<b>Item No.</b> 6.1	<b>Classification:</b> Open	<b>Date:</b> 18 October 2023	<b>Meeting Name:</b> Planning Committee (Smaller Applications)
<b>Report title:</b>	<b>Development Management planning application:</b> Application 23/AP/0351 for: Full Planning Application  <b>Address:</b> Units 6 And 7, Vivo Building, 30 Stamford Street, London SE1 9LQ  <b>Proposal:</b> For the amalgamation and change of use of Units 6 and 7 to Sui Generis Use (comedy venue with ancillary bar and restaurant facilities), erection of a mezzanine, with hours of use from 0800 to 0000 hours Sundays to Thursdays and 0900 and 0100 hours Fridays and Saturdays.		
<b>Ward or groups affected:</b>	Borough and Bankside		
<b>From:</b>	Director of Planning and Growth		
<b>Application Start Date</b>	09.02.2023	<b>Application Expiry Date</b>	21.11.2023
<b>Earliest Decision Date</b>	13.09.2023		

## RECOMMENDATION

1. That planning permission be granted subject to conditions.

## EXECUTIVE SUMMARY

2. Permission is sought for the amalgamation and change of use of Units 6 & 7 which is part of the South Bank Central Development to form a Comedy Club (Sui Generis – Use Class). The proposal also includes the erection of a mezzanine and an extension to the existing operating hours.
3. Unit 6 is permitted as flexible Class E/Sui Generis (formerly A1, A2, A3, A4) and Unit 7 is permitted as flexible Class E/Sui Generis use (formerly A3 & A4). Unit 6 was previously 'Beer Hawk' and Unit 7 has been vacant since the development was complete.
4. This application is for decision by the Planning Committee (Smaller Applications) as the application has been called in by ward councillors.
5. The proposed development would create two main comedy rooms with ancillary cafe, bar and food hall for visitors. The comedy club will provide 395 internal seats. The proposed mezzanine area of 23.8 square metres will provide toilets and Back of House facilities. The proposed opening hours are as follows:

- Sunday to Thursday: 08.00 and 00.00
  - Fridays and Saturdays: 09.00 and 01.00
6. The application site is located within the Central Activities Zone, Bankside and Borough Town Centre, the South Bank Strategic Cultural Quarter, Blackfriars Road Vision Area, Southwark Business Improvement District, Flood Zone 3 and an Air Quality Management Area.
  7. The main concern raised by neighbours is in relation to noise and disturbance due to the proposed use as a comedy club and extended opening hours. The application is accompanied by an Environmental Noise Survey and an Acoustic Assessment. The Environmental Protection team have assessed the submitted reports and are satisfied that there would be negligible impact with no effect on the surrounding residential accommodation.
  8. Within the immediately surrounding vicinity there are similar premises, The Thirsty Bear and Fountain Ink. It is acknowledged that the hours of opening are considered agreeable and in line with these neighbouring existing licensed premises. As such, the extended hours as use are considered acceptable.
  9. The application is also accompanied by a Dispersal Plan which outlines that patrons will be directed north onto Stamford Street via the use of a partial barrier. This will reduce the number of patrons utilising Upper Ground at closing time. Further details on this matter will be provided in an Event Management Plan, which has been added as a pre commencement condition.
  10. The comedy club would provide an active use throughout the day and into the evening, activating the frontage and current ground floor units through the key pedestrian route within the South Bank development. The proposed development would not significantly impact the amenity of neighbouring occupiers and will contribute to ensuring a vibrant evening economy is maintained within the South Bank Strategic Cultural Quarter.
  11. Subject to conditions, the proposal is considered to be acceptable on balance. It is therefore recommended that planning permission be granted.

## **BACKGROUND INFORMATION**

### **Site location and description**

12. The application property comprises of two ground floor units (Unit 6 and 7) within the South Bank Central Development which was completed in 2016. The location plan is shown below, with the application site outlined in red:

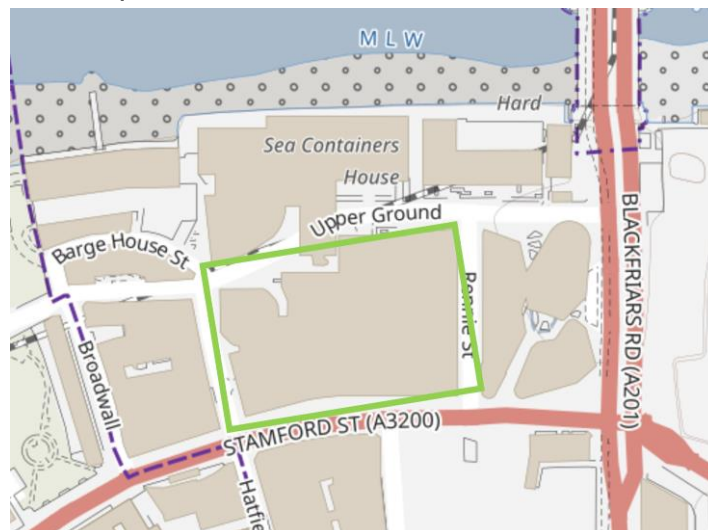

**Site location plan**

13. South Bank Central has 13 retail units in total at ground floor level, the majority of which are currently in retail use. Current occupiers include Little Waitrose, Superdrug and Black Sheep Coffee. Honi Poke, a Hawaiian Poke Bowl Restaurant is located within close proximity to the entrance of Units 6 & 7.
14. Unit 6 is permitted as flexible Class E/Sui Generis (formerly A1, A2, A3, A4). Unit 6 is currently in use as a bar but the current occupier, Beerhawk, are set to surrender their lease.
15. Unit 7 is permitted as flexible Class E/Sui Generis use (formerly A3 & A4) however it is currently vacant. In 2018, (ref: 18/AP/2480) planning permission was granted to for the change of use of Unit 7 from A3/A4 to A3 and D2 to allow it to be used as an entertainment and leisure use with restaurant facilities. This permission was not implemented.
16. The units have a combined floor area of 500 square metres GIA.
17. Relevant planning designations for the application site are:
  - Central Activities Zone
  - Bankside, Borough and London Bridge Opportunity Area
  - Blackfriars Road Vision Area
  - Southwark Business Improvement Area (BID)
  - Bankside and Borough District Town Centre
  - South Bank Strategic Cultural Quarter

- Bankside Neighbourhood Plan Area
- Air Quality Management Area
- Flood Zone 3
- Article 4 – Class ZA - Demolition of commercial buildings and replacement with a single dwelling housing or block of flats is restricted
- Article 4 – Class MA - Change of use from Class E to residential is restricted
- Article 4 – Change of use from offices to dwellinghouses is restricted.

### The surrounding area

18. The application properties form part of the South Bank Central Development (ref:15/AP/2511). The map below includes the South Bank Central Development site and Rennie Court within the green rectangle.
19. The wider site as shown within the green rectangle comprises an urban block bounded by Upper Ground, Rennie Street, Stamford Street and Hatfields. To the north east corner of the site is Southbank Tower. The first 10 floors of the tower are in office use and floors 11 to 30 are in residential use. Adjacent to this is a 'T shaped' podium block which contains retail use on the ground floors and office use for all the floors above. There is no residential use within this block. To the north west of the block is Rennie Court, a T-shaped block, which comprises 99 residential flats. Rennie Court did not form part of the application site for South Bank Central Development however is contained within the urban block defined in green on the map below.

