

Non-strategic Traffic and Highway improvement

Appendix	9
Location	Fenham Road
Proposal	Install double yellow lines for obstruction
Ward(s) affected	Peckham

Non-strategic Traffic and Highway improvement

A non-strategic traffic and highway improvement is a small project where the council proposes to modify the existing Highway layout. This may include changes to waiting and loading restrictions, traffic calming, improved crossing facilities etc.

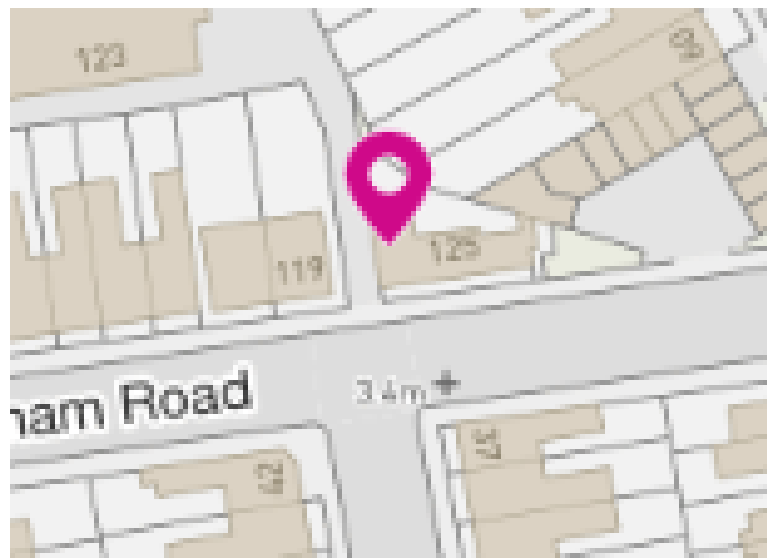

Under Part 3D of the council's constitution, the Cabinet Member is responsible for Transport Issues: To decide to implement a traffic and highway improvement project, subject to statutory consultation.

Background / Request

This request came from a business owner, informing Highways that vehicles are parking across the drop kerb to his business.

Location

- Fenham Road, Peckham
- Fenham Road is not in a controlled parking zone allowing free parking for all.
- There currently no restrictions

Investigation and conclusions

- Officers visited site and could see that vehicles were blocking his entrance to his business.

Recommendation

It is recommended to install 5m double yellow lines.

This proposal is subject to Traffic Management Order (TMO) statutory consultation. A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

A detailed design drawing of the proposal is provided within this document.

Next steps

Should this non-strategic Traffic and Highway improvement proposal be approved, then arrangement will be made to carryout statutory consultation.

Following the statutory consultation period, the council will make arrangements to install the restrictions (road marking and signage).

Should objections be received during the statutory consultation period, these will be presented to the Cabinet Member for determination.
