creation of habitats and valuable areas for biodiversity in accordance with: Policies SI 4 (Managing heat risk), SI 13 (Sustainable drainage), G1 (Green Infrastructure), G5 (Urban Greening) of the London Plan 2021; and Policy P60 (Biodiversity) of the Southwark Plan (2022).

**Permission is subject to the following Compliance Condition(s)**

5. Prior to occupation of the ball court hereby approved, 2 disabled parking spaces shall be provided on Coburg Road and made available for users of the ball court. The spaces shall be retained for the purposes of car parking for the disabled for as long as the development is occupied.

Reason:

To ensure that the parking spaces for disabled people are provided and retained in accordance with: Chapter 9 (Promoting sustainable transport) of the National Planning Policy Framework (2021); Policy T6 (Car parking) of the London Plan (2021); and Policy P55 (Parking standards for disabled people and the physically impaired) of the Southwark Plan (2022).

6. The use hereby permitted for the ball court shall not be carried on outside of the hours 08:00 to 22.00 on Monday to Friday or 09:00 to 20:00 on Saturdays, Sundays and Bank Holidays.

Reason:

To safeguard the amenities of neighbouring residential properties in accordance with Chapter 8 (Promoting healthy and safe communities) of the National Planning Policy Framework (2021); Policy D4 (Delivering good design) of the London Plan (2021); and Policy P56 (Protection of amenity) of the Southwark Plan (2022).

7. The floodlights hereby approved shall not be used before 08:00am or after 22:00 on any day and the lighting spill from them shall be no more than 5 lux on any neighbouring property.

Reason:

To protect the amenity of neighbours in accordance with the National Planning Policy Framework 2021, Strategic Policy 12 Design and Conservation and Strategic Policy 13 High environmental standards of The Core Strategy 2011 and Saved Policies 3.2 Protection of Amenity and 3.14 Designing out crime of the Southwark Plan 2007

8. The approved Remedial Method Statement dated 30th September 2021 with reference number LP2662/RMS prepared by Leap Environmental Ltd, used to discharge part (a) of Condition 3 (Site investigations) as required by planning permission dated 07/07/2021 [LBS Ref 21/AP/1002], shall be carried out in accordance with its terms prior to the commencement of development, other than works required to carry out remediation, unless otherwise agreed in writing by the Local Planning Authority.

Reason To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with saved

policy 3.2 'Protection of amenity' of the Southwark Plan (2007), strategic policy 13 'High environmental standards' of the Core Strategy (2011) and the National Planning Policy Framework 2021.

Signed:            *Stephen Platts*            Director of Planning and Growth

---

## **Informative Notes to Applicant Relating to the Proposed Development**

---

1. Please note that this approval assumes that the adjacent BBQ area will remain closed until a full review of its suitable location and operation is undertaken by the Parks and Leisure Directorate in the interest of public health and environmental protection.

---

## Important Notes Relating to the Council's Decision

---

### 1. Conditions

- If permission has been granted you will see that it may be subject to a number of planning conditions. They are an integral part of our decision on your application and are important because they describe how we require you to carry out the approved work or operate the premises. It is YOUR responsibility to comply fully with them. Please pay particular attention to those conditions which have to be met before work commences, such as obtaining approval for the siting and levels of buildings and the protection of trees on the site. If you do not comply with all the conditions in full this may invalidate the permission.
- Further information about how to comply with planning conditions can be found at:

[https://www.planningportal.co.uk/info/200126/applications/60/consent\\_types/12](https://www.planningportal.co.uk/info/200126/applications/60/consent_types/12)

- Please note that there is a right of appeal against a planning condition. Further information can be found at:  
[https://www.planningportal.co.uk/info/200207/appeals/108/types\\_of\\_appeal](https://www.planningportal.co.uk/info/200207/appeals/108/types_of_appeal)

### 2. Community Infrastructure Levy (CIL) Information

- If your development has been identified as being liable for CIL you need to email [Form 1: CIL Additional Information](#), [Form 2: Assumption of Liability](#) and [Form 6: Commencement Notice](#) to [cil.s106@southwark.gov.uk](mailto:cil.s106@southwark.gov.uk) as soon as possible, so that you can be issued with a Liability Notice. This should be done at least a day before commencement of the approved development.
- **Payment of the CIL charge is mandatory and the CIL Regulations comprises a range of enforcement powers and penalties for failure to following correct procedures to pay, including stop notices, surcharges, late payment interests and prison terms.**
- To identify whether your development is CIL liable, and further details about CIL including eligibility and procedures for any CIL relief claims, please see the Government's CIL guidance:

<https://www.gov.uk/guidance/community-infrastructure-levy>

- All CIL Forms are available to download from Planning Portal:

[https://www.planningportal.co.uk/info/200136/policy\\_and\\_legislation/70/community\\_infrastructure\\_levy/5](https://www.planningportal.co.uk/info/200136/policy_and_legislation/70/community_infrastructure_levy/5)

- Completed forms and any CIL enquiries should be submitted to [cil.s106@southwark.gov.uk](mailto:cil.s106@southwark.gov.uk)

### 3. National Planning Policy Framework

- In dealing with this application we have implemented the requirements in the National Planning Policy Framework to work with the applicant/agent in a positive, proactive and creative way by offering a pre-application advice service; as appropriate updating applicants/agents of any issues that may arise in the processing of their application and where possible and if applicable suggesting solutions to secure a successful outcome. We have considered the application in light of our statutory policies in our development plan as set out in the officer's report.

#### 4. Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.

If an enforcement notice is or has been served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within: **28 days** of the date of service of the enforcement notice, OR within **6 months** (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.

- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate ([inquiryappeals@planninginspectorate.gov.uk](mailto:inquiryappeals@planninginspectorate.gov.uk)) at least 10 days before submitting the appeal.
- Further details are on GOV.UK (<https://www.gov.uk/government/collections/casework-dealt-with-by-inquiries>).

#### 5. Purchase Notice

- If either the local planning authority or the Secretary of State grants permission subject to conditions, the owner may claim that the land can neither be put to a reasonably beneficial use in its existing state nor made capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances the owner may serve a purchase notice on the council requiring the council to purchase the owner's interest in the land in

accordance with Part VI of the Town and Country Planning Act 1990

## **6. Provisions for the Benefit of the Disabled**

- Applicants are reminded that account needs to be taken of the statutory requirements of the Disability Discrimination Act 1995 to provide access and facilities for disabled people where planning permission is granted for any development which provides:
  - i. Buildings or premises to which the public are to be admitted whether on payment or otherwise. [Part III of the Act].
  - ii. Premises in which people are employed to work as covered by the Health and Safety etc At Work Act 1974 and the Management of Health and Safety at Work Regulations as amended 1999. [Part II of the Act].
  - iii. Premises to be used as a university, university college or college, school or hall of a university, or intended as an institution under the terms of the Further and Higher Education Act 1992. [Part IV of the Act].
- Attention is also drawn to British Standard 8300:2001 Disability Access, Access for disabled people to schools buildings – a management and design guide. Building Bulletin 91 (DfEE 99) and Approved Document M (Access to and use of buildings) of the Building Regulations 2000 or any such prescribed replacement.

## **7. Other Approvals Required Prior to the Implementation of this Permission.**

- The granting of approval of a reserved matter or outstanding matter does not relieve developers of the necessity for complying with any Local Acts, regulations, building by-laws and general statutory provisions in force in the area, or allow them to modify or affect any personal or restrictive covenants, easements, etc., applying to or affecting either the land to which the permission relates or any other land or the rights of any persons or authorities (including the London Borough of Southwark) entitled to the benefits thereof or holding an interest in the property concerned in the development permitted or in any adjoining property. In this connection applicants are advised to consult the council's Highway Maintenance section [tel. 020-7525-2000] about any proposed works to, above or under any road, footway or forecourt.

## **8. Works Affecting the Public Highway**

- You are advised to consult the council's Highway Maintenance section [tel. 020-7525-2000] about any proposed works to, above or under any road, footway or forecourt.

## **9. The Dulwich Estate Scheme of Management**

- Development of sites within the area covered by the Scheme of Management may also require the permission of the Dulwich Estate. If your property is in the Dulwich area with a post code of SE19, 21, 22, 24 or 26 you are advised to consult the Estates Governors', The Old

#### **10. Building Regulations.**

- You are advised to consult Southwark Building Control at the earliest possible moment to ascertain whether your proposal will require consent under the Building Act 1984 [as amended], Building Regulations 2000 [as amended], the London Building Acts or other statutes. A Building Control officer will advise as to the submission of any necessary applications, [tel. call centre number 0845 600 1285].

#### **11. The Party Wall Etc. Act 1996.**

- You are advised that you must notify all affected neighbours of work to an existing wall or floor/ceiling shared with another property, a new building on a boundary with neighbouring property or excavation near a neighbouring building. An explanatory booklet aimed mainly at householders and small businesses can be obtained from the Department for Communities and Local Government [DCLG] Free Literature tel: 0870 1226 236 [quoting product code 02BR00862].

#### **12. Important**

- This is a PLANNING PERMISSION only and does not operate so as to grant any lease, tenancy or right of occupation of or entry to the land to which it refers.