20. The three models below demonstrate the approved uses within the South Bank Central Development. The application site is located in the middle 'T' shaped blue section, where retail is permitted at ground floor level and office use is permitted on the floors above.

21. To the north of the application site, on the opposite site of Upper Ground is the Sea Containers Hotel. The hotel contains several dining and entertainment facilities. On the ground floor of the hotel there is the Sea Containers Restaurant and the Lyaness bar with an outdoor dining terrace to the rear. 12<sup>th</sup> Knot is a rooftop bar located on the 12<sup>th</sup> floor of the hotel. The hotel also provides spa, wellness, fitness and cinema facilities onsite.
22. Also within close proximity to the application site is the Fountain & Ink bar and The Thirsty Bear Public House. These are located on Stamford Street.

### **Details of proposal**

23. The proposal seeks to amalgamate and the change of use of Units 6 and 7 to provide two main comedy rooms with ancillary cafe, bar and food hall for visitors. The comedy club will provide 395 internal seats. The proposed mezzanine area of 23.8 square metres will provide toilets and Back of House facilities.
24. The opening hours proposed by this application are as follows:
- Sunday to Thursday: 08.00 and 00.00
  - Fridays and Saturdays: 09.00 and 01.00

The existing hours of use were conditioned under 15/AP/2511:

#### **Condition 19: Hours of use**

- i) The Class A3 and Class A4 uses hereby permitted shall not be carried on outside of the hours of 0800 hours to 2300 hours Monday to Saturdays, and between 0900 hours and 2230 hours on Sundays.
- ii) The Class A1 and A2 uses hereby permitted shall not be carried on outside of the hours 0600 hours to 2400 hours Monday to Saturdays, and between 0800 and 2300 hours on Sundays.

As such the hours of use are:

- Sunday: 09:00 and 22:30
- Monday to Saturday: 08:00 and 23:00

25. No external alterations and existing entrances will be utilised. The property has access to existing loading bays. The proposal is car free. The proposal utilises the existing dedicated servicing areas in accordance with the approved planning permission under 15/AP/2511.
26. There will be an external seating area to the front of both units which will be closed each day after 22:00 to ensure outdoor noise is kept to a minimum during the opening hours. The plans below show the internal proposed layout of the scheme.

### Ground Floor

### Raised Ground Floor and Mezzanine Plan

## Consultation responses from members of the public and local groups

27. In accordance with the Statement of Community Involvement (December):
  - Neighbour letters were sent on 15 February 2023
  - A site notice was displayed on 2 May 2023
  - Additional neighbour letters were sent on 22 August 2023, until

12 September 2023.

28. 62 comments were received from members of the public when neighbour letters were sent out on 15 February 2023 raising objection to the proposed scheme. No letters of support were received during this consultation period.

Another round of neighbour letters were sent out on 22 August 2023 to ensure that all neighbours adjoining the redline were properly consulted on the application. An additional 17 objections were received during this time period. No letters of support were received during this consultation period. These comments are included below. There were no changes to the application during this time.

In total 79 letters of objections were received.

29. Noise & disturbance

- Proposed venue is within a residential area
- Concerns over use as a nightclub
- Condition 19 of the planning permission for Southbank Central restricts hours of use to between 08:00 to 23:00 hours Monday to Saturdays
- The area is typically inner city residential, hotel and office space and the amenity of the area is typically arts led – galleries and theatres with venues closing at 23:00
- Later opening hours will result in increased activity along Upper Ground in the early hours of the morning
- The proposed venue will be no different to a nightclub or rave venue which will attract large numbers of people
- Concerns over smoking area and smoke being drawn into Rennie Court residential flats
- Unwelcomed noise in the early hours of the morning
- Increased in anti-social behaviour
- Concerns over noise due to the architectural acoustics due to the design of surrounding buildings
- Already two hotels, two restaurants, one public house in close proximity providing ample bar entertainment and food facilities
- Increase in crime in the local area
- Further testing of noise and disturbance should be undertaken and a new noise report be undertaken as the current one is insufficient
- Capacity for outside area is too large for such a narrow alleyway
- Plan to allow people to leave via Stamford Street is unworkable
- Site is a tunnel which will make the noise reverberate even more

30. Traffic

- Stamford Street is double red lines
- Hatfields have parked cars all down one side (so effectively single lane only)
- Concerns that the dispersal policy will not work and people will use transport from Rennie Street, Upper Ground and Hatfields because it is more convenient

- Sea Containers have a taxi rank outside which people will use
- No car parking facilities are to be made available making it difficult for Rennie Court residents to access their basement parking facilities
- Concerns of additional delivery and waste disposal vehicles on Upper Ground
- Nowhere sensible for taxis and Ubers to wait and pick up
- The 381 Bus will have inadequate capacity to take everyone back after the comedy club closes

31. Other

- The applicants have not attempted to consult nearby residents in Rennie Court or River Court
- Fire hazard where smoking area is proposed
- Wooden bench seating is a fire hazard

32. These matters are discussed in detail in the 'Assessment' section of this report.

33. **Site visit**

A site visit was undertaken on 9 August 2023 with internal access gained into both Unit 6 and 7. A further external site visit was undertaken on 21 September 2023.

**Planning history**

34. The relevant planning history of the site is as follows:

11/AP/1071 - Kings Reach Tower Stamford Street London Borough of Southwark SE1 9LS	Refurbishment and re-cladding of the tower and podium buildings, erection of six additional storeys to the tower for residential use [132.2m AOD to top of core] and change of use of floors 11 to 30 of the tower from offices to residential [to provide a total of 173 flats]; erection of a series of extensions and additions for office use including the erection of a ten storey infill atrium building between the tower and T shaped podium, erection of a part one, part three storey roof extension to the podium building and	GRANTED WITH LEGAL AGREEMENT: 04/10/2011
--	--	--

	<p>a series of other extensions to the north, east and west of the podium building to accommodate plant and stair cores.</p> <p>Creation of retail (Class A1, A2, A3 and A4) space, pool and gym (Class D2) on the ground floor, provision of new and refurbished landscaping, plant and equipment, formation of new accesses, including formation of a new pedestrian route linking Stamford Street to Upper Ground, and public realm improvements.</p>	
<p>11/AP/3797 - Kings Reach Tower Stamford Street London Borough of Southwark SE1 9LS</p>	<p>Variation of Condition 2 (approved plans) of planning permission 11-AP-1071 (for refurbishment and re-cladding of the tower and podium buildings, erection of six additional storeys to the tower for residential use and change of use of floors 11 to 30 of the tower from offices to residential, erection of a series of extensions and additions for office use and creation of retail space, pool and gym on the ground floor, and formation of a new pedestrian route linking Stamford Street to Upper Ground), in order to allow the following amendments to be made:</p> <p>i. correction of the site plan boundary to shift the boundary 800mm</p>	<p>GRANTED WITH LEGAL AGREEMENT: 13/03/2012</p>

