Proposal	Relocate disabled bay
Ward(s) affected	Peckham

## Non-strategic Traffic and Highway improvement

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement a traffic and highway improvement project, subject to statutory consultation.

## Background / Request

This came from a local resident, informing Highways that it is a struggle to access the vehicle with the planting and another vehicle on each side.

## Location

- Beaton Close, Peckham
- Beaton Close is in a controlled parking zone (R). Operating Mon-Fri, 8.30am-18:30pm
- There is a disabled bay there already

### Investigation and conclusions

- Officers attended site and noted that the disabled bay was getting obstructed.

### Recommendation

It is recommended that the existing disabled bay is to be relocated next to the existing one next to the footway.

This proposal is subject to Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

A detailed design drawing of the proposal is provided within this document.

### Next steps

Should this non-strategic Traffic and Highway improvement proposal be approved, then arrangement will be made to carryout statutory consultation.

Following the statutory consultation period, the council will make arrangements to install the restrictions (road marking and signage).

Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
