Non-strategic Traffic and Highway improvement

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement a traffic and highway improvement project, subject to statutory consultation.

Background / Request

This request came from a local ward Cllr after receiving a member's enquiry, informing Highways vehicles are blocking the drop kerb for the refuse and recycling vehicles.

Location

- Bowen Drive, Dulwich Wood
- Bowen Drive is not in a controlled parking zone allowing free parking for all.
- There are currently no restrictions

Investigation and conclusions

- Officers attended site and noted that vehicles were parking across the drop kerb, blocking the refuse and recycling vehicles.

Recommendation

It is recommended that 6m double yellow lines are to be installed across the drop kerb

This proposal is subject to Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

A detailed design drawing of the proposal is provided within this document.

Next steps

Should this non-strategic Traffic and Highway improvement proposal be approved, then arrangements will be made to carry out statutory consultation.

Following the statutory consultation period, the council will make arrangements to install the restrictions (road marking and signage).

Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