	<p>away from Sea Containers House on Upper Ground;</p> <p>ii. reduction in the footprint of the ground floor residential cycle parking store;</p> <p>iii. subdivision of the retail unit on the corner of Rennie Street and Upper Ground;</p> <p>iv. shifting of the building line of the retail unit on the corner of Rennie Street and Upper Ground further to the south to allow for the retention of street trees.</p>	
<p>15/AP/2511 - Kings Reach Tower Stamford Street London Borough of Southwark SE1 9LS</p>	<p>Variation of condition 2 (approved plans) of planning permission 11/AP/3797 (granted on 13 March 2012) for the refurbishment and recladding of the tower and podium buildings, erection of six additional storeys to the tower for residential use and change of use of floors 11 to 30 of the tower from office to residential, erection of a series of extensions and additions for office use and creation of retail space, pool and gym on the ground floor, and formation of a new pedestrian route linking Stamford Street to Upper Ground.</p> <p>The amendments consist of:</p> <p>i. alteration and enlargement of the Stamford Street offices</p> <p>ii. alteration and enlargement of the tower office entrance on Hatfields</p>	<p>GRANTED: 05/11/2015</p>

	iii. introduction of new internal accommodation stair to tower iv. extension of retail units 4 (fronting Hatfields) and 7 (within new pedestrian route) v. subdivision of retail unit 5 (within new pedestrian route); vi. revised design and layout for the 7 <sup>th</sup> floor Stamford Street office roof terrace.	
18/AP/2480 - Unit 7 South Bank Central 30 Stamford Street London SE1 9LQ	Change of use from A3/A4 (restaurant and drinking establishment) use to A3 and D2 use (entertainment and leisure use with restaurant facilities).	GRANTED: 12/12/2018

## KEY ISSUES FOR CONSIDERATION

### Summary of main issues

35. The main issues to be considered in respect of this application are:
- Principle of the proposed development in terms of land use
  - Design quality
  - Impact of proposed development on amenity of adjoining occupiers and surrounding area
  - Transport and Highways
  - Energy and sustainability
  - Flood risk and drainage
  - Fire Safety Regulations
  - Mayoral and borough community infrastructure levy (CIL);
  - Community involvement and engagement.

These matters are discussed in detail in the 'Assessment' section of this report.

### Legal context

36. Section 38(6) of the Planning and Compulsory Purchase Act (2004) requires planning applications to be determined in accordance with the development plan, unless material considerations indicate otherwise. In this instance the development plan comprises the Southwark Plan 2022 and the London Plan 2021.
37. There are also specific statutory duties in respect of the Public Sector Equalities Duty which are highlighted in the relevant sections below and in the overall

assessment at the end of the report.

## **Planning policy**

38. The statutory development plans for the borough comprise the Southwark Plan 2022 and the London Plan 2021. The National Planning Policy Framework 2023 and emerging policies constitute material considerations but are not part of the statutory development plan. A list of policies which are relevant to this application is provided at Appendix 2. Any policies which are particularly relevant to the consideration of this application are highlighted in the report.

## **Assessment**

### **Principle of development in terms of land use**

39. The proposed development is located within the Central Activities Zone as defined by Policy SD4 of the London Plan 2021. Part E states the following:

*The unique concentration and diversity of cultural, arts, entertainment, night time economy and tourism functions should be promoted and enhanced.*

The supporting text of this policy reads:

*Arts, culture, tourism and entertainment activities are a defining feature of the vibrant and distinctive character of the CAZ with its varied mix of daytime, evening and night-time uses. Together they make a vital contribution to London's culture and heritage, ensuring the capital is an attractive place in which to live, work, visit and invest. The CAZ includes several areas that are rich in cultural activity including the West End, South Bank, Bankside, London Bridge, the Barbican, King's Cross and the South Kensington museum complex, along with more local clusters and cultural venues. It also contains the country's largest concentrations of night-time activity in Soho, Covent Garden and Shoreditch. These areas and functions should be recognised, nurtured and supported in line with CAZ policy and other policies related to culture and supporting the evening and night-time economy.*

40. Policy P46 (Leisure, arts and culture) of the Southwark Plan 2022 states the following:

*1. Development must:*

- 1. Retain or re-provide existing leisure, arts and cultural uses. Re-provision should be of the same, or be better than, the quantity and quality of existing uses; or*
- 2. In exceptional circumstances leisure, arts and cultural facilities can be replaced by another use where there are currently more facilities than needed. This must be demonstrated by a marketing exercise for two years, immediately prior to any planning application. This should be for both its existing condition and as an opportunity for an improved leisure, arts or cultural facility at market rates; and*

3. *An Equalities Impact Assessment will be required for any proposed loss of community facilities in predominant use by protected characteristic communities as defined by the Equality Act 2010; and*
4. *The registration or nomination of leisure, art and cultural uses as an Asset of Community Value will be treated as a significant material consideration.*

2. *Development will be permitted where:*

- *New leisure, arts and cultural uses are provided; and*
- *It delivers or supports the delivery of public art projects, independent museums and theatres; and*
- *New arts and cultural venues of strategic significance are proposed within the South Bank Cultural Quarter, Elephant and Castle Cultural Quarter, Old Kent Road and Canada Water Opportunity Area Cores and Peckham and Camberwell Creative Enterprise Zone.*

41. The application site is also located in Bankside and Borough District Town Centre, Policy P35 (Town and local centres) of the Southwark Plan 2022 states that:

*Development must:*

1. *Ensure main town centre uses including markets, community, civic, leisure and cultural uses are located in town centres and local centres; and*
  2. *Be of a scale and nature that is appropriate to the role and catchment of the centre; and*
  3. *Retain retail floorspace or replace retail floorspace with an alternative use that provides a service to the general public, and would not harm the vitality and viability of the centre; and*
  4. *Not harm the amenity of surrounding occupiers or result in a concentration of uses that harms the vitality, viability and economic growth of the centre; and*
  5. *Provide an active use at ground floor in locations with high footfall.*
42. The proposal will result in the amalgamation of Unit 6 & 7 to provide an appropriate leisure and entertainment use within a town centre location. Unit 7 is currently vacant and therefore it would further bring a currently non utilised space into use. The comedy club would provide an active use throughout the day and into the evening, activating the frontage and current ground floor units within the key pedestrian route through the South Bank development.
43. Overall, taking into account the location within the Central Activities Zone, Bankside and Borough District Town Centre and the South Bank Cultural Quarter, the proposed use as a comedy club in this location is considered acceptable and in accordance with the Southwark Plan (2022) and the London Plan (2021) policies which seek to promote leisure, art, cultural and entertainment facilities. It is noted that there are residential properties within the vicinity of the application site, this is assessed in subsequent sections of this report.

## Design quality

44. No external alterations are proposed as a result of this change of use planning application. The proposal comprises the amalgamation of Units 6 and 7, with internal changes proposed to utilise the venue as a comedy club.
45. The proposed development does include the creation of a small area of outdoor seating to the front of the proposed units. No structure is proposed, this just includes the provision of outdoor furniture within the area to the front of the unit. Temporary café style railings would be used to cordon off this area from the main walkway. This includes 11 tables of varying sizes and the associated seating. This is not considered to be at odds with the immediately surrounding vicinity, with a similar offering provided in front of Black Sheep Coffee and Honi Poke. The proposed development is compliant with Policy P13 and P14 (Design of places) of the Southwark Plan (2022).

