## Guidance notes: please read carefully to help you when filling in this application form

### Q1: What would you like your idea to be called?

This should be about five words detailing the works requested and the location e.g. children's playground on Beehive Estate / lighting at Penrose Street / planting and greening at Trinity Park.

**Q2: What** is your idea? Please include a detailed description of the idea, and what issue your idea will solve or what you hope to achieve through your idea.

### This year, there are two types of available funding:

- CGS Capital funding for permanent, physical improvements
- CGS Revenue funding for small, one-off schemes that were previously ineligible for CGS Capital.

You do not have to say which funding you are applying for – all eligible ideas will be considered.

### What is **NOT** eligible for funding:

- CCTV ideas because this can have significant running costs.
- Internal works on housing property – e.g. security doors, door entry systems or internal redecorations in communal areas. Please note that outside areas open to the general public eg. play areas **ARE** eligible for funding.
- Works on schools where there is no access to the general public.
- Works on private property unless there is a long term guarantee of public access or a demonstrable public benefit.

**Q3: How** will your idea **benefit** the area? We would like to know how your idea will benefit the local area, residents and, if applicable, the wider community.

### Q4: Location of your idea

Please try to give as much information as possible about where your idea is to be located e.g. outside house number   x  , street name, park entrance where your idea is in a park.

### Q5: Cost – how much do you think your idea would cost?

- If you have an estimate of costs or quotes for your idea, please provide these.
- With most funding awards, council officers will be responsible for carrying out the work. After the closing date council officers will assess final costs. We will undertake a feasibility study and as a result may amend the costs that you have submitted.

**Q5A:** Grants can be awarded to organisations that are able to arrange the work themselves. Terms and conditions apply to grant awards and these are available on request.

### Q6: Please specify how your project is cleaner and / or greener and / or safer

- Ideas for cleaner: bin storage, schemes to deter fly tipping, designing out grotspots, more street sweeping in shopping areas, education campaign about dog fouling.
- Ideas for greener: tree and flower planting, community gardens, wildlife areas, gardening workshops for local people.
- Ideas for safer: lighting, fencing, bicycle storage to prevent theft, food handling training for small food retail premises, personal self defence courses.
- Or your project can be a mixture of all three: children's playgrounds (works to existing or new playgrounds), ball courts, picnic areas, hard and soft landscaping to improve the appearance of an area.

These are only ideas, any idea will be considered that makes your area cleaner greener and safer.

**Application form Q7–12 (continued)**

**Q7:** Have you approached any other organisations for **funding** for your proposed project? If yes, please provide details including whether or not you were successful.

**Q8:** Have you talked to any **council officer** about your idea and if so, who?

# What happens next?

## 1. When we receive your application, we will check:

- The idea is feasible and fits the CGS criteria
- How and when the idea might be implemented
- How much the idea might cost
- That ideas for capital projects are sustainable (this is not normally a requirement for ideas for revenue projects)

Sometimes, proposals may have to be adapted to meet local requirements (we will contact you if your idea needs any changes).

## 2. Your idea is then considered by your local ward councillors

It is your local elected councillors who decide which proposals receive funding and how much. Results will be announced at community council meetings. You will be sent details including time and place of the relevant community council meeting in case you would like to attend.

## 3. If your idea is funded, you will be notified by letter

Your idea is then implemented as follows:

- Council officers will consult with everyone affected by the idea.
- Southwark procurement guidelines will be used to commission the best company to deliver your idea.
- Average delivery time is 10 months. However, complex proposals may require extra consultation, planning permission or other consents or may be restricted by seasons or other unexpected circumstances such as discovery of contaminated land or archaeological remains.
- If we are unable to deliver your idea within two years, we will undertake a review and councillors may reallocate the funding to other ideas.
- You will be kept updated of the progress of your project throughout.
- If you are awarded a grant you will be notified by letter of the conditions of grant and how you will be paid the grant.

## 4. If your idea is not funded, you will be notified by letter.

For other possible sources of funding go to: [www.open4community.info/southwark](http://www.open4community.info/southwark)

## 5. Southwark Council are always looking for ideas for future local infrastructure projects, using money from new developments (S106 and CIL) to support growth by providing new publicly accessible local infrastructure improvements.
