#### Details Of incident

On Wednesday the 16th March 2016 at 22:50 the premises were in the process of calling last orders. A patron whom had been drinking inside the venue apparently took exception to this and became aggressive.

This patron then left the premises and according to witnesses used his mobile phone to bang on the window causing it to smash.

Another patron has then left the premises and assaulted the victim causing him significant facial injuries consistent with grievous bodily harm.

Staff at the venue were unable to assist as to the identity of the suspect and the CCTV system was not working.

Police on scene have described the victim as extremely intoxicated and uncooperative. The victim was arrested for assault on the Ambulance staff and for the criminal damage to the window.

At this stage the identity of the suspect to the assault is unknown.

#### Concerns / Observations

My immediate concerns are with regard to levels of intoxication involved and the premises not promoting the prevention of crime and disorder licensing objective.

Although there is no requirement for CCTV as per the current licence, it appears that the premises does have CCTV but that it was not working at the time of the assault.

This incident has already involved the use of significant resources from the Police, London ambulance service and medical staff at the hospital.

The Victim was himself heavily intoxicated, he has vomited whilst inside the Ambulance, and assaulted a member of LAS staff by hitting them and spitting blood and vomit over their clothing.

#### Considerations

This is not the first incident involving high levels of intoxication of patrons drinking inside the venue. The premises have failed to promote the licensing objectives by not maintaining their CCTV system.

This incident in my opinion was entirely preventable had the premises stopped serving this male intoxicating liquor at an earlier stage.

His levels of intoxication were so high that he has no recollection of this incident and no memory of how his serious injuries were caused.

#### Recommendations

That the premises licence is suspended pending a full review.

### Notes for guidance

1. A certificate of the kind mentioned in the form must accompany the application in order for it to be valid under the terms of the Licensing Act 2003. The certificate must explicitly state the senior officer's opinion that the premises in question are associated with serious crime, serious disorder or both.  
Serious crime is defined by reference to section 81 of the Regulation of Investigatory Powers Act 2000. In summary, it means:
  - conduct that amounts to one or more criminal offences for which a person who has attained the age of eighteen and has no previous convictions could reasonably be expected to be sentenced to imprisonment for a term of three years or more; or
  - conduct that amounts to one or more criminal offences and involves the use of violence, results in substantial financial gain or is conduct by a large number of persons in pursuit of a common purpose.Serious disorder is not defined in legislation, and so bears its ordinary English meaning.
2. Briefly describe the circumstances giving rise to the opinion that the above premises are associated with serious crime, serious disorder, or both.

**I am giving this certificate because I am of the opinion that other procedures under the Licensing Act are inappropriate in this case because:**

(Give a brief description of why other procedures such as a standard review process are thought to be inappropriate, e.g. the degree of seriousness of the crime and/or disorder, the past history of compliance in relation to the premises concerned)

On Wednesday the 16th March 2016 at 22:50 the premises were in the process of calling last orders. A patron whom had been drinking inside the venue apparently took exception to this and became aggressive.

This patron then left the premises and according to witnesses used his mobile phone to bang on the window causing it to smash.

Another patron has then left the premises and assaulted the victim causing him significant facial injuries consistent with grievous bodily harm.

Staff at the venue were unable to assist as to the identity of the suspect and the CCTV system was not working.

Police on scene have described the victim as extremely intoxicated and uncooperative. The victim was arrested for the assault on Ambulance staff and for the criminal damage to the window.

At this stage the identity of the suspect to the assault is unknown.

I have considered the use of other procedures under the licensing act including a standard review. However because of the nature of the serious injuries to the victim and the very high levels of intoxication involved, I am of the opinion the this matter should be dealt with expeditiously.

There have been at least two other serious incidents at the premises in the last six months that have involved high levels of intoxication, I recommend the immediate suspension of the premises.