## Impact of proposed development on amenity of adjoining occupiers and surrounding area

46. Policy P56 (Protection of Amenity) of the Southwark Plan 2022 states that:
  1. *Development should not be permitted when it causes an unacceptable loss of amenity to present or future occupiers or users. Amenity considerations that will be taken into account include:*
    - *The privacy and outlook of occupiers of both existing and proposed homes*
    - *Actual or sense of overlooking or enclosure*
    - *Impacts of smell, noise, vibration, lighting or other nuisances*
    - *Daylight, sunlight, and impacts from wind and on microclimate*
    - *Residential layout, context and design*
47. Policy D13 (Agent of Change) of the London Plan 2021 states that:
  - a) *The Agent of Change principle places the responsibility for mitigating impacts from existing noise and other nuisance-generating activities or uses on the proposed new noise-sensitive development. Boroughs should ensure that Development Plans and planning decisions reflect the Agent of Change principle and take account of existing noise and other nuisance-generating uses in a sensitive manner when new development is proposed nearby.*
  - b) *Development should be designed to ensure that established noise and other nuisance-generating uses remain viable and can continue or grow without unreasonable restrictions being placed on them.*
  - c) *New noise and other nuisance-generating development proposed close to residential and other noise-sensitive uses should put in place measures to mitigate and manage any noise impacts for neighbouring residents and businesses.*

*d) Development proposals should manage noise and other potential nuisances*

*by:*

- Ensuring good design mitigates and minimises existing and potential nuisances generated by existing uses and activities located in the area*
- Exploring mitigation measures early in the design stage, with necessary and appropriate provisions including ongoing and future management of mitigation measures secured through planning obligations*
- Separating new noise-sensitive development where possible from existing noise-generating businesses and uses through distance, screening, internal layout, sound-proofing, insulation and other acoustic design measures.*

*e) Boroughs should not normally permit development proposals that have not clearly demonstrated how noise and other nuisances will be mitigated and managed.*

48. The proposed development would introduce a use into two units that are currently underutilised within the South Bank development. As such, it is acknowledged that the opening of a comedy club within this space would result in an increase in overall activity resulting in more people transiting in and out of the area to use the proposed facility.
49. The proposal is for a change of use to Sui Generis, the South Bank Central development was designed to support commercial units on the ground floor and office and residential uses above to ensure no loss of amenity for residential occupiers. It is acknowledged however that 79 letters of objection have been received from neighbouring residents, mostly located within the Rennie Court and River Court developments along Upper Ground. A small number of comments have also been received from residents living within the South Bank Tower.
50. The majority of objections received by residents relate to the potential increase for anti-social behaviour, litter, crime, noise and disturbance after closing time due to the pedestrian route and the use of the smoking area. These are discussed in relevant sections below.

## **Rennie Court**

51. Rennie Court is located to the east of Units 6 & 7, accommodating 99 residential flats within a T-shaped block bounded by Upper Ground to the north and Rennie Court to the east. 49 letters of objection were received from the residents of Rennie Court. The western elevation of Rennie Court is visible when positioned to the end of pedestrianised walkway linking Upper Ground and Stamford Street. The proposal is contained to the ground floor units and the outdoor area to the front and side of the units. The terraced area at first floor level above Units 6 and 7 is not included in this application or proposed to be used as part of the comedy club. It is acknowledged that at present there is limited evening activity within the

South Bank Development due to the vacant units, however it was intended for these units to be utilised to open up the space and create an identifiable place.

52. An assessment of previous planning applications in Rennie Court for flats 1 and 4 indicates that the windows on the western elevation of Rennie Court serve a secondary window in a reception room (Flat 4) and a hallway (Flat 1). These windows face onto the back of Units 6 and 7 and are visible when exiting the walkway onto Upper Ground. There are no balconies on the western elevation of Rennie Court.

### **River Court**

53. River Court is located to the east of Sea Containers along Upper Ground with Blackfriars Road to the east of the site. River Court accommodates 87 residential units and 18 letters of objection were received from this residential block. River Court is positioned approximately 150-200m away from the entrance of Units 6 & 7 and is therefore a considerable distance away from the proposal. It is acknowledged that there may be an increase in people utilising Upper Ground during the evening to access the venue, however given the prime location between Blackfriars and Waterloo it is not expected to give rise to over and above what would be expected within this area of London during the evening.

### **South Bank Tower**

54. South Bank Tower is located opposite the application site to the west, with residential access to the units gained from Hatfields. The first 10 floors of the South Bank Tower are for office use, with floors 11 and above for residential use. There are 191 residential units contained within the South Bank Tower and 6 letters of objection were received. It is not considered that the provision of a comedy club on the ground floor units of the adjacent office blocks to give rise to a level of disturbance to the occupiers of the tower that would be considered unacceptable within this location.
55. The proposed development results in no external extensions or alterations and as such there would be no adverse impacts in terms of loss of light, loss of privacy or overbearing impact as a result of the proposed development. The main impact to be considered in terms of residential amenity relate to noise and disturbance, which is considered below.

### **Noise and vibration**

56. Policy D14 (Noise) of the London Plan 2021 states that:

A) In order to reduce, manage and mitigate noise to improve health and quality of life, residential and other non-aviation development proposals should manage noise by:

- Avoiding significant adverse noise impacts on health and quality of life
- Reflecting the Agent of Change principle as set out in Policy D13 Agent of change
- Mitigating and minimising the existing and potential adverse impacts of

noise on, from, within, as a result of, or in the vicinity of new development without placing unreasonable restrictions on existing noise-generating uses

- Improving and enhancing the acoustic environment and promoting appropriate soundscapes (including Quiet Areas and spaces of relative tranquillity).

57. The applicant has submitted an Environmental Noise Survey report by SANDY BROWN Consultants in Acoustics, Noise & Vibration, dated 10 January 2023 (ref: 22517-R01-C) for Units 6 & 7, South Bank Central, London. This has been reviewed by the Council's Environmental Protection Team.

58. An Environmental noise survey was carried out to determine the existing sound levels in the area. The noise survey was carried out between 10:42 on 11 November and 10:34 on 16 November 2022. The measurement locations used during the survey are shown below and can be identified by 'A' and 'B'.

59. Location 'A' was within the Level 10 roof garden and Location 'B' was located on a balcony at second floor level overlooking Units 6 & 7. Images of these locations are provided within the noise survey report.

60. Measurements were taken at Location 'A' between 10:42 on 11 November 2022 and 07:27 on the 14 November 2022. The equipment was moved from the initial location on the rooftop garden (Location 'A') to a balcony on the 2<sup>nd</sup> floor (Location 'B') on between 07:49 on 14<sup>th</sup> November 2022 and 10:34 on 16 November 2022 to provide readings from two appropriate locations within close proximity to the proposed site.

61. The Environmental noise survey report concludes that at Location 'A', which is representative of the nearest noise sensitive façade to Units 6 & 7, the lowest background sound levels were  $LA_{90,5min}$  46 dB during the proposed hours of operation 08:00 – 01:00 hours Thursday to Saturday and 08:00 -00:00 hours Sunday to Wednesday. The data collected in this report is then used to assess entertainment noise break-out from future tenants within Units 6 & 7.

