Subject: Fwd: Support for application 880248

Dear Sir/Madame,

I am a resident of the Camberwell on the Green development [REDACTED] and my apartment faces the Green.

I would like to support the application to close down Nollywood quoting 880248.

Not only does it create a lot of noise and antisocial behaviour during the night, but also waking up in the morning with a view of broken glasses, bottles and rubbish from people who continue partying after Nollywood closes is unacceptable

This is supposed to be a green space for the local residents and our children to enjoy but what we experience is appalling.

I hope you take this feedback on board when you review the licence of Nollywood Planet

Please let me know if there is anything else you would like to discuss with me.

My full details are

[REDACTED]

Subject: Premises License 880248 - The Planet Nollywood, 319 Camberwell Road, London, SE5 0HQ

Hello,

I am writing to submit my representation and express my support of the application submitted by Jasmine Wilson regarding The Planet Nollywood premises license nr.: 880248.

I am a resident in the building opposite the night club and in the past several months have experienced noise disturbance at night and in the very early hours of the morning. This is usually caused by the club staying open past its official opening hours and people gathering outside on the street speaking loudly, drinking and forming groups which causes loud noise that wakes me and my partner up at night.

I would like the club's license to be reviewed and their compliance monitored as this issue keeps on coming back due to club owners disregarding the rules they are supposed to follow.

Please see below images that illustrate my statement.

Kind Regards,

Subject: Premises License 880248 - The Planet Nollywood, 319 Camberwell Road, London, SE5 0HQ

Good evening,

I am writing to submit my representation and express my support for the application submitted by [REDACTED] regarding The Planet Nollywood premises license number: 880248.

I am a resident of the building opposite the nightclub [REDACTED] [REDACTED]).

Over the past few months, I have been consistently experiencing noise disturbance during the night and early morning hours. This disruption is a direct result of The Planet Nollywood operating until very late from Thursday to Sunday. The club's lack of proper sound insulation allows amplified sound to escape, particularly when the club's door is opened (which occurs every minute). Additionally, patrons tend to gather on the street near the club, engaging in loud conversations, drinking, and forming groups that create noise disturbances, causing both myself and my partner to be awakened during the night.

I kindly request a review of the club's license and continued monitoring of their compliance. This issue continues to recur because the club owners refuse to acknowledge any responsibility or demonstrate a willingness to address this problem, greatly affecting the quality of life for many Camberwell residents.

It is difficult to comprehend how a club without proper sound insulation, which attracts rowdy groups of people outside, is allowed to remain open in such proximity to residential apartments.

Kind Regards,

[REDACTED]

To whom it may concern,

I would like to raise my support for the review of the above license for Planet Nollywood.

I am a resident of [REDACTED] and my flat essentially [REDACTED] onto Planet Nollywood.

There are frequent noise disturbances coming from this establishment, particularly at weekends, with loud music penetrating into my flat. In addition, because of the late hours, there is also frequent disturbances from the users of the establishment as they enter and exit at the late hours of the evening. The users normally congregate on the street before and after and sometimes continue their "partying" onto the street and into Camberwell Green. This has had a severe affect on my ability to sleep, particularly at the weekend.

I would note that I'm not against the establishment in its entirety, what I do not understand however is how they have a current license that allows them to operate to 5.30am Fri-Sun and 3.30am Mon-Thurs. In what world do the council think these are reasonable hours for a club to operate whilst located in a residential area with flats directly opposite? It defies all logic, particularly given most other pubs in residential areas are typically only licensed to 11pm Mon-Thurs and 12am-1am Fri-Sat.

To allow Planet Nollywood to continue operating to such ridiculous hours and disturbing local residents would be an outrage.

I trust this will be resolved.

Thanks,

[REDACTED]

Subject: 880248 support

Hello,

I'd like to state my support for application 880248 against Planet Nollywood.

I've lived in [REDACTED] for nearly [REDACTED] years now and my flat is opposite the Green. Over this time I have called Southwark Council to log noise complaints multiple times.

I can hear the music and base in my flat as if it was being played in the room next to me - in one case it was so loud that when I opened my balcony door on the phone to the council they could also hear the music.

Being kept up till 5am is awful any day, but what is particularly ruining my quality of life in the flat is the Sunday night / early hours of Monday morning noise. I think it's completely unreasonable for any premise to have a license to blast music at this hour on a Monday morning, especially a premise with such poor sound proofing!

I can't remember the exact dates that I've phoned the council over the years, but I'd hope that they've been logging them (under [REDACTED]).

Please let me me know if there's anything I can do to support this case?

Thanks,

[REDACTED]
