

NOTIFICATION OF KEY DECISION TO BE TAKEN

GENERAL EXCEPTION NOTICE

DETAILS OF DECISION	
Title of Report	Allocation of grants to care homes to enable installation of air filters
Description/Nature of matter requiring Key Decision	Approve grant funding for a pilot programme to enable 16 care homes to install air filter units. The aim of the air filters is to improve indoor air quality in terms of pollutants and COVID-19.
Decision taker	Cabinet Member for Health and Wellbeing
Date by which Key Decision must be taken	November 2022
Reason why it was impracticable for decision to be on the Forward Plan	Due to an oversight the decision was published in the November 2022 Forward Plan without the relevant wards and multi-wards listed.
Reason why the decision cannot wait for inclusion in the next Forward Plan	The next Forward Plan to be published will be January 2023. The decision cannot wait until then as this would lead to a delay in enabling 36 schools in the borough to install air filter units to improve air quality in terms of pollutants and COVID-19.