62. The applicant has also submitted an Acoustic Assessment report by SANDY BROWN Consultants in Acoustics, Noise & Vibration, dated 16 December 2022 (ref: 22517-R02-B) for Units 6 & 7, South Bank Central, London.
63. The report outlines that the proposed change of use of Unit 7 to accommodate a comedy venue has the potential to introduce new noise sources into the area, in the form of amplified music and noise from patron ingress/egress and the use of the outdoor seating area.
64. The report outlines that Unit 6 currently operates as a bar with occasional amplified music and an outdoor seating area, which is aligned to the proposed use of Unit 6.
65. Section 2 of the report provides further details of the site context, highlighting the nearest noise sensitive receptor is noted to be located on the east façade of the tower on Level 11, approximately 40m from Unit 7.
66. The Institute of Acoustics (IOA) Good Practice Guide on the Control of Noise from Pubs and Clubs contains criteria for noise from all aspects of entertainment venues, including patrons entering/leaving the venues, stating the following:

*If noise from rowdy behaviour regularly produces LAFmax levels in excess of 70 dB 1 metre outside windows of a noise-sensitive property between 23:00 and 07:00 hours, then this may be an indication that unacceptable disturbance could occur or is occurring.*
67. The report outlines the methods used in section 4.2 to ascertain the noise levels should the change of use be granted permission to allow the comedy club to function.
68. A loudspeaker was used to generate broadband noise at two locations within Unit 7, tests were undertaken with both the doors open and closed. Measurements were taken from the eastern façade balcony on Level 2 of South Bank Tower and the external walkway between Southbank Tower Level 10 and rooftop terrace. The source noise was audible in both locations with the doors open, with a notable reduction in level when doors were closed.
69. A further assessment was undertaken in regards to ingress into the unit, where a worst-case scenario has been undertaken where the typical maximum number of patrons outside the venue at any one time is 80, an average group size is 4 and therefore 20 people would be speaking simultaneously at one time.
70. The report states that the existing ambient noise level measured during the noise survey between 19:00 and 20:00 was LAeq,1h 51 dB. The overall resultant noise level (ambient noise + specific noise) at the nearest receptor would therefore be LAeq 53 dB, which is a 2 dBA increase above the existing background noise level. The overall increase in noise levels at the nearest receptor would be less than 2.9 dBA. Based on the IEMA guidelines set out in Section 3.4, the impact is expected to be negligible with no effect.
71. In regards to an individual noise event such as rowdy behaviour, the assessment

is based on 'loud voices' from Table 4 within the Acoustic Assessment report which outlines the assessed noise level at the window of the nearest noise sensitive receptor is LAFmax 50 dB. This is below the LAFmax 70 dB limit set out in the IOA guidance referenced in Section 3.3 of the above mentioned report.

72. In summary the report identifies that the use of the units as a comedy venue would result in an increase in ambient noise level at the nearest reception of 2 dBA. This would result in negligible impact with no effect on the surrounding residential accommodation.
73. The Environmental Protection team at the Council have reviewed both Environmental Noise Survey report by SANDY BROWN Consultants in Acoustics, Noise & Vibration, dated 10 January 2023 (ref: 22517-R01-C) and Acoustic Assessment report by SANDY BROWN Consultants in Acoustics, Noise & Vibration, dated 16<sup>th</sup> December 2022 (ref: 22517-R02-B). They are satisfied that the submitted noise report states that the proposed use will meet the following criteria to ensure that the L<sub>Fmax</sub> sound from amplified and non-amplified music and speech shall not exceed the lowest L<sub>90,5min</sub> 1m from the facade of the nearby residential premises at all third octave bands between 63Hz and 8kHz. This will be secured by condition.
74. In addition to the Environmental Noise Survey report and Acoustic Assessment the applicant submitted a 'Dispersal Policy' which sets out the reasonable steps the premises will undertake to prevent disturbance to residents, services and other business operating in the vicinity of the premises. This was not requested by Officers and was submitted at the start of the application process. It outlines that dispersal shall take place out of the main doors onto the South Bank Central Gallery. Customers will be encouraged to exit south onto Stamford Street as opposed to north onto Upper Ground.
75. Further steps to ensure dispersal of customers does not result in undue noise and disturbance includes the following:
  - Announcements at the end of the evening to encourage patrons to disperse gradually and to leave the area quietly
  - Ensure adequate signage at each exit asking people to leave quietly and not congregate outside
  - Turn up the lower level house lights 30 minutes prior to closing time to indicate to patrons that the venue is in the process of closing

76. The below image taken from the submitted 'Dispersal Policy' document:

77. Officers are satisfied that the proposed managers of Units 6 & 7 are likely to take the above steps to manage the egress and exit of patrons during the evening. In combination with the results of the Acoustic Assessment report, the proposed scheme is considered to be acceptable.
78. Further details have been requested from the applicant in relation to the proposed barrier. These details were received on 27 September 2023. It has been clarified that the partial barrier would include café style railings or crowd barriers to guide exiting patrons to Stamford Street and away from Upper Ground. This would be put in place at approximately 10pm when the outdoor area is closed.
79. However, it is considered reasonable to request additional details in the form of an Event Management Plan, as a pre commencement condition. The plan is not limited to but should include the following details. A scaled site plan indicating the positioning of the partial barrier, photographs of partial barrier to be used and timing of when the barrier will be in position. A detailed, to scale plan of the proposed smoking area, which should not include any seating and should reflect the plan provided in the dispersal policy drawing below. Details on the capacity of this area and how it will be managed should be provided. Officers further consider it reasonable to request details on the use of the doors which will be utilised throughout the evening, particularly after 10pm. The applicant has indicated that the door serving Unit 6 would be used as an entrance and the one serving Unit 7 would be utilised as the exit. However, the applicant has requested that it is important to see how an event space works prior to confirming these details. As such, these details should also be included within the event management plan. The plan should include a detailed overview of how the venue

will operate, how the dispersal of patrons will be managed and the arrangement of the outdoor furniture and its storage after 10pm. Contact details should also be provided, which has been agreed as part of the licensing approval, to ensure residents have a point of contact to raise any concerns once the venue is operating. This has therefore been added as a pre commencement condition.

## Odour

80. The proposal includes the provision of food units within the proposed space, however there is no relevant information with regard to kitchen extraction and odour control submitted with the application. Officers consider that it would be reasonable to request this information by condition once the food vendors have been confirmed within the venue following the grant of planning permission.
81. As such, a pre-commencement condition is recommended to provide full particulars and details of a scheme for the extraction and ventilation of the commercial kitchen shall be submitted to and approved by the Local Planning Authority. The scheme shall include:
  - Details of extraction rate and efflux velocity of extracted air
  - Full details of grease, particle and odour abatement plant
  - The location and orientation of the extraction ductwork and discharge terminal
  - A management / servicing plan for maintenance of the extraction system
  - To ensure that fumes and odours from the kitchen do not affect public health or residential amenity. Once approved the scheme shall be implemented in full and permanently maintained thereafter.
82. The proposed development will therefore not cause amenity impacts such as odour, fume or noise nuisance and will not detract from the appearance of the building in accordance with the Southwark Plan 2022 Policy P56 (Protection of amenity); Policy P65 (Improving air quality), and the National Planning Policy Framework 2023.

