RECOMMENDATIONS

Overview & Scrutiny Committee recommends:

South Dock Marina

1. That the cabinet member seeks legal advice to ensure that no breach in competition law has taken place as a result that this decision has been made.
2. That the cabinet member gives consideration to a short delay in the implementation of the decision, to allow time for further consultation on the bench marking exercise, to involve the berth holders with a possibility of reviewing the level of charges including looking at another model which covers costs and creates a surplus.
3. That the cabinet member publishes the impact assessment and provide the berth holders with all information that has been requested about the process of reaching this decision as appropriate.
4. That the cabinet member ensures that the appropriate officers from the housing department are involved in the reengagement.

Bulky Waste Collection

5. That the cabinet member closely monitors the impact of the decision on bulk waste collection charges on fly tipping levels in the borough and urgently reviews this decision should significant increase occur.
6. That the cabinet member give consideration and evidence within 3 months in regards to giving exemption or offering a number of collections free of charge to the poorest and most vulnerable residents.
