Ward(s) or groups affected:		All	
From:		Director of Law and Democracy	

RECOMMENDATION

1. That the audit, governance and standards committee notes this report.

BACKGROUND INFORMATION

2. This report provides details of the whistleblowing referrals received by the council between October 2016 and September 2017 and an update on the outcomes of referrals received in the previous 3 years. When considering the whistleblowing report for 2015-16 at its meeting on 16 November 2016, the committee decided that future annual reports on whistleblowing should be produced in the style of the London Borough of Camden, as detailed in the report for that meeting. This referred to the fact that in Camden's report each allegation was described and the outcome or details of the ongoing investigation were then provided. The details of the whistleblowing referrals for this year are provided in this style in paragraph 14 below.
3. This report has taken a generic definition of whistleblowing to include not only those referrals from staff (and subject to the Public Interest Disclosure Act 1998 which provides protection for staff and others when making whistleblowing disclosures) but also from members of the public and councillors. The council also includes "whistleblowing" where the source is anonymous. The council's current whistleblowing policy was approved in September 2016 and is published on the council's website and on The Source. It is currently in the process of being reviewed.
4. What constitutes a whistleblowing issue is defined in the policy:
 - That a crime has been committed, is being committed, or is likely to be committed.
 - That a person has failed, is failing, or is likely to fail to comply with any legal obligation to which he is subject.
 - That a miscarriage of justice has occurred, is occurring, or is likely to occur.
 - That the health and safety of an individual has been, is being, or is likely to be endangered.
 - That the environment has been, is being or likely to be damaged.
 - That information tending to show any of the above matters has been concealed or is likely to be deliberately concealed.
5. Most local authorities receive a small number of referrals and Southwark is no exception. Work in recent years to increase awareness of the policy amongst

staff has not resulted in a marked increase in referrals.

6. This report has to strike a balance between the need for openness and transparency, and the requirement not to undermine the efficacy of the policy by deterring people from using it. It is important for the council to avoid the possible identification of the whistleblower and/or jeopardising any ongoing investigations.

KEY ISSUES FOR CONSIDERATION

7. When cases are first received, they are assessed to see if they should be investigated as whistleblowing cases, or more properly dealt with under other procedures. These include
 - a. Cases which should be dealt with under the council's fraud response plan
 - b. Cases which are more properly HR matters
 - c. Cases which are not the council's responsibility and should be referred to external bodies.
8. The number of referrals received in each period in the last year and then in the previous 3 years and the results of the initial assessment are shown in the table below:

Period from	Period to	Total Referrals in period	Fraud response plan	HR	External bodies	Whistle-blowing
01/10/2016	30/09/2017	6	2	2 ¹	0	2
01/10/2015	30/09/2016	11	1	4	2	4
01/10/2014	30/09/2015	11	5	1	0	5
01/10/2013	30/09/2014	7	1	1	1	4

9. It can be seen that two cases have been received since October 2016 which have been initially identified as 'whistleblowing' cases.
10. The referrals for the case identified as whistleblowing cases were received from the following sources:

01/10/2013	30/09/2014	4	0	0	0	4

01/10/2014	30/09/2015	1	1		1	1	1
01/10/2013	30/09/2014		2	2			

13. The outcomes of the investigations are shown in the table below (some of these were completed subsequent to the year within which they were commenced):

Period from	Period to	Whistle-blowing cases	Nothing wrong	Dept. for action	Recategorised as a non-whistleblowing matter	Outstanding at the end of the period
01/10/2016	30/09/2017	1	0	0	1	1
01/10/2015	30/09/2016	4	2	1	0	4
01/10/2014	30/09/2015	5	2	2	1	3
01/10/2013	30/09/2014	4	4	0	0	1

14. Further details of the referral made since October 2016 are as follows:

Number	Description of allegation	Outcome
WB2016-08	Alleging long history of bad practices and corruption in a part of the council	Now being dealt with as a fraud/HR investigation
WB2017-04	Complaints of bullying, harassment, discrimination and fraud.	Under investigation

15. The committee will see that there are a small number of whistleblowing complaints each year and very few have resulted in further action being taken.

Policy implications

16. As stated in its whistleblowing policy, the council is committed to achieving the highest possible standards of service and ethical standards in public life. The policy enables council employees and others to raise concerns about services, contracts or other matters.

17. The policy also supports the council's Fairer Future principles of treating residents as if they are a valued member of the family, being open, honest and accountable, and spending money as if it were from our own pocket.

Community impact statement

18. This report is not considered to contain proposals that would have a significant impact on any particular community or group.

³ Two of these related to grant funding and one to a highways team.

Resource implications

19. There are no direct resource implications in this report.
