

11. - DAULINE MICHAEL ~~Michael~~

11/10/2022 - Tuesday 11<sup>th</sup> October 2022

To whom it may concern,

The proposal for waiting and loading restrictions in Bellenden Road is inconsiderate and unjust for the small businesses who make up the backbone of this unique community.

The addition of loading restrictions is one thing, but prohibiting loading between 7.30am - 9.00am and between 3.00pm - 6.30pm will prove a burden on already overwhelmed local businesses who are trying to recover from the pandemic while dealing with an energy crisis. Many of us rely on deliveries from various suppliers and most, if not all, of these deliveries fall into the prohibited times within the proposal. These delivery slots are given to us by suppliers and not chosen by us, and timed loading restrictions means forcing us to look for new suppliers which will prove costly.

We ask you to revise this proposal and remove the timed loading restrictions suggested in this Order in consideration of the hardship this will afflict on small businesses.