## Hours of use

83. The opening hours proposed by this application are as follows:
  - Sunday to Thursday: 08.00 and 00.00
  - Fridays and Saturdays: 09.00 and 01.00

The existing hours of use were conditioned under 15/AP/2511:

**Condition 19: Hours of use**

- i. The Class A3 and Class A4 uses hereby permitted shall not be carried on outside of the hours of 0800 hours to 2300 hours Monday to Saturdays, and between 0900 hours and 2230 hours on Sundays.
- ii. The Class A1 and A2 uses hereby permitted shall not be carried on outside of the hours 0600 hours to 2400 hours Monday to Saturdays, and between 0800 and 2300 hours on Sundays.

As such the hours of use of the units are:

- Sunday: 09:00 and 22:30
- Monday to Saturday: 08:00 and 23:00

84. The application site is within the South Bank Strategic Cultural Quarter, occupying a prominent position on the pedestrianised thoroughway between Stamford Street and Upper Ground, where uses such as a comedy club are encouraged to ensure a vibrant evening economy is maintained.
85. Within the immediately surrounding vicinity there are similar premises, The Thirsty Bear and Fountain Ink. It is acknowledged that the hours of opening are considered agreeable and in line with these neighbouring existing licensed premises.
86. It is also important to note that Unit 6 operates as 'Beer Hawk' serving alcohol and as well as the Sea Containers Hotel which comprises two bars and a restaurant within the facility.
87. The Environmental Protection team has requested that the external area is to be closed for use by 10pm. It is acknowledged that this is confirmed by the planning statement however should also be conditioned. This is in line with other external areas and commercial terraces in the local area.
88. Officers have discussed with the applicant the potential for reducing the opening hours by one hour to 23:00 Sunday to Thursday and 00:00 Fridays and Saturdays.
89. The applicant has confirmed that the opening hours proposed have been carefully considered to ensure the future viability of the venue. The comedy venue would need to be able to run several events on Fridays and Saturdays to be viable. This would also allow for flexibility to accommodate smaller comedians, WIP shows, podcasts, tour shows and comedy sketch groups alongside the regular mixed bull events, enhancing the cultural offer and making the venue more commercially viable.
90. The applicant has further confirmed that the venue are looking to run 3 - 5 shows on the Saturday and 2 - 3 on the Friday as evening shows are the most popular. These shows would have start times ranging from around 6pm to 11.30pm on Friday and 4pm to 11.30pm on Saturday, with show lengths ranging between 1

– 2.5 hours.

91. The opening hours also accommodate patrons being able to utilise the food offerings and have a drink post-performance which in turn will accommodate a staggered exit of patrons and allows a more gradual and relaxed dispersal.
92. The hours of use have been reviewed by the Environmental Protection team who are satisfied that these are reasonable given the location of the proposed development which are in line with the surrounding uses.

## **Conclusion**

93. It is acknowledged that the residents in the surrounding residential accommodation, mostly Rennie Court and River Court, are concerned over the potential for noise and disturbance due to the provision of a comedy club. However, Officers are satisfied that the proposed location of the comedy club is appropriate and are in agreement with the views of the environmental protection team that the proposed development would not give rise to substantial harm in terms of noise and disturbance to warrant the refusal of the scheme.
94. A review of the submitted noise reports and the surrounding licensed premises by the council's environmental protection team have recommended conditions to ensure the proposed development is appropriate in terms of noise and disturbance.
95. Subject to control of the hours of use, use of external areas after 10pm and noise not exceeding certain limits, the proposal is not considered to materially impact on the amenity of adjoining occupiers. As such, the proposed development is in accordance with Policy P56 (Protection of amenity) of the Southwark Plan (2022).

## **Transport and highways**

96. The applicant has submitted a Transport Statement by ARUP dated 18 January 2023 which reviews the Cycle Parking Provision, Proposed Activity and Delivery & Servicing Strategy.
97. The application site has a PTAL rating of 6b, the best possible access level to public transportation services. For example, the site location is in close proximity to Waterloo Station (0.6 miles – 12 minute walk), Southwark Station (0.4 miles – 8 minute walk), Waterloo East Station (0.4 miles – 9 minute walk) and Blackfriars Station (0.5 miles – 11 minutes). Bus stop 'Kings Reach Building' offers bus routes N343 and N381 and is located next to the pedestrianised walkway on Stamford Street.
98. The proposed development has been reviewed by Southwark's Transport Policy team who have reviewed the submitted Transport Statement by ARUP dated 18 January 2023.

## Trip generation

99. The Transport Statement concludes in Table 3 of the report that the majority of trips are made by public transport including underground, rail and bus. The site has an excellent public transport accessibility level (PTAL) of 6b with convenient access to the multiple routes and frequent services available from Southwark Station (Jubilee Line), Waterloo East Station (Rail) and Waterloo Station (Rail, Bakerloo Line, Jubilee Line, Northern Line, Waterloo and City Line). The forecast public transport trips are expected to be across a range of destinations and therefore would be distributed on all directions and routes. It is also noted that the above forecast does not account for a proportion of visitors being already in the area as local employees and therefore not a new trip on the network. When considered in this context, the additional trips attracted would not have a significant impact on any individual route or service.
100. The Transport Policy team have raised no objection to the proposed change of use when taking into account the increase in floor space which would result in an increase in number of trips to this unit.
101. It is acknowledged that surrounding residential occupiers have raised concerns over the use of the Ubers and taxis once the comedy club closes. It is noted that the Sea Containers Hotel is positioned to the north of the venue where taxis are utilised for the guests of the hotel and visitors to the establishment.
102. However, as assessed within the trip generation section of the submitted Transport Assessment there are numerous different modes of transport available to all users of the comedy club and the use of these Units as a comedy club would not have any significant impact on any individual route or service. Officers are therefore satisfied the proposed development is appropriate.

## Cycle parking

103. Policy P57 (Cycling) outlines the expected cycle parking requirements of certain developments. These are outlined below:

<b>Land Use</b>	<b>Cycle parking standards minimum: Long Stay</b>	<b>Cycle parking standards minimum: Visitor/ short stay</b>
Financial and professional services, restaurants, cafes, drinking establishment and hot food takeaways	1 space per 175 m <sup>2</sup> GEA. Minimum of 2 spaces.	1 space per 20 m <sup>2</sup> GEA. Minimum of 2 visitor spaces.

104. The combined units would have a of GEA of 513sq.m. The Transport Team have requested five Sheffield stands are to be provided for visitors to this property, within the private realm to the Upper Ground side of the Southbank Central site.
105. 446 Cycle parking spaces have been installed in accordance with the extant

planning permission. This provision includes 222 residential spaces, 164 spaces for staff and 60 spaces on-street for use by visitors.

106. The additional 5 Sheffield stands requested by the Transport Policy team would not be possible within the red line of the planning application and have further been proposed towards the Upper Ground side of the South Bank Central development, thus encouraging people exiting the venue to utilise this access route as opposed to north onto Stamford Street.
107. Taking into account the existing cycle parking within the public realm which was implemented on the overall South Bank Central development permission, that incorporated Units 6 and 7 into the assessment of cycle parking. It is considered that in this instance Officers will not be requesting the additional cycle parking via condition and are satisfied with the cycle parking provision within the public realm.

### Car parking

108. The proposed development is in PTAL 6b and therefore is a car free development. This is welcomed and in line with Policy P54 (Car Parking) of the Southwark Plan 2022.

### Servicing

109. The 2011 assessment (planning ref. 11/AP/1071) applied the following vehicle trip rates for delivery and servicing activity:
  - 0.2 vehicles per 100sqm GEA for office space
  - 0.59 vehicles per 100sqm GEA for retail space
  - 0.25 vehicles per 100sqm GEA for entertainment space; and
  - 0.07 vehicles per 100sqm for residential development.
110. The 2018 application (planning ref. 18/AP/2480) concluded that the change of use within Unit 7 would not affect the daily activity forecast (two vehicles per day).
111. The proposed change of use within Units 6 & 7 is not expected to alter the number, timing or duration of activity forecast compared to the use of the space for retail as originally envisaged under 11/AP/1071. A total of three vehicles per day is forecast across Units 6 & 7.
112. The South Bank Central site is serviced from area at ground floor level with access and egress via upper ground. An application to discharge Condition 16 of planning application 11/AP/1071 to provide a Delivery and Servicing Plan (DSMP) was granted consent in 2021 (ref: 12/AP/2353). This application outlines how the serving area would operate to maintain all servicing activities within the site.
113. As the proposed change in land-use will not affect the forecast activity, the layout of the servicing area or transfer routes to the units compared to the 2018

permission, the delivery and servicing facilities and access strategy remain unchanged. As such no conditions relating to delivery and servicing management plan is required as it has been discharged under the wider South Bank development scheme.

## **Energy and sustainability**

114. Policy P69 (Sustainability standards) of the Southwark Plan 2022 sets out a change of use of non-residential floorspace over 500sqm should achieve a BREEAM rating of “excellent” and should reduce the risk of overheating, taking into account climate change predictions over the life time of the building, in accordance with prioritised measures set out in the cooling hierarchy of the policy.
115. Given the internal floor space of this application of 500 sq.m, this would not apply for this application.

## **Flood risk and drainage**

116. The application site is located within Flood Zone 3, the applicant has submitted a Flood Risk assessment with the application which has been reviewed by the environment agency. They have raised no objection to the application. The proposed development would be a compatible ‘less vulnerable use’ therefore the proposal is in accordance with Policy P68 (Reducing Flood Risk) of the Southwark Plan (2022) and Policy S112 (Flood Risk Management) of the London Plan (2021).

## **Fire safety**

117. Policy D12 (A) of the London Plan (2021) requires that all development must submit a planning fire safety strategy. The fire safety strategy should address criteria outlined in Policy D12 (A).
118. A Fire Strategy Report has been provided by London Fire Associates dated 19 December 2022 (ref: TFC/19/10). The document has been prepared by Orrin Justin a member of the Institution of Fire Engineers and prepared for Big Belly Entertainment. The strategy includes means of giving warning and escape, internal fire spread, external fire spread, access and provision for firefighting and management.
119. A high level summary is provided on page 18 of the Fire Safety Strategy document which includes the following fire protection measures:
  - Evacuation strategy
  - Fire alarm system
  - Sprinkler system
  - Portable fire appliances
  - Emergency lighting
  - Fire doors
  - Dry riser main
  - Internal fire spread

120. Paragraph 3.12.9 of Policy D12 explains that Fire Statements should be produced by someone who is “third-party independent and suitably-qualified”. The council considers this to be a qualified engineer with relevant experience in fire safety, such as a chartered engineer registered with the Engineering Council by the Institution of Fire Engineers, or a suitably qualified and competent professional with the demonstrable experience to address the complexity of the design being proposed. This should be evidenced in the fire statement. The council accepts Fire Statements in good faith on that basis. The duty to identify fire risks and hazards in premises and to take appropriate action lies solely with the developer.
121. A Fire Statement or Reasonable Exemption Statement has been provided for this proposal. The statement covers matters required by planning policy. This is in no way a professional technical assessment of the fire risks presented by the development.
122. It is noted that neighbours have raised concerns in regards to the outdoor smoking area and the surrounding foliage within the immediate vicinity. It is considered unlikely that this will give rise to a fire standard.

### **Community engagement**

123. The applicant has confirmed that Big Belly initially met with the local residents representative on 10 May 2023 to discuss the proposals following submission of the planning and licensing applications. Following this, on 25 May 2023, Big Belly met with Local Councillors and 13 local residents to discuss the proposed licence, Dispersal Policy and Acoustic Report, listen to concerns and answer questions about the proposed operations.

### **Consultation responses from internal and divisional consultees**

124. Summarised below are the material planning considerations raised by internal and divisional consultees.
125. Environmental Protection Team:
- No objection subject to compliance condition in regards to noise and details of fumes, which is to be conditioned as recommended.

Officer Comment: Agreed

126. Transport Team:
- No objection, on the basis that 5 Sheffield stands are provided for visitors to this property, within the private realm to the Upper Ground side of the Southbank Central site. This is to mitigate an increase in trips to this unit due to the increase in floorspace and change of use.

Officer Comment: Noted but not added as a condition. Explanation provided in

paragraph 98.

## **Consultation responses from external consultees**

127. Summarised below are the material planning considerations raised by external consultees, along with the officer's response.

128. Environment Agency:

- No objection

Officer Comment: Noted

129. These matters are addressed comprehensively in the relevant preceding parts of this report.

## **Community impact statement / Equalities assessment**

130. The council must not act in a way which is incompatible with rights contained within the European Convention of Human Rights

131. The council has given due regard to the above needs and rights where relevant or engaged throughout the course of determining this application.

132. The Public Sector Equality Duty (PSED) contained in Section 149 (1) of the Equality Act 2010 imposes a duty on public authorities to have, in the exercise of their functions, due regard to three "needs" which are central to the aims of the Act:

1. The need to eliminate discrimination, harassment, victimisation and any other conduct prohibited by the Act
2. The need to advance equality of opportunity between persons sharing a relevant protected characteristic and persons who do not share it. This involves having due regard to the need to:
  - Remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic
  - Take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it
  - Encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low
3. The need to foster good relations between persons who share a relevant protected characteristic and those who do not share it. This involves having due regard, in particular, to the need to tackle prejudice and promote understanding.

133. The protected characteristics are: race, age, gender reassignment, pregnancy and maternity, disability, sexual orientation, religion or belief, sex, marriage and civil partnership.

### **Human rights implications**

134. This planning application engages certain human rights under the Human Rights Act 1998 (the HRA). The HRA prohibits unlawful interference by public bodies with conventions rights. The term 'engage' simply means that human rights may be affected or relevant.
135. This application has the legitimate aim of providing a comedy club. The rights potentially engaged by this application, including the right to a fair trial and the right to respect for private and family life are not considered to be unlawfully interfered with by this proposal.

### **Positive and proactive statement**

136. The council has published its development plan on its website together with advice about how applications are considered and the information that needs to be submitted to ensure timely consideration of an application. Applicants are advised that planning law requires applications to be determined in accordance with the development plan unless material considerations indicate otherwise.
137. The council provides a pre-application advice service that is available to all applicants in order to assist applicants in formulating proposals that are in accordance with the development plan and core strategy and submissions that are in accordance with the application requirements.

### **Positive and proactive engagement: summary table**

138.	Was the pre-application service used for this application?	YES
	If the pre-application service was used for this application, was the advice given followed?	YES
	Was the application validated promptly?	YES
	If necessary/appropriate, did the case officer seek amendments to the scheme to improve its prospects of achieving approval?	NO
	To help secure a timely decision, did the case officer submit their recommendation in advance the statutory determination date?	YES

### **CONCLUSION**

139. The proposal is not considered to materially harm the amenity of adjoining occupiers, the mezzanine floor will not impact on the external appearance of the building. The proposal will result in a vacant unit being occupied and providing a tourist attraction and providing additional footfall which will benefit other commercial occupiers in the area.

140. The proposed comedy club is located in a vibrant area of Southwark and in the wider context of London, positioned within the South Bank Strategic Cultural Quarter. It is acknowledged that there are residential units within the vicinity of the proposed comedy club and the objections raised by residents relate mostly to the potential for noise and disturbance. The environmental protection team are satisfied with the submitted environmental noise survey report which confirms there will be no effect on the surrounding residential accommodation.
141. Subject to conditions, the proposal is considered to be acceptable. It is therefore recommended that planning permission be granted.

Document Big Belly Dispersal Policy received 08/02/2023

### **Time limit for implementing this permission and the approved plans**

2. The development hereby permitted shall be begun before the end of three years from the date of this permission.

Reason:

As required by Section 91 of the Town and Country Planning Act 1990 as amended.

### **Permission is subject to the following Pre-Commencements Condition(s)**

3. Prior to the commencement of use, full particulars and details of a scheme for the extraction and ventilation of the commercial kitchen shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall include:

-Details of extraction rate and efflux velocity of extracted air

-Full details of grease, particle and odour abatement plant

-The location and orientation of the extraction ductwork and discharge terminal

-A management servicing plan for maintenance of the extraction system

-Once approved the scheme shall be implemented in full and permanently maintained thereafter.

Reason:

In order to ensure that any installed ventilation, ducting and ancillary equipment in the interests of amenity will not cause amenity impacts such as odour, fume or noise nuisance and will not detract from the appearance of the building in accordance with the Southwark Plan 2022 Policy P56 (Protection of amenity); Policy P65 (Improving air quality), and the National Planning Policy Framework 2023.

4. Before the use commences, an event management plan, shall be submitted to and approved in writing by the Local Planning Authority.

Reason:

To safeguard the amenities of neighbouring residential properties in accordance with Chapter 8 (Promoting healthy and safe communities) of the National Planning Policy Framework (2023); Policy D4 (Delivering good design) of the London Plan (2021); Policies P56 (Protection of amenity) and Policy P66 (Reducing noise pollution and enhancing soundscapes) of the Southwark Plan (2022).

**Permission is subject to the following Compliance Condition(s)**

5. A scheme of sound insulation shall be installed to ensure that the LFmax sound from amplified and non-amplified music and speech shall not exceed the lowest L90,-5min -1m from the facade of the nearby residential premises at all third octave bands between 63Hz and 8kHz.

Reason:

To ensure that the occupiers and users of the proposed development do not suffer a loss of amenity by reason of noise nuisance and other excess noise from activities associated with non-residential premises in accordance with the Southwark Plan 2022 Policy P56 (Protection of amenity); Policy P66 (Reducing noise pollution and enhancing soundscapes), and the National Planning Policy Framework 2023.

6. The external seating area as shown on 'Proposed plan no. OS22/BB002/02.1 - Ground Floor rev G' shall be closed for use by 10pm.

Reason:

To ensure that nearby occupiers do not suffer a loss of amenity by reason of noise nuisance from the use of the external area from excess noise from activities associated with the area in accordance with the Southwark Plan 2022 Policy P56 (Protection of amenity); Policy P66 (Reducing noise pollution and enhancing soundscapes), and the National Planning Policy Framework 2023.

7. The use hereby permitted shall not be carried on outside of the hours of: 08.00 and 00.00 on Sundays to Thursdays and 09.00 and 01.00 Fridays to Saturdays.

Reason:

To safeguard the amenities of neighbouring residential properties in accordance with Chapter 8 (Promoting healthy and safe communities) of the National Planning Policy Framework (2023); Policy D4 (Delivering good design) of the London Plan (2021); Policies P56 (Protection of amenity) and Policy P66 (Reducing noise pollution and enhancing soundscapes) of the Southwark Plan (2022).

## **Informatives**

- 1 Paragraph 3.12.9 of Policy D12 explains that Fire Statements should be produced by someone who is:

"third-party independent and suitably-qualified" The Council considers this to be a qualified engineer with relevant experience in fire safety, such as a chartered engineer registered with the Engineering Council by the Institution of Fire Engineers, or a suitably qualified and competent professional with the demonstrable experience to address the complexity of the design being proposed. This should be evidenced in the fire statement. The Council accepts Fire Statements in good faith on that basis. The duty to identify fire risks and hazards in premises and to take appropriate action lies solely with the developer.

The fire risk assessment/statement covers matters required by planning policy. This is in no way a professional technical assessment of the fire risks presented by the development. The legal responsibility and liability lies with the 'responsible person'. The responsible person being the person who prepares the fire risk assessment/statement not planning officers who make planning decisions.

### Relevant Planning Policies

#### National Planning Policy Framework (the Framework)

The revised National Planning Policy Framework ('NPPF') was published in September 2023 which sets out the national planning policy and how this needs to be applied. The NPPF focuses on sustainable development with three key objectives: economic, social and environmental.

Paragraph 218 states that the policies in the Framework are material considerations which should be taken into account in dealing with applications.

The relevant chapters from the Framework are:

- Chapter 7 Ensuring the vitality of town centres
- Chapter 12 Achieving well-designed places
- Chapter 14 Meeting the challenge of climate change, flooding and coastal change

#### The London Plan 2021

On 2 March 2021, the Mayor of London published the London Plan 2021. The spatial development strategy sets a strategic framework for planning in Greater London and forms part of the statutory Development Plan for Greater London. The relevant policies are:

- Policy SD1 Opportunity Areas
- Policy SD4 The Central Activities Zone (CAZ)
- Policy SD6 Town centres and high streets
- Policy D12 Fire safety
- Policy D14 Noise
- Policy E9 Retail, markets and hot food takeaways
- Policy HC6 Supporting the night-time economy
- Policy T4 Assessing and mitigating transport impacts
- Policy T5 Cycling

#### Southwark Plan 2022

The Southwark Plan 2022 was adopted on 23 February 2022. The plan provides strategic policies, development management policies, area visions and site allocations which set out the strategy for managing growth and development across the borough from 2019 to 2036. The relevant policies are:

- P13 Design of places
- P14 Design Quality
- P35 Town and local centres
- P37 Protected shopping frontages
- P38 Shops outside protected shopping frontages, town and local centres
- P46 Leisure, arts and culture

- P50 Highways impacts
- P53 Cycling
- P56 Protection of amenity
- P70 Energy
